10.1 REQUIREMENTS The Company shall require a security deposit from any present or prospective Customer in accordance with Paragraph 5.5 and 18.1 of this Tariff to guarantee payment of bills, and from any present Customer who during the last 12 consecutive months has on more than one occasion paid its utility bill after becoming delinquent. The amount of the deposit shall not exceed one-sixth of the estimated annual billings for similar Customers. However, the deposit requirement may, at the option of the Company be based on annual usage experienced at the particular address with application of one-sixth of the annual amount as determined as the required deposit. If actual use is at least twice the amount of the estimated billings, a new deposit requirement may be calculated and an additional deposit may be required within two days. The deposit shall be refunded to residential Customers when the Customer has paid 12 consecutive bills without having service disconnected for non-payment, and without having one or more occasion in which a bill was delinquent or a payment was returned, and the Customer is not currently delinquent.

10.2 RECEIPTS The Company shall maintain such records as may be necessary to permit any Customer to receive any deposit return to which he or she is entitled without presentation of the receipt. A record of any unclaimed deposits shall be maintained by the Company for at

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9473

least 4 years.

10.3 INTEREST The Company shall pay interest on all security deposits for the time held at the rate as set by the Public Utility Commission annually except when: a) The deposit is held 30 days or less; b) Notice is sent to the Customer's last known address that the deposit is no longer required; c) The service to which the deposit relates has been discontinued; or d) All or any part of the deposit has been applied to a delinquent account. Interest on deposits earned during the preceding year shall be paid to the Customer during the first quarter of each calendar year. Payment shall be made either by check or as a credit on the monthly bill at the Company's option.

10.4 RETURN OF DEPOSITS Deposits on residential accounts returned to the Customer in accordance with Paragraph 10.1 above shall be applied in the first calendar quarter following the month in which the good payment record is established. Whenever the deposit of any Customer is returned to the Customer, the Company shall pay all previously unpaid interest with the payment.

10.5 ACCEPTABLE FORMS OF DEPOSIT Any one of the following forms of credit security may be accepted from Customers and Applicants for service: a) A cash deposit of as much as one-sixth (1/6) the estimated annual billings for service requested; but no less than the minimum deposit set forth in Section 21.2; b) A nontransferable, irrevocable letter of credit from an established financial institution, payable for as much as one-sixth (1/6) the estimated annual billings for services requested and, which can be drawn on for a minimum of two (2) years; but no less than the minimum deposit set forth in Section 21.2; or c) A surety bond issued by a reputable insurance company which can be drawn on for a minimum of two years.

GAS MEASUREMENT

11.1 PRESSURE The standard serving and measurement pressure shall be 4 ounces (0.25 psig) or 7 Water Column above the standard atmospheric pressure in the area served. The atmospheric pressure and standard serving pressure determined to be the average in the cities and environs of the Central Texas Service Area are listed below.

Cities and their Environs Atmospheric Pressure PSIA Standard Serving Pressure PSIA

Austin	14.40	14.65
Bee Cave	14.40	14.65
Buda	14.40	14.65

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 9473
-----------------	---------------------

The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under a load condition of approximately 10 percent of meter capacity. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted.

11.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one hundred cubic feet (Ccf). A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at the standard serving pressure and at a temperature of 60 degrees Fahrenheit. Whenever the Company delivers gas at any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation.

11.3 BILLING UNIT Unless otherwise specified on the rate schedules or by special agreement, Customers shall be billed on the basis of Ccf measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. Whenever the meter reads directly in hundreds or smaller units, a reading of one-half a billing unit or more (500 Cf or more) shall be considered a whole billing unit. Readings of less than one-half a unit shall be disregarded for billing. In those cases in which heating value is used as the billing unit, the calculation of the heating value in BTU's shall be made in accordance with Paragraph 11.7 of this Tariff.

11.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods. a) The Company may install pressure or pressure and temperature compensating measurement equipment whenever the cost of this equipment is justified by the volumes served. Such measurements shall be equipped with devices which mechanically or electronically correct the actual measured volumes in accordance with Boyle's Law. Variations in actual atmospheric pressure shall not be considered.

b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 11.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units.

11.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing unit or may be furnished with devices designed to correct the actual volumes to the standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correcting devices.

a) Pressure correction shall be made in accordance with Boyle's Law. Calculations based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 9473
-----------------	---------------------

serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections.

b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law.

c) Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. The specific gravity of the gas shall be assumed to be the value last indicated by test or reported by the upstream pipeline supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed prospectively to reflect the new gravity.

11.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, Orifice Metering of Natural Gas (1992), and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering:

a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3.

b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter charge period while the gas is flowing shall be used in the computations of volumes during the period.

c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure.

d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance, impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.

11.7 BTU MEASUREMENT The heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period, expressed in the same units and measured at, or corrected to 14.73 psia and 60 degrees Fahrenheit, and multiplying by the factor necessary to convert the heating value/measurement units to the billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods:

a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type;

b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type; i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and

TARIFF CODE: DS RRC TARIFF NO: 9473

calculating the total heating value from the sum of the constituents.

11.8 CUSTOMER-OWNED METERS A Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for Company's billing purposes.

METER READING AND ACCURACY

12.1 METERING READING Meters shall be read as nearly as may be practical on the same day of each calendar month. Whenever a reading of a general service meter is missed or the meter is not registering, the Company shall estimate the amount of gas used during the period. Such estimates shall be based on: a) That Customer's use of gas during the same period(s) in previous years; b) That Customer's normal use of gas during preceding months; or c) The use of a similar Customer for the period missed. If practical, an actual reading shall be made after two consecutive estimated bills. All meters in Special Service shall be read at least once a month. Whenever such a meter fails to register or is misread, the amount of gas used during the preceding period shall be estimated using data applicable to that Special Service Customer only. The Company will make a special reading of any meter upon request and payment of a service charge will be made in accordance with Section 21.1. The time of the special reading shall be agreed upon with the Customer so that he or she may be present. If the original reading was in error (subject to consumption between the two readings) the service charge will be refunded to the Customer.

12.2 ACCESS TO THE METER The Customer shall permit the Company safe access to the meter at all reasonable times for reading thereof and at all reasonable times for reading, maintenance, testing, or replacement of the meter. Upon the Customer's failure or refusal to grant such access, the Company may issue a written notice to the Customer, advising them the situation must be corrected and access granted within 10 days and that failure to do so can result in the disconnection of service and removal of the meter. Additional fees may apply and will be assessed to such Customer as specified in Section 21.1.

12.3 METER ACCURACY The accuracy limit of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set.

12.4 METER TESTING AT CUSTOMER REQUEST The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Requests for such tests shall be made in writing and the Company shall have 10 days after receipt of the request to remove the meter for testing or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. If the test is to be performed after the period of presumed accuracy listed by the manufacturer or if the test is to be performed for a residential or small commercial Customer for whom no such test have been performed within the previous four (4) years for the same Customer at the same location, no service charge will be assessed. Otherwise, the Customer shall pay a service charge for such test as specified in Section 21.1.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9473

12.5 BILLING ADJUSTMENTS - GENERAL SERVICE Whenever it has been determined that a meter reading and the subsequent billing has been in error, the Company shall recalculate the affected bill(s). If the date and amount of the error can be definitely fixed, the Company shall refund or may bill the affected Customer for the entire difference between the actual bills rendered and the amount which should have been billed. If a meter is found to have registered inaccurately (such as a meter found to be registering fast or slow), the Company shall refund or bill an amount equal to the difference between the actual bills rendered and the amount which would have been billed if the meter had been 100 percent accurate during the time since the last previous test or the last six months, whichever is less. If the meter is found not to have registered, then the rebilling shall be limited to a three-month period previous to the time the meter is found not to be registering. The determination of amounts used but not metered is to be based on consumption during other like periods by the same Customer at the same location, when available, and on consumption under similar conditions at the same location or of other similarly situated Customers, when not available. Undercharges billed to the Customer may be repaid in a series of equal installments over a reasonable period of time. This Paragraph shall not apply to meter errors found as a result of routine testing in the Company's or its designee's meter shop.

12.6 PROVISIONS FOR SPECIAL SERVICE The following modifications shall apply to the provisions of this Section for all Special Service rate schedules and service under special written agreements: a) Orifice and turbine meters shall be tested at least four times per year at intervals not to exceed 120 days. Should the Customer so elect, tests shall be made in the presence of his or her representative. b) Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill (either up or down) shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate: i) by using registration of Customer's check meter(s); ii) by correcting the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or iii) by estimating the quantity of gas delivered by comparison with deliveries during the preceding period under similar conditions when accurate registration was obtained.

12.7 PERIODIC TESTS The Company shall make periodic tests of meters, associated devices and instruments to assure their accuracy. Such tests shall be scheduled within the calendar year or earlier, when the interval is stated in years; or within the calendar month, or earlier when the interval is stated in months. The basic periodic test interval shall be no longer than provided for in the manufacturer's recommendations, a copy of which is available upon request.

BILLING AND PAYMENT OF BILLS

13.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full on or before the due date, which shall be stated on the face of the bill and shall not be earlier than fifteen (15) days after the bill is mailed (including electronic mail). Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid thereon or, when the customer has elected to receive billings via electronic mail, when the electronic document has been sent. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of its authorized pay stations. If not paid in full by the date due, the bill shall be considered delinquent.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 9473
-----------------	---------------------

13.2 BILLING PERIOD Bills shall be rendered at regular monthly intervals unless otherwise authorized or unless service is rendered for a period of less than a month.

13.3 ESTIMATED BILLS In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption determined in accordance with Paragraph 12.1 of this Tariff. The next bill based on actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for the actual consumption.

13.4 DISPUTED BILLS

a) In the event of a dispute between the Customer and the Company regarding the bill, the Company will make such investigation as is required by the particular case and report the results to the Customer. If the Customer wishes to obtain the benefits of Paragraph b) of this subsection, notification of the dispute must be given to the Company prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the Company shall inform the Customer of the complaint procedures of the appropriate regulatory authority.

b) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing period at current rates until the earlier of the following: resolution of the dispute or the expiration of the 60 day period beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period during the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar Customers and under similar conditions.

13.5 PAYMENT RE-PROCESSING FEE The Company may charge or add to the Customer's account and collect a fee (as provided in Section 21.1 d) to recover costs for reprocessing any payment, including paper check, electronic transfer payment, and debit or credit card payment, that has been rejected or returned to the Company by the bank for any reason other than bank error.

13.6 E-BILL The Customer may at its option receive bills and notices via electronic mail, thereby eliminating paper bills and notices.

13.7 ALTERNATIVE PAYMENT OPTIONS The Company may, at its option and discretion, contract with vendors to provide various payment options to Customers for paying their bills for gas service and to collect such payments. These alternative payment options may be performed electronically, telephonically, and/or in person and may include payment by automatic bank draft, credit card, check or cash.

QUALITY OF GAS

14.1 HEATING VALUE Gas delivered to Consumers in all service areas shall have an average gross heating value of at least 900 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month in which the reduction occurs is equal to or greater than the standard and that the burning characteristics of the gas are not significantly altered.

14.2 CHARACTER OF GAS All gas furnished to Consumers in the Central Texas Service Area shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9473

quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered.

14.3 ODORIZATION All gas shall be odorized with a chemical odorant at a sufficient rate to make it readily detectable. Gas containing enough natural odorant as prescribed by the Railroad Commission of Texas need not be odorized unless the odorant level drops below the acceptable level.

CTX1 c

TEXAS GAS SERVICE COMPANY

Rules of Service - Central Texas Service Area (Continued)

SERVICE WORK

15.1 CERTAIN SERVICES PROVIDED AT NO CHARGE

When a Customer or Consumer smells or detects natural gas and contacts the Company, the Company shall provide to the Consumer at no-charge to the Customer or Consumer leakage and pressure investigations to ensure that unsafe conditions do not exist. Where leakage or unsafe conditions are determined by the Company to be in the Customer's or Consumer's piping or equipment, the Customer or Consumer will be so advised and service will be discontinued until such time that all leakage and other unsafe conditions have been properly corrected by the Customer or Consumer. In addition, when service is initiated, gas air adjustments on a standard domestic and commercial gas range and water heater will be made. Any other work performed on any Consumer's appliances or house piping will be on a charge basis.

15.2 OTHER SERVICE

The Company may have personnel available for and may undertake other service work on the Consumer's premises on a charge basis, as time permits. Charges shall be made at the Company's standard rate in the Service Area and such work and the associated revenues and costs shall be considered non-utility.

15.3 EXPEDITED SERVICE

A Customer may request expedited service initiation. (See Section 21 - Fees and Deposits).

15.4 NO ACCESS

Charged to any Customer who requests a specific time for service, if the Company agrees to the time, sends appropriate personnel to the appointed location and the Customer is not present to allow access to the premises. (See Section 21 - Fees and Deposits)

15.5 MATERIALS OR EQUIPMENT FURNISHED BY THE COMPANY

The Company shall furnish and install the service pipe, and equipment related thereto, including meter valve and service regulator, from the Company's main to the Customer's meter. Although affixed to or buried in the Customer's property, the entire service line and meter set shall become the property of the Company and shall be operated and maintained by the Company.

15.6 MATERIALS OR EQUIPMENT FURNISHED BY THE APPLICANT

The Applicant shall furnish and install at his or her expense all piping, conversions of existing equipment, and appliances required to conduct and utilize the gas furnished by the Company. The adequacy, safety, and compliance with applicable codes and ordinances of piping, conversion equipment and appliances shall remain the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 9473
-----------------	---------------------

responsibility to furnish and install the facilities required by this section.

15.7 CODES AND ORDINANCES

All piping, installations, and conversion equipment owned by the Applicant shall comply with all applicable federal, state, and city ordinances and shall be properly designed for the pressures and volumes to be handled. Where there are no appropriate ordinances, the applicable provisions of the National Fuels Gas Code 54; ANSI Z223.1, and any amendments thereto shall apply.

15.8 INSPECTIONS AND TESTS

The Company shall have the right to inspect new installations and/or conversions of appliances and equipment prior to initiation of service and to require any test or repair of the Applicant's facilities it deems necessary.

15.9 REFUSAL TO SERVE

The Company shall refuse service to any Applicant who refuses Company or Company's representatives access to or entry for observation or whose facilities do not comply with the applicable provision of this Tariff. The right to refuse service shall terminate upon satisfactory correction of the condition that was the cause for refusal. Initiation of service, however, shall not be considered acceptance or approval by the Company of such facilities.

MAINTENANCE OF EQUIPMENT

16.1 MAINTENANCE BY COMPANY

The Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter the Customer's premises at any reasonable time, in the event of an emergency at any time, to read the meter or make any necessary inspection, repair, adjustment, or replacement of any property owned by the Company.

16.2 MAINTENANCE BY THE CUSTOMER

The Customer shall maintain all facilities owned by him or her and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Customer shall remove, repair or adjust any Customer-owned property which may pose a threat of damage to the property of the Company. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Customer or Consumer or the Customer's or Consumer's representatives, the Customer will reimburse the Company for all costs of repairing or replacing the damaged property, including any costs of collection such as attorney's fees.

16.3 LEAKS - RIGHT TO DISCONNECT FOR

The Customer or Consumer shall give the Company notice of any leaking or escaping gas as soon as it is detected. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If the Company's test indicates leakage in the Customer's or Consumer's facilities, the Company shall have the right to disconnect service immediately until the Customer or Consumer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by the Company. The Company shall have the right to disconnect service immediately if any of the Customer's or Consumer's

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS	RRC TARIFF NO: 9473
-----------------	---------------------

appliances or equipment is, in the Company's opinion, operating in an unsafe manner.

16.4 FACILITIES CURRENTLY OWNED BY THE CUSTOMER

Any facilities downstream of the meter installed by the Customer shall remain the property and responsibility of the Customer. Whenever the condition of the facility is such that replacement is required, the work shall be done by the Company pursuant to the provisions of subsection 16.7 of this Tariff. New facilities will continue to be installed pursuant to subsections 7.1 and 7.2 of this Tariff.

16.5 RESPONSIBILITY

Nothing in this Section shall make the Company responsible for the safe upkeep of any Customer or Consumer owned facilities.

16.6 RELOCATION OF COMPANY FACILITIES

- a) A charge of not more than actual cost may be made for relocating a meter or other Company equipment on the same premises at the request of the Customer or Consumer.
- b) If the Company shall for its own convenience and not for the safety or convenience of the Customer, change the point of delivery or change the location of its equipment on private property, the Company shall bear the expense.

16.7 REPLACEMENT OF CUSTOMER-OWNED PIPING

- a) When repair or replacement of Customer-owned piping becomes necessary due to deterioration of the line, damage to the line (except when caused by Customer or Customer's agent), relocation of the Company's distribution main, or for other safety reasons, the Company will relocate Customer's meter to the exterior of the building wall, as close as possible to the existing stub out (where piping exits the structure), and will replace the service piping up to the stub out. The Company will own and be responsible for all service piping from the main line to the meter, and Customer will own and be responsible for all piping from the meter to the building.
- b) The Customer may be billed for all costs of the meter relocate and pipeline replacement.
- c) In the absence of any provision contained in a deed of dedication authorizing the Company to install the service piping and meter on the Customer's premises, the owner of the premises shall execute an agreement establishing the meter location, authorizing the Company to install or replace the line, and granting Company access for such work. If the Customer or owner of the premises refuses to give Company personnel or Company authorized personnel appropriate access to the property for purposes of installation, the Customer will retain responsibility for his/her facilities and shall bear the expense of any replacement or repairs.

DISCONTINUANCE OF SERVICE

17.1 BY CUSTOMER The Customer shall be responsible for all charges for gas service from the time Customer gives notice of the intention to discontinue service until the Company has read the meter, or for 5 working days from the date of such notice, whichever is the shorter period of time.

17.2 FOR NON-PAYMENT The Company shall have the right to discontinue service to any Customer for non-payment of bills or other charges authorized by this Tariff or the applicable rate schedules, following the due date specified in Section 13.1 hereof. Before discontinuing service for non-payment, the Company shall mail a separate written notice to the Customer in English and Spanish with the words TERMINATION NOTICE or similar language prominently displayed. This notice shall include a telephone number to contact the Company, the amount of

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION

the delinquent bill and the date by which the bill must be paid to avoid disconnection, and a statement of how to contact the Company in case of illness or other emergency. If a representative of the Company makes an attempt to collect a past due amount, a collection fee per visit shall be assessed to such Customers as specified in Section 21.1.

No Customer shall be disconnected for non-payment:

- a) Within a period of 5 working days after mailing of the notice or the day following the date indicated in the notice, whichever is the later time.
- b) After full payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel of receipt of the payment.
- c) Before 7:00 AM or after 7:00 PM on any day or on Friday, Saturday, Sunday, holiday, or day before a holiday unless Company personnel are available the following day for the purpose of reconnecting service.
- d) If within 5 working days after the date of delinquency of the bill the Company receives a written request from the Customer not to discontinue service for health reasons and the request is accompanied by a written statement from a licensed physician. Upon receipt of such request, the Company will suspend termination of service for a period up to 20 days. The Customer shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings.

17.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any Consumer for any of the following reasons:

- a) Without notice for the presence of what the Company considers to be an unsafe condition on the Consumer's premises or if an emergency exists;
- b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with knowledge or negligence of the Consumer;
- c) Within 5 working days after written notice if the Consumer uses his or her equipment in any way which causes or creates a potential for adverse effect on the Company's service to others;
- d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class A or B;
- e) 5 working days after written notice from the Company for refusal to grant Company personnel or its designee's access to the Consumer's premises at any reasonable time for any lawful purpose;
- f) 5 working days after written notice from the Company for use, sale or delivery of gas in violation of the provisions of this Tariff or violation of any applicable laws, orders or ordinances, provided that disconnection may be made without notice if the violation creates an unsafe condition;
- g) For Customers on transportation service, the Company may discontinue service upon request of a Qualified Supplier, provided however, that the Qualified Supplier represents to the Company that notice has been given to the Customer by the Qualified Supplier of delinquency in payment at least 5 working days prior to Qualified Supplier's request for disconnection, and provided that Supplier agrees to indemnify and hold harmless the Company from any potential resulting liability;
- h) If a Customer fails to uphold the terms of an individual installment agreement or contract; or Within 5 working days after written or electronic notice, for Consumers enrolled in e-bill, that any payment including paper check, electronic transfer payment, and debit or credit card payment, that has been rejected or returned to the Company by the bank.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9473

17.4 RIGHT OF ENTRY The Company shall have the right to enter the Consumer's premises at any reasonable time to shut off service in accordance with this Tariff and to remove its meter and any other Company property. If the Company is required to take legal action to enforce its rights hereunder, the Company shall be entitled to recover all of its necessary expenses and fees including, but not limited to attorneys' fees, police escort fees and/or the cost to relocate the meter at the Customer's expense.

17.5 ABANDONMENT OF SERVICE Unless requested by the Customer, service shall not be abandoned (permanent disconnection of any Customer other than a temporary Customer) without permission of the Regulatory Authority. Failure of the Customer to request reinstatement of service within a reasonable period of time after disconnection shall be considered a request for permanent discontinuance of service.

RE-ESTABLISHMENT OF SERVICE

18.1 FOR NON-PAYMENT When service has been disconnected for non-payment, the Company shall require that the Customer pay the total amount of his account then due plus the prescribed reconnect fee or make satisfactory arrangements for that payment before service is reinstated. In addition, the Company shall require that the Customer reestablish satisfactory credit in accordance with Section 5 of this Tariff.

18.2 FOR OTHER REASONS If disconnection has been made by the Company for reasons other than non-payment, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a reconnect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment.

18.3 RECONNECTION The Company shall restore service as soon as feasible after receipt of a reconnection request and compliance with the requirements of this Section. The Company shall charge a non-refundable reconnection fee for all Customers in accordance with Section 21.1. The restoration of service will be accomplished as expeditiously as scheduling permits. If the Customer requests service after hours or earlier than reconnection would otherwise be scheduled, the Company shall offer expedited service in accordance with Section 21.1. Customer shall be advised that an additional fee will be charged and must agree to pay such charge. In the event the Company is required to make more than one call because the reason for disconnection has not been properly corrected, the reconnect fee may be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operation. See Section 21.1 for fees.

NOTICE

19.1 GENERAL Notice is required for all matters in this Tariff other than billing and payment of bills, which shall be deemed to have been given by the Customer when a letter with postage prepaid has been deposited in the United States Mail addressed to the Company at the office specified on the front sheet of this Tariff, and to the Customer when addressed to Customer at his or her last known service address, or to either party when directly communicated to the other party in person or by telephone.

AVERAGE BILL CALCULATION PLAN

20.1 DESCRIPTION-RESIDENTIAL Any residential Customer may elect to participate in the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9473

Company's Average Bill Calculation Plan (ABC Plan), or as such ABC Plan may be modified from time to time for payment of charges for gas service. In the event the Company modifies the ABC Plan, the Company shall notify individual Customers of those changes when the Customer requests enrollment. In general, the conditions under which a Customer may participate in the ABC Plan are set forth below:

- a) The Company reserves the right to adjust the monthly ABC Plan payments of any Customer at any time for changes in conditions or rates;
- b) The Company shall advise each Customer participating in the ABC Plan of the monthly ABC Plan payment to be paid by the Customer. Each participating Customer will receive a regular monthly gas bill that reflects actual consumption and the charges for that billing month and the amount of any debit or credit balance before the payment of that month's ABC Plan payment. The Customer shall continue to pay the monthly ABC Plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill;
- c) In addition to the monthly ABC Plan payment any other charges incurred by the Customer shall be paid monthly when due;
- d) Interest shall neither be charged to the Customer on accrued on ABC Plan debit balances nor paid by the Company on accrued ABC Plan credit balances;
- e) Any amount due to the Customer or the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the ABC Plan;
- f) Any Customer's participation in the ABC Plan may be discontinued by the Company if the monthly plan payment has not been paid on or before the due date of the monthly payment;
- g) If any Customer in the ABC Plan shall cease, for any reason, to participate in the ABC Plan, then the Company may deny that Customer's reentry into the ABC Plan until the following August.

FEES AND DEPOSITS

21.1 FEES All fees and charges shall be adjusted by taxes and fees (including franchise fees) where applicable.

a) Initiation of Service

- i) Connect (Section 5.4) \$35.00

A connection fee shall be charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when a meter is set and/or gas turned on.

- ii) Read-In (Section 5.4) \$10.00

A read-in fee shall be charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when only a meter reading is required.

- iii) Special Handling & Expedited Service (Section 5.4 and 15.3)

In addition to initiation of service fee above, a fee may be charged to any Applicant whose request to initiate service cannot be worked during normal business hours or requires special handling. Applicant must be advised that an additional fee will be charged and must agree to pay such charge.

These charges include:

- 1) Special Handling \$6.00

The Company may, at Applicant or Customer's request, provide special handling in order to meet the Applicant or Customer's requirements. Special handling does not include calling the Applicant/Customer in advance or A.M. or P.M. scheduling

2) Expedited Service and Overtime Rate \$67.50

The Applicant or Customer's request for expedited service may be scheduled at any time to fit the Company's work schedule, and an Expedited Service charge shall be collected. The Company shall not be obligated to provide Expedited Service when the personnel and resources to do so are not reasonably available.

b) Services - Others As stated below Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying Company, the Applicant may be requested to reimburse the Company for such charge.

c) Customer Requested Meter Test (Section 12.4)

Positive Displacement Charge

Up to 1500 cubic feet per hour \$80.00

Over 1500 cubic feet per hour \$100.00

Orifice Meters

All sizes \$100.00

d) Payment Re-processing Fee (Section 13.5) \$25.00

e) Collection Fee (Section 17.2) \$12.00

A Collection Fee shall be charged to any Customer whose failure to respond to a termination notice results in the dispatch of a Company representative to attempt collection of payment from Customer.

f) Reconnect Fees (Section 18.3) \$35.00

A reconnect fee shall be charged to any Customer whose service is terminated and then re-initiated unless terminated in error by the Company. This fee is the same as the Standard Initiation Fee charged for new service.

(i) Regular Labor and After Hours Rates

\$45.00 (Regular) \$67.50 (After Hours)

Charge for non-routine services including but not limited to repeat high bill investigations and building meter loops.

g) Special Read (Section 12.1) \$10.00

A special read fee shall be charged for customer requested reading of a meter of which estimated billing has been made. This is not in connection with Section 12.4.

h) Meter Exchange (Customer Request) (Section 16.6) \$100.00 without ERT
 \$150.00 with ERT

A fee will be charged for customers requested meter exchanges when a meter working properly or done for the Customers convenience.

i) Meter Tampering - Residential (Section 16.2) \$100.00

A fee will be charged to Customers who knowingly tamper with Company property (i.e. broken meter locks, broken stop cocks, tampered meter dials, and broken meter blind seals).

j) Unauthorized Consumption (Section 16.2) \$20 plus expenses

Charges for the replacement of an illegally broken meter seal or locking device to the

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-CTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Central Texas Service Area COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a</p>

result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s).

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 9% per annum

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9475

RATE SCHEDULESCHEDULE IDDESCRIPTION

compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3.

DESCRIPTION

6. An affidavit signed by an officer of the utility stating that neither TGS nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

I. QUARTERLY IMBALANCE REPORTS

The Company shall file a Quarterly Report with the Regulatory Authority that provides information concerning imbalances created by the Company's transportation customers. The report is due 45 days after the close of each calendar quarter and shall contain the following information:

1. Monthly imbalances by supplier and the system total,
2. Cumulative imbalance by supplier and the system total,
3. Amount of cash transactions between the Company and gas supplier for each month, and
4. Calculation of the monthly WACOG for the Company for the Company gas supplies, including volume and prices.

PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8
 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C
 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
 (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the

DESCRIPTION

Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge

to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

DESCRIPTION

3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = CPCR NV CPCR = Relocation costs for the current recovery period. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-ENV-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for rate schedules: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of a RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that reasonable efforts were made to receive reimbursement from the entity requiring each relocation, if applicable. 6. A schedule showing RCR collections. CURTAILMENT PLAN

<u>PLAN ID</u>	<u>DESCRIPTION</u>
3008	Attachment A (of Docket No. 3008 issued June 22, 1981)
	Texas Gas Service Company Central Texas District
	CURTAILMENTS
	14.1 CURTAILMENTS
	Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.
	14.2 PRIORITY CLASSES
	All customers served by the Company shall be classified into one of the following priority groups:
	A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation.
	B. Gas sold for agricultural purposes.
	C. This category consists of the following:
	(1) Gas sold to small commercial and small industrial customers using 200 Mcf or less on an average day.
	(2) Gas sold to industrial customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production.
	(3) Gas sold to commercial or industrial customers used to provide water heating, heating and cooling for human comfort in the plant or office areas.
	(4) Gas sold for use in power generating plants for start up, safety and flame stabilization.
	D. Gas sold to commercial customers using more than 200 Mcf, but less than 1,500 Mcf on an average day.
	E. Gas sold to small industrial customers using more than 200 Mcf and less than 3,000 Mcf on an average day, provided such user has no economically feasible alternate fuel.
	F. This Category consists of the following:

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9475

(1) Gas sold to industrial customers for feedstock use where the gas volume is more than 200 Mcf and less than 3,000 Mcf on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such customer must prorate its demand for gas and must maximize its use of all other sources of as

(2) Small public utility electric generating systems which use less than 3,000 Mcf on an average day.

G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve customers whose usage falls within the descriptions of A above and small commercial and industrial customers using 20,000 Kwh or less on an average day.

H. This category consists of the following:

(1) Gas sold for use by commercial customers in excess of 1,500 Mcf on an average day.

(2) Small industrial customers not qualifying under C, D, E, or F above.

I. All gas sold for use in existing power generating plants for the generation of electricity not included in G and C(4) above.

J. This category consists of the following:

(1) Gas sold to large users of gas, in excess of 3,000 Mcf on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics.

(2) Gas sold for feedstock as defined in F above, in excess of 3,000 Mcf on an average day.

K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 Mcf on an average day and any other use which does not qualify under a preceding priority.

14.3 METHOD OF CURTAILMENT

Curtailement shall be ordered ratably insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities 1 and 2. Total curtailement during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system my be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

14.4 CLASS AND GROUP CURTAILMENTS

No curtailement shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailement of service.

14.5 NOTIFICATION AND PENALTIES

The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any customer (other than a customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened.

14.6 SUSPENSION OF THIS SECTION

This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

LINE EXTENSION POLICY

<u>POLICY ID</u>	<u>DESCRIPTION</u>
1115	<p>TEXAS GAS SERVICE COMPANY Texas Tariff - Central Texas Service Area ENVIRONS OF THE CENTRAL TEXAS SERVICE AREA (From Quality of Service Rules effective 06/06/06) 01.06.01</p> <p>EXTENSION OF FACILITIES The Company shall install the necessary facilities to provide service beyond existing distribution lines. Expenditures for such extensions must be cost justified or a refundable cash advance will be required. Facilities of greater capacity than Applicant requires may be installed, however, cash advance will be based only on size and capacity of facilities needed by Applicant. Amount of cash advance may be reduced by an allowance for the number of existing Customers along the route of the extension. Such Customers must apply for service prior to installation of the facilities and have major gas burning appliances, water heater or furnace. Allowance per residential Customer is an amount equal to the cost of 100 feet of distribution main. Allowance per non-residential Customer is equal to anticipated first three years' gross margin. Company may elect to allow as approach main an amount equal to 15 feet of main for each potential residential Customer. Non-residential approach main allowance is based on residential equivalents of anticipated margin. Applicant and Company shall enter into a written agreement on the Company's standard form. All advances must be paid in cash prior to construction. Construction of facilities will commence as soon as practical after receipt of advance and prosecuted with reasonable diligence with allowance for delays caused by events or conditions beyond the Company's control. Right-of-way for Company facilities on Applicant's property shall be furnished by the Applicant in the Company's name, on Company's forms at no cost to the Company. If, on the first anniversary of the extension agreement, the extension of facilities has not been installed through no fault of the Company, the agreement will be terminated and the advance refunded. A review of the number of Customers served from the extension will be made on or about the second through fifth in-service anniversaries and a refund equal to the allowance specified in the contract will be made for each additional Customer that came on service since the previous review. No refund shall be given which shall cause the total refunds to be greater than the total advance. No interest shall be paid on any advance. At the end of five years any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction. Any refund of advance which is returned undelivered and remain unclaimed in the Company's possession after six months following expiration of the five year period of the agreement shall be retained as a contribution in aid of construction.</p>

 GENERAL RULES PART 01.00.00 Introduction Section 01.01.00 Page

1 01.01.01 GENERAL STATEMENT OF
 PURPOSE These Service Regulations Provide specific rules to be followed by the Company in
 supplying natural gas utility service and by the Customer in using such service. Are
 designed to provide good service, fair treatment, and maximum safety to the natural gas
 utility Customers and to the Company. Are officially on file in the Railroad Commission of
 Texas Gas Utilities Division. Copies are available to natural gas utility Customers at the
 Company's Austin offices. Supersede and annul all previous service regulations pertaining to
 the supplying and taking of the Company's natural gas service. Subsequent revisions to these
 policies and procedures may be made with the approval of the appropriate regulatory authority.

01.01.02 GENERAL OPERATING
 POLICIES Service under this Tariff is subject to the original jurisdiction of the Railroad
 Commission of Texas. It is the policy of the Company to cooperate with charitable and
 welfare organizations assisting Customers in paying and planning for payment of their bills.
 Free service shall not be rendered by the Company to any Customer. All Customers within the
 Company's service area shall be served in accordance with the prices, terms and conditions
 provided for in applicable Tariffs and regulations. It is the on-going policy of the Company
 to provide utility services in a fair, equitable, and courteous manner to all Customers.

UTILITY SERVICE
 REGULATIONS GENERAL RULES PART 01.00.00 Definitions Section 01.02.01
 Page 2 01.02.01 ACCOUNT

An account is the record of consumption, charges and payments for services rendered to a
 Customer at a specific service address. Active Account - An account is active when any
 service is available to the Customer at the service address specified for that account.
 Inactive Account - An account is inactive when all service is terminated for the Customer at
 the service address specified for that account.

01.02.02 APPLICANT Any person,
 organization or group of persons or organizations making a formal request either orally or in
 writing for gas service from the Company.

01.02.03 BILLING MONTH An interval
 of approximately thirty (30) days between successive meter reading dates.

01.02.04 COMMERCIAL OFFICE A
 department of the Company's local operations responsible for Initiation and termination of
 service. Regular readings of meters. Regular billing for service (including resolving
 related billing problems and inquiries). Collection of and accounting for accounts
 receivable. 01.02.05 COMMERCIAL

SERVICE Service to Consumers engaged primarily in the sale or furnishing of goods and
 services and any usage not otherwise provided for. UTILITY SERVICE REGULATIONS GENERAL RULES

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9475

01.02.06 CONSUMER Any person or organization receiving and using gas from the Company for his or her own needs whether or not the gas is billed directly to him or her, or to a second party. (For example, in the case of rental unit where the utilities are part of the rent, the landlord is a Customer and the tenant is a Consumer).

01.02.07 CREDIT SECURITY That which is required by the Company to cover risk of nonpayment by Customer for utility services rendered.

01.02.08 CUSTOMER Any individual, partnership, association, firm, public or private corporation, governmental authority, or other legal entity being billed for gas utility service by the Company at any specified service address.

01.02.09 CUSTOMER'S PIPING All piping and equipment installations on the Customer's side of the meter must be in conformance with applicable City codes. Customer piping must pass applicable pressure testing before initiation of natural gas service.

01.02.10 CUSTOMER PAYMENT STANDARDS The minimum payment practices a natural gas utility Customer must meet in lieu of providing other forms of credit security.

01.02.11 HAZARDOUS WEATHER CONDITIONS The average daily temperature is freezing or below; or the average daily temperatures are predicted to be freezing or below over a 24-hour period.

				UTILITY SERVICE REGULATIONS GENERAL	
RULES	PART	01.00.00 Definitions cont.	Section	01.02.12	Page
4				01.02.12 METER	

01.02.12 METER The meter or meters, together with auxiliary devices, if any, constituting the complete installation needed to measure the natural gas supplied to any individual Customer at a single point of delivery.

01.02.13 NOTICE Unless otherwise specified, a written notification delivered personally or mailed by one party to the other at such other party's last known address, the period of notice as required by any applicable section of these Regulations being computed from the date of such personal delivery or mailing.

01.02.14 POINT OF DELIVERY The outlet of the Company's meter where it connects to Customer's piping.

01.02.15 REGULATORY AUTHORITY The City has original jurisdiction over the Company's rates and service regulations within the municipal boundaries of the City according to state law. Appellate jurisdiction rests with the Railroad Commission of Texas. Outside the municipal boundaries, the Railroad Commission of Texas has original jurisdiction over the Company's rates and service regulations.

01.02.16 SERIOUS ILLNESS Any illness wherein termination of natural gas service would be especially dangerous to that person's health as certified by a licensed physician.

01.02.17 SERVICE ADDRESS Specified address of a location which can receive natural gas utility service provided by the Company. A valid Service Address shall contain the street name and house number and, when applicable, the building, unit and/or suite number. The Service Address must be visible from the street which serves that structure.

				UTILITY SERVICE REGULATIONS GENERAL RULES	
01.00.00 Definitions cont.	Section	01.02.18	Page	5	

01.02.18 SERVICE CONTRACT A service contract, whether or not in writing, exists between a Customer and the Company when the Company supplies service and the Customer accepts it. A Customer accepts natural gas service: when the Customer or Customer's agent requests utility service and the Company provides it, or when the Customer, though not requesting service, knowingly receives service for more than seventy-two (72) hours, benefits from the service, and does not request discontinuance in

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9475

writing prior to the expiration of the seventy-two (72) hour period. All rights and obligations under this contract are governed by state and federal law, applicable rate ordinances and by these regulations, including any amendments to the foregoing, in effect at the time when service is rendered. Subject to the foregoing, every service contract shall obligate the Customer to pay for service rendered, and shall obligate the Company to continue providing service for so long as the Customer pays for such service on a timely basis by paying for service rendered by the due date printed on the bill.

01.02.19 SERVICE PIPE The Company owned piping, connecting Company's distribution facilities to the yardline at the property line.

01.02.20 YARDLINE The piping carrying natural gas on the Customer's property between the property line and meter.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section 01.03.01 Public Information Page 6

01.03.01 FACILITIES Upon request, the Company will provide information regarding the physical locations, size, capacity and other pertinent data regarding its facilities based on information available to it for any valid purpose relating to the provision of gas service.

01.03.02 AVAILABILITY AND DISTRIBUTION OF RATE SCHEDULES AND UTILITY SERVICE REGULATIONS All Customers living within the City shall be served under rate schedules filed with the City and Railroad Commission of Texas. All Customers living outside of the city shall be served under rate schedules on file with the Railroad Commission of Texas. Customers shall be assigned to rate schedules in accordance with the class of the particular Customer, the usage which will be made of the gas and that Customer's volume requirements. The Company shall advise the Applicant or Customer how to secure the most advantageous rate schedule available for his usage. A Customer assigned to a rate schedule shall remain on that schedule for a minimum of one year except that an assignment made in error shall be corrected immediately. Questions regarding a nonresidential Customer's classification shall be determined by the location of the Customer's primary business in the latest edition of the Standard Industrial Classification Manual of the United States Government's Office of Management and Budget. The Company shall post a notice in a conspicuous place in its Commercial Offices informing the public that copies of the following are available for inspection: - rate schedules, - utility fees and deposit schedules; and - utility service regulations.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section 01.03.03 Public Information cont. Page 7

01.03.03 CHANGE IN RATE SCHEDULES AND CLASSIFICATIONS The Company shall provide public notice of any proposal for a change in rates or service classification, that has been made by the Company, prior to its adoption. Such notice shall be made by newspaper publication and shall include information on the proposed changes, the impact of the changes on the Company's revenues, the class of Customers affected by the proposed changes and whether the proposed changes are major changes as defined in the Gas Utility Regulatory Act. The notice shall also inform the Customers that the proposed changes are on file at the City, the Railroad Commission of Texas Gas Utilities Division and at the Company's Commercial offices.

01.03.04 METER READING Upon request the Company shall inform its Customers how to read its meters.

01.03.05 CUSTOMER'S RIGHTS The Company shall annually provide each residential and small commercial Customer with a summary description of: Customer rights; and Company obligations under these rules. This information shall be provided in English and Spanish. New residential and small commercial

Customers shall be provided with the description no later than the date they receive their first bill. _____ 01.03.06 SERIOUS ILLNESS
The Company will use its best efforts to not discontinue service to a delinquent residential Customer who permanently resides in an individually metered dwelling unit if the Customer establishes that discontinuance of service will result in some person residing at the residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this Section must make a written request to the Company, supported by a written statement from a licensed physician. The request and physician's statement must be received by UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section 01.03.06 Public Information cont. Page 8 the Company no more than five working days after the date of delinquency of the bill. The Company shall not terminate service for twenty days after the request and physician's statement is received unless the Company and Customer agree to an earlier termination date. A Customer who makes a request for nontermination of service under this section must sign an installment agreement providing for payment of the delinquent service and timely payments of subsequent monthly billings. Failure to comply with the terms of the installment agreement or to make timely payments of subsequent bills may result in termination of service pursuant to Sections 02.07.01 - 02.08.06.

_____ 01.03.07 COMPLAINTS The Company shall make a prompt and suitable investigation of complaints made either in person, in writing, or by telephone and will advise the complainant of the results thereof.

_____ UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.01 Page 9
_____ 01.04.01 EXECUTION OF SERVICE CONTRACT A service contract exists between the Company and parties who properly execute an application for service or service contract; or accept or use gas service supplied by the Company under the conditions set forth in Section 01.02.18 or under other conditions that would give rise to an obligation to pay for such service regardless of whether an express agreement, written or oral, exists between the Company and any such party.

_____ 01.04.02 SUPPLYING OF SERVICE Utility service is supplied only under and pursuant to these Regulations, any modifications or additions thereto lawfully made, and such applicable rate schedules as may from time to time be lawfully fixed, and pursuant to other tariffs then in effect; at such points of delivery as are adjacent to facilities of the Company that are adequate and suitable as to capacity and character for the service desired; and to installations in conformance with applicable city, federal, state, or town codes. If a Customer wishes to change the point of delivery and/or capacity of the service or require another service the Customer shall bear the cost for any necessary change in accordance with the appropriate rate schedule, and pay any fees necessary for this action. Service will not be supplied to any premises if, at the time of application for service, the Applicant is indebted to the Company for service previously supplied at the same or another address until payment has been made or an acceptable payment agreement has been initiated for such indebtedness. Service will not be supplied for failure to pay the unpaid bill of UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts cont. Section 01.04.02 Page 10 another Customer at the same address if such person still resides at the premises to be served or if the Applicant received a beneficial use of the utility service provided the previous Customer.

_____ 01.04.03 CONTINUITY OF SERVICE The Company will use reasonable diligence to supply steady and continuous service but does not guarantee the service against irregularities or interruptions. Under certain circumstances it may be necessary to curtail Customers of any class. The procedure for such curtailments is

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9475

located in Sections 01.08.01 - 01.08.06. The Company may interrupt service during periods of supply or capacity curtailment; when necessary to repair, change, or relocate the Company's distribution systems; without incurring any liability; and for such periods as may be reasonably necessary to make such repairs or changes.

01.04.04 CUSTOMER'S RESPONSIBILITIES

The Customer assumes all responsibility on the Customer's side of the point of delivery for the service supplied or taken. In no event shall the Company be liable to the Customer or to any other person or entity for damages, or other loss, whether caused by negligence of the Company or otherwise, caused by interruption of service in cases where such interruptions of service were not intended, and the Customer shall release and hold the Company harmless with respect to same. Right-of-Way - The Customer shall make or procure conveyance to the Company of perpetual right-of-way: satisfactory to the Company, across the property owned or controlled by the Customer, UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts cont. Section 01.04.04 Page 11 for the Company's lines or extensions thereof, or other equipment necessary or incidental to the supplying of service to the Customer, and without reimbursement to the Customer from the Company.

Access to the Premises - The Customer shall maintain the premises in such a manner that the Company's agents: shall be able to verify the valid Service Address of the premises from the street; and shall have safe and unobstructed access to all portions thereof, at all reasonable hours, for the purpose(s) of - maintaining, removing, or replacing the Company's property; - reading meters; and - all other purposes incident to the supplying of service to the Customer. Location of Service Connections - The Customer's service connections are to be located at a point readily accessible to the Company's service facilities. The service connection point is to be determined by the Company, and such point may be relocated if deemed necessary by the Company. 01.04.05

REMETERING AND RESALE OF SERVICE Service is supplied directly to the Customer through the Company's own meter. Utility service shall not be metered for resale, or otherwise resold by a Customer, for a price higher than the price charged to the Customer by the Company. The Company may, after notice and opportunity for hearing, discontinue supplying of utility service to a Customer to prevent a violation of this provision.

UTILITY SERVICE REGULATIONS GENERAL

RULES PART 01.00.00 Service Contracts cont. Section 01.04.06 Page 12 01.04.06 SERVICE TO ADJACENT

PREMISES No Customer may extend or connect the Customer's installation to utility lines across or under a public street, alley, right-of-way space, or other private space, including property lines, in order to obtain service for adjacent property through one meter, even though such adjacent property is owned, controlled, or occupied by the Customer. The Company may terminate service to a Customer after notice and opportunity for hearing until any violation of this subsection is discontinued. However A Customer who owns adjacent properties which are developed and operated as a unified apartment, office, commercial, or industrial project, may extend or connect the installation to lines across or under the property lines of said adjacent properties in order to service said properties through one meter, for as long as the above stated condition continues.

01.04.07 COMPANY'S RIGHT TO CANCEL SERVICE

CONTRACT Exercise of or failure to exercise any one or more of the following remedies does not affect the Company's right to resort thereafter to any one or more of such remedies for the same or any future default or breach of the service contract by the Customer: Remedies: terminate service as provided for in Sections 02.07.01 - 02.08.06 of these Regulations; cancel service contract(s); and resort to any other legal remedy.

 services rendered under any law or legal doctrine available in this state.

CTX2 b UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Appeals and Hearings
 Section 01.05.01 Page 14

01.05.01 APPEALS Customers
 objecting to the actions, policies, or decisions of the Company with regard to utility service
 may informally appeal to the Company in person; or by telephone to attempt a resolution
 administratively. When an informal appeal is made, a document shall be prepared by the
 Company representative to indicate: the reason for the informal appeal; the persons present
 during the meeting; and the decision of the Company representative. If the problem is not
 resolved by an informal appeal, the Customer shall be given written notice of his/her right to
 a formal appeal hearing pursuant to this subsection of these Regulations. Such notice shall
 indicate: the steps the Customer must take to initiate the appeal, including providing the
 name of the officer and the address to which the appeal shall be made; whether failure to
 initiate the appeal within three (3) days of the date of the notice may result in termination
 of service to the account in question; and the procedure for obtaining a copy of the rules
 for the formal hearing. A request for a formal appeal hearing before the designated Hearing
 Officer will not be granted when the Customer's only complaint regards the: determination of
 reasonableness or the denial of a deferred payment agreement under Sections 02.05.01 -
 02.05.05 of these Regulations; Customer's financial inability to pay for services rendered
 and there is no dispute as to the accuracy of the billing or the Customer's liability; or the
 UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Appeals and Hearings cont.
 Section 01.05.01 Page 15 design and fairness of the rate schedule.

01.05.02 HEARINGS The
 time, date and place of a formal appeal hearing shall be provided to the Customer requesting a
 formal hearing. The hearing shall be held not more than five (5) business days from the date
 of the Customer's request. The Customer may appear in person or be represented by counsel or
 both, and shall be afforded the opportunity to confront and question adverse witnesses at the
 hearing. The formal legal rules of evidence shall not apply. The formal appeal hearing shall
 be before a Hearing Officer: appointed by the Company Vice-President - Central Texas for the
 purpose of hearing such appeals, not under the supervision of the Commercial Office Manager;
 and not a participant in the previous decision now under review. The Hearing Officer shall
 be the sole judge of the evidence and credibility of witnesses and the facts as well as the
 applicability of the rules and regulations of the Company; and render his/her final decision
 in writing to all parties concerned at the close of the hearing or within five (5) business
 days of its conclusion.

01.05.03 RESULTS OF HEARINGS In the event the decision reached at a formal appeals hearing is
 against the Customer, the Hearings Officer shall UTILITY SERVICE REGULATIONS GENERAL RULES
 PART 01.00.00 Appeals and Hearings cont. Section 01.05.03 Page
 16 instruct the Company and Customer what action, if any, must be taken by the Customer to
 maintain utility service; and set a reasonable period of time in which the Customer must take
 such action. In the event that payment of a bill is involved, the Customer shall be allowed
 three (3) business days to pay such amount. In the event the decision reached at a formal
 appeal hearing is in favor of the Customer, in whole or part, the Hearings Officer shall

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

instruct the Company and Customer what corrective action shall be taken and the Company shall take action within a reasonable time, which time may be set by the Hearing Officer; and instruct the Customer to pay or make acceptable arrangements for payment of any amount of disputed billing found to be accurate, within three (3) business days or by the due date of the billing whichever is later.

01.05.04 CONTINUITY OF SERVICE DURING APPEAL During the pendency of the formal appeal, the Customer's utility service shall be continued if not terminated prior to a valid formal appeal. In the event utility service was terminated prior to a valid formal appeal hearing utility service will be re-initiated upon payment of the initiation fee and payment of an amount consistent with that Customer's previous year's usage for the same billing period, or an amount consistent with usage of similar residential units in the same area, if the Customer has no previous service history. If applicable, correction of any condition which caused service to be terminated must be corrected prior to re-initiation of service. the initiation fee will not be charged if the Hearing Officer's decision is in favor of the Customer in whole or part.

UTILITY SERVICE REGULATIONS

 Page 17 01.05.05 FAILURE

OF COMPANY TO COMPLY The failure of the Company to comply with any time provision contained herein shall in no way result in the Company's waiving its right to see termination of service for the reasons specified in these Regulations.

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.01
 Page 18 01.06.01 EXTENSION

OF FACILITIES The Company shall install the necessary facilities to provide service beyond existing distribution lines. Expenditures for such extensions must be cost justified or a refundable cash advance will be required. Facilities of greater capacity than Applicant requires may be installed, however, cash advance will be based only on size and capacity of facilities needed by Applicant. Amount of cash advance may be reduced by an allowance for the number of existing Customers along the route of the extension. Such Customers must apply for service prior to installation of the facilities and have major gas burning appliances, water heater or furnace. Allowance per residential Customer is an amount equal to the cost of 100 feet of distribution main. Allowance per non-residential Customer is equal to anticipated first three years' gross margin. Company may elect to allow as approach main an amount equal to 15 feet of main for each potential residential Customer. Non-residential approach main allowance is based on residential equivalents of anticipated margin. Applicant and Company shall enter into a written agreement on the Company's standard form. All advances must be paid in cash prior to construction. Construction of facilities will commence as soon as practical after receipt of advance and prosecuted with reasonable diligence with allowance for delays caused by events or conditions beyond the Company's control.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Extension of Facilities cont. Section 01.06.01 Page 19 Right-of-way for Company facilities on Applicant's

property shall be furnished by the Applicant in the Company's name, on Company's forms at no cost to the Company. If, on the first anniversary of the extension agreement, the extension of facilities has not been installed through no fault of the Company, the agreement will be terminated and the advance refunded. A review of the number of Customers served from the extension will be made on or about the second through fifth in-service anniversaries and a refund equal to the allowance specified in the contract will be made for each additional Customer that came on service since the previous review. No refund shall be given which shall cause the total refunds to be greater than the total advance. No interest shall be paid on any advance. At the end of five years any remaining amount of the advance shall be retained

by the Company as a contribution in aid of construction. Any refund of advance which is returned undelivered and remain unclaimed in the Company's possession after six months following expiration of the five year period of the agreement shall be retained as a contribution in aid of construction.

REGULATIONS GENERAL RULES PART 01.00.00 Customer Owned Systems Section
 01.07.01 Page 20

01.07.01 CUSTOMER OWNED SYSTEMS Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. Company shall provide service through a master meter into the piping systems of others to be distributed to more than one Consumer, except when the gas is resold to those Consumers.

REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section 01.08.01
 Page 21

CURTAILMENTS When the capacity of the Company's system or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with these regulations.

01.08.02 PRIORITY All Customers served by the Company shall be classified into one of the following priority groups.

A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation. B. Gas sold for agricultural purposes. C. This category consists of the following: 1. gas sold to small commercial and small industrial Customers using 200 MCF or less on an average day; 2. gas sold to industrial Customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production; 3. gas sold to commercial or industrial Customers used to provide water heating, heating and cooling for human comfort in the plant or office areas; UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments cont.

Section 01.08.02 Page 22 4. gas sold for use in power generating plants for start up, safety and flame stabilization. D. Gas sold to commercial Customers using more than 200 MCF, but less than 1,500 MCF on an average day. E. Gas sold to small industrial Customers using more than 200 MCF and less than 3,000 MCF on an average day, provided such user has no economically feasible alternate fuel. F. This category consists of the following: 1. gas sold to industrial Customers for feedstock use where the gas volume is more than 200 MCF and less than 3,000 MCF on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such Customer must prorate its demand for gas and must maximize its use of all other sources of gas; 2. small public utility electric generating systems which use less than 3,000 MCF on an average day. G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve Customers whose usage falls within the descriptions above and small commercial and industrial Customers using 20,000 KWH or less on an average day. H. This category consists of the following: 1. gas sold for use by commercial Customers in excess of 1,500 MCF on an average day; 2. small industrial Customers not qualifying under any of the above. I. All gas sold for use in existing power generating plants for the generation of electricity not included in any of the above. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments cont. Section

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9475

01.08.02 Page 23 J. This category consists of the following: 1. gas sold to large users of gas, in excess of 3,000 MCF on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics. 2. gas sold for feedstock as defined above, in excess of 3,000 MCF on an average day. K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 MCF on an average day and any other use which does not qualify under a preceding priority.

01.08.03 METHOD OF CURTAILMENT Curtailment shall be ordered ratably insofar as feasible within each priority group served by the same system; provided, however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities A and B. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

01.08.04 CLASS AND GROUP CURTAILMENT No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments cont. Section 01.08.05 Page 24

01.08.05 NOTIFICATION AND PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, of the extent and amount of the curtailment required from him or her. If, after notification, any Customer (other than a Customer in Priority A) fails to curtail during the required period, or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priorities A and B is threatened.

01.08.06 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

01.08.07 JURISDICTION OVER CURTAILMENT POLICY Jurisdiction over the curtailment policy set forth in Sections 01.08.01 - 01.08.07 lies with the Railroad Commission of Texas. The Company may change its curtailment policy from time to time if approved or ordered by the Railroad Commission of Texas. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Equal Payment Plan Section

01.09.01 Page 25 01.09.01 PAYMENT PLAN Residential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner: The Plan year shall be 12 months ending each year with the Customer's July bill. The Plan monthly payment shall be determined as follows: - For Customers electing to commence with the August bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's plan year. - for Customers electing to commence in September or later, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year until the next following July bill. Succeeding years shall be computed on an annual basis as in subparagraph (1) below. The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon the most recently available prior 12-month period at the same service location; or, if there is not at least 12 months prior

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9475

service at the same service location, then the charges shall be based upon consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known changes. The Company reserves the right to adjust the remaining monthly Plan payments of any Customer at any time for changes in conditions or rates. The Company shall advise each Customer in the Plan of the monthly Plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that

UTILITY SERVICE REGULATIONS GENERAL
RULES PART 01.00.00 Equal Payment Plan contd. Section 01.09.01 Page
26 billing month and the amount of any debit or credit balance before the payment of that month's Plan payment. The Customer shall continue to pay the monthly Plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly Plan payment. The July gas bill for each Customer in the Plan shall be handled as follows: - any amount due the Company up to the monthly Plan payment shall be paid in full by the due date shown on the bill. - if the balance due the Company exceeds the monthly Plan payment, a payment equal to that amount will be paid and the excess shall be utilized in computing the next Plan year's monthly Plan payment. Interest will not be charged to the Customer on accrued debit balances or paid by the Company on accrued credit balances. Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the Plan. Any Customer's participation in the Plan may be discontinued by the Company if the monthly Plan payment has not been paid on or before the due date of the next monthly Plan payment. If any Customer in the Plan shall cease to participate in the Plan for any reason, then the Company may refuse that Customer's reentry in the Plan until the following August.

UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
02.01.01 Application for Service Page 27

02.01.01 WHERE TO APPLY Anyone
requesting utility service provided by the Company shall apply to one of the Company's Commercial Offices.

02.01.02 IDENTIFICATION Applicants for service can be required to provide the following form(s) of identification: a valid Texas Driver's License with photograph; or a valid identification card, with photograph, issued by the Texas Department of Public Safety; or two valid verifiable forms of identification. A listing of forms currently accepted by the Company is available on request. Failure to comply with this section can result in refusal of service. (See Section 02.02.01 of these Regulations.)

02.01.03 CREDIT SECURITY
Before service will be initiated Applicants must establish credit as required for the type of service requested; pursuant to Sections 02.03.02 and 02.03.03.

02.01.04 ADDRESS VERIFICATION
Applicants for service may be required to obtain, and produce on request, verifiable proof of their right to occupy a specific service address as of a specific date of occupancy.

02.01.05 FEES AND PAYMENT
In addition to establishing credit security, Applicants for service must pay whichever of the following fees are required for the service requested. After Hours Fee - charged to any Applicant whose request to initiate service cannot be worked during normal business hours. Applicant must be advised that an after hours fee will be charged and must agree to pay such charge.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00
TERMINATION OF SERVICE Section 02.01.05 Application for Service contd. Page
28 Read-In Fee - charged to any Applicant for initiation of service when only a meter

Section 02.03.03 Credit Security cont.	Page	31	
		02.03.03	FORMS OF

CREDIT SECURITY FOR NONRESIDENTIAL SERVICE Any one of the following forms of credit security may be accepted from nonresidential Customers and Applicants for service: a record of satisfactory compliance with Customer payment standards for service at a comparable nonresidential service address served by the Company for at least one year; a refundable cash deposit of as much as one-sixth (1/6) the estimated annual billings for service requested; but no less than the minimum deposit set forth in Section 04.01.02; a nontransferable, irrevocable letter of credit from an established financial institution, payable for as much as one-sixth (1/6) the estimated annual billings for services requested and, which can be drawn on for a minimum of two (2) years; but no less than the minimum deposit set forth in Section 04.01.02; or a surety bond issued by a reputable insurance company which can be drawn on for a minimum of two years.

02.03.04 CUSTOMER PAYMENT STANDARDS In order to have a record of satisfactory compliance with Customer payment standards, the Customer must have: had at least twelve (12) consecutive billing cycles of residential service, or twenty-four (24) consecutive billing cycles of nonresidential service; had no disconnection or collection effort for nonpayment during the last twelve (12) consecutive billing cycles of residential service or twenty-four (24) consecutive billing cycles of nonresidential service; and no utility bills past due.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND	PART	02.00.00	TERMINATION
OF SERVICE Section 02.03.05 Credit Security cont.	Page	32	
		02.03.05	DISPOSITION

OF MATERIAL FORMS OF CREDIT SECURITY When a Customer establishes a record of satisfactory compliance with the Customer payment standards for the account in question as specified in Section 02.03.04; and has paid the total amount due before the due date for (12) residential billing cycles or twenty-four (24) nonresidential billing cycles; or discontinues service and pays all utility bills; then material forms of credit security, with interest if required by law, shall be: - returned to the Customer; - voided; or - if in the form of cash, credited to the Customer's account, or refunded in full.

		02.03.06	DISPOSITION
OF UNCLAIMED CASH DEPOSITS	A record of each unclaimed deposit will be maintained for a period of seven (7) years, during which time the Company shall make a reasonable effort to return the deposit. After seven (7) years the deposit will become the property of the State of Texas.		
		02.03.07	FAILURE TO

COMPLY Failure to comply with credit security requirements makes an active account subject to termination of service pursuant to Section 02.09.00 of these Regulations.

OF SERVICE Section 02.04.01 Billing and Payment	Page	33	
		02.04.01	BILLING

PERIODS Bills are rendered at regular monthly intervals unless otherwise authorized or unless service is rendered for a period of less than a month.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9475

02.04.02 INFORMATION
REQUIRED ON THE BILL The Customer's bill shall show all of the following information: the date and meter reading at the beginning and at the end of the period for which the bill is rendered; the number and kind of units metered; the applicable rate classification; separate charges for cost of service and cost of gas, if treated separately in the rate ordinance; the total amount due for utility service and tax; the date the bill is due and by which the Customer must pay the bill; a distinct marking to identify an estimated bill; any conversions from meter reading units to billing units, or any other calculations to determine billing units from recording to other devices, or any other factors used in determining the bill; the explanation of charges shall be in English and Spanish. The information required by this subsection shall be arranged to permit the Customer to compute his bill by using the applicable rate schedule which shall be supplied when requested by the Customer.

UTILITY SERVICE
REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE
Section 02.04.03 Billing and Payment cont. Page 34

02.04.03 PAYMENT
All bills for service are due by the date printed on the bill. If the payment in full is not received in the Company's office by the date printed on the bill, the bill shall be considered delinquent. If a Customer does not receive his or her bill(s), the obligation to make payment for service rendered is not released or diminished.

02.04.04 BILLING
ADJUSTMENTS If any meter is found to be outside the accuracy standards established by these Regulations, proper correction shall be made of previous readings for the period of six (6) months immediately preceding the removal of such meter from service for the test, or from the time the meter was in service since last tested, but not exceeding six (6) months, as the meter shall have been shown to be in error by such test, and adjusted bills shall be rendered. No refund is required from the Company except to the Customer last served by the meter prior to the test. If a meter is found not to register for any period unless bypassed or tampered with, the Company shall make a charge for units used, but not metered, for a period not to exceed three (3) months, based on amounts used under similar conditions during the period preceding or subsequent thereto, or during corresponding periods in previous years. If a meter, though otherwise meeting the accuracy standards established by these Regulations, does not register proper consumption (because of improper installation or for any other reason) the total amount overbilled or underbilled to the Customer shall be adjusted. The total amount overbilled or underbilled shall be adjusted when the overbilling or underbilling results from causes not mentioned above. Overbillings or underbillings in this category would include, but shall not be limited to, those caused by: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.04 Billing and Payment cont. Page 35 - the failure to read a meter; - the misreading of a meter; - the application of an improper rate schedule; or - typographical or computational errors. In any case of underbilling, the Company may offer to such Customer a deferred payment plan option for the same length of time as that of the underbilling. Reimbursement or collection shall be made at the rates in effect at the time of each overbilling or underbilling.

02.04.05 CUSTOMER'S RIGHT TO DISPUTE BILLS Customers have the right to dispute any portion of their utility bill. The Appeals and Hearings Section of these Regulations (Sections 01.05.01 - 01.05.05) covers bill disputes.

02.04.06 DELINQUENCY
An active account becomes delinquent when full payment is not received; in the Company's Commercial Office, by the due date printed on the bill. Delinquent accounts are subject to

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9475

termination of service, pursuant to Sections 02.07.01 - 02.08.06 of these Regulations.

02.04.07 UNLAWFUL USE OF SERVICE Where a condition threatens the public health, safety or resources, in any case of tampering with a meter installation or interfering with the proper function thereof, or any other unlawful use or diversion of service by any person, or evidence of any such tampering, interfering, unlawful use or service diversion, by a Customer who could be reasonably expected to benefit from such action the Customer is subject to: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.07 Billing and Payment cont. Page 36 immediate termination of service; and prosecution under applicable laws. In any case of unlawful use of service the Company shall be entitled to collect from the Customer payment of the costs for all natural gas not recorded on the meter by reason of such tampering, interfering, unlawful use or service diversion, - the amount of which may be estimated by the Company from the best available data, and - billed at the proper rate schedule; and the unauthorized consumption fee plus all other expense incurred by the Company on account of such unauthorized act or acts, such amount based on an itemized statement from the Company.

02.04.08 RETURNED CHECKS Accounts for which payment is made using checks which are returned by a bank for any reason may be charged a returned check fee for each occurrence. The amount of the check will be charged back to the account. Repayment of the returned check shall be made in the form of cash, cashier's check, or money order. The Customer will be sent a written notice which will indicate that the Customer has seven (7) days in which to make full payment of the amount covered by the returned check, or service will be subject to termination. Utility service terminated for nonpayment of a returned check will not be re-initiated until the amount of the returned check and all applicable fees have been paid in full.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.01 Deferred Payment Agreements Page 37

02.05.01 ELIGIBILITY Any active Customer with a previous balance owed the Company for utility service may apply for a deferred payment agreement. The Company may enter into a deferred payment agreement with a Customer under circumstances the Company determines are reasonable.

02.05.02 DETERMINATION OF REASONABLENESS Factors used in determining reasonableness under these Regulations shall include but not be limited to: size of the previous balance owed the Company; customer's ability to pay; customer's payment history; reasons the debt has not been paid; time that the debt has been outstanding; and any additional factors considered relevant other than race, religion, gender, or national origin of Customer.

02.05.03 BASIC TERMS Every deferred payment agreement shall provide that the Company shall not terminate the Customer's service, if the Customer first pays an agreed upon reasonable amount of the outstanding previous balance; pays the current bills, including any applicable fees, when due; and pays the outstanding previous balance, by agreed upon dates, in reasonable installments until that previous balance is cleared.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.04 Deferred Payment Agreements cont. Page 38

02.05.04 DEFAULT If a Customer fails to meet the terms of a deferred payment agreement, the Company may terminate service pursuant to Sections 02.07.01 - 02.08.06, and under such circumstances, shall not be

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9475

required to offer subsequent negotiation of a deferred payment agreement prior to termination.
 _____ 02.05.05 APPEALS An
 appeal by a Customer of the determination of reasonableness as defined in Section 02.05.02
 above or the denial of a deferred payment agreement shall be conducted pursuant to Sections
 01.05.01-01.05.05 of these Regulations.

_____ UTILITY SERVICE REGULATIONS
 INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
 02.06.01 Transfer of Service Page 39

_____ 02.06.01 CUSTOMER
 MOVE WITHIN SERVICE AREA When a Customer vacates a Company service address, notice must be
 given to the Company prior to the date of change. A Customer is responsible for all service
 supplied to vacated premises until such notice is received and the Company has had reasonable
 time (no more than six (6) business days) to discontinue service. This section does not
 abolish or impair any right the Company may have to recover for services rendered pursuant to
 Section 01.04.08 of this Tariff.

_____ 02.06.02 TRANSER OF
 SERVICE Customers wishing to transfer service from one service address to another are
 subject to the requirements of Sections 02.01.00 through 02.03.00 for the type of service to
 be supplied at the new location.

_____ 02.06.03 CREDIT
 SECURITY TRANSFER If the credit security requirement at the new service address is higher
 than at the Customer's previous service address, an additional cash deposit or new credit
 security instrument may be required before service will be transferred. If the credit
 security requirement at the new service address is lower than at the Customer's previous
 service address, then the Company may, at its option, apply any cash deposit on hand to the
 balance due for the previous account and refund the difference, if any, to the Customer,
 requiring new credit security for the new account; or transfer the cash deposit to the new
 account, applying the difference to the new account or refunding it to the Customer.

_____ UTILITY SERVICE REGULATIONS
 INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
 02.07.01 Grounds for Termination of Service Page 40

_____ 02.07.01 SUFFICIENT
 GROUNDS The Company may terminate a Customer's utility service at the request of the
 Customer; for the Customer's failure; - to pay a delinquent account; - to comply with the
 terms of a deferred payment agreement; - to comply with credit security requirements; - to
 make payment for a bill initially paid by a check returned by a bank for any reason for the
 operation or installation of equipment which interferes with the service of others; upon
 discovery of the existence of - meter tampering or diversion of service; - a known dangerous
 condition; - any unlawful use of service; - the violation of any ordinance, statute or
 regulation regulating the submetering of utility service; or - the violation of any
 regulation which relates to utility service, or which provides for termination or refusal of
 service as a remedy.

_____ UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION
 OF SERVICE Section 02.07.02 Grounds for Termination of Service contd. Page
 41 _____ 02.07.02

INSUFFICIENT GROUNDS The Company may not terminate utility service for any of the following
 reasons in and by themselves: delinquency in payment for service by a previous Customer at
 the service address unless the present Customer is liable for such service under these
 Regulations or under the law of this State, failure to pay for merchandise or other charges
 for non-utility service owed to the Company; or failure to pay a bill disputed under the

formal appeal provisions set forth in Sections 01.05.01-01.05.05 of these Regulations, until determination is made by the Hearings Officer. The Company may not discontinue service before 8 A.M. or after 5 P.M. on weekdays or at any time on Friday, Saturday, Sunday or a holiday unless the Company's business office is open and service can be reconnected the following day.

UTILITY SERVICE REGULATIONS
 INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
 02.08.01 Procedural Requirements for Page 42 Collection and Termination
 02.08.01

APPLICABILITY Service subject to termination can be terminated as specified in all provisions of this Section except when service is to be terminated for the following reasons At the Request of the Customer - Service will be terminated within six (6) workings days of the request. No notice to Customer is required. Payment with a Check Returned by a Bank - Sections 02.04.08 and 02.08.02 through 02.08.04 of these Regulations apply to termination of service in these circumstances. Where a Known Dangerous Condition Exists or Where a Condition Threatens the Public Health, Safety, or Resources - Service can be terminated without prior notice and remain terminated as long as the condition exists.

02.08.02 NOTICE
 When a Customer's account becomes subject to termination, written notice of the proposed termination shall be given by the Company. The notice shall: be sent by mail to the mailing address of the Customer, unless the service address is different, be printed in English and Spanish; state reasons for the proposed termination; state the Customer's right to a hearing before such termination occurs; and state that the Customer who so desires must request a hearing by contacting the Company at a stated telephone number or in person within and not later than - seven (7) days following the date of the mailed notice,

UTILITY SERVICE REGULATIONS
 INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
 02.08.03 Procedural Requirements for Page 43 Collection and Termination
 cont. 02.08.03 FIELD

COLLECTION - GENERAL CIRCUMSTANCES If the Customer does not take action by the date required by the termination notice, a representative of the Company shall be sent to the service address. The Company's representative will terminate service, and leave written notice of termination if - Customer is not on the premises, or - Customer refuses to pay at least the previous balance; or not terminate service if - Customer pays the previous balance due in full, - Customer shows receipt for payment of at least the previous balance due, or - Customer shows proof of compliance with a satisfactory deferred payment agreement which can be verified by the collector; or - Customer shows proof of a serious illness of someone residing at the residence pursuant to the terms of Section 01.03.06; - hazardous weather conditions exist (see Section 01.02.11).

02.08.04 FIELD COLLECTION - SPECIAL CIRCUMSTANCES Multi-Unit Structure Served By a Single Meter - When service is provided to a structure known to be divided into two or more separately occupied units and billed to a single Customer rather than the individual occupant, the Company representative sent to make collection at the service address will not terminate service on the first visit but will inform the Customer in person or in writing of the previous balance owed; UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART
 02.00.00 TERMINATION OF SERVICE Section 02.08.04 Procedural Requirements for
 Page 44 Collection and Termination cont. give written notice that service will be subject to termination after two (2) days and will be terminated after notice of the pending termination has been given to all occupants of the structure; give written notice to the occupants of the structure (by affixing a notice to each door or by hand delivering a notice to one occupant in each dwelling unit) advising them of the past due balance owed on

the Customer's account. The notice shall indicate that the Customer has two (2) days from the date of the notice to pay the previous balance and avoid service termination; and give written notice to the occupants (by affixing a notice to each door or by hand delivering a notice to one occupant in each dwelling unit) that they may make arrangements with the Company to pay the Customer's bill before service is terminated or to re-initiate service after termination, if they so desire; however, such action - in no way releases the Customer of responsibility for the current balance due or future utility charges and fees; and - does not obligate the occupants to pay the Company for future utility charges and fees Hazardous Weather Conditions - When hazardous weather conditions exist, the Company Vice President-Central Texas, or his or her designee, may activate a moratorium on residential termination due to nonpayment.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.08.05 Procedural Requirements for Page 45 Collection and Termination cont.

02.08.05 RE-INITIATION OF SERVICE Terminated service will be re-initiated if the Customer pays the past due balance; and the Customer supplies or maintains residential or non-residential credit security on the account; or the Company accepts a deferred payment agreement for the amount due; and the Customer supplies or maintains residential or non-residential credit security on the account. Re-initiation of service will result in an active Customer's account being charged fees as indicated in Section 02.08.06.

02.08.06 FEES AND CHARGES The purpose of the fees and charges described here is to defray the costs relating to delinquent accounts. The amount of each fee is contained in Sections 04.01.01 - 04.01.02 of these Regulations. The fees and charges will be identified on a regular bill. Unauthorized Consumption Fee - Charged for the replacement of an illegally broken meter seal or locking device to the Customer who could be reasonably expected to benefit from gas service received through said meter. Initiation Fee - Charged to any Customer whose service is terminated and then re-initiated unless terminated in error by the Company. This fee is the same as the standard Initiation Fee charged for new service. Field Collection Fee - Charged to any Customer whose failure to respond to a termination notice necessitates the dispatch of a Company representative who collects payment from the Customer. UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.08.06 Procedural Requirements for Page 46 Collection and Termination cont. Meter Damage Charges - Any account terminated for meter tampering or for any unlawful use of service which causes damage to the meter installation shall be charged for the damage caused.

UTILITY SERVICE REGULATIONS TECHNICAL SPECIFICATIONS FOR SERVICE PART 03.00.00 Company's Installation and Metering Section 03.01.01 Page 47

03.01.01 PROTECTION BY CUSTOMER The Customer shall protect the Company's meters, lines appurtenances and apparatus on the Customer's premises; and shall allow only the Company's agents or persons authorized by law to inspect or handle same. In the event of any loss or damage to such property of the Company, caused by or arising out of negligence or misuse by a Customer or other person controlled by the Customer, the cost of making good such loss or repairing such damage shall be paid by the Customer.

03.01.02 METER INSTALLATION The Company shall furnish and install any necessary meter. The Customer shall provide and maintain a location - free of expense, and - satisfactory to the Company for installation, reading, and maintenance of its installation.

Commission of Texas on 4/21/92, the current Residential Customer Deposit is \$50.00.] ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-CTX-ISOS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE 1 Central Texas Service Area COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated and unincorporated areas of its Central Texas Service Area including Austin, Bee Cave, Buda (environs only), Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after August 25, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas or a municipal regulatory authority. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission or municipal regulatory no later than June 15.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation</p>

RATE SCHEDULESCHEDULE IDDESCRIPTION

Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, including prudently incurred gains or losses on the approved use of natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), including prudently incurred gains or losses on the use of approved natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), and (e) total amount of Uncollectible Cost of Gas during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9478

RATE SCHEDULESCHEDULE IDDESCRIPTION

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return of 7.308% per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including gains and losses from approved hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9478

RATE SCHEDULESCHEDULE IDDESCRIPTION

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of hedging activities stated as costs to the average residential and commercial customer during the period.
5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

CONSERVATION ADJUSTMENT CLAUSE

PURPOSE

Texas Gas Service provides a Conservation and Energy Efficiency program which offers assistance to residential and commercial customers to encourage the most

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9478

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

efficient use of energy, reduce net energy consumption, and lower energy utility bills. A customer rate component will provide funding for the program, and shall be included as a tariff on the customers' monthly utility bill.

The programs offered under the Conservation Adjustment Clause (CAC) will be consistent with similar conservation and energy efficiency programs in other Texas Gas Service areas and may include, but are not limited to, residential, new construction and commercial customer rebates for high-efficiency appliances and equipment, as well as a low-income appliance program.

APPLICATION

The CAC rate shall apply to the applicable residential and commercial rate schedules served by Texas Gas Service Company (Company) in all incorporated areas of the Central Texas Service Area, including the cities of Austin, Bee Cave, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum. The Regulatory Body is defined as the City of Austin.

COMPUTATION OF CAC RATE

The CAC rate for a given year will be separately calculated for each individual customer class according to the following:

$$\text{CAC Rate} = \text{BCD} + \text{BA}$$

NV

BCD = The Budgeted Conservation Dollars (BCD) shall include all expected costs attributable to the Company's Conservation and Energy Efficiency program for the 12-month period ending December 31st of each year, including but not limited to rebates paid; material costs; the cost of educational and consumer awareness materials related to energy conservation/efficiency; the planning, development, implementation and administration of the CAC program; and two months of working program expenses (calculated by dividing the total expected annual expenses by 12 and multiplying by two).

Direct program costs will be identified by class and common administrative costs will be allocated to each rate class pro-rata based upon the proportion of direct costs. Administrative costs shall not exceed 15% of total CAC program costs.

BA = Balance adjustment. The BA shall compute differences between Rider CAC collections by class and expenditures by class for the 12-month period ending the prior (date) and collect the over/under recovery during the 12-month period beginning (date) of the following year.

NV = Actual volumes from the prior fiscal year (normalized for weather and growth/attrition) listed in Ccf for each rate class.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9478

RATE SCHEDULESCHEDULE IDDESCRIPTION

PROGRAM SELECTION

Program selection will be determined on an annual basis and a summary of programs selected for the upcoming 12-month period will be provided to the Regulatory Body by October 15th of each calendar year. The overall portfolio of program offerings will be designed to be impactful and cost-effective based on Texas Gas Service's knowledge of its customer base and experience administering various conservation and energy efficiency program initiatives.

REPORTING

The following documents will be filed with the Regulatory Body:

a) A schedule indicating the new CAC rate for each of the affected rate classes, to be filed within 20 days of implementation.

b) An annual report of the prior fiscal year collections and disbursements, to be filed within the 120 days following the prior fiscal year end. The annual report will also be made available on the company's website. The annual filing shall include detailed calculations of the BCD and the Balancing Adjustments, as well as data on the total cost of the Energy Efficiency Program. Detailed tracking and reporting of program administration costs is also provided.

c) An annual budget for the following year will be provided to the Regulatory Body by the Company by October 15 each calendar year. If no action is taken by the Regulatory Body by November 30, the budget will automatically be approved for the next calendar year.

 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C
 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9478

RATE SCHEDULESCHEDULE IDDESCRIPTION

facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

DESCRIPTION

(B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a

WNA-CTX-ISOS

TEXAS GAS SERVICE COMPANY
 Central Texas Service Area
 RATE SCHEDULE WNA
 WEATHER NORMALIZATION ADJUSTMENT

CLAUSE

APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in the Central Texas Area including Austin, Bee Cave, Buda (environs Only), Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills, and Yoakum: Rate Schedules 10, 1Z, 20, 2Z, 40, 4Z, 48 and 4H. The WNA shall be effective during the September through May billing cycles.

PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9478

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

WNA Rate = WNAD, where

CV

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

WNAD = (HDD Diff * CB * WF) * COS rate, where

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

Austin, Bee Cave, Cedar Park, Dripping Springs, Kyle, Lakeway, Rollingwood, Sunset Valley, and West Lake Hills:

Residential 0.15429; Commercial 0.39358; Public Authority 1.97830; Public Schools 4.27513

Cuero, Gonzales, Lockhart, Luling, Nixon, Shiner, and Yoakum

Residential 0.13457; Commercial 0.29094

CV = Current Volumes for the billing period.

FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

SCHEDULE ID	DESCRIPTION
1-CTX-ISOS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE 1 Central Texas Service Area COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated and unincorporated areas of its Central Texas Service Area including Austin, Bee Cave, Buda (environs only), Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after August 25, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas or a municipal regulatory authority. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission or municipal regulatory no later than June 15.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation</p>

DESCRIPTION

Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, including prudently incurred gains or losses on the approved use of natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), including prudently incurred gains or losses on the use of approved natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), and (e) total amount of Uncollectible Cost of Gas during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9481

RATE SCHEDULESCHEDULE IDDESCRIPTION

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return of 7.308% per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including gains and losses from approved hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

DESCRIPTION

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of hedging activities stated as costs to the average residential and commercial customer during the period.
5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

 RATE SCHEDULE CAC
 CONSERVATION ADJUSTMENT CLAUSE

PURPOSE

Texas Gas Service provides a Conservation and Energy Efficiency program which

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9481

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

offers assistance to residential and commercial customers to encourage the most efficient use of energy, reduce net energy consumption, and lower energy utility bills. A customer rate component will provide funding for the program, and shall be included as a tariff on the customers' monthly utility bill.

The programs offered under the Conservation Adjustment Clause (CAC) will be consistent with similar conservation and energy efficiency programs in other Texas Gas Service areas and may include, but are not limited to, residential, new construction and commercial customer rebates for high-efficiency appliances and equipment, as well as a low-income appliance program.

APPLICATION

The CAC rate shall apply to the applicable residential and commercial rate schedules served by Texas Gas Service Company (Company) in all incorporated areas of the Central Texas Service Area, including the cities of Austin, Bee Cave, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum. The Regulatory Body is defined as the City of Austin.

COMPUTATION OF CAC RATE

The CAC rate for a given year will be separately calculated for each individual customer class according to the following:

$$\text{CAC Rate} = \text{BCD} + \text{BA}$$

NV

BCD = The Budgeted Conservation Dollars (BCD) shall include all expected costs attributable to the Company's Conservation and Energy Efficiency program for the 12-month period ending December 31st of each year, including but not limited to rebates paid; material costs; the cost of educational and consumer awareness materials related to energy conservation/efficiency; the planning, development, implementation and administration of the CAC program; and two months of working program expenses (calculated by dividing the total expected annual expenses by 12 and multiplying by two).

Direct program costs will be identified by class and common administrative costs will be allocated to each rate class pro-rata based upon the proportion of direct costs. Administrative costs shall not exceed 15% of total CAC program costs.

BA = Balance adjustment. The BA shall compute differences between Rider CAC collections by class and expenditures by class for the 12-month period ending the prior (date) and collect the over/under recovery during the 12-month period beginning (date) of the following year.

NV = Actual volumes from the prior fiscal year (normalized for weather and growth/attrition) listed in Ccf for each rate class.

DESCRIPTION

PROGRAM SELECTION

Program selection will be determined on an annual basis and a summary of programs selected for the upcoming 12-month period will be provided to the Regulatory Body by October 15th of each calendar year. The overall portfolio of program offerings will be designed to be impactful and cost-effective based on Texas Gas Service's knowledge of its customer base and experience administering various conservation and energy efficiency program initiatives.

REPORTING

The following documents will be filed with the Regulatory Body:

- a) A schedule indicating the new CAC rate for each of the affected rate classes, to be filed within 20 days of implementation.
- b) An annual report of the prior fiscal year collections and disbursements, to be filed within the 120 days following the prior fiscal year end. The annual report will also be made available on the company's website. The annual filing shall include detailed calculations of the BCD and the Balancing Adjustments, as well as data on the total cost of the Energy Efficiency Program. Detailed tracking and reporting of program administration costs is also provided.
- c) An annual budget for the following year will be provided to the Regulatory Body by the Company by October 15 each calendar year. If no action is taken by the Regulatory Body by November 30, the budget will automatically be approved for the next calendar year.

DESCRIPTION

facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
(B) the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a

WNA-CTX-ISOS

TEXAS GAS SERVICE COMPANY
 Central Texas Service Area
 RATE SCHEDULE WNA
 WEATHER NORMALIZATION ADJUSTMENT

CLAUSE

APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in the Central Texas Area including Austin, Bee Cave, Buda (environs Only), Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills, and Yoakum: Rate Schedules 10, 1Z, 20, 2Z, 40, 4Z, 48 and 4H. The WNA shall be effective during the September through May billing cycles.

PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

WNAD = (HDD Diff * CB * WF) * COS rate, where

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

Austin, Bee Cave, Cedar Park, Dripping Springs, Kyle, Lakeway, Rollingwood, Sunset Valley, and West Lake Hills:

Residential 0.15429; Commercial 0.39358; Public Authority 1.97830; Public Schools 4.27513

Cuero, Gonzales, Lockhart, Luling, Nixon, Shiner, and Yoakum

Residential 0.13457; Commercial 0.29094

CV = Current Volumes for the billing period.

FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

 COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated and unincorporated areas of its Central Texas Service Area including Austin, Bee Cave, Buda (environs only), Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after August 25, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas or a municipal regulatory authority. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission or municipal regulatory no later than June 15.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation

GAS SERVICES DIVISION

DESCRIPTION

Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, including prudently incurred gains or losses on the approved use of natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), including prudently incurred gains or losses on the use of approved natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), and (e) total amount of Uncollectible Cost of Gas during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9485

RATE SCHEDULESCHEDULE IDDESCRIPTION

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return of 7.308% per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including gains and losses from approved hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

DESCRIPTION

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of hedging activities stated as costs to the average residential and commercial customer during the period.
5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

TEXAS GAS SERVICE COMPANY

Central Texas Service Area

RATE SCHEDULE CAC

CONSERVATION ADJUSTMENT CLAUSE

PURPOSE

Texas Gas Service provides a Conservation and Energy Efficiency program which offers assistance to residential and commercial customers to encourage the most efficient use of energy, reduce net energy consumption, and lower energy utility bills. A customer rate component will provide funding for the program, and shall be

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9485

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

included as a tariff on the customers' monthly utility bill.

The programs offered under the Conservation Adjustment Clause (CAC) will be consistent with similar conservation and energy efficiency programs in other Texas Gas Service areas and may include, but are not limited to, residential, new construction and commercial customer rebates for high-efficiency appliances and equipment, as well as a low-income appliance program.

APPLICATION

The CAC rate shall apply to the applicable residential and commercial rate schedules served by Texas Gas Service Company (Company) in all incorporated areas of the Central Texas Service Area, including the cities of Austin, Bee Cave, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum. The Regulatory Body is defined as the City of Austin.

COMPUTATION OF CAC RATE

The CAC rate for a given year will be separately calculated for each individual customer class according to the following:

$$\text{CAC Rate} = \text{BCD} + \text{BA}$$

NV

BCD = The Budgeted Conservation Dollars (BCD) shall include all expected costs attributable to the Company's Conservation and Energy Efficiency program for the 12-month period ending December 31st of each year, including but not limited to rebates paid; material costs; the cost of educational and consumer awareness materials related to energy conservation/efficiency; the planning, development, implementation and administration of the CAC program; and two months of working program expenses (calculated by dividing the total expected annual expenses by 12 and multiplying by two).

Direct program costs will be identified by class and common administrative costs will be allocated to each rate class pro-rata based upon the proportion of direct costs. Administrative costs shall not exceed 15% of total CAC program costs.

BA = Balance adjustment. The BA shall compute differences between Rider CAC collections by class and expenditures by class for the 12-month period ending the prior (date) and collect the over/under recovery during the 12-month period beginning (date) of the following year.

NV = Actual volumes from the prior fiscal year (normalized for weather and growth/attrition) listed in Ccf for each rate class.

PROGRAM SELECTION

Program selection will be determined on an annual basis and a summary of programs

GAS SERVICES DIVISION

DESCRIPTION

selected for the upcoming 12-month period will be provided to the Regulatory Body by October 15th of each calendar year. The overall portfolio of program offerings will be designed to be impactful and cost-effective based on Texas Gas Service's knowledge of its customer base and experience administering various conservation and energy efficiency program initiatives.

REPORTING

The following documents will be filed with the Regulatory Body:

a) A schedule indicating the new CAC rate for each of the affected rate classes, to be filed within 20 days of implementation.

b) An annual report of the prior fiscal year collections and disbursements, to be filed within the 120 days following the prior fiscal year end. The annual report will also be made available on the company's website. The annual filing shall include detailed calculations of the BCD and the Balancing Adjustments, as well as data on the total cost of the Energy Efficiency Program. Detailed tracking and reporting of program administration costs is also provided.

c) An annual budget for the following year will be provided to the Regulatory Body by the Company by October 15 each calendar year. If no action is taken by the Regulatory Body by November 30, the budget will automatically be approved for the next calendar year.

SUBCHAPTER C
REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division

- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

DESCRIPTION

consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \frac{\text{WNAD}}{\text{CV}}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} * \text{CB} * \text{WF}) * \text{COS rate, where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

Austin, Bee Cave, Cedar Park, Dripping Springs, Kyle, Lakeway, Rollingwood, Sunset Valley, and West Lake Hills:

Residential 0.15429; Commercial 0.39358; Public Authority 1.97830; Public Schools 4.27513

Cuero, Gonzales, Lockhart, Luling, Nixon, Shiner, and Yoakum

Residential 0.13457; Commercial 0.29094

CV = Current Volumes for the billing period.

FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated and unincorporated areas of its Central Texas Service Area including Austin, Bee Cave, Buda (environs only), Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after August 25, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas or a municipal regulatory authority. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission or municipal regulatory no later than June 15.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation</p>

DESCRIPTION

Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, including prudently incurred gains or losses on the approved use of natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), including prudently incurred gains or losses on the use of approved natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), and (e) total amount of Uncollectible Cost of Gas during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the

DESCRIPTION

Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return of 7.308% per annum.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including gains and losses from approved hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9491

RATE SCHEDULESCHEDULE IDDESCRIPTION

Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.

2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.

3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.

4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of hedging activities stated as costs to the average residential and commercial customer during the period.

5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.

6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

TEXAS GAS SERVICE COMPANY
 Central Texas Service Area
 RATE SCHEDULE 3Z
 INDUSTRIAL SERVICE RATE

APPLICABILITY

Applicable to any qualifying industrial customer whose primary business activity at the location served is included in one of the following classifications of the Standard Industrial Classification Manual of the U.S. Government.

Division B - Mining - all Major Groups

Division D - Manufacturing - all Major Groups

Divisions E and J - Utility and Government - facilities generating power or resale only

TERRITORY

Environs of the Central Texas Service Area, which includes the unincorporated areas of Austin, Bee Cave, Buda, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.

COST OF SERVICE RATE

During each monthly billing period:

A customer charge per meter per month of \$150.00 plus
 All Ccf per monthly billing period @ \$0.11186 per Ccf.

OTHER ADJUSTMENTS

Cost of Gas Component: The basic rates for cost of service set forth above shall be increased by the amount of the Cost of Gas Component for the billing month computed in accordance with the provisions of Rate Schedule 1.

Pipeline Integrity Testing Rider: The billing shall reflect adjustments in accordance with provisions of the Pipeline Integrity Testing Rider, Rate Schedule PIT.

Rate Schedule RCE: Adjustments in accordance with provisions of the Rate Case Expense Surcharge Rider, RCE-ENV. Taxes: Plus applicable taxes and fees related to above.

CONDITIONS

Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.

PIT-CTX-ISOS

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE PIT

Central Texas Service Area

PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the prior year (including contractor costs but excluding the labor cost of TGS employees. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's Central Texas Service Area (CTSA), both within the incorporated municipal limits of Austin, Bee Cave, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley and West Lake Hills and Yoakum, Texas (collectively, the CTSA Cities), and in the unincorporated areas (environs) adjacent to the CTSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the CTSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the

DESCRIPTION

flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's pipelines in the CTSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense incurred in the prior year for Pipeline Integrity Safety Testing, and shall be calculated as follows:

The Total Annual Testing Expense shall be divided by the estimated average annual usage to produce the annual PIT Surcharge.

$$\text{PIT Surcharge} = \frac{\text{Total Annual Testing Expense}}{\text{Estimated Annual Usage}}$$

Based upon customer data for the prior calendar year and any other relevant factors, the estimated annual usage may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each annual recovery period, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the CTSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2016 and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn

DESCRIPTION

a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year, the Company shall file a report with the Commission and the CTSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the CTSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the CTSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8
 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C
 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9491

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on

DESCRIPTION

June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RATE SCHEDULE

<u>SCHEDULE ID</u>	<u>DESCRIPTION</u>
1-CTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Central Texas Service Area COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a</p>

DESCRIPTION

result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s).

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 9% per annum

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9494

RATE SCHEDULESCHEDULE IDDESCRIPTION

compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

DESCRIPTION

6. An affidavit signed by an officer of the utility stating that neither TGS nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

I. QUARTERLY IMBALANCE REPORTS

The Company shall file a Quarterly Report with the Regulatory Authority that provides information concerning imbalances created by the Company's transportation customers. The report is due 45 days after the close of each calendar quarter and shall contain the following information:

1. Monthly imbalances by supplier and the system total,
2. Cumulative imbalance by supplier and the system total,
3. Amount of cash transactions between the Company and gas supplier for each month, and
4. Calculation of the monthly WACOG for the Company for the Company gas supplies, including volume and prices.

 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8
 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C
 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

DESCRIPTION

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

DESCRIPTION

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RCR-ENV-CTX-OS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-ENV RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for the unincorporated areas of the Central Texas Service Area: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on

DESCRIPTION

behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: $RCR\ Rate = \frac{CPRC}{NV}$ CPRC = Relocation costs for the current recovery period. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-ENV-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for rate schedules: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of a RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that reasonable efforts were made to receive reimbursement from the entity requiring each relocation, if applicable. 6. A schedule showing RCR collections. Supersedes Same Rate Sheet Dated Meters Read On and After January 25, 2001 June 23, 2004

SCHEDULE ID DESCRIPTION

1-CTX-ISOS-COG

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE 1
 Central Texas Service Area
 COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated and unincorporated areas of its Central Texas Service Area including Austin, Bee Cave, Buda (environs only), Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after August 25, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas or a municipal regulatory authority. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission or municipal regulatory no later than June 15.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation

DESCRIPTION

Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, including prudently incurred gains or losses on the approved use of natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), including prudently incurred gains or losses on the use of approved natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), and (e) total amount of Uncollectible Cost of Gas during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the

TARIFF CODE: DS RRC TARIFF NO: 9495

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return of 7.308% per annum.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including gains and losses from approved hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 9495

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.

2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.

3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.

4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of hedging activities stated as costs to the average residential and commercial customer during the period.

5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.

6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

 RATE SCHEDULE 4H
 PUBLIC SCHOOLS SPACE HEATING SERVICE RATE

APPLICABILITY

Applicable to public schools for space heating purposes. This rate is only available to full requirements customers of Texas Gas Service Company.

TERRITORY

Environs of the Central Texas Service Area, which includes the unincorporated areas of Austin, Bee Cave, Buda, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.

COST OF SERVICE RATE

During each monthly billing period:

A customer charge per meter per month of \$100.00 plus
 All Ccf per monthly billing period @ \$0.11000 per Ccf.

OTHER ADJUSTMENTS

Cost of Gas Component: The basic rates for cost of service set forth above shall be increased by the amount of the Cost of Gas Component for the billing month computed in accordance with the provisions of Rate Schedule 1.

Weather Normalization Adjustment: The billing shall reflect adjustments in accordance with the provisions of the Weather Normalization Adjustment Clause, Rate Schedule WNA.

Pipeline Integrity Testing Rider: The billing shall reflect adjustments in accordance with provisions of the Pipeline Integrity Testing Rider, Rate Schedule PIT.

Rate Schedule RCE: Adjustments in accordance with provisions of the Rate Case Expense Surcharge Rider, RCE-ENV. Taxes: Plus applicable taxes and fees related to above.

CONDITIONS

Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE PIT

Central Texas Service Area

PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the prior year (including contractor costs but excluding the labor cost of TGS employees. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's Central Texas Service Area (CTSA), both within the incorporated municipal limits of Austin, Bee Cave, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley and West Lake Hills and Yoakum, Texas (collectively, the CTSA Cities), and in the unincorporated areas (environs) adjacent to the CTSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the CTSA under the Pipeline Integrity Safety Testing Program.

The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9495

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's pipelines in the CTSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense incurred in the prior year for Pipeline Integrity Safety Testing, and shall be calculated as follows:

The Total Annual Testing Expense shall be divided by the estimated average annual usage to produce the annual PIT Surcharge.

$$\text{PIT Surcharge} = \frac{\text{Total Annual Testing Expense}}{\text{Estimated Annual Usage}}$$

Based upon customer data for the prior calendar year and any other relevant factors, the estimated annual usage may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each annual recovery period, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the CTSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2016 and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

DESCRIPTION

On or before February 21st after each calendar year, the Company shall file a report with the Commission and the CTSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the CTSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the CTSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS
CHAPTER 8
PIPELINE SAFETY REGULATIONS
SUBCHAPTER C
REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the

DESCRIPTION

annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA-CTX-ISOS

TEXAS GAS SERVICE COMPANY
 Central Texas Service Area
 RATE SCHEDULE WNA
 WEATHER NORMALIZATION ADJUSTMENT CLAUSE

APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated and unincorporated areas served in the Central Texas Area including Austin, Bee Cave, Buda (environs Only), Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills, and Yoakum: Rate Schedules 10, 1Z, 20, 2Z, 40, 4Z, 48 and 4H. The WNA shall be effective during the September through May billing cycles.

PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

WNA MECHANISM

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9495

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \frac{\text{WNAD}}{\text{CV}}, \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} * \text{CB} * \text{WF}) * \text{COS rate}, \quad \text{where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

Austin, Bee Cave, Cedar Park, Dripping Springs, Kyle, Lakeway, Rollingwood, Sunset Valley, and West Lake Hills:

- Residential 0.15429;
- Commercial 0.39358;
- Public Authority 1.97830;
- Public Schools 4.27513

Cuero, Gonzales, Lockhart, Luling, Nixon, Shiner, and Yoakum

- Residential 0.13457;
- Commercial 0.29094

CV = Current Volumes for the billing period.

FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-CTX-ISOS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE 1 Central Texas Service Area COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated and unincorporated areas of its Central Texas Service Area including Austin, Bee Cave, Buda (environs only), Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.</p> <p>B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees and taxes. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after August 25, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas or a municipal regulatory authority. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission or municipal regulatory no later than June 15. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation</p>

TARIFF CODE: DS RRC TARIFF NO: 9496

RATE SCHEDULESCHEDULE IDDESCRIPTION

Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, including prudently incurred gains or losses on the approved use of natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), including prudently incurred gains or losses on the use of approved natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), and (e) total amount of Uncollectible Cost of Gas during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the

RATE SCHEDULESCHEDULE IDDESCRIPTION

Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return of 7.308% per annum.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including gains and losses from approved hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9496

RATE SCHEDULESCHEDULE IDDESCRIPTION

Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.

2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.

3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.

4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of hedging activities stated as costs to the average residential and commercial customer during the period.

5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.

6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

DESCRIPTION

TEXAS GAS SERVICE COMPANY
Central Texas Service Area
RATE SCHEDULE 4Z

PUBLIC AUTHORITY SERVICE RATE

APPLICABILITY

Applicable to any qualifying public authority, public and parochial schools and colleges, and to all facilities operated by Governmental agencies not specifically provided for in other rate schedules or special contracts. This rate is only available to full requirements customers of Texas Gas Service Company.

TERRITORY

Environs of the Central Texas Service Area, which includes the unincorporated areas of Austin, Bee Cave, Buda, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.

COST OF SERVICE RATE

During each monthly billing period:

A customer charge per meter per month of \$47.00 plus

All Ccf per monthly billing period @ \$0.12529 per Ccf

OTHER ADJUSTMENTS

Cost of Gas Component: The basic rates for cost of service set forth above shall be increased by the amount of the Cost of Gas Component for the billing month computed in accordance with the provisions of Rate Schedule 1.

Weather Normalization Adjustment: The billing shall reflect adjustments in accordance with the provisions of the Weather Normalization Adjustment Clause, Rate Schedule WNA.

Pipeline Integrity Testing Rider: The billing shall reflect adjustments in accordance with provisions of the Pipeline Integrity Testing Rider, Rate Schedule PIT.

Rate Schedule RCE: Adjustments in accordance with provisions of the Rate Case Expense Surcharge Rider, RCE-ENV.

Taxes: Plus applicable taxes and fees related to above.

CONDITIONS

Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.

Central Texas Service Area

PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the prior year (including contractor costs but excluding the labor cost of TGS employees. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's Central Texas Service Area (CTSA), both within the incorporated municipal limits of Austin, Bee Cave, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley and West Lake Hills and Yoakum, Texas (collectively, the CTSA Cities), and in the unincorporated areas (environs) adjacent to the CTSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the CTSA under the Pipeline Integrity Safety Testing Program.

The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any

DESCRIPTION

required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's pipelines in the CTSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense incurred in the prior year for Pipeline Integrity Safety Testing, and shall be calculated as follows:

The Total Annual Testing Expense shall be divided by the estimated average annual usage to produce the annual PIT Surcharge.

$$\text{PIT Surcharge} = \frac{\text{Total Annual Testing Expense}}{\text{Estimated Annual Usage}}$$

Based upon customer data for the prior calendar year and any other relevant factors, the estimated annual usage may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each annual recovery period, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the CTSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2016 and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base)

for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year, the Company shall file a report with the Commission and the CTSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the CTSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the CTSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

RATE SCHEDULE PSF
PIPELINE SAFETY AND REGULATORY PROGRAM FEES
TEXAS ADMINISTRATIVE CODE TITLE 16
ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS
CHAPTER 8
PIPELINE SAFETY REGULATIONS
SUBCHAPTER C
REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and

regulatory program fee to the Commission; (C) shall be applied in the billing

DESCRIPTION

cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

DESCRIPTION

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA-CTX-ISOS

TEXAS GAS SERVICE COMPANY
 Central Texas Service Area
 RATE SCHEDULE WNA
 WEATHER NORMALIZATION ADJUSTMENT CLAUSE

APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated and unincorporated areas served in the Central Texas Area including Austin, Bee Cave, Buda (environs Only), Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills, and Yoakum: Rate Schedules 10, 1Z, 20, 2Z, 40, 4Z, 48 and 4H. The WNA shall be effective during the September through May billing cycles.

PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to

TARIFF CODE: DS RRC TARIFF NO: 9496

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

colder or warmer than normal weather, as established in the Company's most recent rate filing.

WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule.

The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \text{WNAD} \times \text{CV} \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} \times \text{CB} \times \text{WF}) \times \text{COS rate, where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

DESCRIPTION

surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

DESCRIPTION

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

DESCRIPTION

Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after August 25, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas or a municipal regulatory authority. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission or municipal regulatory no later than June 15.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, including prudently incurred gains or losses on the approved use of natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the

TARIFF CODE: DS RRC TARIFF NO: 9497

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), including prudently incurred gains or losses on the use of approved natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), and (e) total amount of Uncollectible Cost of Gas during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the

DESCRIPTION

Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return of 7.308% per annum.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including gains and losses from approved hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

rationale for the changes. The report should include the customer impact of hedging activities stated as costs to the average residential and commercial customer during the period.

5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.

6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

TEXAS GAS SERVICE COMPANY
 Central Texas Service Area
 RATE SCHEDULE C-1-ENV
 ELECTRICAL COGENERATION RATE

APPLICABILITY

Service under this rate schedule is available to any customers who use natural gas for the purpose of cogeneration or the use of fuel cell technology. Cogeneration is defined as the use of thermal energy to produce electricity with recapture of by-product heat in the form of steam, exhaust heat, etc. for industrial process use, space heating, food processing or other purposes.

TERRITORY

Environs of the Central Texas Service Area, which includes the unincorporated areas

of Austin, Bee Cave, Buda, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.

COST OF SERVICE RATE

During each monthly billing period:

A customer charge per meter per month of \$70.00 plus

For the First 5,000 Ccf/Month \$0.08708 per Ccf

For the Next 35,000 Ccf/Month \$0.07838 per Ccf

For the Next 60,000 Ccf/Month \$0.06512 per Ccf

All Over 100,000 Ccf/Month \$0.05004 per Ccf

OTHER ADJUSTMENTS

Cost of Gas Component: The basic rates for cost of service set forth above shall be increased by the amount of the Cost of Gas Component for the billing month computed in accordance with the provisions of Rate Schedule 1.

Rate Schedule RCE: Adjustments in accordance with provisions of the Rate Case Expense Surcharge Rider, RCE-ENV.

Pipeline Integrity Testing Rider: The billing shall reflect adjustments in accordance with provisions of the Pipeline Integrity Testing Rider, Rate Schedule PIT.

Taxes: Plus applicable taxes and fees related to above.

CONDITIONS

Gas taken under this rate shall be used exclusively for the purpose of cogeneration and fuel cell technology as defined in the Applicability section of this rate schedule and not for other purposes. The gas taken under this rate will be separately metered.

This rate will not be available for standby use.

The curtailment priority of any customer served under this rate schedule shall be the same as the curtailment priority which would pertain if gas were used directly to provide energy for uses as defined and listed in the Company's curtailment plan.

Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE PIT

Central Texas Service Area

PIPELINE INTEGRITY TESTING (PIT) RIDER

PURPOSE

The purpose of this Pipeline Integrity Testing Rider is to promote the public interest in pipeline safety by enabling the Company to recover the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the prior year (including contractor costs but excluding the labor cost of TGS employees. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's Central Texas Service Area (CTSA), both within the incorporated municipal limits of Austin, Bee Cave, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley and West Lake Hills and Yoakum, Texas (collectively, the CTSA Cities), and in the unincorporated areas (environs) adjacent to the CTSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the CTSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test

DESCRIPTION

water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's pipelines in the CTSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense incurred in the prior year for Pipeline Integrity Safety Testing, and shall be calculated as follows:

The Total Annual Testing Expense shall be divided by the estimated average annual usage to produce the annual PIT Surcharge.

$$\text{PIT Surcharge} = \frac{\text{Total Annual Testing Expense}}{\text{Estimated Annual Usage}}$$

Based upon customer data for the prior calendar year and any other relevant factors, the estimated annual usage may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each annual recovery period, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the CTSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2016 and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such

DESCRIPTION

regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year, the Company shall file a report with the Commission and the CTSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the CTSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b) providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the CTSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

21.1 FEES All fees and charges shall be adjusted by taxes and fees (including franchise fees) where applicable.

a) Initiation of Service

i) Connect (Section 5.4) \$35.00

A connection fee shall be charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when a meter is set and/or gas turned on.

ii) Read-In (Section 5.4) \$10.00

A read-in fee shall be charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when only a meter reading is required.

iii) Special Handling & Expedited Service (Section 5.4 and 15.3)

In addition to initiation of service fee above, a fee may be charged to any Applicant whose request to initiate service cannot be worked during normal business hours or requires special handling. Applicant must be advised that an additional fee will be charged and must agree to pay such charge.

These charges include:

1) Special Handling \$6.00

The Company may, at Applicant or Customer's request, provide special handling in order to meet the Applicant or Customer's requirements. Special handling does not include calling the Applicant/Customer in advance or A.M. or P.M. scheduling

2) Expedited Service and Overtime Rate \$67.50

The Applicant or Customer's request for expedited service may be scheduled at any time to fit the Company's work schedule, and an Expedited Service charge shall be collected. The Company shall not be obligated to provide Expedited Service when the personnel and resources to do so are not reasonably available.

b) Services - Others As stated below Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying Company, the Applicant may be requested to reimburse the Company for such charge.

DESCRIPTION

surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

DESCRIPTION

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

1-CTX-ISOS-COG

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE 1
 Central Texas Service Area
 COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated and unincorporated areas of its Central Texas Service Area including Austin, Bee Cave, Buda (environs only),

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9498

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after August 25, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas or a municipal regulatory authority. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission or municipal regulatory no later than June 15.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, including prudently incurred gains or losses on the approved use of natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 9498

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), including prudently incurred gains or losses on the use of approved natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), and (e) total amount of Uncollectible Cost of Gas during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9498

RATE SCHEDULESCHEDULE IDDESCRIPTION

Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return of 7.308% per annum.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including gains and losses from approved hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the

DESCRIPTION

rationale for the changes. The report should include the customer impact of hedging activities stated as costs to the average residential and commercial customer during the period.

5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.

6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

COST OF SERVICE RATE

During each monthly billing period:

A customer charge per meter per month of \$50.00 plus -

All Ccf per monthly billing period @ \$0.07148 per Ccf

OTHER ADJUSTMENTS

Cost of Gas Component: The basic rates for cost of service set forth above shall be increased by the amount of the Cost of Gas Component for the billing month computed in accordance with the provisions of Rate Schedule 1.

Pipeline Integrity Testing Rider: The billing shall reflect adjustments in accordance with provisions of the Pipeline Integrity Testing Rider, Rate Schedule PIT.

Rate Schedule RCE: Adjustments in accordance with provisions of the Rate Case Expense Surcharge Rider, RCE-ENV.

Taxes: Plus applicable taxes and fees related to above

CONDITIONS

Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority. The Company's ABC Plan is not available to customers taking this service. This rate does not include any road use fees, permits, or taxes etc. It provides for the delivery of uncompressed natural gas only. Customer must provide affidavit to the Company certifying that the gas delivered will be compressed for use as motor fuel. Compressor station subject to inspection by Company engineers.

DESCRIPTION

interest in pipeline safety by enabling the Company to recover the reasonable and necessary Pipeline Integrity Safety Testing expenses incurred by the Company during the prior year (including contractor costs but excluding the labor cost of TGS employees. These legally mandated operating and maintenance expenses shall be recovered through a separate monthly volumetric charge (the Pipeline Integrity Testing or PIT Surcharge) that shall be shown as a separate line item on the customer's monthly bill and calculated for each customer class as described below. Capital expenditures associated with the Pipeline Integrity Program shall continue to be recovered through base rates and any interim rate adjustments implemented pursuant to Section 104.301 of the Gas Utility Regulatory Act.

APPLICABILITY

This Rider shall be applied to all gas sales and transportation customers within the service territory designated below, except special contract customers.

TERRITORY

This Rider shall apply throughout the Company's Central Texas Service Area (CTSA), both within the incorporated municipal limits of Austin, Bee Cave, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley and West Lake Hills and Yoakum, Texas (collectively, the CTSA Cities), and in the unincorporated areas (environs) adjacent to the CTSA Cities.

QUALIFYING EXPENSES

This Rider applies only to the legally mandated safety testing of the Company's transmission lines in the CTSA under the Pipeline Integrity Safety Testing Program. The operating and maintenance expense items that qualify for recovery under this Rider shall include the contractor costs associated with land and leak survey, permitting, and job order preparation and completion; the clearing of right-of-way; any needed notifications to adjacent businesses and residences; traffic control equipment and personnel; Direct Current Voltage Gradient (DCVG), Close Interval (CI), and other surveys to ensure the integrity of the pipeline system; any required rigid bypasses; flushing of the lines and testing and disposal of the flush water; hydrostatic testing of the lines and analysis and disposal of the test water; any required pigging of the lines in connection with safety testing; any required x-ray welding; metallurgical testing of the pipeline or components thereof; site restoration, painting, and clean-up; expenses associated with providing a supply of compressed natural gas (CNG) to ensure uninterrupted service to customers during testing; and any other operating and maintenance expenses reasonably necessary to safely and effectively perform required safety testing of the Company's pipelines in the CTSA. Neither capital expenditures by the Company, nor the labor cost of TGS employees, shall be recovered under this Rider.

CALCULATION OF PIT SURCHARGES

The Pipeline Integrity Testing Surcharges established under this Rider shall be designed so as to recover the Total Testing Expense incurred in the prior year for Pipeline Integrity Safety Testing, and shall be calculated as follows:

RAILROAD COMMISSION OF TEXAS
 GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 9498

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Total Annual Testing Expense shall be divided by the estimated average annual usage to produce the annual PIT Surcharge.

$$\text{PIT Surcharge} = \frac{\text{Total Annual Testing Expense}}{\text{Estimated Annual Usage}}$$

Based upon customer data for the prior calendar year and any other relevant factors, the estimated annual usage may be revised annually to account for customer growth, and the resulting revised PIT Surcharge shall be applied to each class for the ensuing 12-month recovery period.

ANNUAL RECONCILIATION

After completion of each annual recovery period, the total revenues collected under this Rider for that year shall be reconciled against the revenues previously calculated to be collected for that year, and the PIT Surcharge for each class shall be adjusted upward or downward so that the Company recovers any underrecoveries or refunds any overrecoveries that may have accrued under the Rider, plus monthly interest on those underrecoveries or overrecoveries at the cost of long-term debt approved in the Company's most recent general rate case in which rates were set by the Commission for application to customers in the CTSA Cities. The reconciliation shall be filed with the regulatory authority on or before February 21st of each year, and the regulatory authority shall complete its review of the reconciliation on or before March 21st of each year, so that the Company can implement the reconciled PIT Surcharges beginning with the first billing cycle for April of each succeeding year.

DEFERRED ACCOUNTING

The Company is authorized and directed to defer, as a regulatory asset, all Pipeline Integrity Safety Testing expenses incurred during the testing cycle starting on January 1, 2016 and all revenues specifically collected under this Rider shall be applied to the deferred expense account. The Company shall not earn a return on any regulatory asset created under this provision, and no such regulatory asset shall be included in the Company's invested capital (rate base) for ratemaking purposes.

ANNUAL REPORT & APPLICABLE PSCC

On or before February 21st after each calendar year, the Company shall file a report with the Commission and the CTSA Cities showing all Pipeline Integrity Safety Testing expenses incurred during the previous calendar year and verifying the prior year's collections and any underrecoveries or overrecoveries accruing to date under this Rider. The report shall separately identify and list such expenses by account number and project number. Prior to the effective date of this Rider and on or before February 21st of each succeeding year while this Rider is in effect, the Company shall also file an Addendum to this Rider with the Commission and the CTSA Cities (a) identifying the PIT Surcharges that will be applied during the ensuing 12-month recovery period from April 1st through March 31st, and (b)

providing the underlying data and calculations on which each PIT Surcharge for that period is based.

NOTICE TO AFFECTED CUSTOMERS

In addition to the annual report and Addendum to this Rider required above, the Company shall provide, on or before March 31st after each calendar year, written notice to each affected customer of (a) the PIT Surcharge that will be applied during the ensuing 12-month period from April 1st through March 31st, and (b) the effect the PIT Surcharge is expected to have on the average monthly bill for each affected customer class. The written notice shall be provided in both English and Spanish, shall be the only information contained on the piece of paper on which it is printed, and may be provided either by separate mailing or by insert included with the Company's monthly billing statements. The Company shall also file an affidavit annually with the Commission and the CTSA Cities certifying that notice has been provided to customers in this manner. The notice shall be presumed to be complete three calendar days after the date the separate mailing or billing statement is deposited in a postage-paid, properly addressed wrapper in a post office or official depository under care of the United States Postal Service. The initial notice shall be filed with, reviewed, and approved by the regulatory authority, and each subsequent notice shall follow the same format as that of the approved initial notice.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-Drip-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Dripping Springs Service Area COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Dripping Springs Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.</p> <p>3. Cost of Purchased Gas - The cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, including prudently incurred gains or losses on natural gas financial instruments(b) the revenues received from operation of the provisions of this cost of gas clause , (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s), and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15405

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, including prudently incurred gains or losses incurred on natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s).

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general

 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

DESCRIPTION

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15405

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

CURTAILMENT PLAN

<u>PLAN ID</u>	<u>DESCRIPTION</u>
3008	Attachment A (of Docket No. 3008 issued June 22, 1981)
	Texas Gas Service Company Central Texas District
	CURTAILMENTS
	14.1 CURTAILMENTS
	Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.
	14.2 PRIORITY CLASSES
	All customers served by the Company shall be classified into one of the following priority groups:
	A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation.
	B. Gas sold for agricultural purposes.
	C. This category consists of the following:
	(1) Gas sold to small commercial and small industrial customers using 200 Mcf or less on an average day.
	(2) Gas sold to industrial customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production.
	(3) Gas sold to commercial or industrial customers used to provide water heating, heating and cooling for human comfort in the plant or office areas.
	(4) Gas sold for use in power generating plants for start up, safety and flame stabilization.
	D. Gas sold to commercial customers using more than 200 Mcf, but less than 1,500 Mcf on an average day.
	E. Gas sold to small industrial customers using more than 200 Mcf and less than 3,000 Mcf on an average day, provided such user has no economically feasible alternate fuel.
	F. This Category consists of the following:

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15405

(1) Gas sold to industrial customers for feedstock use where the gas volume is more than 200 Mcf and less than 3,000 Mcf on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such customer must prorate its demand for gas and must maximize its use of all other sources of as

(2) Small public utility electric generating systems which use less than 3,000 Mcf on an average day.

G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve customers whose usage falls within the descriptions of A above and small commercial and industrial customers using 20,000 Kwh or less on an average day.

H. This category consists of the following:

- (1) Gas sold for use by commercial customers in excess of 1,500 Mcf on an average day.
- (2) Small industrial customers not qualifying under C, D, E, or F above.

I. All gas sold for use in existing power generating plants for the generation of electricity not included in G and C(4) above.

J. This category consists of the following:

- (1) Gas sold to large users of gas, in excess of 3,000 Mcf on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics.
- (2) Gas sold for feedstock as defined in F above, in excess of 3,000 Mcf on an average day.

K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 Mcf on an average day and any other use which does not qualify under a preceding priority.

14.3 METHOD OF CURTAILMENT

Curtailement shall be ordered ratably insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities 1 and 2. Total curtailement during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system my be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

14.4 CLASS AND GROUP CURTAILMENTS

No curtailement shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailement of service.

14.5 NOTIFICATION AND PENALTIES

The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any customer (other than a customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened.

14.6 SUSPENSION OF THIS SECTION

This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

LINE EXTENSION POLICY

<u>POLICY ID</u>	<u>DESCRIPTION</u>
1175	<p>TEXAS GAS SERVICE COMPANY Texas Tariff - Dripping Springs Service Area ENVIRONS OF THE DRIPPING SPRINGS SERVICE AREA (From Quality of Service Rules effective 01/31/06) 01.06.01 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation. 01.06.02 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 01.06.03 INITIAL ALLOWANCE FOR POTENTIAL PERMANENT CUSTOMERS The Company shall also determine the number of Potential Permanent Customers located along the route of the extension which are expected to be served therefrom. To be considered a Potential Permanent Customer, the occupant of such premise must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be considered to be Potential Permanent Customers only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 25 feet of distribution main shall be given for each Potential Permanent Customer who files an application for service from the proposed main extension to a facility that exists at the time of the application and who agrees to initiate gas service upon completion of the extension. 01.06.04 ADVANCES The difference between the total cost of facilities as determined in Section 01.06.02 above and the Initial Allowance for Potential Customers as determined in Section 01.06.03 above, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less. 01.06.05 CONSTRUCTION OF FACILITIES As soon as practical, usually within 60 days, after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicants(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the company's name and on its form at no cost to the Company (except for fees involved in the recording of documents). 01.06.06 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall</p>

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15405

thereafter review the extension agreement at its second through fifth in-service anniversary dates or based upon dates established in a separate contract. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Section 01.06.03 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be up to \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service.

01.06.07 REFUND LIMITATIONS The Company may, at its sole option, make a refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the initial advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

01.06.08 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining un-refunded shall be made to the person or business in whose name the extension agreement is made to his or her assignee. If that letter is returned undelivered, the check shall be canceled and the next review made without regard to that refund.

All sums described in this Section which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15405

01.01.01 GENERAL STATEMENT
 OF PURPOSE These Service Regulations Provide specific rules to be followed by the Company in supplying natural gas utility service and by the Customer in using such service. Are designed to provide good service, fair treatment, and maximum safety to the natural gas utility Customers and to the Company. Are officially on file in the City Clerk's office and the Railroad Commission of Texas Gas Utilities Division. Copies are available to natural gas utility Customers at the Company's Austin offices. Supersede and annul all previous service regulations pertaining to the supplying and taking of the Company's natural gas service. Subsequent revisions to these policies and procedures may be made with the approval of the appropriate regulatory authority.

01.01.02 GENERAL OPERATING
 POLICIES Service under this Tariff is subject to the original jurisdiction of the Railroad Commission of Texas. It is the policy of the Company to cooperate with charitable and welfare organizations assisting Customers in paying and planning for payment of their bills. Free service shall not be rendered by the Company to any Customer. All Customers within the Company's service area shall be served in accordance with the prices, terms and conditions provided for in applicable Tariffs and regulations. It is the on-going policy of the Company to provide utility services in a fair, equitable, and courteous manner to all Customers.

UTILITY SERVICE
 REGULATIONS GENERAL RULES PART 01.00.00 Definitions Section 01.02.01
 Page 2 01.02.01
 ACCOUNT An account is the record of consumption, charges and payments for services rendered to a Customer at a specific service address. Active Account - An account is active when any service is available to the Customer at the service address specified for that account. Inactive Account - An account is inactive when all service is terminated for the Customer at the service address specified for that account.

01.02.02
 APPLICANT Any person, organization or group of persons or organizations making a formal request either orally or in writing for gas service from the Company.

01.02.03 BILLING MONTH An interval of approximately thirty (30) days between successive meter reading dates.

01.02.04 COMMERCIAL OFFICE
 A department of the Company's local operations responsible for Initiation and termination of service. Regular readings of meters. Regular billing for service (including resolving related billing problems and inquiries). Collection of and accounting for accounts receivable.

01.02.05 COMMERCIAL
 SERVICE Service to Consumers engaged primarily in the sale or furnishing of goods and services and any usage not otherwise provided for.

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Definitions cont. Section 01.02.06
 Page 3 01.02.06

CONSUMER Any person or organization receiving and using gas from the Company for his or her own needs whether or not the gas is billed directly to him or her, or to a second party. (For example, in the case of rental unit where the utilities are part of the rent, the landlord is a Customer and the tenant is a Consumer).

01.02.07 CREDIT SECURITY
 That which is required by the Company to cover risk of nonpayment by Customer for utility services rendered.

01.02.08
 CUSTOMER Any individual, partnership, association, firm, public or private corporation, governmental authority, or other legal entity being billed for gas utility service by the

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 15405

Company at any specified service address.

01.02.09 CUSTOMER'S PIPING
All piping and equipment installations on the Customer's side of the meter must be in conformance with applicable City codes. Customer piping must pass applicable pressure testing before initiation of natural gas service.

01.02.10 CUSTOMER PAYMENT STANDARDS
The minimum payment practices a natural gas utility Customer must meet in lieu of providing other forms of credit security.

01.02.11 HAZARDOUS WEATHER CONDITIONS
The average daily temperature is freezing or below; or the average daily temperatures are predicted to be freezing or below over a 24-hour period.

UTILITY SERVICE REGULATIONS
GENERAL RULES PART 01.00.00 Definitions Section 01.02.12 Page 4 01.02.12

METER The meter or meters, together with auxiliary devices, if any, constituting the complete installation needed to measure the natural gas supplied to any individual Customer at a single point of delivery.

01.02.13 NOTICE Unless otherwise specified, a written notification delivered personally or mailed by one party to the other at such other party's last known address, the period of notice as required by any applicable section of these Regulations being computed from the date of such personal delivery or mailing.

01.02.14 POINT OF DELIVERY
The outlet of the Company's meter where it connects to Customer's piping.

01.02.15 REGULATORY AUTHORITY
The City has original jurisdiction over the Company's rates and service regulations within the municipal boundaries of the City according to state law. Appellate jurisdiction rests with the Railroad Commission of Texas. Outside the municipal boundaries, the Railroad Commission of Texas has original jurisdiction over the Company's rates and service regulations.

01.02.16 SERIOUS ILLNESS Any illness wherein termination of natural gas service would be especially dangerous to that person's health as certified by a licensed physician.

01.02.17 SERVICE ADDRESS
Specified address of a location which can receive natural gas utility service provided by the Company. A valid Service Address shall contain the street name and house number and, when applicable, the building, unit and/or suite number. The Service Address must be visible from the street which serves that structure.

UTILITY SERVICE REGULATIONS GENERAL RULES PART
01.00.00 Definitions Section 01.02.18 Page 5 01.02.18 SERVICE CONTRACT

A service contract, whether or not in writing, exists between a Customer and the Company when the Company supplies service and the Customer accepts it. A Customer accepts natural gas service: when the Customer or Customer's agent requests utility service and the Company provides it, or when the Customer, though not requesting service, knowingly receives service for more than seventy-two (72) hours, benefits from the service, and does not request discontinuance in writing prior to the expiration of the seventy-two (72) hour period. All rights and obligations under this contract are governed by state and federal law, applicable rate ordinances and by these regulations, including any amendments to the foregoing, in effect at the time when service is rendered. Subject to the foregoing, every service contract shall obligate the Customer to pay for service rendered, and shall obligate the Company to continue providing service for so long as the Customer pays for such service on a timely basis by paying for service rendered by the due date printed on the bill.

01.02.19 SERVICE PIPE The Company owned piping, connecting Company's distribution facilities to the yardline at the property line.

01.02.20 YARDLINE The piping carrying natural gas on the Customer's property between the property line and meter.

REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section
 01.03.01 Public Information Page 6

01.03.01 FACILITIES Upon request, the Company will provide information regarding the physical locations, size, capacity and other pertinent data regarding its facilities based on information available to it for any valid purpose relating to the provision of gas service.

01.03.02 AVAILABILITY AND DISTRIBUTION OF RATE SCHEDULES AND UTILITY SERVICE REGULATIONS All Customers living within the City shall be served under rate schedules filed with the City and Railroad Commission of Texas. All Customers living outside of the city shall be served under rate schedules on file with the Railroad Commission of Texas. Customers shall be assigned to rate schedules in accordance with the class of the particular Customer, the usage which will be made of the gas and that Customer's volume requirements. The Company shall advise the Applicant or Customer how to secure the most advantageous rate schedule available for his usage. A Customer assigned to a rate schedule shall remain on that schedule for a minimum of one year except that an assignment made in error shall be corrected immediately. Questions regarding a nonresidential Customer's classification shall be determined by the location of the Customer's primary business in the latest edition of the Standard Industrial Classification Manual of the United States Government's Office of Management and Budget. The Company shall post a notice in a conspicuous place in its Commercial Offices informing the public that copies of the following are available for inspection: - rate schedules, - utility fees and deposit schedules; and - utility service regulations.

UTILITY SERVICE REGULATIONS Section 01.03.03
 GENERAL RULES PART 01.00.00 Customer Relations and Section
 Public Information Page 7

01.03.03 CHANGE IN RATE SCHEDULES AND CLASSIFICATIONS The Company shall provide public notice of any proposal for a change in rates or service classification that has been made by the Company, prior to its adoption. Such notice shall be made by newspaper publication and shall include information on the proposed changes, the impact of the changes on the Company's revenues, the class of Customers affected by the proposed changes and whether the proposed changes are major changes as defined in the Gas Utility Regulatory Act. The notice shall also inform the Customers that the proposed changes are on file at the City, the Railroad Commission of Texas Gas Utilities Division and at the Company's Commercial offices.

01.03.04 METER READING Upon request the Company shall inform its Customers how to read its meters.

01.03.05 CUSTOMER'S RIGHTS The Company shall annually provide each residential and small commercial Customer with a summary description of: Customer rights; and Company obligations under these rules. This information shall be provided in English and Spanish. New residential and small commercial Customers shall be provided with the description no later than the date they receive their first bill.

01.03.06 SERIOUS ILLNESS The Company will use its best efforts to not discontinue service to a delinquent residential Customer who permanently resides in an individually metered dwelling unit if the Customer establishes that discontinuance of service will result in some person residing at the

residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this Section must make a written request to the Company, supported by a written statement from a licensed physician. The request and physician's statement must be received by UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section 01.03.06 Public Information Page 8 the Company no more than five working days after the date of delinquency of the bill. The Company shall not terminate service for twenty days after the request and physician's statement is received unless the Company and Customer agree to an earlier termination date. A Customer who makes a request for non-termination of service under this section must sign an installment agreement providing for payment of the delinquent service and timely payments of subsequent monthly billings. Failure to comply with the terms of the installment agreement or to make timely payments of subsequent bills may result in termination of service pursuant to Sections 02.07.01 - 02.08.06.

01.03.07 COMPLAINTS The Company shall make a prompt and suitable investigation of complaints made either in person, in writing, or by telephone and will advise the complainant of the results thereof.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.01 Page 9 01.04.01

EXECUTION OF SERVICE CONTRACT A service contract exists between the Company and parties who properly execute an application for service or service contract; or accept or use gas service supplied by the Company under the conditions set forth in Section 01.02.18 or under other conditions that would give rise to an obligation to pay for such service regardless of whether an express agreement, written or oral, exists between the Company and any such party.

01.04.02 SUPPLYING OF SERVICE Utility service is supplied only under and pursuant to these Regulations, any modifications or additions thereto lawfully made, and such applicable rate schedules as may from time to time be lawfully fixed, and pursuant to other tariffs then in effect; at such points of delivery as are adjacent to facilities of the Company that are adequate and suitable as to capacity and character for the service desired; and to installations in conformance with applicable city, federal, state, or town codes. If a Customer wishes to change the point of delivery and/or capacity of the service or require another service the Customer shall bear the cost for any necessary change in accordance with the appropriate rate schedule, and pay any fees necessary for this action. Service will not be supplied to any premises if, at the time of application for service, the Applicant is indebted to the Company for service previously supplied at the same or another address until payment has been made or an acceptable payment agreement has been initiated for such indebtedness. Service will not be supplied for failure to pay the unpaid bill of UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.02 Page 10 another Customer at the same address if such person still resides at the premises to be served or if the Applicant received a beneficial use of the utility service provided the previous Customer.

01.04.03 CONTINUITY OF SERVICE The Company will use reasonable diligence to supply steady and continuous service but does not guarantee the service against irregularities or interruptions. Under certain circumstances it may be necessary to curtail Customers of any class. The procedure for such curtailments is located in Sections 01.08.01 - 01.08.06. The Company may interrupt service during periods of supply or capacity curtailment; when necessary to repair, change, or relocate the Company's distribution systems; without incurring any liability; and for such periods as may be reasonably necessary to make such repairs or changes.

01.04.04 CUSTOMER'S

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15405

RESPONSIBILITIES The Customer assumes all responsibility on the Customer's side of the point of delivery for the service supplied or taken. Maintenance of Facilities The Customer shall maintain all facilities owned by him and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Company shall not be responsible for inspection, maintenance or repair of Customer-owned piping or appliances. The Company shall not be liable for any damages to persons or property resulting from the condition of the Customer's piping or appliances except to the extent that the damages are occasioned by the gross negligence or willful misconduct of the Company. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.04 Page 11

The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Customer, the Customer will reimburse the Company for all costs of repairing or replacing the damaged property. Interruptions in Service The Company shall not be liable for damages occasioned by interruption of service, failure to commence service or delays in commencing service due to (i) accident or damage to the Company's pipelines, regulators and other gas distribution facilities, (ii) strikes, riots, or acts of war, (iii) orders of any court or judge granted in any bonafide adverse legal proceedings or any order of any regulatory authority having jurisdiction, (iv) acts or circumstances beyond the Company's control, and (v) the negligence of the Company, its employees or contractors, except to the extent that the damages are occasioned by the gross negligence or willful misconduct of the Company. Right-of-Way - The Customer shall make or procure conveyance to the Company of perpetual right-of-way: satisfactory to the Company, across the property owned or controlled by the Customer, for the Company's lines or extensions thereof, or other equipment necessary or incidental to the supplying of service to the Customer, and without reimbursement to the Customer from the Company. Access to the Premises - The Customer shall maintain the premises in such a manner that the Company's agents: shall be able to verify the valid Service Address of the premises from the street; and shall have safe and unobstructed access to all portions thereof, at all reasonable hours, for the purpose(s) of UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.04 Page 12 - maintaining, removing, or replacing the Company's property; - reading meters; and - all other purposes incident to the supplying of service to the Customer. Location of Service Connections - The Customer's service connections are to be located on the side of the house at a point readily accessible to the Company's service facilities. The service connection point is to be determined by the Company, and such point may be relocated if deemed necessary by the Company. 01.04.05 REMETERING AND RESALE OF SERVICE Service is supplied directly to the Customer through the Company's own meter. Utility service shall not be metered for resale, or otherwise resold by a Customer, for a price higher than the price charged to the Customer by the Company. The Company may, after notice and opportunity for hearing, discontinue supplying of utility service to a Customer to prevent a violation of this provision.

01.04.06 SERVICE TO ADJACENT PREMISES No Customer may extend or connect the Customer's installation to utility lines across or under a public street, alley, right-of-way space, or other private space, including property lines, in order to obtain service for adjacent property through one meter, even though such adjacent property is owned, controlled, or occupied by the Customer. The Company may terminate service to a Customer after notice and opportunity for hearing until any violation of this subsection is discontinued. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.06 Page 13

However A Customer who owns adjacent properties which are developed and operated as a unified apartment, office, commercial, or industrial project, may extend or connect the installation to lines across or under the property lines of said adjacent properties in order to service said properties through one meter, for as long as the above stated condition continues.

01.04.07 COMPANY'S RIGHT TO CANCEL SERVICE CONTRACT Exercise of or failure to exercise any one or more of the following remedies does not affect the Company's right to resort thereafter to any one or more of such remedies for the same or any future default or breach of the service contract by the Customer: Remedies: terminate service as provided for in Sections 02.07.01 - 02.08.06 of these Regulations; cancel service contract(s); and resort to any other legal remedy.

01.04.08 PERSONS AND ENTITIES WHO ARE RESPONSIBLE FOR PAYMENT OF UTILITY SERVICES When the Customer fails, refuses, or is unable to pay for services rendered, the Company may require payment from the Customer or from any other person, corporation, or other legal entity who is liable to the Company for the services rendered under any law or legal doctrine available in this state.

DRIP2b

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Appeals and Hearings
 Section 01.05.01 Page 14

01.05.01 APPEALS Customers objecting to the actions, policies, or decisions of the Company with regard to utility service may informally appeal to the Company in person; or by telephone to attempt a resolution administratively. When an informal appeal is made, a document shall be prepared by the Company representative to indicate: the reason for the informal appeal; the persons present during the meeting; and the decision of the Company representative. If the problem is not resolved by an informal appeal, the Customer shall be given written notice of his/her right to a formal appeal hearing pursuant to this subsection of these Regulations. Such notice shall indicate: the steps the Customer must take to initiate the appeal, including providing the name of the officer and the address to which the appeal shall be made; whether failure to initiate the appeal within three (3) days of the date of the notice may result in termination of service to the account in question; and the procedure for obtaining a copy of the rules for the formal hearing. A request for a formal appeal hearing before the designated Hearing Officer will not be granted when the Customer's only complaint regards the: determination of reasonableness or the denial of a deferred payment agreement under Sections 02.05.01 - 02.05.05 of these Regulations; Customer's financial inability to pay for services rendered and there is no dispute as to the accuracy of the billing or the Customer's liability; or the design and fairness of the rate schedule.

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Appeals and Hearings Section 01.05.02
 Page 15

01.05.02 HEARINGS The time, date and place of a formal appeal hearing shall be provided to the Customer requesting a formal hearing. The hearing shall be held not more than five (5) business days from the date of the Customer's request. The Customer may appear in person or be represented by counsel or both, and shall be afforded the opportunity to confront and question adverse witnesses at the hearing. The formal legal rules of evidence shall not apply. The formal appeal hearing shall be before a Hearing Officer: appointed by the Company Vice-President - Central Texas for the purpose of hearing such appeals, not under the supervision of the Commercial Office Manager; and not a participant in the previous decision now under review. The Hearing Officer shall be the sole judge of the evidence and credibility of witnesses and the facts as well as the applicability of the rules and

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 15405

regulations of the Company; and render his/her final decision in writing to all parties concerned at the close of the hearing or within five (5) business days of its conclusion.

01.05.03 RESULTS OF HEARINGS

In the event the decision reached at a formal appeals hearing is against the Customer, the Hearings Officer shall instruct the Company and Customer what action, if any, must be taken by the Customer to maintain utility service; and set a reasonable period of time in which the Customer must take such action. In the event that payment of a bill is involved, the Customer shall be allowed three (3) business days to pay such amount. In the event the decision reached at a formal appeal hearing is in favor of the Customer, in whole or part, the Hearings Officer shall instruct the Company and Customer what corrective action shall be taken and the Company shall take action within a reasonable time, which time may be set by the Hearing Officer; and instruct the Customer to pay or make acceptable arrangements for payment of any amount of disputed billing found to be accurate, within three (3) business days or by the due date of the billing whichever is later.

01.05.04 CONTINUITY OF

SERVICE DURING APPEAL During the pendency of the formal appeal, the Customer's utility service shall be continued if not terminated prior to a valid formal appeal. In the event utility service was terminated prior to a valid formal appeal hearing utility service will be re-initiated upon payment of the initiation fee and payment of an amount consistent with that Customer's previous year's usage for the same billing period, or an amount consistent with usage of similar residential units in the same area, if the Customer has no previous service history. If applicable, correction of any condition which caused service to be terminated must be corrected prior to re-initiation of service. the initiation fee will not be charged if the Hearing Officer's decision is in favor of the Customer in whole or part.

GENERAL RULES	PART	01.00.00 Appeals and Hearings	UTILITY SERVICE REGULATIONS
Page	17		Section 01.05.05

01.05.05 FAILURE OF COMPANY TO COMPLY The failure of the Company to comply with any time provision contained herein shall in no way result in the Company's waiving its right to see termination of service for the reasons specified in these Regulations.

GENERAL RULES	PART	01.00.00 Extension of Facilities	UTILITY SERVICE REGULATIONS
Page	18		Section 01.06.01

01.06.01 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation.

01.06.02 DESIGN AND COST OF

FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.

01.06.03 INITIAL ALLOWANCE FOR

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15405

POTENTIAL PERMANENT CUSTOMERS The Company shall also determine the number of Potential Permanent Customers located along the route of the extension which are expected to be served therefrom. To be considered a Potential Permanent Customer, the occupant of such premise must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be considered to be Potential Permanent Customers only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.03
 Page 19 served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 25 feet of distribution main shall be given for each Potential Permanent Customer who files an application for service from the proposed main extension to a facility that exists at the time of the application and who agrees to initiate gas service upon completion of the extension. 01.06.04 ADVANCES

The difference between the total cost of facilities as determined in Section 01.06.02 above and the Initial Allowance for Potential Customers as determined in Section 01.06.03 above, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less.

01.06.05 CONSTRUCTION OF FACILITIES As soon as practical, usually within 60 days, after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the company's name and on its form at no cost to the Company (except for fees involved in the recording of documents).

UTILITY SERVICE
 REGULATIONS GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.06
 Page 20 01.06.06 REVIEW OF

ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates or based upon dates established in a separate contract. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Section 01.06.03 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15405

amount of the special refund shall be up to \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service. _____ 01.06.07 REFUND LIMITATIONS The Company may, at its sole option, make a refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the initial advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

_____ 01.06.08 DELIVERY OF REFUNDS
When a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining un-refunded shall be made to the person or business in whose name the extension agreement is made to his or _____ UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Extension of Facilities Section
01.06.08 Page 21 her assignee. If that letter is returned undelivered, the check shall be canceled and the next review made without regard to that refund. All sums described in this Section which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

_____ UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Customer Owned Systems Section
01.07.01 Page 22

_____ 01.07.01 CUSTOMER OWNED SYSTEMS Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. Company shall provide service through a master meter into the piping systems of others to be distributed to more than one Consumer, except when the gas is resold to those Consumers.

_____ UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section 01.08.01 Page 23
_____ 01.08.01 CURTAILMENTS

When the capacity of the Company's system or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with these regulations.

_____ 01.08.02 PRIORITY All Customers served by the Company shall be classified into one of the following priority groups.

A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation. B. Gas sold for agricultural purposes. C. This category consists of the following: 1. gas sold to small commercial and small industrial Customers using 200 MCF or less on an average day; 2. gas sold to industrial Customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production; 3. gas sold to commercial or industrial Customers used to provide water heating, heating and cooling for human comfort in the plant or office areas; _____ UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section

up, safety and flame stabilization. D. Gas sold to commercial Customers using more than 200 MCF, but less than 1,500 MCF on an average day. E. Gas sold to small industrial Customers using more than 200 MCF and less than 3,000 MCF on an average day, provided such user has no economically feasible alternate fuel. F. This category consists of the following: 1. gas sold to industrial Customers for feedstock use where the gas volume is more than 200 MCF and less than 3,000 MCF on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such Customer must prorate its demand for gas and must maximize its use of all other sources of gas; 2. small public utility electric generating systems which use less than 3,000 MCF on an average day. G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve Customers whose usage falls within the descriptions above and small commercial and industrial Customers using 20,000 KWH or less on an average day. H. This category consists of the following: 1. gas sold for use by commercial Customers in excess of 1,500 MCF on an average day; 2. small industrial Customers not qualifying under any of the above. I. All gas sold for use in existing power generating plants for the generation of electricity not included in any of the above. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section 01.08.02 Page 25 J. This category consists of the following: 1. gas sold to large users of gas, in excess of 3,000 MCF on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics. 2. gas sold for feedstock as defined above, in excess of 3,000 MCF on an average day. K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 MCF on an average day and any other use which does not qualify under a preceding priority.

01.08.03 METHOD OF

CURTAILMENT Curtailment shall be ordered ratably insofar as feasible within each priority group served by the same system; provided, however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities A and B. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

01.08.04 CLASS AND GROUP

CURTAILMENT No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service.

UTILITY SERVICE REGULATIONS

GENERAL RULES PART 01.00.00 Curtailments Section 01.08.05 Page 26

01.08.05 NOTIFICATION AND

PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, of the extent and amount of the curtailment required from him or her. If, after notification, any Customer (other than a Customer in Priority A) fails to curtail during the required period, or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priorities A and B is threatened.

01.08.06 SUSPENSION OF THIS

SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

01.08.07 JURISDICTION OVER

CURTAILMENT POLICY Jurisdiction over the curtailment policy set forth in Sections 01.08.01 -

01.08.07 lies with the Railroad Commission of Texas. The Company may change its curtailment policy from time to time if approved or ordered by the Railroad Commission of Texas. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Equal Payment Plan Section

01.09.01 Page 27

01.09.01 PAYMENT PLAN Any Residential Customer may elect to participate in the Company's Average Bill Calculation (ABC) Plan for payment of charges for gas service as may be modified from time to time. Should the Company modify the plan, the Company will notify Customers of the changes made upon their request for enrollment. In general, the conditions under which a Customer may participate in the ABC Plan are set forth below: a) The Company reserves the right to adjust the monthly plan payments of any Customer at any time for changes in conditions or rates. b) The Company shall advise each Customer in the ABC Plan of the monthly plan payment to be paid by the Customer. Each Customer in the ABC Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of that month's plan payment. The Customer shall continue to pay the monthly plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. c) Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly plan payment. d) Interest will not be charged to the Customer on accrued ABC debit balances nor paid by the Company on accrued ABC credit balances. e) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the ABC Plan. f) Any Customer's participation in the ABC Plan may be discontinued by the Company if the monthly plan payment has not been paid on or before the due date of the monthly plan payment. g) If any Customer in the ABC Plan shall cease, for any reason, to participate in the ABC Plan, then the Company may refuse that Customer's reentry into the ABC Plan until the following August. UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.01.01 Application for Service Page 28

02.01.01 WHERE TO APPLY
Anyone requesting utility service provided by the Company shall apply to one of the Company's Commercial Offices. 02.01.02

IDENTIFICATION AND INFORMATION Applicants for service can be required to provide the following form(s) of identification or information: a valid Texas Driver's License with photograph; or a valid identification card, with photograph, issued by the Texas Department of Public Safety; or a Social Security Number; or a working telephone number; or two valid verifiable forms of identification. A listing of forms currently accepted by the Company is available on request. Failure to comply with this section can result in refusal of service. (See Section 02.02.01 of these Regulations.)

02.01.03 CREDIT SECURITY
Before service will be initiated Applicants must establish credit as required for the type of service requested; pursuant to Sections 02.03.02 and 02.03.03.

02.01.04 ADDRESS VERIFICATION
Applicants for service may be required to obtain, and produce on request, verifiable proof of their right to occupy a specific service address as of a specific date of occupancy.

02.01.05 FEES AND PAYMENT
In addition to establishing credit security, Applicants for service must pay whichever of the following fees are required for the service requested. After Hours Fee - charged to any Applicant whose request to initiate service cannot be worked UTILITY SERVICE REGULATIONS

INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.01.05 Application for Service Page 29 during normal business hours. Applicant must be advised that an after hours fee will be charged and must agree to pay such charge. Read-In

Fee - charged to any Applicant for initiation of service when only a meter reading is required. Initiation Fee - charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when a meter is set or the Applicant's appliances are lighted. Payment of the above fees is due with the first bill for service. Sections 04.01.01 and 04.01.02 of these Regulations contain the current schedule of fees and cash deposits. Only U.S. currency, personal checks, money orders or cashier checks are accepted as payment for cash amounts due for fees, deposits, or charges incurred by utility Customers or Applicants. _____ 02.01.06

NONRESIDENTIAL SERVICE Applicants for nonresidential service must provide the Company with all information necessary to estimate the cost of two (2) regular billing months of service at the service address where they wish to initiate service. The Company's estimate shall be used to calculate the necessary credit security required for service initiation; and may be required to obtain and produce valid verifiable proof of their right to contract for the entity requesting the service.

REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
 02.02.01 Refusal of Service Page 30

UTILITY SERVICE
 02.02.01 SUFFICIENT
 GROUNDS The Company may decline to initiate service to any Applicant for any of the following reasons: if the Applicant is not in compliance with the state, federal or municipal regulations governing the service applied for; if the Applicant's installation or equipment is known to be hazardous or of such character that satisfactory service cannot be given; if the Applicant responsible for payment of utility services as set forth in Section 01.04.08 is indebted to the Company for utility service, provided, however, that in the event the indebtedness of Applicant is the subject matter of a pending formal appeal hearing, the Applicant shall be served, if in compliance with the remainder of this section; if the Applicant does not comply with the application for service requirements or the credit security requirements set by the Company for the service requested; if the Applicant or the building or structure to be served does not comply with the City's Electric Code, Plumbing Code, Energy Conservation Code, Building Code, Mechanical Code, or Fire Code; if the Applicant or the building or structure to be served is not in compliance with any city regulation or state or federal statute which provides for refusal or termination of service as a penalty; or if the building structure to be served is not connected to the Company's distribution facilities.

02.02.02 RIGHT OF
 APPEAL In the event the Company shall refuse service to an Applicant under the provisions of these regulations the Company must inform the Applicant of the basis for its refusal; and that the Applicant may appeal such decision pursuant to Sections 01.05.01 - 01.05.05 of these Regulations. _____ UTILITY

SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE
 Section 02.03.01 Credit Security Page 31

02.03.01 AUTHORITY
 In exchange for assuming the risks involved in providing utility service on credit, the Company may require Customers to give, maintain, and/or re-establish credit security for any utility service address; and establish utility Customer payment standards.

02.03.02 FORMS OF
 CREDIT SECURITY FOR RESIDENTIAL SERVICE The following forms of credit security may be accepted from residential Customers and Applicants for service: a record of satisfactory compliance with Customer payment standards for service at a comparable residential service address served by the Company for at least one year; a refundable cash deposit of as much as one-sixth (1/6) the estimated annual billings for services requested; but no less than the

minimum deposit set forth in Section 04.01.02; a nontransferable, irrevocable letter of credit from an established financial institution, payable for as much as, one-sixth (1/6) the estimated annual billings for services requested and, which can be drawn on for a maximum of two (2) years; but no less than the minimum deposit set forth in Section 04.01.02; and In addition to the above requirements, residential Customers and Applicants for service must have no outstanding utility bills due to the Company or an acceptable payment plan initiated.

DRIP2c UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.03.03 Credit Security Page 32 02.03.03 FORMS OF

CREDIT SECURITY FOR NONRESIDENTIAL SERVICE Any one of the following forms of credit security may be accepted from nonresidential Customers and Applicants for service: a record of satisfactory compliance with Customer payment standards for service at a comparable nonresidential service address served by the Company for at least one year; a refundable cash deposit of as much as one-sixth (1/6) the estimated annual billings for service requested; but no less than the minimum deposit set forth in Section 04.01.02; a nontransferable, irrevocable letter of credit from an established financial institution, payable for as much as one-sixth (1/6) the estimated annual billings for services requested and, which can be drawn on for a minimum of two (2) years; but no less than the minimum deposit set forth in Section 04.01.02; or a surety bond issued by a reputable insurance company which can be drawn on for a minimum of two years.

02.03.04 CUSTOMER PAYMENT STANDARDS In order to have a record of satisfactory compliance with Customer payment standards, the Customer must have: had at least twelve (12) consecutive billing cycles of residential service, or twenty-four (24) consecutive billing cycles of nonresidential service; had no disconnection or collection effort for nonpayment during the last twelve (12) consecutive billing cycles of residential service or twenty-four (24) consecutive billing cycles of nonresidential service; and no utility bills past due.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.03.05 Credit Security Page 33

02.03.05 DISPOSITION OF MATERIAL FORMS OF CREDIT SECURITY When a Customer establishes a record of satisfactory compliance with the Customer payment standards for the account in question as specified in Section 02.03.04; and has paid the total amount due before the due date for (12) residential billing cycles or twenty-four (24) nonresidential billing cycles; or discontinues service and pays all utility bills; then material forms of credit security, with interest if required by law, shall be: - returned to the Customer; - voided; or - if in the form of cash, credited to the Customer's account, or refunded in full.

02.03.06 DISPOSITION OF UNCLAIMED CASH DEPOSITS A record of each unclaimed deposit will be maintained for a period of seven (7) years, during which time the Company shall make a reasonable effort to return the deposit. After seven (7) years the deposit will become the property of the State of Texas.

02.03.07 FAILURE TO COMPLY Failure to comply with credit security requirements makes an active account subject to termination of service pursuant to Section 02.09.00 of these Regulations.

02.04.01 BILLING

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15405

PERIODS Bills are rendered at regular monthly intervals unless otherwise authorized or unless service is rendered for a period of less than a month.

02.04.02 INFORMATION
 REQUIRED ON THE BILL The Customer's bill shall show all of the following information: the date and meter reading at the beginning and at the end of the period for which the bill is rendered; the number and kind of units metered; the applicable rate classification; separate charges for cost of service and cost of gas, if treated separately in the rate ordinance; the total amount due for utility service and tax; the date the bill is due and by which the Customer must pay the bill; a distinct marking to identify an estimated bill; any conversions from meter reading units to billing units, or any other calculations to determine billing units from recording to other devices, or any other factors used in determining the bill; the explanation of charges shall be in English and Spanish. The information required by this subsection shall be arranged to permit the Customer to compute his bill by using the applicable rate schedule which shall be supplied when requested by the Customer.

UTILITY SERVICE REGULATIONS
 INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.03
 Billing and Payment Page 35

02.04.03 PAYMENT
 All bills for service are due by the date printed on the bill. If the payment in full is not received in the Company's office by the date printed on the bill, the bill shall be considered delinquent. If a Customer does not receive his or her bill(s), the obligation to make payment for service rendered is not released or diminished.

02.04.04 BILLING
 ADJUSTMENTS If any meter is found to be outside the accuracy standards established by these Regulations, proper correction shall be made of previous readings for the period of six (6) months immediately preceding the removal of such meter from service for the test, or from the time the meter was in service since last tested, but not exceeding six (6) months, as the meter shall have been shown to be in error by such test, and adjusted bills shall be rendered. No refund is required from the Company except to the Customer last served by the meter prior to the test. If a meter is found not to register for any period unless bypassed or tampered with, the Company shall make a charge for units used, but not metered, for a period not to exceed three (3) months, based on amounts used under similar conditions during the period preceding or subsequent thereto, or during corresponding periods in previous years. If a meter, though otherwise meeting the accuracy standards established by these Regulations, does not register proper consumption (because of improper installation or for any other reason) the total amount overbilled or underbilled to the Customer shall be adjusted. The total amount overbilled or underbilled shall be adjusted when the overbilling or underbilling results from causes not mentioned above. Overbillings or underbillings in this category would include, but shall not be limited to, those caused by: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.04 Billing and Payment Page 36 - the failure to read a meter; - the misreading of a meter; - the application of an improper rate schedule; or - typographical or computational errors. In any case of underbilling, the Company may offer to such Customer a deferred payment plan option for the same length of time as that of the underbilling. Reimbursement or collection shall be made at the rates in effect at the time of each overbilling or underbilling.

02.04.05 CUSTOMER'S
 RIGHT TO DISPUTE BILLS Customers have the right to dispute any portion of their utility bill. The Appeals and Hearings Section of these Regulations (Sections 01.05.01 - 01.05.05) covers bill disputes. 02.04.06

DELINQUENCY An active account becomes delinquent when full payment is not received; in

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15405

the Company's Commercial Office, by the due date printed on the bill. Delinquent accounts are subject to termination of service, pursuant to Sections 02.07.01 - 02.08.06 of these Regulations. 02.04.07

UNLAWFUL USE OF SERVICE Where a condition threatens the public health, safety or resources, in any case of tampering with a meter installation or interfering with the proper function thereof, or any other unlawful use or diversion of service by any person, or evidence of any such tampering, interfering, unlawful use or service diversion, by a Customer who could be reasonably expected to benefit from such action the Customer is subject to: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.07 Billing and Payment Page 37 immediate termination of service; and prosecution under applicable laws. In any case of unlawful use of service the Company shall be entitled to collect from the Customer payment of the costs for all natural gas not recorded on the meter by reason of such tampering, interfering, unlawful use or service diversion, - the amount of which may be estimated by the Company from the best available data, and - billed at the proper rate schedule; and the unauthorized consumption fee plus all other expense incurred by the Company on account of such unauthorized act or acts, such amount based on an itemized statement from the Company.

02.04.08 RETURNED CHECKS Accounts for which payment is made using checks which are returned by a bank for any reason may be charged a returned check fee for each occurrence. The amount of the check will be charged back to the account. Repayment of the returned check shall be made in the form of cash, cashier's check, or money order. The Customer will be sent a written notice which will indicate that the Customer has seven (7) days in which to make full payment of the amount covered by the returned check, or service will be subject to termination. Utility service terminated for nonpayment of a returned check will not be re-initiated until the amount of the returned check and all applicable fees have been paid in full.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.01 Deferred Payment Agreements Page 38

02.05.01 ELIGIBILITY Any active Customer with a previous balance owed the Company for utility service may apply for a deferred payment agreement. The Company may enter into a deferred payment agreement with a Customer under circumstances the Company determines are reasonable.

02.05.02 DETERMINATION OF REASONABLENESS Factors used in determining reasonableness under these Regulations shall include but not be limited to: size of the previous balance owed the Company; customer's ability to pay; customer's payment history; reasons the debt has not been paid; time that the debt has been outstanding; and any additional factors considered relevant other than race, religion, gender, or national origin of Customer.

02.05.03 BASIC TERMS Every deferred payment agreement shall provide that the Company shall not terminate the Customer's service, if the Customer first pays an agreed upon reasonable amount of the outstanding previous balance; pays the current bills, including any applicable fees, when due; and pays the outstanding previous balance, by agreed upon dates, in reasonable installments until that previous balance is cleared.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.04 Deferred Payment Agreements Page 39

02.05.04 DEFAULT If a Customer fails to meet the terms of a deferred payment agreement, the Company may

terminate service pursuant to Sections 02.07.01 - 02.08.06, and under such circumstances, shall not be required to offer subsequent negotiation of a deferred payment agreement prior to termination. _____ 02.05.05

APPEALS An appeal by a Customer of the determination of reasonableness as defined in Section 02.05.02 above or the denial of a deferred payment agreement shall be conducted pursuant to Sections 01.05.01-01.05.05 of these Regulations.

UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
02.06.01 Transfer of Service Page 40

02.06.01 CUSTOMER MOVE WITHIN SERVICE AREA When a Customer vacates a Company service address, notice must be given to the Company prior to the date of change. A Customer is responsible for all service supplied to vacated premises until such notice is received and the Company has had reasonable time (no more than six (6) business days) to discontinue service. This section does not abolish or impair any right the Company may have to recover for services rendered pursuant to Section 01.04.08 of this Tariff.

02.06.02 TRANSFER OF SERVICE Customers wishing to transfer service from one service address to another are subject to the requirements of Sections 02.01.00 through 02.03.00 for the type of service to be supplied at the new location.

02.06.03 CREDIT SECURITY TRANSFER If the credit security requirement at the new service address is higher than at the Customer's previous service address, an additional cash deposit or new credit security instrument may be required before service will be transferred. If the credit security requirement at the new service address is lower than at the Customer's previous service address, then the Company may, at its option, apply any cash deposit on hand to the balance due for the previous account and refund the difference, if any, to the Customer, requiring new credit security for the new account; or transfer the cash deposit to the new account, applying the difference to the new account or refunding it to the Customer.

UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.07.01
Grounds for Termination of Service Page 41

02.07.01 SUFFICIENT GROUNDS The Company may terminate a Customer's utility service at the request of the Customer; for the Customer's failure; - to pay a delinquent account; - to comply with the terms of a deferred payment agreement; - to comply with credit security requirements; - to make payment for a bill initially paid by a check returned by a bank for any reason for the operation or installation of equipment which interferes with the service of others; upon discovery of the existence of - meter tampering or diversion of service; - a known dangerous condition; - any unlawful use of service; - the violation of any ordinance, statute or regulation regulating the submetering of utility service; or - the violation of any regulation which relates to utility service, or which provides for termination or refusal of service as a remedy. _____

for non-utility service owed to the Company; or failure to pay a bill disputed under the formal appeal provisions set forth in Sections 01.05.01-01.05.05 of these Regulations, until determination is made by the Hearings Officer. The Company may not discontinue service before 8 A.M. or after 7 P.M. on weekdays or at any time on Friday, Saturday, Sunday or a holiday unless the Company's business office is open and service can be reconnected the following day.

UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.08.01
Procedural Requirements for Page 43 Collection and Termination
02.08.01

APPLICABILITY Service subject to termination can be terminated as specified in all provisions of this Section except when service is to be terminated for the following reasons At the Request of the Customer - Service will be terminated within six (6) workings days of the request. No notice to Customer is required. Payment with a Check Returned by a Bank - Sections 02.04.08 and 02.08.02 through 02.08.04 of these Regulations apply to termination of service in these circumstances. Where a Known Dangerous Condition Exists or Where a Condition Threatens the Public Health, Safety, or Resources - Service can be terminated without prior notice and remain terminated as long as the condition exists.

02.08.02 NOTICE
When a Customer's account becomes subject to termination, written notice of the proposed termination shall be given by the Company. The notice shall: be sent by mail to the mailing address of the Customer, unless the service address is different, be printed in English and Spanish; state reasons for the proposed termination; state the Customer's right to a hearing before such termination occurs; and state that the Customer who so desires must request a hearing by contacting the Company at a stated telephone number or in person within and not later than - seven (7) days following the date of the mailed notice,

 02.08.05 RE-

INITIATION OF SERVICE Terminated service will be re-initiated if the Customer pays the past due balance; and the Customer supplies or maintains residential or non-residential credit security on the account; or the Company accepts a deferred payment agreement for the amount due; and the Customer supplies or maintains residential or non-residential credit security on the account. Re-initiation of service will result in an active Customer's account being charged fees as indicated in Section 02.08.06.

02.08.06 FEES AND CHARGES The purpose of the fees and charges described here is to defray the costs relating to delinquent accounts. The amount of each fee is contained in Sections 04.01.01 - 04.01.02 of these Regulations. The fees and charges will be identified on a regular bill. Unauthorized Consumption Fee - Charged for the replacement of an illegally broken meter seal or locking device to the Customer who could be reasonably expected to benefit from gas service received through said meter. Initiation Fee - Charged to any Customer whose service is terminated and then re-initiated unless terminated in error by the Company. This fee is the same as the standard Initiation Fee charged for new service. Field Collection Fee - Charged to any Customer whose failure to respond to a termination notice necessitates the dispatch of a Company representative who collects payment from the Customer. TEXAS GAS SERVICE COMPANY Utility Service Regulations Dripping Springs Service Area (Environs) QUALITY OF SERVICE RULE ADDENDUMS AND AGREEMENTS ON INTERPRETATION ADDENDUM TO SERVICE RULES THE FOLLOWING RULE (ADOPTED MAY 12, 2002) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency (a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as "providers." Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law. (b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to

TARIFF CODE: DS RRC TARIFF NO: 15405

others, a provider shall not disconnect natural gas service to: (1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service. (2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service. (c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service. (d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows: (1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area. (2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area. (3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems. (4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers. (e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Initial Rate Meters Read On and After January 31, 2006

ADDENDUM TO SERVICE RULES THE FOLLOWING RULE (ADOPTED OCTOBER 21, 2003 PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site. TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE NO. 1
 Dripping Springs Service Area
 COST OF GAS CLAUSE

A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Dripping Springs Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds.
2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility.
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, including prudently incurred gains or losses on natural gas financial instruments (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s), and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

DESCRIPTION

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, including prudently incurred gains or losses incurred on natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s).

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general

each customer's bill shall include the following: Cost of Gas
 Component: The basic rate for cost of service set forth above shall be adjusted by
 the amount of the Cost of Gas for the billing month determined in accordance with
 the provisions of the Cost of Gas Clause, Rate Schedule 1. Taxes: Plus
 applicable taxes and fees (including franchise fees) related to above.
 CONDITIONS 1. Subject in all respects to applicable laws, rules, and regulations
 from time to time in effect. 2. Delivery of gas hereunder may be interrupted or
 curtailed at the discretion of the Company, in case of shortage or threatened
 shortage of gas supply from any cause whatsoever, to conserve gas for residential
 and other consumers served. Initial Rate Meters Read On and After January

 RATE SCHEDULE PSF
 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8
 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C
 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the
 Commission establishes a pipeline safety and regulatory program fee, to be assessed
 annually against operators of natural gas distribution pipelines and pipeline
 facilities and natural gas master metered pipelines and pipeline facilities subject
 to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total
 amount of revenue estimated to be collected under this section does not exceed the
 amount the Commission estimates to be necessary to recover the costs of
 administering the pipeline safety and regulatory programs under Texas Utilities
 Code, Title 3, excluding costs that are fully funded by federal sources for any
 fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator
 of a natural gas distribution system an annual pipeline safety and regulatory
 program fee of \$1.00 for each service (service line) in service at the end of each
 calendar year as reported by each system operator on the U.S. Department of
 Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on
 March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual
 pipeline safety and regulatory program total to be paid to the Commission by
 multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of

GAS SERVICES DIVISION

DESCRIPTION

Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural

gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

CURTAILMENT PLAN

<u>PLAN ID</u>	<u>DESCRIPTION</u>
3008	Attachment A (of Docket No. 3008 issued June 22, 1981)
	Texas Gas Service Company Central Texas District
	CURTAILMENTS
	14.1 CURTAILMENTS
	Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.
	14.2 PRIORITY CLASSES
	All customers served by the Company shall be classified into one of the following priority groups:
	A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation.
	B. Gas sold for agricultural purposes.
	C. This category consists of the following:
	(1) Gas sold to small commercial and small industrial customers using 200 Mcf or less on an average day.
	(2) Gas sold to industrial customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production.
	(3) Gas sold to commercial or industrial customers used to provide water heating, heating and cooling for human comfort in the plant or office areas.
	(4) Gas sold for use in power generating plants for start up, safety and flame stabilization.
	D. Gas sold to commercial customers using more than 200 Mcf, but less than 1,500 Mcf on an average day.
	E. Gas sold to small industrial customers using more than 200 Mcf and less than 3,000 Mcf on an average day, provided such user has no economically feasible alternate fuel.
	F. This Category consists of the following:

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15406

(1) Gas sold to industrial customers for feedstock use where the gas volume is more than 200 Mcf and less than 3,000 Mcf on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such customer must prorate its demand for gas and must maximize its use of all other sources of as

(2) Small public utility electric generating systems which use less than 3,000 Mcf on an average day.

G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve customers whose usage falls within the descriptions of A above and small commercial and industrial customers using 20,000 Kwh or less on an average day.

H. This category consists of the following:

(1) Gas sold for use by commercial customers in excess of 1,500 Mcf on an average day.

(2) Small industrial customers not qualifying under C, D, E, or F above.

I. All gas sold for use in existing power generating plants for the generation of electricity not included in G and C(4) above.

J. This category consists of the following:

(1) Gas sold to large users of gas, in excess of 3,000 Mcf on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics.

(2) Gas sold for feedstock as defined in F above, in excess of 3,000 Mcf on an average day.

K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 Mcf on an average day and any other use which does not qualify under a preceding priority.

14.3 METHOD OF CURTAILMENT

Curtailement shall be ordered ratably insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities 1 and 2. Total curtailement during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system my be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

14.4 CLASS AND GROUP CURTAILMENTS

No curtailement shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailement of service.

14.5 NOTIFICATION AND PENALTIES

The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any customer (other than a customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened.

14.6 SUSPENSION OF THIS SECTION

This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

LINE EXTENSION POLICY

POLICY ID	DESCRIPTION
1175	<p>TEXAS GAS SERVICE COMPANY Texas Tariff - Dripping Springs Service Area ENVIRONS OF THE DRIPPING SPRINGS SERVICE AREA (From Quality of Service Rules effective 01/31/06) 01.06.01 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation. 01.06.02 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 01.06.03 INITIAL ALLOWANCE FOR POTENTIAL PERMANENT CUSTOMERS The Company shall also determine the number of Potential Permanent Customers located along the route of the extension which are expected to be served therefrom. To be considered a Potential Permanent Customer, the occupant of such premise must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be considered to be Potential Permanent Customers only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 25 feet of distribution main shall be given for each Potential Permanent Customer who files an application for service from the proposed main extension to a facility that exists at the time of the application and who agrees to initiate gas service upon completion of the extension. 01.06.04 ADVANCES The difference between the total cost of facilities as determined in Section 01.06.02 above and the Initial Allowance for Potential Customers as determined in Section 01.06.03 above, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less. 01.06.05 CONSTRUCTION OF FACILITIES As soon as practical, usually within 60 days, after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicants(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the company's name and on its form at no cost to the Company (except for fees involved in the recording of documents). 01.06.06 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall</p>

thereafter review the extension agreement at its second through fifth in-service anniversary dates or based upon dates established in a separate contract. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Section 01.06.03 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be up to \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service. 01.06.07 REFUND LIMITATIONS The Company may, at its sole option, make a refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the initial advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction. 01.06.08 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining un-refunded shall be made to the person or business in whose name the extension agreement is made to his or her assignee. If that letter is returned undelivered, the check shall be canceled and the next review made without regard to that refund.

All sums described in this Section which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15406

01.01.01 GENERAL STATEMENT
 OF PURPOSE These Service Regulations Provide specific rules to be followed by the Company in supplying natural gas utility service and by the Customer in using such service. Are designed to provide good service, fair treatment, and maximum safety to the natural gas utility Customers and to the Company. Are officially on file in the City Clerk's office and the Railroad Commission of Texas Gas Utilities Division. Copies are available to natural gas utility Customers at the Company's Austin offices. Supersede and annul all previous service regulations pertaining to the supplying and taking of the Company's natural gas service. Subsequent revisions to these policies and procedures may be made with the approval of the appropriate regulatory authority.

01.01.02 GENERAL OPERATING
 POLICIES Service under this Tariff is subject to the original jurisdiction of the Railroad Commission of Texas. It is the policy of the Company to cooperate with charitable and welfare organizations assisting Customers in paying and planning for payment of their bills. Free service shall not be rendered by the Company to any Customer. All Customers within the Company's service area shall be served in accordance with the prices, terms and conditions provided for in applicable Tariffs and regulations. It is the on-going policy of the Company to provide utility services in a fair, equitable, and courteous manner to all Customers.

UTILITY SERVICE
 REGULATIONS GENERAL RULES PART 01.00.00 Definitions Section 01.02.01
 Page 2 01.02.01
 ACCOUNT An account is the record of consumption, charges and payments for services rendered to a Customer at a specific service address. Active Account - An account is active when any service is available to the Customer at the service address specified for that account. Inactive Account - An account is inactive when all service is terminated for the Customer at the service address specified for that account.

01.02.02
 APPLICANT Any person, organization or group of persons or organizations making a formal request either orally or in writing for gas service from the Company.

01.02.03 BILLING MONTH An interval of approximately thirty (30) days between successive meter reading dates.

01.02.04 COMMERCIAL OFFICE
 A department of the Company's local operations responsible for Initiation and termination of service. Regular readings of meters. Regular billing for service (including resolving related billing problems and inquiries). Collection of and accounting for accounts receivable.

01.02.05 COMMERCIAL
 SERVICE Service to Consumers engaged primarily in the sale or furnishing of goods and services and any usage not otherwise provided for.

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Definitions cont. Section 01.02.06
 Page 3 01.02.06

CONSUMER Any person or organization receiving and using gas from the Company for his or her own needs whether or not the gas is billed directly to him or her, or to a second party. (For example, in the case of rental unit where the utilities are part of the rent, the landlord is a Customer and the tenant is a Consumer).

01.02.07 CREDIT SECURITY
 That which is required by the Company to cover risk of nonpayment by Customer for utility services rendered.

01.02.08
 CUSTOMER Any individual, partnership, association, firm, public or private corporation, governmental authority, or other legal entity being billed for gas utility service by the

RAILROAD COMMISSION OF TEXAS
 GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15406

Company at any specified service address.

01.02.09 CUSTOMER'S PIPING
 All piping and equipment installations on the Customer's side of the meter must be in conformance with applicable City codes. Customer piping must pass applicable pressure testing before initiation of natural gas service.

01.02.10 CUSTOMER PAYMENT STANDARDS
 The minimum payment practices a natural gas utility Customer must meet in lieu of providing other forms of credit security.

01.02.11 HAZARDOUS WEATHER CONDITIONS
 The average daily temperature is freezing or below; or the average daily temperatures are predicted to be freezing or below over a 24-hour period.

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Definitions Section 01.02.12 Page
 4 01.02.12

METER The meter or meters, together with auxiliary devices, if any, constituting the complete installation needed to measure the natural gas supplied to any individual Customer at a single point of delivery.

01.02.13 NOTICE Unless otherwise specified, a written notification delivered personally or mailed by one party to the other at such other party's last known address, the period of notice as required by any applicable section of these Regulations being computed from the date of such personal delivery or mailing.

01.02.14 POINT OF DELIVERY
 The outlet of the Company's meter where it connects to Customer's piping.

01.02.15 REGULATORY AUTHORITY
 The City has original jurisdiction over the Company's rates and service regulations within the municipal boundaries of the City according to state law. Appellate jurisdiction rests with the Railroad Commission of Texas. Outside the municipal boundaries, the Railroad Commission of Texas has original jurisdiction over the Company's rates and service regulations.

01.02.16 SERIOUS ILLNESS Any illness wherein termination of natural gas service would be especially dangerous to that person's health as certified by a licensed physician.

01.02.17 SERVICE ADDRESS
 Specified address of a location which can receive natural gas utility service provided by the Company. A valid Service Address shall contain the street name and house number and, when applicable, the building, unit and/or suite number. The Service Address must be visible from the street which serves that structure.

UTILITY SERVICE REGULATIONS GENERAL RULES PART
 01.00.00 Definitions Section 01.02.18 Page 5

01.02.18 SERVICE CONTRACT
 A service contract, whether or not in writing, exists between a Customer and the Company when the Company supplies service and the Customer accepts it. A Customer accepts natural gas service: when the Customer or Customer's agent requests utility service and the Company provides it, or when the Customer, though not requesting service, knowingly receives service for more than seventy-two (72) hours, benefits from the service, and does not request discontinuance in writing prior to the expiration of the seventy-two (72) hour period. All rights and obligations under this contract are governed by state and federal law, applicable rate ordinances and by these regulations, including any amendments to the foregoing, in effect at the time when service is rendered. Subject to the foregoing, every service contract shall obligate the Customer to pay for service rendered, and shall obligate the Company to continue providing service for so long as the Customer pays for such service on a timely basis by paying for service rendered by the due date printed on the bill.

01.02.19 SERVICE PIPE The Company owned piping, connecting Company's distribution facilities to the yardline at the property line.

01.02.20 YARDLINE The piping carrying natural gas on the Customer's property between the property line and meter.

REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section
01.03.01 Public Information Page 6

01.03.01 FACILITIES Upon request, the Company will provide information regarding the physical locations, size, capacity and other pertinent data regarding its facilities based on information available to it for any valid purpose relating to the provision of gas service.

01.03.02 AVAILABILITY AND DISTRIBUTION OF RATE SCHEDULES AND UTILITY SERVICE REGULATIONS All Customers living within the City shall be served under rate schedules filed with the City and Railroad Commission of Texas. All Customers living outside of the city shall be served under rate schedules on file with the Railroad Commission of Texas. Customers shall be assigned to rate schedules in accordance with the class of the particular Customer, the usage which will be made of the gas and that Customer's volume requirements. The Company shall advise the Applicant or Customer how to secure the most advantageous rate schedule available for his usage. A Customer assigned to a rate schedule shall remain on that schedule for a minimum of one year except that an assignment made in error shall be corrected immediately. Questions regarding a nonresidential Customer's classification shall be determined by the location of the Customer's primary business in the latest edition of the Standard Industrial Classification Manual of the United States Government's Office of Management and Budget. The Company shall post a notice in a conspicuous place in its Commercial Offices informing the public that copies of the following are available for inspection: - rate schedules, - utility fees and deposit schedules; and - utility service regulations.

UTILITY SERVICE REGULATIONS Section 01.03.03
GENERAL RULES PART 01.00.00 Customer Relations and Section 01.03.03
Public Information Page 7

01.03.03 CHANGE IN RATE SCHEDULES AND CLASSIFICATIONS The Company shall provide public notice of any proposal for a change in rates or service classification that has been made by the Company, prior to its adoption. Such notice shall be made by newspaper publication and shall include information on the proposed changes, the impact of the changes on the Company's revenues, the class of Customers affected by the proposed changes and whether the proposed changes are major changes as defined in the Gas Utility Regulatory Act. The notice shall also inform the Customers that the proposed changes are on file at the City, the Railroad Commission of Texas Gas Utilities Division and at the Company's Commercial offices.

01.03.04 METER READING Upon request the Company shall inform its Customers how to read its meters.

01.03.05 CUSTOMER'S RIGHTS The Company shall annually provide each residential and small commercial Customer with a summary description of: Customer rights; and Company obligations under these rules. This information shall be provided in English and Spanish. New residential and small commercial Customers shall be provided with the description no later than the date they receive their first bill.

01.03.06 SERIOUS ILLNESS The Company will use its best efforts to not discontinue service to a delinquent residential Customer who permanently resides in an individually metered dwelling unit if the Customer establishes that discontinuance of service will result in some person residing at the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15406

residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this Section must make a written request to the Company, supported by a written statement from a licensed physician. The request and physician's statement must be received by UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section 01.03.06 Public Information Page 8 the Company no more than five working days after the date of delinquency of the bill. The Company shall not terminate service for twenty days after the request and physician's statement is received unless the Company and Customer agree to an earlier termination date. A Customer who makes a request for non-termination of service under this section must sign an installment agreement providing for payment of the delinquent service and timely payments of subsequent monthly billings. Failure to comply with the terms of the installment agreement or to make timely payments of subsequent bills may result in termination of service pursuant to Sections 02.07.01 - 02.08.06.

01.03.07 COMPLAINTS The Company shall make a prompt and suitable investigation of complaints made either in person, in writing, or by telephone and will advise the complainant of the results thereof.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.01 Page 9 01.04.01

EXECUTION OF SERVICE CONTRACT A service contract exists between the Company and parties who properly execute an application for service or service contract; or accept or use gas service supplied by the Company under the conditions set forth in Section 01.02.18 or under other conditions that would give rise to an obligation to pay for such service regardless of whether an express agreement, written or oral, exists between the Company and any such party.

01.04.02 SUPPLYING OF SERVICE Utility service is supplied only under and pursuant to these Regulations, any modifications or additions thereto lawfully made, and such applicable rate schedules as may from time to time be lawfully fixed, and pursuant to other tariffs then in effect; at such points of delivery as are adjacent to facilities of the Company that are adequate and suitable as to capacity and character for the service desired; and to installations in conformance with applicable city, federal, state, or town codes. If a Customer wishes to change the point of delivery and/or capacity of the service or require another service the Customer shall bear the cost for any necessary change in accordance with the appropriate rate schedule, and pay any fees necessary for this action. Service will not be supplied to any premises if, at the time of application for service, the Applicant is indebted to the Company for service previously supplied at the same or another address until payment has been made or an acceptable payment agreement has been initiated for such indebtedness. Service will not be supplied for failure to pay the unpaid bill of UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.02 Page 10 another Customer at the same address if such person still resides at the premises to be served or if the Applicant received a beneficial use of the utility service provided the previous Customer.

01.04.03 CONTINUITY OF SERVICE The Company will use reasonable diligence to supply steady and continuous service but does not guarantee the service against irregularities or interruptions. Under certain circumstances it may be necessary to curtail Customers of any class. The procedure for such curtailments is located in Sections 01.08.01 - 01.08.06. The Company may interrupt service during periods of supply or capacity curtailment; when necessary to repair, change, or relocate the Company's distribution systems; without incurring any liability; and for such periods as may be reasonably necessary to make such repairs or changes.

01.04.04 CUSTOMER'S

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15406

RESPONSIBILITIES The Customer assumes all responsibility on the Customer's side of the point of delivery for the service supplied or taken. Maintenance of Facilities The Customer shall maintain all facilities owned by him and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Company shall not be responsible for inspection, maintenance or repair of Customer-owned piping or appliances. The Company shall not be liable for any damages to persons or property resulting from the condition of the Customer's piping or appliances except to the extent that the damages are occasioned by the gross negligence or willful misconduct of the Company. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.04 Page 11

The Customer shall take all reasonable means to assure than no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Customer, the Customer will reimburse the Company for all costs of repairing or replacing the damaged property. Interruptions in Service The Company shall not be liable for damages occasioned by interruption of service, failure to commence service or delays in commencing service due to (i) accident or damage to the Company's pipelines, regulators and other gas distribution facilities, (ii) strikes, riots, or acts of war, (iii) orders of any court or judge granted in any bonafide adverse legal proceedings or any order of any regulatory authority having jurisdiction, (iv) acts or circumstances beyond the Company's control, and (v) the negligence of the Company, its employees or contractors, except to the extent that the damages are occasioned by the gross negligence or willful misconduct of the Company. Right-of-Way - The Customer shall make or procure conveyance to the Company of perpetual right-of-way: satisfactory to the Company, across the property owned or controlled by the Customer, for the Company's lines or extensions thereof, or other equipment necessary or incidental to the supplying of service to the Customer, and without reimbursement to the Customer from the Company. Access to the Premises - The Customer shall maintain the premises in such a manner that the Company's agents: shall be able to verify the valid Service Address of the premises from the street; and shall have safe and unobstructed access to all portions thereof, at all reasonable hours, for the purpose(s) of UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.04 Page 12 - maintaining, removing, or replacing the Company's property; - reading meters; and - all other purposes incident to the supplying of service to the Customer. Location of Service Connections - The Customer's service connections are to be located on the side of the house at a point readily accessible to the Company's service facilities. The service connection point is to be determined by the Company, and such point may be relocated if deemed necessary by the Company. 01.04.05 REMETERING AND RESALE OF SERVICE Service is supplied directly to the Customer through the Company's own meter. Utility service shall not be metered for resale, or otherwise resold by a Customer, for a price higher than the price charged to the Customer by the Company. The Company may, after notice and opportunity for hearing, discontinue supplying of utility service to a Customer to prevent a violation of this provision.

01.04.06 SERVICE TO ADJACENT PREMISES No Customer may extend or connect the Customer's installation to utility lines across or under a public street, alley, right-of-way space, or other private space, including property lines, in order to obtain service for adjacent property through one meter, even though such adjacent property is owned, controlled, or occupied by the Customer. The Company may terminate service to a Customer after notice and opportunity for hearing until any violation of this subsection is discontinued. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.06 Page 13

However A Customer who owns adjacent properties which are developed and operated as a unified apartment, office, commercial, or industrial project, may extend or connect the installation to lines across or under the property lines of said adjacent properties in order to service said properties through one meter, for as long as the above stated condition continues.

01.04.07 COMPANY'S RIGHT TO CANCEL SERVICE CONTRACT Exercise of or failure to exercise any one or more of the following remedies does not affect the Company's right to resort thereafter to any one or more of such remedies for the same or any future default or breach of the service contract by the Customer: Remedies: terminate service as provided for in Sections 02.07.01 - 02.08.06 of these Regulations; cancel service contract(s); and resort to any other legal remedy.

01.04.08 PERSONS AND ENTITIES WHO ARE RESPONSIBLE FOR PAYMENT OF UTILITY SERVICES When the Customer fails, refuses, or is unable to pay for services rendered, the Company may require payment from the Customer or from any other person, corporation, or other legal entity who is liable to the Company for the services rendered under any law or legal doctrine available in this state.

DRIP2b

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Appeals and Hearings
Section 01.05.01 Page 14

01.05.01 APPEALS Customers objecting to the actions, policies, or decisions of the Company with regard to utility service may informally appeal to the Company in person; or by telephone to attempt a resolution administratively. When an informal appeal is made, a document shall be prepared by the Company representative to indicate: the reason for the informal appeal; the persons present during the meeting; and the decision of the Company representative. If the problem is not resolved by an informal appeal, the Customer shall be given written notice of his/her right to a formal appeal hearing pursuant to this subsection of these Regulations. Such notice shall indicate: the steps the Customer must take to initiate the appeal, including providing the name of the officer and the address to which the appeal shall be made; whether failure to initiate the appeal within three (3) days of the date of the notice may result in termination of service to the account in question; and the procedure for obtaining a copy of the rules for the formal hearing. A request for a formal appeal hearing before the designated Hearing Officer will not be granted when the Customer's only complaint regards the: determination of reasonableness or the denial of a deferred payment agreement under Sections 02.05.01 - 02.05.05 of these Regulations; Customer's financial inability to pay for services rendered and there is no dispute as to the accuracy of the billing or the Customer's liability; or the design and fairness of the rate schedule.

UTILITY SERVICE REGULATIONS
GENERAL RULES PART 01.00.00 Appeals and Hearings Section 01.05.02
Page 15

01.05.02 HEARINGS The time, date and place of a formal appeal hearing shall be provided to the Customer requesting a formal hearing. The hearing shall be held not more than five (5) business days from the date of the Customer's request. The Customer may appear in person or be represented by counsel or both, and shall be afforded the opportunity to confront and question adverse witnesses at the hearing. The formal legal rules of evidence shall not apply. The formal appeal hearing shall be before a Hearing Officer: appointed by the Company Vice-President - Central Texas for the purpose of hearing such appeals, not under the supervision of the Commercial Office Manager; and not a participant in the previous decision now under review. The Hearing Officer shall be the sole judge of the evidence and credibility of witnesses and the facts as well as the applicability of the rules and

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 15406

regulations of the Company; and render his/her final decision in writing to all parties concerned at the close of the hearing or within five (5) business days of its conclusion.

01.05.03 RESULTS OF HEARINGS

In the event the decision reached at a formal appeals hearing is against the Customer, the Hearings Officer shall instruct the Company and Customer what action, if any, must be taken by the Customer to maintain utility service; and set a reasonable period of time in which the Customer must take such action. In the event that payment of a bill is involved, the Customer shall be allowed three (3) business days to pay such amount. In the event the decision reached at a formal appeal hearing is in favor of the Customer, in whole or part, the Hearings Officer shall instruct the Company and Customer what corrective action shall be taken and the Company shall take action within a reasonable time, which time may be set by the Hearing Officer; and instruct the Customer to pay or make acceptable arrangements for payment of any amount of disputed billing found to be accurate, within three (3) business days or by the due date of the billing whichever is later.

01.05.04 CONTINUITY OF SERVICE DURING APPEAL

During the pendency of the formal appeal, the Customer's utility service shall be continued if not terminated prior to a valid formal appeal. In the event utility service was terminated prior to a valid formal appeal hearing utility service will be re-initiated upon payment of the initiation fee and payment of an amount consistent with that Customer's previous year's usage for the same billing period, or an amount consistent with usage of similar residential units in the same area, if the Customer has no previous service history. If applicable, correction of any condition which caused service to be terminated must be corrected prior to re-initiation of service. the initiation fee will not be charged if the Hearing Officer's decision is in favor of the Customer in whole or part.

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Appeals and Hearings Section 01.05.05
 Page 17

01.05.05 FAILURE OF COMPANY TO COMPLY The failure of the Company to comply with any time provision contained herein shall in no way result in the Company's waiving its right to see termination of service for the reasons specified in these Regulations.

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.01
 Page 18

01.06.01 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation.

01.06.02 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.

01.06.03 INITIAL ALLOWANCE FOR

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15406

POTENTIAL PERMANENT CUSTOMERS The Company shall also determine the number of Potential Permanent Customers located along the route of the extension which are expected to be served therefrom. To be considered a Potential Permanent Customer, the occupant of such premise must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be considered to be Potential Permanent Customers only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.03
 Page 19 served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 25 feet of distribution main shall be given for each Potential Permanent Customer who files an application for service from the proposed main extension to a facility that exists at the time of the application and who agrees to initiate gas service upon completion of the extension. 01.06.04 ADVANCES

The difference between the total cost of facilities as determined in Section 01.06.02 above and the Initial Allowance for Potential Customers as determined in Section 01.06.03 above, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less.

01.06.05 CONSTRUCTION OF FACILITIES As soon as practical, usually within 60 days, after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the company's name and on its form at no cost to the Company (except for fees involved in the recording of documents).

UTILITY SERVICE
 REGULATIONS GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.06
 Page 20 01.06.06 REVIEW OF

ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates or based upon dates established in a separate contract. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Section 01.06.03 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 15406

amount of the special refund shall be up to \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service. _____ 01.06.07 REFUND LIMITATIONS The Company may, at its sole option, make a refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the initial advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

_____ 01.06.08 DELIVERY OF REFUNDS
When a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining un-refunded shall be made to the person or business in whose name the extension agreement is made to his or _____ UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Extension of Facilities Section
01.06.08 Page 21 her assignee. If that letter is returned undelivered, the check shall be canceled and the next review made without regard to that refund. All sums described in this Section which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

_____ UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Customer Owned Systems Section
01.07.01 Page 22
_____ 01.07.01 CUSTOMER OWNED SYSTEMS Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. Company shall provide service through a master meter into the piping systems of others to be distributed to more than one Consumer, except when the gas is resold to those Consumers.

_____ UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section 01.08.01 Page 23
_____ 01.08.01 CURTAILMENTS When the capacity of the Company's system or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with these regulations.

_____ 01.08.02 PRIORITY All Customers served by the Company shall be classified into one of the following priority groups.
A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation. B. Gas sold for agricultural purposes. C. This category consists of the following: 1. gas sold to small commercial and small industrial Customers using 200 MCF or less on an average day; 2. gas sold to industrial Customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production; 3. gas sold to commercial or industrial Customers used to provide water heating, heating and cooling for human comfort in the plant or office areas; _____ UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section
01.08.02 Page 24 4. gas sold for use in power generating plants for start

GAS SERVICES DIVISION

up, safety and flame stabilization. D. Gas sold to commercial Customers using more than 200 MCF, but less than 1,500 MCF on an average day. E. Gas sold to small industrial Customers using more than 200 MCF and less than 3,000 MCF on an average day, provided such user has no economically feasible alternate fuel. F. This category consists of the following: 1. gas sold to industrial Customers for feedstock use where the gas volume is more than 200 MCF and less than 3,000 MCF on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such Customer must prorate its demand for gas and must maximize its use of all other sources of gas; 2. small public utility electric generating systems which use less than 3,000 MCF on an average day. G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve Customers whose usage falls within the descriptions above and small commercial and industrial Customers using 20,000 KWH or less on an average day. H. This category consists of the following: 1. gas sold for use by commercial Customers in excess of 1,500 MCF on an average day; 2. small industrial Customers not qualifying under any of the above. I. All gas sold for use in existing power generating plants for the generation of electricity not included in any of the above. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section 01.08.02 Page 25 J. This category consists of the following: 1. gas sold to large users of gas, in excess of 3,000 MCF on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics. 2. gas sold for feedstock as defined above, in excess of 3,000 MCF on an average day. K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 MCF on an average day and any other use which does not qualify under a preceding priority.

01.08.03 METHOD OF

CURTAILMENT Curtailment shall be ordered ratably insofar as feasible within each priority group served by the same system; provided, however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities A and B. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

01.08.04 CLASS AND GROUP

CURTAILMENT No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service.

UTILITY SERVICE REGULATIONS

GENERAL RULES PART 01.00.00 Curtailments Section 01.08.05 Page 26

01.08.05 NOTIFICATION AND

PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, of the extent and amount of the curtailment required from him or her. If, after notification, any Customer (other than a Customer in Priority A) fails to curtail during the required period, or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priorities A and B is threatened.

01.08.06 SUSPENSION OF THIS

SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

01.08.07 JURISDICTION OVER

CURTAILMENT POLICY Jurisdiction over the curtailment policy set forth in Sections 01.08.01 -

01.08.07 lies with the Railroad Commission of Texas. The Company may change its curtailment policy from time to time if approved or ordered by the Railroad Commission of Texas. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Equal Payment Plan Section

01.09.01 Page 27

01.09.01 PAYMENT PLAN Any Residential Customer may elect to participate in the Company's Average Bill Calculation (ABC) Plan for payment of charges for gas service as may be modified from time to time. Should the Company modify the plan, the Company will notify Customers of the changes made upon their request for enrollment. In general, the conditions under which a Customer may participate in the ABC Plan are set forth below: a) The Company reserves the right to adjust the monthly plan payments of any Customer at any time for changes in conditions or rates. b) The Company shall advise each Customer in the ABC Plan of the monthly plan payment to be paid by the Customer. Each Customer in the ABC Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of that month's plan payment. The Customer shall continue to pay the monthly plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. c) Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly plan payment. d) Interest will not be charged to the Customer on accrued ABC debit balances nor paid by the Company on accrued ABC credit balances. e) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the ABC Plan. f) Any Customer's participation in the ABC Plan may be discontinued by the Company if the monthly plan payment has not been paid on or before the due date of the monthly plan payment. g) If any Customer in the ABC Plan shall cease, for any reason, to participate in the ABC Plan, then the Company may refuse that Customer's reentry into the ABC Plan until the following August. UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.01.01 Application for Service Page 28

02.01.01 WHERE TO APPLY

Anyone requesting utility service provided by the Company shall apply to one of the Company's Commercial Offices. 02.01.02 IDENTIFICATION AND INFORMATION Applicants for service can be required to provide the following form(s) of identification or information: a valid Texas Driver's License with photograph; or a valid identification card, with photograph, issued by the Texas Department of Public Safety; or a Social Security Number; or a working telephone number; or two valid verifiable forms of identification. A listing of forms currently accepted by the Company is available on request. Failure to comply with this section can result in refusal of service. (See Section 02.02.01 of these Regulations.)

02.01.03 CREDIT SECURITY

Before service will be initiated Applicants must establish credit as required for the type of service requested; pursuant to Sections 02.03.02 and 02.03.03.

02.01.04 ADDRESS VERIFICATION

Applicants for service may be required to obtain, and produce on request, verifiable proof of their right to occupy a specific service address as of a specific date of occupancy.

02.01.05 FEES AND PAYMENT

In addition to establishing credit security, Applicants for service must pay whichever of the following fees are required for the service requested. After Hours Fee - charged to any Applicant whose request to initiate service cannot be worked UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.01.05 Application for Service Page 29 during normal business hours. Applicant must be advised that an after hours fee will be charged and must agree to pay such charge. Read-In

Fee - charged to any Applicant for initiation of service when only a meter reading is required. Initiation Fee - charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when a meter is set or the Applicant's appliances are lighted. Payment of the above fees is due with the first bill for service. Sections 04.01.01 and 04.01.02 of these Regulations contain the current schedule of fees and cash deposits. Only U.S. currency, personal checks, money orders or cashier checks are accepted as payment for cash amounts due for fees, deposits, or charges incurred by utility Customers or Applicants. _____ 02.01.06

NONRESIDENTIAL SERVICE Applicants for nonresidential service must provide the Company with all information necessary to estimate the cost of two (2) regular billing months of service at the service address where they wish to initiate service. The Company's estimate shall be used to calculate the necessary credit security required for service initiation; and may be required to obtain and produce valid verifiable proof of their right to contract for the entity requesting the service.

REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
02.02.01 Refusal of Service Page 30

UTILITY SERVICE
02.02.01 SUFFICIENT
GROUNDS The Company may decline to initiate service to any Applicant for any of the following reasons: if the Applicant is not in compliance with the state, federal or municipal regulations governing the service applied for; if the Applicant's installation or equipment is known to be hazardous or of such character that satisfactory service cannot be given; if the Applicant responsible for payment of utility services as set forth in Section 01.04.08 is indebted to the Company for utility service, provided, however, that in the event the indebtedness of Applicant is the subject matter of a pending formal appeal hearing, the Applicant shall be served, if in compliance with the remainder of this section; if the Applicant does not comply with the application for service requirements or the credit security requirements set by the Company for the service requested; if the Applicant or the building or structure to be served does not comply with the City's Electric Code, Plumbing Code, Energy Conservation Code, Building Code, Mechanical Code, or Fire Code; if the Applicant or the building or structure to be served is not in compliance with any city regulation or state or federal statute which provides for refusal or termination of service as a penalty; or if the building structure to be served is not connected to the Company's distribution facilities.

02.02.02 RIGHT OF
APPEAL In the event the Company shall refuse service to an Applicant under the provisions of these regulations the Company must inform the Applicant of the basis for its refusal; and that the Applicant may appeal such decision pursuant to Sections 01.05.01 - 01.05.05 of these Regulations. _____ UTILITY

SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE
Section 02.03.01 Credit Security Page 31

02.03.01 AUTHORITY
In exchange for assuming the risks involved in providing utility service on credit, the Company may require Customers to give, maintain, and/or re-establish credit security for any utility service address; and establish utility Customer payment standards.

02.03.02 FORMS OF
CREDIT SECURITY FOR RESIDENTIAL SERVICE The following forms of credit security may be accepted from residential Customers and Applicants for service: a record of satisfactory compliance with Customer payment standards for service at a comparable residential service address served by the Company for at least one year; a refundable cash deposit of as much as one-sixth (1/6) the estimated annual billings for services requested; but no less than the

minimum deposit set forth in Section 04.01.02; a nontransferable, irrevocable letter of credit from an established financial institution, payable for as much as, one-sixth (1/6) the estimated annual billings for services requested and, which can be drawn on for a maximum of two (2) years; but no less than the minimum deposit set forth in Section 04.01.02; and In addition to the above requirements, residential Customers and Applicants for service must have no outstanding utility bills due to the Company or an acceptable payment plan initiated.

DRIP2c UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.03.03 Credit Security Page 32 02.03.03 FORMS OF

CREDIT SECURITY FOR NONRESIDENTIAL SERVICE Any one of the following forms of credit security may be accepted from nonresidential Customers and Applicants for service: a record of satisfactory compliance with Customer payment standards for service at a comparable nonresidential service address served by the Company for at least one year; a refundable cash deposit of as much as one-sixth (1/6) the estimated annual billings for service requested; but no less than the minimum deposit set forth in Section 04.01.02; a nontransferable, irrevocable letter of credit from an established financial institution, payable for as much as one-sixth (1/6) the estimated annual billings for services requested and, which can be drawn on for a minimum of two (2) years; but no less than the minimum deposit set forth in Section 04.01.02; or a surety bond issued by a reputable insurance company which can be drawn on for a minimum of two years.

02.03.04 CUSTOMER PAYMENT STANDARDS In order to have a record of satisfactory compliance with Customer payment standards, the Customer must have: had at least twelve (12) consecutive billing cycles of residential service, or twenty-four (24) consecutive billing cycles of nonresidential service; had no disconnection or collection effort for nonpayment during the last twelve (12) consecutive billing cycles of residential service or twenty-four (24) consecutive billing cycles of nonresidential service; and no utility bills past due.

INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.03.05 Credit Security Page 33

02.03.05 DISPOSITION OF MATERIAL FORMS OF CREDIT SECURITY When a Customer establishes a record of satisfactory compliance with the Customer payment standards for the account in question as specified in Section 02.03.04; and has paid the total amount due before the due date for (12) residential billing cycles or twenty-four (24) nonresidential billing cycles; or discontinues service and pays all utility bills; then material forms of credit security, with interest if required by law, shall be: - returned to the Customer; - voided; or - if in the form of cash, credited to the Customer's account, or refunded in full.

02.03.06 DISPOSITION OF UNCLAIMED CASH DEPOSITS A record of each unclaimed deposit will be maintained for a period of seven (7) years, during which time the Company shall make a reasonable effort to return the deposit. After seven (7) years the deposit will become the property of the State of Texas.

02.03.07 FAILURE TO COMPLY Failure to comply with credit security requirements makes an active account subject to termination of service pursuant to Section 02.09.00 of these Regulations.

INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.01 Billing and Payment Page 34

02.04.01 BILLING

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 15406

PERIODS Bills are rendered at regular monthly intervals unless otherwise authorized or unless service is rendered for a period of less than a month.

02.04.02 INFORMATION
 REQUIRED ON THE BILL The Customer's bill shall show all of the following information: the date and meter reading at the beginning and at the end of the period for which the bill is rendered; the number and kind of units metered; the applicable rate classification; separate charges for cost of service and cost of gas, if treated separately in the rate ordinance; the total amount due for utility service and tax; the date the bill is due and by which the Customer must pay the bill; a distinct marking to identify an estimated bill; any conversions from meter reading units to billing units, or any other calculations to determine billing units from recording to other devices, or any other factors used in determining the bill; the explanation of charges shall be in English and Spanish. The information required by this subsection shall be arranged to permit the Customer to compute his bill by using the applicable rate schedule which shall be supplied when requested by the Customer.

UTILITY SERVICE REGULATIONS
 INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.03
 Billing and Payment Page 35

02.04.03 PAYMENT
 All bills for service are due by the date printed on the bill. If the payment in full is not received in the Company's office by the date printed on the bill, the bill shall be considered delinquent. If a Customer does not receive his or her bill(s), the obligation to make payment for service rendered is not released or diminished.

02.04.04 BILLING
 ADJUSTMENTS If any meter is found to be outside the accuracy standards established by these Regulations, proper correction shall be made of previous readings for the period of six (6) months immediately preceding the removal of such meter from service for the test, or from the time the meter was in service since last tested, but not exceeding six (6) months, as the meter shall have been shown to be in error by such test, and adjusted bills shall be rendered. No refund is required from the Company except to the Customer last served by the meter prior to the test. If a meter is found not to register for any period unless bypassed or tampered with, the Company shall make a charge for units used, but not metered, for a period not to exceed three (3) months, based on amounts used under similar conditions during the period preceding or subsequent thereto, or during corresponding periods in previous years. If a meter, though otherwise meeting the accuracy standards established by these Regulations, does not register proper consumption (because of improper installation or for any other reason) the total amount overbilled or underbilled to the Customer shall be adjusted. The total amount overbilled or underbilled shall be adjusted when the overbilling or underbilling results from causes not mentioned above. Overbillings or underbillings in this category would include, but shall not be limited to, those caused by: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.04 Billing and Payment Page 36 - the failure to read a meter; - the misreading of a meter; - the application of an improper rate schedule; or - typographical or computational errors. In any case of underbilling, the Company may offer to such Customer a deferred payment plan option for the same length of time as that of the underbilling. Reimbursement or collection shall be made at the rates in effect at the time of each overbilling or underbilling.

02.04.05 CUSTOMER'S
 RIGHT TO DISPUTE BILLS Customers have the right to dispute any portion of their utility bill. The Appeals and Hearings Section of these Regulations (Sections 01.05.01 - 01.05.05) covers bill disputes. 02.04.06

DELINQUENCY An active account becomes delinquent when full payment is not received; in

GAS SERVICES DIVISION

the Company's Commercial Office, by the due date printed on the bill. Delinquent accounts are subject to termination of service, pursuant to Sections 02.07.01 - 02.08.06 of these Regulations. _____ 02.04.07

UNLAWFUL USE OF SERVICE Where a condition threatens the public health, safety or resources, in any case of tampering with a meter installation or interfering with the proper function thereof, or any other unlawful use or diversion of service by any person, or evidence of any such tampering, interfering, unlawful use or service diversion, by a Customer who could be reasonably expected to benefit from such action the Customer is subject to: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.07 Billing and Payment Page 37 immediate termination of service; and prosecution under applicable laws. In any case of unlawful use of service the Company shall be entitled to collect from the Customer payment of the costs for all natural gas not recorded on the meter by reason of such tampering, interfering, unlawful use or service diversion, - the amount of which may be estimated by the Company from the best available data, and - billed at the proper rate schedule; and the unauthorized consumption fee plus all other expense incurred by the Company on account of such unauthorized act or acts, such amount based on an itemized statement from the Company.

_____ 02.04.08 RETURNED CHECKS Accounts for which payment is made using checks which are returned by a bank for any reason may be charged a returned check fee for each occurrence. The amount of the check will be charged back to the account. Repayment of the returned check shall be made in the form of cash, cashier's check, or money order. The Customer will be sent a written notice which will indicate that the Customer has seven (7) days in which to make full payment of the amount covered by the returned check, or service will be subject to termination. Utility service terminated for nonpayment of a returned check will not be re-initiated until the amount of the returned check and all applicable fees have been paid in full.

_____ UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.01 Deferred Payment Agreements Page 38

_____ 02.05.01 ELIGIBILITY Any active Customer with a previous balance owed the Company for utility service may apply for a deferred payment agreement. The Company may enter into a deferred payment agreement with a Customer under circumstances the Company determines are reasonable.

_____ 02.05.02 DETERMINATION OF REASONABLENESS Factors used in determining reasonableness under these Regulations shall include but not be limited to: size of the previous balance owed the Company; customer's ability to pay; customer's payment history; reasons the debt has not been paid; time that the debt has been outstanding; and any additional factors considered relevant other than race, religion, gender, or national origin of Customer.

_____ 02.05.03 BASIC TERMS Every deferred payment agreement shall provide that the Company shall not terminate the Customer's service, if the Customer first pays an agreed upon reasonable amount of the outstanding previous balance; pays the current bills, including any applicable fees, when due; and pays the outstanding previous balance, by agreed upon dates, in reasonable installments until that previous balance is cleared.

_____ UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.04 Deferred Payment Agreements Page 39

_____ 02.05.04 DEFAULT If a Customer fails to meet the terms of a deferred payment agreement, the Company may

terminate service pursuant to Sections 02.07.01 - 02.08.06, and under such circumstances, shall not be required to offer subsequent negotiation of a deferred payment agreement prior to termination. _____ 02.05.05

APPEALS An appeal by a Customer of the determination of reasonableness as defined in Section 02.05.02 above or the denial of a deferred payment agreement shall be conducted pursuant to Sections 01.05.01-01.05.05 of these Regulations.

UTILITY SERVICE REGULATIONS
 INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
 02.06.01 Transfer of Service Page 40

02.06.01 CUSTOMER MOVE WITHIN SERVICE AREA When a Customer vacates a Company service address, notice must be given to the Company prior to the date of change. A Customer is responsible for all service supplied to vacated premises until such notice is received and the Company has had reasonable time (no more than six (6) business days) to discontinue service. This section does not abolish or impair any right the Company may have to recover for services rendered pursuant to Section 01.04.08 of this Tariff.

02.06.02 TRANSFER OF SERVICE Customers wishing to transfer service from one service address to another are subject to the requirements of Sections 02.01.00 through 02.03.00 for the type of service to be supplied at the new location.

02.06.03 CREDIT SECURITY TRANSFER If the credit security requirement at the new service address is higher than at the Customer's previous service address, an additional cash deposit or new credit security instrument may be required before service will be transferred. If the credit security requirement at the new service address is lower than at the Customer's previous service address, then the Company may, at its option, apply any cash deposit on hand to the balance due for the previous account and refund the difference, if any, to the Customer, requiring new credit security for the new account; or transfer the cash deposit to the new account, applying the difference to the new account or refunding it to the Customer.

UTILITY SERVICE REGULATIONS
 INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.07.01
 Grounds for Termination of Service Page 41

02.07.01 SUFFICIENT GROUNDS The Company may terminate a Customer's utility service at the request of the Customer; for the Customer's failure; - to pay a delinquent account; - to comply with the terms of a deferred payment agreement; - to comply with credit security requirements; - to make payment for a bill initially paid by a check returned by a bank for any reason for the operation or installation of equipment which interferes with the service of others; upon discovery of the existence of - meter tampering or diversion of service; - a known dangerous condition; - any unlawful use of service; - the violation of any ordinance, statute or regulation regulating the submetering of utility service; or - the violation of any regulation which relates to utility service, or which provides for termination or refusal of service as a remedy. _____

for non-utility service owed to the Company; or failure to pay a bill disputed under the formal appeal provisions set forth in Sections 01.05.01-01.05.05 of these Regulations, until determination is made by the Hearings Officer. The Company may not discontinue service before 8 A.M. or after 7 P.M. on weekdays or at any time on Friday, Saturday, Sunday or a holiday unless the Company's business office is open and service can be reconnected the following day.

UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.08.01
Procedural Requirements for Page 43 Collection and Termination
02.08.01

APPLICABILITY Service subject to termination can be terminated as specified in all provisions of this Section except when service is to be terminated for the following reasons At the Request of the Customer - Service will be terminated within six (6) workings days of the request. No notice to Customer is required. Payment with a Check Returned by a Bank - Sections 02.04.08 and 02.08.02 through 02.08.04 of these Regulations apply to termination of service in these circumstances. Where a Known Dangerous Condition Exists or Where a Condition Threatens the Public Health, Safety, or Resources - Service can be terminated without prior notice and remain terminated as long as the condition exists.

02.08.02 NOTICE
When a Customer's account becomes subject to termination, written notice of the proposed termination shall be given by the Company. The notice shall: be sent by mail to the mailing address of the Customer, unless the service address is different, be printed in English and Spanish; state reasons for the proposed termination; state the Customer's right to a hearing before such termination occurs; and state that the Customer who so desires must request a hearing by contacting the Company at a stated telephone number or in person within and not later than - seven (7) days following the date of the mailed notice,

UTILITY SERVICE REGULATIONS

Procedural Requirements for Page 44 Collection and Termination
02.08.03 FIELD

COLLECTION - GENERAL CIRCUMSTANCES If the Customer does not take action by the date required by the termination notice, a representative of the Company shall be sent to the service address. The Company's representative will terminate service, and leave written notice of termination if - Customer is not on the premises, or - Customer refuses to pay at least the previous balance; or not terminate service if - Customer pays the previous balance due in full, - Customer shows receipt for payment of at least the previous balance due, or - Customer shows proof of compliance with a satisfactory deferred payment agreement which can be verified by the collector; or - Customer shows proof of a serious illness of someone residing at the residence pursuant to the terms of Section 01.03.06; - hazardous weather conditions exist (see Section 01.02.11).

02.08.04 FIELD COLLECTION - SPECIAL CIRCUMSTANCES Multi-Unit Structure Served By a Single Meter - When service is provided to a structure known to be divided into two or more separately occupied units and billed to a single Customer rather than the individual occupant, the Company representative sent to make collection at the service address will not terminate service on the first visit but will inform the Customer in person or in writing of the previous balance owed; UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.08.04 Procedural Requirements for Page 45 Collection and Termination give written notice that service will be subject to termination after two (2) days and will be terminated after notice of the pending termination has been given to all occupants of the structure; give written notice to the occupants of the structure (by affixing a notice to each door or by hand delivering a notice to one occupant in

 02.08.05 RE-

INITIATION OF SERVICE Terminated service will be re-initiated if the Customer pays the past due balance; and the Customer supplies or maintains residential or non-residential credit security on the account; or the Company accepts a deferred payment agreement for the amount due; and the Customer supplies or maintains residential or non-residential credit security on the account. Re-initiation of service will result in an active Customer's account being charged fees as indicated in Section 02.08.06.

02.08.06 FEES AND CHARGES The purpose of the fees and charges described here is to defray the costs relating to delinquent accounts. The amount of each fee is contained in Sections 04.01.01 - 04.01.02 of these Regulations. The fees and charges will be identified on a regular bill. Unauthorized Consumption Fee - Charged for the replacement of an illegally broken meter seal or locking device to the Customer who could be reasonably expected to benefit from gas service received through said meter. Initiation Fee - Charged to any Customer whose service is terminated and then re-initiated unless terminated in error by the Company. This fee is the same as the standard Initiation Fee charged for new service. Field Collection Fee - Charged to any Customer whose failure to respond to a termination notice necessitates the dispatch of a Company representative who collects payment from the Customer. TEXAS GAS SERVICE COMPANY Utility Service Regulations Dripping Springs Service Area (Environs) QUALITY OF SERVICE RULE ADDENDUMS AND AGREEMENTS ON INTERPRETATION ADDENDUM TO SERVICE RULES THE FOLLOWING RULE (ADOPTED MAY 12, 2002) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency (a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as "providers." Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law. (b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to

TARIFF CODE: DS RRC TARIFF NO: 15406

others, a provider shall not disconnect natural gas service to: (1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service. (2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service. (c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service. (d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows: (1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area. (2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area. (3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems. (4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers. (e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Initial Rate Meters Read On and After January 31, 2006

ADDENDUM TO SERVICE RULES THE FOLLOWING RULE (ADOPTED OCTOBER 21, 2003 PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site. PIPELINE SAFETY REGULATIONS
SUBCHAPTER C
REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any

fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 -

DESCRIPTION

105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA-NTX-IS

TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE WNA Page 1 of 1
 WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson: 10, 20, 25, 40, and 45. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the City monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the City an annual report verifying the past year's WNA collections or refunds. Supersedes Same Sheet Dated Sept. 22, 2000 (Weatherford), Oct. 31, 2000 (Willow Park, Aledo and Hudson Oaks), May 25, 2001 (Mineral Wells), July 26, 2001 (Graford and Millsap)

 RATE SCHEDULE 1-1
 COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17036

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson and Weatherford, Texas.

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than April 1, with rate adjustments to be effective the first billing cycle of August each year.

C. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes.

In any year, the percentage change in total calendar year operating expenses shall not exceed the greater of 3.5 percent or the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in operating expenses (Account Nos. 870-932) is computed by comparing the operating expenses of the most recent calendar year to the prior calendar year operating expenses (either those from the last rate case or cost of service adjustment, whichever is more recent.)The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account No. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932, except 928) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. ** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items* Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories and prepayments levels approved in the most recent general rate case.

3. Federal Income Taxes Calendar year federal income taxes will be calculated as follows: Net Taxable Income (calendar year end rate base multiplied by rate

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17036

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

4. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections C.1 through C.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than ninety (90) days within which to review the proposed annual rate adjustment prior to its taking effect with the first billing cycle of August of each year. If a City takes no action within ninety (90) days, the proposed annual rate adjustment will be deemed approved by the City. A city or group of cities may retain a consultant to review the annual rate adjustment filing, and the Company agrees to reimburse the actual, aggregate cost of such review(s) up to an amount not to exceed \$15,000 per year. Any reimbursement of such costs will be recoverable through the Company's annual cost of service adjustment rate. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws. Texas Gas Service Company shall not appeal to the Railroad Commission of Texas the denial of its annual rate adjustment by one or more of the cities. However, such denial shall not preclude Texas Gas Service Company from filing a Statement of Intent to increase rates pursuant to section 104.102 of the Texas Utilities Code in such cities.

1-INC-NTX-IS-COG

TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-INC COST OF GAS
 CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson, Texas . B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component related fees (including franchise fees), and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased of a general service customer during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds,

DESCRIPTION

above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. Transition from the preceeding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Supersedes Rate Schedules: 1-INC dated 8/24/01 (Weatherford, Willow Park, Aledo, Hudson Oaks, Mineral Wells, Graford, Millsap, Jacksboro, Bryson, Graham) 1 dated 6/23/2000 (Breckenridge) Meters Read On and After April 28, 2006 (Other cities) June 5, 2006 (Breckenridge)

	ORDER RELATING TO THE APPROVAL BY THE COMMISSION OF CURTAILMENT PROGRAMS FOR NATURAL GAS
	TRANSPORTED AND SOLD WITHIN THE STATE OF TEXAS
	<p>After due notice the Railroad Commission of Texas on the 30th day of November, 1972, heard testimony and requested written curtailment priorities from representatives of investor owned and municipal gas utilities companies, private industry consumers and others responsible for directing available natural gas supplies to the consumers of natural gas in the State of Texas.</p>
	<p>WHEREAS, pursuant to the authority granted to the Railroad Commission of Texas in Article 6050 to 6066, inclusive, R.C.S., as amended; and</p>
	<p>WHEREAS, the Commission has determined the need for a curtailment program to assure effective control of the flow of natural gas to the proper destinations to avoid suffering and hardship of domestic consumers; and</p>
	<p>WHEREAS, the Commission has determined a need to make natural gas available to all gas consumers on a reasonable but limited basis during times of needed curtailment to the end that the public will be best served; and</p>
	<p>WHEREAS, the Commission has determined that the transportation delivery and/or sale of natural gas in the State of Texas for any purpose other than human need consumption will be curtailed to whatever extent and for whatever periods the Commission may find necessary for the primary benefit of human needs customers (domestic and commercial consumption) and such small industries as cannot practically be curtailed without curtailing human needs.</p>
	<p>IT IS THEREFORE, ORDERED BY THE RAILROAD COMMISSION OF TEXAS that the following rules relating to the approval by the Commission of curtailment programs for gas transported and sold within the State of Texas shall apply to all parties responsible for directing available and future natural gas supplies to the consumers of natural gas in the State of Texas.</p>
	<p>RULE 1.</p>
	<p>Every natural gas utility, as that term is defined in Article 6050, R.C.S. of Texas, as amended, intrastate operations only, shall file with the Railroad Commission on or before Feb. 12, 1973, its curtailment program. The Commission may approve the program without a hearing; set the matter for a public hearing on its own motion or on the motion of any affected customer of said utility.</p>

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17036

The curtailment program to be filed shall include, in verified form, the following information:

A. Volume of gas reserves attached to its system together with a brief description of each separate source of gas reserves setting forth the following:

1. the name of the supplier,
2. the term of each contract in years, and the years remaining on said contract,
3. the volume of recoverable reserve contracted for, and
4. rated deliverability of such reserves in MCF.

B. Capacity and location of underground storage, if any, attached to its system with a statement of whether the company's storage balance is above or below its desired level for this time, and, if below, what plans has the company made to restore the balance.

C. Peak day and average daily deliverability on an annual basis of its wells, gas plants and underground storage attached to its system.

D. Peak day capacity of its system.

E. Forecast of additions to reserves for each of the next two succeeding years.

F. Location and size of the line pipes, compressor stations, operating maximum line pressures, and a map showing delivery points along the system.

G. Disposition of all gas entering its system, with names of all customers other than residential customers and volumes delivered to each during the past calendar year. Identify those customers using 3,000 MCF gas per day, or more, which are under a service contract, and if such contract includes an Interruptible Service clause, and if so, attach a reproduced copy of the relevant provisions of such contract.

H. Steps taken in past years, being taken at the present, and to be taken to alleviate curtailments.

RULE 2.

Until such time as the Commission has specifically approved a utilities curtailment program, the following priorities in descending order shall be observed:

A. Deliveries for residences, hospitals, schools, churches and other human needs customers.

B. Deliveries of gas to small industrials and regular commercial loads (defined as those customers using less than 3,000 MCF per day) and delivery of gas for use as pilot lights or in accessory or auxiliary equipment essential to avoid serious damage to industrial plants.

RAILROAD COMMISSION OF TEXAS
 GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17036

C. Large users of gas for fuel or as a raw material where an alternate cannot be used and operation and plant production would be curtailed or shut down completely when gas is curtailed.

D. Large users of gas for boiler fuel or other fuel users where alternate fuels can be used. This category is not to be determined by whether or not a user has actually installed alternate fuel facilities, but whether or not an alternate fuel could be used.

E. Interruptible sales made subject to interruption or curtailment at Seller's sole discretion under contracts or tariffs which provide in effect for the sale of such gas as Seller may be agreeable to selling and Buyer may be agreeable to buying from time to time.

RULE 3.

Each gas utility that has obtained Commission approval of a curtailment program shall conduct operations in compliance with such program. So long as any gas utility which has obtained Commission approval of a curtailment program continues to curtail deliveries to its customers, except as provided by contract or those customers included in Part E of Rule 2 above, it

(a) shall file on or before April 1 of each year, under oath, the information called for in Rule 1, for the preceeding year, and

(b) shall not, without Commission approval, make sales of gas to any new customers or increase volumes sold to existing customers, except those new or existing customers defined in Parts A & B of Rule 2 above.

IT IS FURTHER ORDERED that this cause be held open for such other and further orders as may be deemed necessary.

ENTERED AT AUSTIN, TEXAS, this 5th day of January, 1973.

LINE EXTENSION POLICY

POLICY ID	DESCRIPTION
1128	TEXAS GAS SERVICE COMPANY Texas Tariff - Mineral Wells Service Area MUNICIPALITIES OF: MINERAL WELLS, TEXAS GRAFORD, TEXAS MILLSAP, TEXAS (From Quality of Service Rules effective 8/24/01) EXTENSION OF FACILITIES 9.1 New Construction The Company shall install the necessary facilities to provide service to applicants whose premises are located beyond the Company's existing distribution facilities based on the economics of the extensions. The extensions must either be cost justified or the applicant(s) must make an advance pursuant to an advance agreement negotiated between the Company and the applicant prior to any work commencing. [Note per Deposits Section 10.2 (a): Advances - Charged for extension of new service beyond the existing distribution facilities of the Company. Estimated expenditure to serve the premises of new business beyond the existing distribution facilities of the Company.]

These Utility Service Regulations (Service Regulations) are applicable in the service area specified for residential and small commercial customers. 1.2 Provision of Service The Company will provide gas service to any person or organization located within its service area and from its facilities or in certain cases, the facilities of its supplier, in accordance with the provisions of its Tariff and these Utility Service Regulations. Service provided directly from the facilities of others may be provided only with the approval of the owning company and shall thereafter be continued only as long as gas of satisfactory quality and quantity is available at the location. 1.3 Rate Schedules All customers shall be served under rate schedules filed with the Regulatory Authority. Customers shall be assigned to rate schedules in accordance with the class of the particular customer, the usage which will be made of the gas, that Customer's volume requirements, and/or other criteria specified in the rate schedule. 1.4 Resale of Gas Gas delivered by the Company shall not be redelivered or resold for the use thereof by others unless otherwise expressly agreed to in writing by the Company except, however, that those customers purchasing gas for redistribution to the customer's tenants may separately meter each tenant distribution point for the purpose of prorating the customer's actual purchase of gas delivered among the various tenants on a per unit basis. Any other allocation will constitute resale and is prohibited. 1.5 Transportation Across State Lines No gas supplied by the Company shall be transported across state lines for any purpose without the express written permission of the Company. Violation of this paragraph shall be considered cause for immediate disconnection of service without notice. 1.6 Exceptions Interpretations of these Service Regulations and the resolution of any items not provided for in these regulations shall be at the Company's sole discretion. These Service Regulations shall be in effect, but only to the extent that they do not conflict with franchise agreements for the areas covered by these Service Regulations. Section 2 CONDITIONS OF SERVICE 2.1 Continuity of Service A) Service Interruptions 1) The Company shall make all reasonable efforts to prevent interruptions of service. When interruptions occur, the Company shall re-establish service within the shortest possible time consistent with prudent operating principles so that the smallest number of customers are affected. 2) The Company shall make reasonable provisions to meet emergencies resulting from failure of service, and shall issue instructions to its employees covering procedures to be followed in the event of an emergency in order to prevent or mitigate interruption or impairment of service. 3) In the event of national emergency or local disaster resulting in disruption of normal service, the Company may, in the public interest, interrupt service to other customers to provide necessary service to civil defense or other emergency service agencies on a temporary basis until normal service to these agencies can be restored. B) Record of interruption. Except for momentary interruptions which do not cause a major disruption of service, the Company shall keep a</p>	TABLE OF CONTENTS	Section	Description	Effective Date	1. complete record of all interruptions, both emergency and scheduled. This record shall show the cause of interruptions, date, time duration, location, approximate number of customers affected, and in cases of emergency interruptions, the remedy and steps taken to prevent recurrence. C) Report to either the local Regulatory Authority, if directed by city ordinance or franchise, if not so directed, report to the Railroad Commission of Texas (Commission.) The Regulatory Authority or the Commission shall be notified in writing within 48 hours of interruptions in service affecting the entire system or any major division thereof lasting more than four hours. The notice shall also state the cause of such interruptions. If any service interruption is reported to the Commission otherwise (for example, as a curtailment report or safety report), such other report is sufficient to comply with the terms of this paragraph. D) The Company's Curtailment Plan will comply with Regulatory Authority requirements. E) The Company does not guarantee uninterrupted service to any customer and shall not be liable for damages resulting from loss of service.

2.2 Customer Relations A) The Company shall:

- 1) Maintain a current set of maps showing the physical locations of its facilities. All distribution facilities shall be labeled to indicate the size or any pertinent information which will accurately describe the Company facilities. These maps, or such other maps as may be required by the Regulatory Authority, shall be kept in a central location and will be available for inspection by the Regulatory Authority, during normal working hours. Each business office or service center shall have available up-to-date maps, plans, or records of its immediate area, with such other information as may be necessary to enable the Company to advise applicants and others entitled to the information as to the facilities available for serving that locality;
- 2) At the customer's or applicant's request, Company will assist in selecting the most economical rate schedule;
- 3) Notify customers affected by a change in rates or schedule, in compliance with applicable law or regulations;
- 4) Post a notice in a conspicuous place in each business office where applications for service are received informing the public that copies of the rate schedules and rules relating to the service of the Company are available for inspection. Upon request, the Company shall make copies of the tariffs at the Company's reproduction cost, for the customer;
- 5) Upon request, inform its customers how to read their meter;
- 6) Provide to new customers, at the time service is initiated or as an insert in the first billing, an information packet containing a concise description of the customer's rights and the Company's obligations under these Service Regulations. The following information shall be provided in English and Spanish as necessary to adequately inform the customers:
 - i. the customer's right to information concerning rates and services and the customer's right to inspect or obtain, at reproduction cost, a copy of the applicable tariffs and service regulations;
 - ii. the customer's right to have his or her meter checked without charge, if applicable;
 - iii. the time allowed to pay outstanding bills;
 - iv. grounds for termination of service;
 - v. the steps the Company must take before terminating service;
 - vi. how the customer can resolve billing disputes with the Company and how disputes and health emergencies may affect termination of service;
 - vii. information on alternative payment plans offered by the Company;
 - viii. the steps necessary to have service reconnected after involuntary termination;
 - ix. the appropriate Regulatory Authority with whom to register a complaint and how to contact such authority;
 - x. the hours, addresses, and telephone numbers of the Company offices and of its authorized pay stations, where bills may be paid and information may be obtained; and
 - xi. the customer's right to be instructed by the Company how to read his or her meter.
- 7) At least once each calendar year, the Company shall notify its customers that the information packet is available upon request, at no charge to the customer. This notice may be accomplished by use of a billing insert or a printed statement upon the bill itself.

B) Customer complaints. Upon receipt of a complaint from the Regulatory Authority on behalf of a customer either at the Company office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS	RRC TARIFF NO: 17036
-----------------	----------------------

and the Regulatory Authority of the results thereof. The Company shall keep a record of all complaints which shows the name and address of the complainant, the date and nature of the complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final disposition of the complaint. An initial response must be made by the Company by the next working day. The Company must make a final and complete response to the Regulatory Authority within 15 days from the date of the complaint, unless additional time is granted within the 15-day period.

Section 3 INITIATION OF SERVICE

3.1 Reasonable Time The Company shall have a reasonable amount of time to institute service following application or execution of an agreement for service. The time may vary depending on approvals and permits required, the extent of the facilities to be built, and on the Company's work load at the time.

3.2 Establishment of Credit The Company may require a security deposit for service, in accordance with Section 5 of these Service Regulations, to establish a satisfactory credit standing. However, such establishment of credit shall not relieve the customer from complying with rules for prompt payment of bills.

3.3 Grounds for Refusal to Serve The Company may refuse service to any applicant for any of the following reasons; A) Failure of applicant to comply with the state and municipal regulations and Service Regulations of the Company; B) The applicant's installation or equipment is known to be hazardous or of such character that satisfactory service cannot be given (but in all events the applicant shall retain sole responsibility for ensuring the safety of its installation or equipment and the Company's right to refuse service on such grounds shall in no way impose upon the Company any obligation to inspect or test the applicant's installations or equipment); C) Failure to pay fees, advances or contributions or to make a deposit if required for service; D) The applicant is indebted to any utility for the same kind of service as that applied for, unless applicant has made an additional deposit as specified by the Company; or, E) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. In the event that the Company shall refuse to serve an applicant under the provisions of these Service Regulations, the Company must inform the applicant of the basis of its refusal and that the applicant may file a complaint with the appropriate Regulatory Authority. The right to refuse service shall terminate when the applicant has complied with the Company's requirements or corrected the cause for the refusal of service.

3.4 Insufficient Grounds For Refusal To Serve The following shall not constitute sufficient cause for refusal of service to a present customer or applicant: A) Delinquency in payment for service by a previous occupant of the premises to be served; B) Failure to pay a bill to correct previous underbilling due to misapplication of rates more than six months prior to the date of application; C) Operation of nonstandard equipment or unauthorized attachments which interfere with the service of others unless the customer has first been notified and been afforded reasonable opportunity to remedy the situation; D) Failure to pay a bill of another customer as guarantor thereof unless the guarantee was made in writing to the Company as a condition precedent to service; or, E) Failure to pay the bill of another customer at the same address except where the change of customer identity is made to avoid or evade payment of a utility bill.

Section 4 DISCONTINUANCE OF SERVICE

4.1 By Customer A customer shall be responsible for providing the Company with five days advance notice of intention to discontinue service, and will be responsible for all charges for gas service from the intended discontinuance of service date until the Company has read the meter or for three working days, whichever is the shorter period of time.

4.2 For Non-Payment of Bill A customer's utility service may be disconnected for non-payment within five working days after the bill has become delinquent and proper notice has been given. Proper notice consists of a deposit in the United States mail, postage prepaid, or hand delivered to the customer at least five working days prior to the stated date of disconnection, with the words Termination Notice or similar language prominently displayed on the notice. The notice shall be provided in English and

Spanish as necessary to adequately inform the customer and shall include the date of termination, the hours, address, and telephone number where payment may be made, and a statement that if a health or other emergency exists, the Company may be contacted concerning the nature of the emergency and the relief available, if any, to meet such emergency. 4.3 Right to Disconnect for Reasons Other Than Non-Payment Utility service may be disconnected for any of the following reasons: A) Failure to pay a delinquent account or failure to comply with the terms of a written agreement for installment payment of a delinquent account; B) Within five working days after written notice is given for violation of the Company rules prohibiting the use of service in a manner which interferes with the service of others or the operation of nonstandard equipment; if a reasonable attempt has been made to notify the customer and the customer is provided with a reasonable opportunity to remedy the situation; C) Failure to comply with deposit or guarantee arrangements; D) Without notice where a known dangerous condition exists for as long as the condition exists; E) Without notice for willful destruction or damage to or tampering with the Company's property by the customer or by others with his knowledge; F) Refusal to grant the Company's personnel access to the Company's facilities for any lawful purpose; or, G) Five working days after written notice for use, sale or delivery of gas in violation of the provisions of these Service Regulations or violation of any applicable laws, orders or ordinances, provided that disconnection may be made without notice if the violation creates an unsafe condition. 4.4 Special Conditions A) Utility service may not be disconnected for any of the following reasons: 1) Delinquency in payment for service by a previous occupant of the premises; 2) Failure to pay for a different type or class of utility service unless fee for such service is included on the same bill; 4) Failure to pay the account of another customer as guarantor thereof, unless the Company has in writing the guarantee as a condition precedent to service; 5) Failure to pay charges arising from an underbilling occurring due to any misapplication of rates more than six months prior to the current billings; 6) Failure to pay charges arising from an underbilling due to any faulty metering, unless the meter has been tampered with or unless such underbilling charges are due; or, 7) Failure to pay an estimated bill other than a bill rendered pursuant to an approved meter reading plan, unless the Company is unable to read the meter due to circumstances beyond its control. B) Unless a dangerous condition exists, or unless the customer requests disconnection, service shall not be disconnected unless Company personnel are available the following day for the purpose of making collections and reconnecting service. C) The Company may not discontinue service to a delinquent residential customer permanently residing in an individually metered dwelling unit when that customer establishes that discontinuance of service will result in some person residing at that residence becoming seriously ill or more seriously ill if the service was discontinued. Any customer seeking to avoid termination of service under this paragraph must make a written request supported by a written statement from a licensed physician. Both the request and the statement must be received by the Company not more than five working days after the date of delinquency of the bill. The prohibition against service termination provided by this paragraph shall last 20 days from the date of receipt by the Company of the request and statement or such lesser period as may be agreed upon by the Company and the customer. The customer who makes such request shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings. 4.5 Request for Consent to Abandon Service The Company may abandon a customer with agreement by the customer or with written approval from the Regulatory Authority. Failure of the customer to re-institute service after disconnection within a reasonable period of time may be considered a request for permanent discontinuance of service. 4.6 Right of Entry The Company shall have the right to enter upon the consumer's premises at any reasonable time to shut off service in accordance with these Service Regulations and to remove its meter and other Company property. Section 5 SECURITY

DEPOSITS 5.1 Deposit Exemptions Subject to these Service Regulations, a residential applicant shall not be required to pay a deposit if: A) The residential applicant has been a customer of any similar utility service within the last two years and is not delinquent in payment on any similar utility account. In addition, during the last 12 consecutive months of service, the applicant has not had more than one past due bill and had never been disconnected for nonpayment; B) The residential applicant furnishes in writing a satisfactory guarantee to secure payment of bills for the service required; C) The residential applicant furnishes in writing a satisfactory credit rating by appropriate means, including, but not limited to, the production of generally acceptable credit cards, letters of credit reference, the names of credit references which may be quickly and inexpensively contacted by the Company, or ownership of substantial equity; D) The residential applicant is 65 years of age or older and does not have an outstanding account balance with the Company or another utility for the same utility service which accrued within the last two years. 5.2 Deposit Amount and Interest A) The required deposit shall not exceed an amount equivalent to one-sixth of the estimated annual billings. If actual use is at least twice the amount of the estimated billings, a new deposit requirement may be calculated and an additional deposit may be required within two days. If such additional deposit is not made, the Company may disconnect service under the standard disconnection procedure for failure to comply with deposit requirements. B) If a customer has been disconnected once within the last consecutive 12 months of service, or twice within the last 24 months, the Company may require an additional security deposit. C) The Company shall pay a minimum interest on such deposits according to the rate as established by law. If refund of deposit is made within 30 days of receipt of deposit, no interest payment is required. If the Company retains the deposit more than 30 days, payment of interest shall be made retroactive to the date of deposit. Payment of interest credited to the customer's account shall be paid annually or paid at the time the deposit is returned. The deposit shall cease to draw interest on the date it is returned or credited to the customer's account. D) For Temporary/Seasonal Service and Weekend or Seasonal Residences, defined as any service not utilized continuously at the same location for two or more years, the Company may require a deposit sufficient to reasonably protect it against the assumed risk for such customers, provided such a policy is applied in a uniform and nondiscriminatory manner. E) The Company reserves the right to request different deposit amounts for non-residential customers. 5.3 Records of Deposit A) The Company shall keep records to show the name and address of each depositor the amount and date of the deposit and each transaction concerning the deposit. B) The Company shall issue a receipt of deposit to each applicant from whom a deposit is received and shall provide means whereby a depositor may establish claim if the receipt is lost. C) A record of each unclaimed deposit must be maintained for at least four years, during which time the Company shall make a reasonable effort to return the deposit. 5.4 Refund of Deposits for Residential Service A) If service is not connected or after disconnection of service, the Company shall promptly and automatically refund the customer's deposit plus accrued interest on the balance, if any, in excess of the unpaid bills for service furnished. The transfer of service from one premise to another within the service area of the Company shall not be deemed a disconnection within the meaning of this paragraph, and no additional deposit may be demanded unless permitted by these Service Regulations. B) When the residential customer has paid bills for service for 12 consecutive bills without having service disconnected for nonpayment of a bill and without having more than two occasions in which a bill was delinquent and when the customer is not delinquent in the payment of the current bill, the Company shall promptly and automatically refund the deposit plus accrued interest to the customer as a credit to the customer's account. 5.5 Upon Sale or Transfer of Utility or Company The seller shall file with the Commission under oath, in addition to other information, a list showing the names and addresses of all customers served by such utility or unit who have to their

credit a deposit, the date such deposit was made, the amount thereof, and the unpaid interest thereon. 5.6 Complaint by Applicant or Customer The Company shall direct its personnel engaged in initial contact with an applicant or customer for service seeking to establish or re-establish credit under the provisions of these Service Regulations to inform the customer, if dissatisfaction is expressed with the Company's decision, of the customer's right to file a complaint with the Regulatory Authority. 5.7 Re-establishment Of Service Every applicant who has previously been a customer of the Company and whose service was discontinued for nonpayment of bills shall be required, before service is rendered, to pay all amounts due, including fees and deposits to restore service, or execute a written agreement for installment payments, and re-establish credit as provided in Section 5.2 of these Service Regulations.

MinW1b

Section 6 BILLING AND PAYMENT OF BILLS 6.1 Rendering of Bills A) Bills for gas service shall be rendered monthly, unless otherwise authorized or unless service is rendered for a period less than a month. Bills shall be rendered as promptly as possible following the reading of meters. B) The due date of the bill for utility service shall not be less than 15 days after issuance, or such other period of time as may be provided by order of the Regulatory Authority. A bill for utility service is delinquent if unpaid by the due date. C) The Company may offer an inducement for prompt payment of bills by allowing a discount for payment of bills within 10 days after their issuance. The Company may offer an inducement for payment of bills via electronic transfer of funds. The Company may offer a budget billing plan. This provision shall not apply where it conflicts with existing orders or ordinances of the appropriate Regulatory Authority. D) If a customer requests a special due date for bill payment, the Company may, at its discretion, grant the request if the customer agrees to the date for at least one year, adheres to the terms of a budget billing plan, and pays through electronic funds transfer. . 6.2 Bill Information The information on customer bills must be arranged and displayed in such a manner as to allow the customer to compute his bill with the applicable rate schedule. The applicable rate schedule must be mailed to the customer on request of the customer. The Company may exhaust its present stock of nonconforming bill forms before compliance is required by this section. The customer's bill must show all the following information: A) If the meter is read by the Company, the date and reading of the meter at the beginning and end of the period for which rendered; B) The number and kind of units billed and correction factors, if applicable; C) The applicable rate schedule title or code; D) The total base bill; E) The total of any adjustments to the base bill and the amount of adjustments per billing unit; F) The date by which the customer must pay the bill to get prompt payment discount, if applicable; G) The total amount due before and after any discount for prompt payment within a designated period; and, H) A distinct marking to identify an estimated bill. 6.3 Estimated Bills Where there is good reason for doing so, estimated bills may be submitted, provided that an actual meter reading is taken at least every six months. The Company must provide the customer with a postcard and request that the customer read the meter and return the card to the Company, if (i) it is the second consecutive month in which the meter reader is unable to gain access and read the customer's meter on a regularly scheduled meter reading trip, or (ii) it is a month where meters are not read otherwise. The Company must request that customers read their meters as long as the meters are of the types that can be read by the customer without significant inconvenience or special tools or equipment. If the postcard is not received from the customer by the Company in time for billing, the Company may estimate the meter reading and render the bill accordingly. 6.4 Disputed Bills A) In the event of a dispute between the customer and the Company regarding the bill, the Company must make such investigation as is required by the particular case and report the results to the customer. If the customer wishes to obtain the benefits of paragraph B) of this section, notification of the dispute must be given to the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS	RRC TARIFF NO: 17036
-----------------	----------------------

Company prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the Company shall inform the customer of the complaint procedures of the appropriate Regulatory Authority. B) The customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that customer's average usage for the billing period at current rates until the earlier of a resolution of the dispute or the expiration of a 60-day period beginning on the day the disputed bill was issued. For purposes of this paragraph only, the customer's average usage for the billing period shall be the average of the customer's usage for the same billing period during the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar customers and under similar conditions. 6.5 Returned Checks Whenever the payment for gas service or any other charge permitted under these Service Regulations is rendered by check and such check is refused by the bank on which it is drawn, the Company may make an additional charge to cover the costs of handling and rebilling. The Company may also require future payments to be made by cash or cash equivalent. Section 7 METERS 7.1 Meter Requirements A) All gas sold by the Company must be charged for by meter measurements, except where otherwise provided for by applicable law, regulation of the Regulatory Authority, or tariff. B) Unless otherwise authorized by the Regulatory Authority, the Company must provide and install and will continue to own and maintain all meters necessary for measurement of gas delivered to its customers. C) The Company shall use a meter of a standard type which meets generally accepted industry standards; provided, however, special meters not necessarily conforming to such standard types may be used for investigation, testing, or experimental purposes. D) The customer shall permit the Company access to the meter at all times for reading thereof and at all reasonable times for maintenance, testing or replacement of the meter. The Company has the right to access a customer's meter at all times in the event of an emergency. Any type of device or other hindrance to meter access must be kept away with notice by the Company of the Company's intent to visit the premises. A fee may be charged if the Company tries to access the meter and is unable to do so. 7.2 Meter Records The Company must keep the following records: A) A record of all its meters, showing the customer's address and date of the last test. B) All meter tests must be properly referenced to the meter record provided for therein. The record of each test made on request of a customer must show the identifying number and constants of the meter, the standard meter and other measuring devices used, the date and kind of test made, by whom made, the error (or percentage of accuracy) at each load tested, and sufficient data to permit verification of all calculations. C) In general, each meter must indicate clearly the units of service for which charge is made to the customer. 7.3 Meter Testing - Customer Requests A) The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Company must, upon request of a customer, make a test of the accuracy of the meter serving that customer. Requests for such tests shall be made in writing and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. The Company must inform the customer of the time and place of the test and permit the customer or the customer's authorized representative to be present, if the customer so desires. If no test has been performed within the previous four years for the same customer at the same location, the test is to be performed without charge; otherwise, the customer shall pay a service charge for such test. The customer must be properly informed of the result of any test on a meter that serves the customer. B) Notwithstanding paragraph A), if the meter is found to be more than nominally defective, to either the customer's or the Company disadvantage, any fee charged for a meter test must be refunded to the customer and, if not already done, the Company shall promptly replace or adjust the meter. More than nominally defective means a deviation of more than 2.0% from accurate registration. 7.4 Bill Adjustments - Meter Error A) If any meter test reveals a meter to be more than nominally

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17036

defective, the Company must correct previous readings consistent with the inaccuracy found in the meter for the period of either: 1) The last six months; or 2) The last test of the meter, whichever is shorter. Any resulting underbillings or overbillings are to be corrected in subsequent bills. Undercharges billed to the customer may be repaid in a series of equal installments over a reasonable period of time. Meter errors found after a final bill has been rendered to any customer shall not be refunded or collected. B) If a meter is found not to register for any period of time, the Company may make a charge for units used but not metered for a period not to exceed three months previous to the time the meter is found not to be registering. The determination of amounts used but not metered is to be based on consumption during other like periods by the same customer at the same location, when available, and on consumption under similar conditions at the same location or of other similarly situated customers, when not available.

Section 8 MAINTENANCE OF EQUIPMENT 8.1 Standards of Equipment Installation and Maintenance The Company is to construct, install, operate and maintain its plant, equipment, and lines in accordance with the provisions of such codes and standards as are generally accepted by the industry, and as modified by rules or regulations of the Regulatory Authority or other law. These laws and modifications will be instituted in such a manner as to best accommodate the public and prevent interference with service furnished by other public utilities insofar as practical. The Company shall have the right to disconnect service for a reasonable period of time if a leakage is found or if, in the Company's opinion, equipment is operating in an unsafe condition (but in all events the customer shall retain the sole responsibility for ensuring the safety of its equipment and the Company's right to disconnect service on such grounds shall in no way impose upon the Company any obligation to inspect or test the customer's equipment). 8.2 Responsibility of the Customer The customer shall maintain all facilities owned by the customer and shall be responsible for the safe conduct and handling of the gas after it passes the, outlet side of the meter. In cases of loss or damage to the Company's property from negligence or willful acts by the customer, the customer is responsible for reimbursing the Company for all costs of repairing or replacing the damaged property. 8.3 Responsibility Nothing in these rules shall make the Company responsible for the safe upkeep of any customer owned facilities.

Section 9 EXTENSION OF FACILITIES 9.1 New Construction The Company shall install the necessary facilities to provide service to applicants whose premises are located beyond the Company's existing distribution facilities based on the economics of the extensions. The extensions must either be cost justified or the applicant(s) must make an advance pursuant to an advance agreement negotiated between the Company and the applicant prior to any work commencing.

Section 10 FEES AND DEPOSITS 10.1 Fees A. Connect / Reconnect / Transfer Fee \$15.00 Charged when a meter is set, a meter is read or gas is turned on. This fee is also charged when service is terminated and subsequently re-initiated, unless terminated in error by the Company. B. Meter Test Charged when customer requests a meter test within four years of the last meter test. Positive Displacement Meters: Residential or Commercial Request \$15.00 Industrial Request: 251 to 1500 cubic feet per hour 25.00 1501 to 5000 cubic feet per hour 50.00 over 5000 cubic feet per hour 100.00 Turbine Meters 200.00 Orifice Meters: All sizes \$100.00 C. Returned Check Charges \$10.00 D. Additional After Hours Fee \$20.00 Charged any time field service personnel perform services after normal business hours at a customer's request. E. Additional Holiday Fee \$25.00 Charged any time field service personnel perform services on a regular Company holiday at a customer's request. In the incorporated areas of Graford and Millsap only, all fees and charges (excluding advances, contributions in aid of construction and deposits) shall be adjusted by the amount which represents the actual gross receipts, occupation, revenue taxes and franchise fees paid by the Company. 10.2 Deposits A. Advances as stated below Charged for extension of new service beyond the existing distribution facilities of the

SCHEDULE ID	DESCRIPTION
1-1-NTX-IS-COSadj	<p>TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-1 COST OF SERVICE ADJUSTMENT CLAUSE</p> <p>A. APPLICABILITY This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson and Weatherford, Texas.</p> <p>B. EFFECTIVE DATE Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than April 1, with rate adjustments to be effective the first billing cycle of August each year.</p> <p>C. COMPONENTS OF RATE ADJUSTMENT Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. In any year, the percentage change in total calendar year operating expenses shall not exceed the greater of 3.5 percent or the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in operating expenses (Account Nos. 870-932) is computed by comparing the operating expenses of the most recent calendar year to the prior calendar year operating expenses (either those from the last rate case or cost of service adjustment, whichever is more recent.)The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.</p> <p>1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account No. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932, except 928) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. ** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.</p>

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17037

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items* Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories and prepayments levels approved in the most recent general rate case.

3. Federal Income Taxes Calendar year federal income taxes will be calculated as follows: Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

4. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections C.1 through C.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than ninety (90) days within which to review the proposed annual rate adjustment prior to its taking effect with the first billing cycle of August of each year. If a City takes no action within ninety (90) days, the proposed annual rate adjustment will be deemed approved by the City. A city or group of cities may retain a consultant to review the annual rate adjustment filing, and the Company agrees to reimburse the actual, aggregate cost of such review(s) up to an amount not to exceed \$15,000 per year. Any reimbursement of such costs will be recoverable through the Company's annual cost of service adjustment rate. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws. Texas Gas Service Company shall not appeal to the Railroad Commission of Texas the denial of its annual rate adjustment by one or more of the cities. However, such denial shall not preclude Texas Gas Service Company from filing a Statement of Intent to increase rates pursuant to section 104.102 of the Texas Utilities Code in such cities.

 Rate Sched 1-1 dated May 4, 2012
 Rate Sched 1-2 dated May 4, 2012

1-INC-NTX-IS-COG

TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-INC COST OF GAS
 CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general
 service rate schedules of Texas Gas Service Company (The Company) in the
 incorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells,
 Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson, Texas . B.
 DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation
 under this clause, consisting of the commodity cost, a reconciliation component
 related fees (including franchise fees), and other purchased gas expenses. 2.
 Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.
 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from
 its suppliers or the estimated weighted average cost for gas purchased by the
 Company from all sources where applicable. Such cost shall include not only the
 purchase cost of natural gas, but shall also include all reasonable fees for
 services such as gathering, treating, processing, transportation, capacity and/or
 supply reservation fees, storage, balancing, and swing services necessary for the
 movement of gas to the Company's citygate delivery points. The Cost of Purchased
 Gas shall also include gains or losses from the utilization of natural gas
 financial instruments that are executed by the Company for the purpose of
 mitigating high prices and price volatility. 4. Reconciliation Component - The
 amount to be returned to or recovered from customers each month from December
 through August as a result of the Reconciliation Audit. Reconciliation Audit - An
 annual review of the Company's books and records for each twelve month period
 ending with the production month of August to determine the amount of over or under
 collection occurring during such twelve month period. The audit shall determine:
 (a) the total amount paid for gas purchased by the Company (per Section B(3) above)
 to provide service to its general service customers during the period, (b) the
 revenues received from operation of the provisions of this cost of gas, (c) the
 total amount of refunds made to customers during the period and any other revenues
 or credits received by the Company as a result of relevant gas purchases or
 operation of this Cost of Gas Clause, (d) the total amount of uncollectible
 accounts that are attributable to charges calculated under this tariff during the
 period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if
 necessary, to exclude lost and unaccounted for gas during the period in excess of
 five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by
 dividing the total volumes purchased of a general service customer during the
 twelve (12) month period ending June 30 by the sum of the volumes sold to general
 service customers during the same period. For the purpose of this computation all
 volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event
 exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable
 regulatory authority. 7. Reconciliation Account - The account maintained by the
 Company to assure that over time it will neither over nor under collect revenues as

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by

any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. Transition from the preceding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Supersedes Rate Schedules: 1-INC dated 8/24/01 (Weatherford, Willow Park, Aledo, Hudson Oaks, Mineral Wells, Graford, Millsap, Jacksboro, Bryson, Graham) 1 dated 6/23/2000 (Breckenridge) Meters Read On and After April 28, 2006 (Other cities) June 5, 2006 (Breckenridge)

 RATE SCHEDULE PSF
 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8
 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C
 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17037

RATE SCHEDULESCHEDULE IDDESCRIPTION

March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter

DESCRIPTION

B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA-NTX-IS

TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE WNA Page 1 of 1
 WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson: 10, 20, 25, 40, and 45. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the City monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the City an annual report verifying the past year's WNA collections or refunds. Supersedes Same Sheet Dated Sept. 22, 2000 (Weatherford), Oct. 31, 2000 (Willow Park, Aledo and Hudson Oaks), May 25, 2001 (Mineral Wells), July 26, 2001 (Graford and Millsap)

The Commission may approve the program without a hearing; set the matter for a public hearing on its own motion or on the motion of any affected customer of said utility.</p>

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17037

The curtailment program to be filed shall include, in verified form, the following information:

A. Volume of gas reserves attached to its system together with a brief description of each separate source of gas reserves setting forth the following:

1. the name of the supplier,
2. the term of each contract in years, and the years remaining on said contract,
3. the volume of recoverable reserve contracted for, and
4. rated deliverability of such reserves in MCF.

B. Capacity and location of underground storage, if any, attached to its system with a statement of whether the company's storage balance is above or below its desired level for this time, and, if below, what plans has the company made to restore the balance.

C. Peak day and average daily deliverability on an annual basis of its wells, gas plants and underground storage attached to its system.

D. Peak day capacity of its system.

E. Forecast of additions to reserves for each of the next two succeeding years.

F. Location and size of the line pipes, compressor stations, operating maximum line pressures, and a map showing delivery points along the system.

G. Disposition of all gas entering its system, with names of all customers other than residential customers and volumes delivered to each during the past calendar year. Identify those customers using 3,000 MCF gas per day, or more, which are under a service contract, and if such contract includes an Interruptible Service clause, and if so, attach a reproduced copy of the relevant provisions of such contract.

H. Steps taken in past years, being taken at the present, and to be taken to alleviate curtailments.

RULE 2.

Until such time as the Commission has specifically approved a utilities curtailment program, the following priorities in descending order shall be observed:

A. Deliveries for residences, hospitals, schools, churches and other human needs customers.

B. Deliveries of gas to small industrials and regular commercial loads (defined as those customers using less than 3,000 MCF per day) and delivery of gas for use as pilot lights or in accessory or auxiliary equipment essential to avoid serious damage to industrial plants.

RAILROAD COMMISSION OF TEXAS
 GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17037

C. Large users of gas for fuel or as a raw material where an alternate cannot be used and operation and plant production would be curtailed or shut down completely when gas is curtailed.

D. Large users of gas for boiler fuel or other fuel users where alternate fuels can be used. This category is not to be determined by whether or not a user has actually installed alternate fuel facilities, but whether or not an alternate fuel could be used.

E. Interruptible sales made subject to interruption or curtailment at Seller's sole discretion under contracts or tariffs which provide in effect for the sale of such gas as Seller may be agreeable to selling and Buyer may be agreeable to buying from time to time.

RULE 3.

Each gas utility that has obtained Commission approval of a curtailment program shall conduct operations in compliance with such program. So long as any gas utility which has obtained Commission approval of a curtailment program continues to curtail deliveries to its customers, except as provided by contract or those customers included in Part E of Rule 2 above, it

(a) shall file on or before April 1 of each year, under oath, the information called for in Rule 1, for the preceeding year, and

(b) shall not, without Commission approval, make sales of gas to any new customers or increase volumes sold to existing customers, except those new or existing customers defined in Parts A & B of Rule 2 above.

IT IS FURTHER ORDERED that this cause be held open for such other and further orders as may be deemed necessary.

ENTERED AT AUSTIN, TEXAS, this 5th day of January, 1973.

LINE EXTENSION POLICY

POLICY ID	DESCRIPTION
1128	TEXAS GAS SERVICE COMPANY Texas Tariff - Mineral Wells Service Area MUNICIPALITIES OF: MINERAL WELLS, TEXAS GRAFORD, TEXAS MILLSAP, TEXAS (From Quality of Service Rules effective 8/24/01) EXTENSION OF FACILITIES 9.1 New Construction The Company shall install the necessary facilities to provide service to applicants whose premises are located beyond the Company's existing distribution facilities based on the economics of the extensions. The extensions must either be cost justified or the applicant(s) must make an advance pursuant to an advance agreement negotiated between the Company and the applicant prior to any work commencing. [Note per Deposits Section 10.2 (a): Advances - Charged for extension of new service beyond the existing distribution facilities of the Company. Estimated expenditure to serve the premises of new business beyond the existing distribution facilities of the Company.]

These Utility Service Regulations (Service Regulations) are applicable in the service area specified for residential and small commercial customers. 1.2 Provision of Service The Company will provide gas service to any person or organization located within its service area and from its facilities or in certain cases, the facilities of its supplier, in accordance with the provisions of its Tariff and these Utility Service Regulations. Service provided directly from the facilities of others may be provided only with the approval of the owning company and shall thereafter be continued only as long as gas of satisfactory quality and quantity is available at the location. 1.3 Rate Schedules All customers shall be served under rate schedules filed with the Regulatory Authority. Customers shall be assigned to rate schedules in accordance with the class of the particular customer, the usage which will be made of the gas, that Customer's volume requirements, and/or other criteria specified in the rate schedule. 1.4 Resale of Gas Gas delivered by the Company shall not be redelivered or resold for the use thereof by others unless otherwise expressly agreed to in writing by the Company except, however, that those customers purchasing gas for redistribution to the customer's tenants may separately meter each tenant distribution point for the purpose of prorating the customer's actual purchase of gas delivered among the various tenants on a per unit basis. Any other allocation will constitute resale and is prohibited. 1.5 Transportation Across State Lines No gas supplied by the Company shall be transported across state lines for any purpose without the express written permission of the Company. Violation of this paragraph shall be considered cause for immediate disconnection of service without notice. 1.6 Exceptions Interpretations of these Service Regulations and the resolution of any items not provided for in these regulations shall be at the Company's sole discretion. These Service Regulations shall be in effect, but only to the extent that they do not conflict with franchise agreements for the areas covered by these Service Regulations. Section 2 CONDITIONS OF SERVICE 2.1 Continuity of Service A) Service Interruptions 1) The Company shall make all reasonable efforts to prevent interruptions of service. When interruptions occur, the Company shall re-establish service within the shortest possible time consistent with prudent operating principles so that the smallest number of customers are affected. 2) The Company shall make reasonable provisions to meet emergencies resulting from failure of service, and shall issue instructions to its employees covering procedures to be followed in the event of an emergency in order to prevent or mitigate interruption or impairment of service. 3) In the event of national emergency or local disaster resulting in disruption of normal service, the Company may, in the public interest, interrupt service to other customers to provide necessary service to civil defense or other emergency service agencies on a temporary basis until normal service to these agencies can be restored. B) Record of interruption. Except for momentary interruptions which do not cause a major disruption of service, the Company shall keep a</p>	TABLE OF CONTENTS	Section	Description	Effective Date	1. -----------------	----------------------

complete record of all interruptions, both emergency and scheduled. This record shall show the cause of interruptions, date, time duration, location, approximate number of customers affected, and in cases of emergency interruptions, the remedy and steps taken to prevent recurrence. C) Report to either the local Regulatory Authority, if directed by city ordinance or franchise, if not so directed, report to the Railroad Commission of Texas (Commission.) The Regulatory Authority or the Commission shall be notified in writing within 48 hours of interruptions in service affecting the entire system or any major division thereof lasting more than four hours. The notice shall also state the cause of such interruptions. If any service interruption is reported to the Commission otherwise (for example, as a curtailment report or safety report), such other report is sufficient to comply with the terms of this paragraph. D) The Company's Curtailment Plan will comply with Regulatory Authority requirements. E) The Company does not guarantee uninterrupted service to any customer and shall not be liable for damages resulting from loss of service.

2.2 Customer Relations A) The Company shall:

- 1) Maintain a current set of maps showing the physical locations of its facilities. All distribution facilities shall be labeled to indicate the size or any pertinent information which will accurately describe the Company facilities. These maps, or such other maps as may be required by the Regulatory Authority, shall be kept in a central location and will be available for inspection by the Regulatory Authority, during normal working hours. Each business office or service center shall have available up-to-date maps, plans, or records of its immediate area, with such other information as may be necessary to enable the Company to advise applicants and others entitled to the information as to the facilities available for serving that locality;
- 2) At the customer's or applicant's request, Company will assist in selecting the most economical rate schedule;
- 3) Notify customers affected by a change in rates or schedule, in compliance with applicable law or regulations;
- 4) Post a notice in a conspicuous place in each business office where applications for service are received informing the public that copies of the rate schedules and rules relating to the service of the Company are available for inspection. Upon request, the Company shall make copies of the tariffs at the Company's reproduction cost, for the customer;
- 5) Upon request, inform its customers how to read their meter;
- 6) Provide to new customers, at the time service is initiated or as an insert in the first billing, an information packet containing a concise description of the customer's rights and the Company's obligations under these Service Regulations. The following information shall be provided in English and Spanish as necessary to adequately inform the customers:
 - i. the customer's right to information concerning rates and services and the customer's right to inspect or obtain, at reproduction cost, a copy of the applicable tariffs and service regulations;
 - ii. the customer's right to have his or her meter checked without charge, if applicable;
 - iii. the time allowed to pay outstanding bills;
 - iv. grounds for termination of service;
 - v. the steps the Company must take before terminating service;
 - vi. how the customer can resolve billing disputes with the Company and how disputes and health emergencies may affect termination of service;
 - vii. information on alternative payment plans offered by the Company;
 - viii. the steps necessary to have service reconnected after involuntary termination;
 - ix. the appropriate Regulatory Authority with whom to register a complaint and how to contact such authority;
 - x. the hours, addresses, and telephone numbers of the Company offices and of its authorized pay stations, where bills may be paid and information may be obtained; and
 - xi. the customer's right to be instructed by the Company how to read his or her meter.
- 7) At least once each calendar year, the Company shall notify its customers that the information packet is available upon request, at no charge to the customer. This notice may be accomplished by use of a billing insert or a printed statement upon the bill itself.

B) Customer complaints. Upon receipt of a complaint from the Regulatory Authority on behalf of a customer either at the Company office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant

TARIFF CODE: DS	RRC TARIFF NO: 17037
-----------------	----------------------

and the Regulatory Authority of the results thereof. The Company shall keep a record of all complaints which shows the name and address of the complainant, the date and nature of the complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final disposition of the complaint. An initial response must be made by the Company by the next working day. The Company must make a final and complete response to the Regulatory Authority within 15 days from the date of the complaint, unless additional time is granted within the 15-day period.

Section 3 INITIATION OF SERVICE

3.1 Reasonable Time The Company shall have a reasonable amount of time to institute service following application or execution of an agreement for service. The time may vary depending on approvals and permits required, the extent of the facilities to be built, and on the Company's work load at the time.

3.2 Establishment of Credit The Company may require a security deposit for service, in accordance with Section 5 of these Service Regulations, to establish a satisfactory credit standing. However, such establishment of credit shall not relieve the customer from complying with rules for prompt payment of bills.

3.3 Grounds for Refusal to Serve The Company may refuse service to any applicant for any of the following reasons; A) Failure of applicant to comply with the state and municipal regulations and Service Regulations of the Company; B) The applicant's installation or equipment is known to be hazardous or of such character that satisfactory service cannot be given (but in all events the applicant shall retain sole responsibility for ensuring the safety of its installation or equipment and the Company's right to refuse service on such grounds shall in no way impose upon the Company any obligation to inspect or test the applicant's installations or equipment); C) Failure to pay fees, advances or contributions or to make a deposit if required for service; D) The applicant is indebted to any utility for the same kind of service as that applied for, unless applicant has made an additional deposit as specified by the Company; or, E) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. In the event that the Company shall refuse to serve an applicant under the provisions of these Service Regulations, the Company must inform the applicant of the basis of its refusal and that the applicant may file a complaint with the appropriate Regulatory Authority. The right to refuse service shall terminate when the applicant has complied with the Company's requirements or corrected the cause for the refusal of service.

3.4 Insufficient Grounds For Refusal To Serve The following shall not constitute sufficient cause for refusal of service to a present customer or applicant: A) Delinquency in payment for service by a previous occupant of the premises to be served; B) Failure to pay a bill to correct previous underbilling due to misapplication of rates more than six months prior to the date of application; C) Operation of nonstandard equipment or unauthorized attachments which interfere with the service of others unless the customer has first been notified and been afforded reasonable opportunity to remedy the situation; D) Failure to pay a bill of another customer as guarantor thereof unless the guarantee was made in writing to the Company as a condition precedent to service; or, E) Failure to pay the bill of another customer at the same address except where the change of customer identity is made to avoid or evade payment of a utility bill.

Section 4 DISCONTINUANCE OF SERVICE

4.1 By Customer A customer shall be responsible for providing the Company with five days advance notice of intention to discontinue service, and will be responsible for all charges for gas service from the intended discontinuance of service date until the Company has read the meter or for three working days, whichever is the shorter period of time.

4.2 For Non-Payment of Bill A customer's utility service may be disconnected for non-payment within five working days after the bill has become delinquent and proper notice has been given. Proper notice consists of a deposit in the United States mail, postage prepaid, or hand delivered to the customer at least five working days prior to the stated date of disconnection, with the words Termination Notice or similar language prominently displayed on the notice. The notice shall be provided in English and

Spanish as necessary to adequately inform the customer and shall include the date of termination, the hours, address, and telephone number where payment may be made, and a statement that if a health or other emergency exists, the Company may be contacted concerning the nature of the emergency and the relief available, if any, to meet such emergency. 4.3 Right to Disconnect for Reasons Other Than Non-Payment Utility service may be disconnected for any of the following reasons: A) Failure to pay a delinquent account or failure to comply with the terms of a written agreement for installment payment of a delinquent account; B) Within five working days after written notice is given for violation of the Company rules prohibiting the use of service in a manner which interferes with the service of others or the operation of nonstandard equipment; if a reasonable attempt has been made to notify the customer and the customer is provided with a reasonable opportunity to remedy the situation; C) Failure to comply with deposit or guarantee arrangements; D) Without notice where a known dangerous condition exists for as long as the condition exists; E) Without notice for willful destruction or damage to or tampering with the Company's property by the customer or by others with his knowledge; F) Refusal to grant the Company's personnel access to the Company's facilities for any lawful purpose; or, G) Five working days after written notice for use, sale or delivery of gas in violation of the provisions of these Service Regulations or violation of any applicable laws, orders or ordinances, provided that disconnection may be made without notice if the violation creates an unsafe condition. 4.4 Special Conditions A) Utility service may not be disconnected for any of the following reasons: 1) Delinquency in payment for service by a previous occupant of the premises; 2) Failure to pay for a different type or class of utility service unless fee for such service is included on the same bill; 4) Failure to pay the account of another customer as guarantor thereof, unless the Company has in writing the guarantee as a condition precedent to service; 5) Failure to pay charges arising from an underbilling occurring due to any misapplication of rates more than six months prior to the current billings; 6) Failure to pay charges arising from an underbilling due to any faulty metering, unless the meter has been tampered with or unless such underbilling charges are due; or, 7) Failure to pay an estimated bill other than a bill rendered pursuant to an approved meter reading plan, unless the Company is unable to read the meter due to circumstances beyond its control. B) Unless a dangerous condition exists, or unless the customer requests disconnection, service shall not be disconnected unless Company personnel are available the following day for the purpose of making collections and reconnecting service. C) The Company may not discontinue service to a delinquent residential customer permanently residing in an individually metered dwelling unit when that customer establishes that discontinuance of service will result in some person residing at that residence becoming seriously ill or more seriously ill if the service was discontinued. Any customer seeking to avoid termination of service under this paragraph must make a written request supported by a written statement from a licensed physician. Both the request and the statement must be received by the Company not more than five working days after the date of delinquency of the bill. The prohibition against service termination provided by this paragraph shall last 20 days from the date of receipt by the Company of the request and statement or such lesser period as may be agreed upon by the Company and the customer. The customer who makes such request shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings. 4.5 Request for Consent to Abandon Service The Company may abandon a customer with agreement by the customer or with written approval from the Regulatory Authority. Failure of the customer to re-institute service after disconnection within a reasonable period of time may be considered a request for permanent discontinuance of service. 4.6 Right of Entry The Company shall have the right to enter upon the consumer's premises at any reasonable time to shut off service in accordance with these Service Regulations and to remove its meter and other Company property. Section 5 SECURITY

DEPOSITS 5.1 Deposit Exemptions Subject to these Service Regulations, a residential applicant shall not be required to pay a deposit if: A) The residential applicant has been a customer of any similar utility service within the last two years and is not delinquent in payment on any similar utility account. In addition, during the last 12 consecutive months of service, the applicant has not had more than one past due bill and had never been disconnected for nonpayment; B) The residential applicant furnishes in writing a satisfactory guarantee to secure payment of bills for the service required; C) The residential applicant furnishes in writing a satisfactory credit rating by appropriate means, including, but not limited to, the production of generally acceptable credit cards, letters of credit reference, the names of credit references which may be quickly and inexpensively contacted by the Company, or ownership of substantial equity; D) The residential applicant is 65 years of age or older and does not have an outstanding account balance with the Company or another utility for the same utility service which accrued within the last two years. 5.2 Deposit Amount and Interest A) The required deposit shall not exceed an amount equivalent to one-sixth of the estimated annual billings. If actual use is at least twice the amount of the estimated billings, a new deposit requirement may be calculated and an additional deposit may be required within two days. If such additional deposit is not made, the Company may disconnect service under the standard disconnection procedure for failure to comply with deposit requirements. B) If a customer has been disconnected once within the last consecutive 12 months of service, or twice within the last 24 months, the Company may require an additional security deposit. C) The Company shall pay a minimum interest on such deposits according to the rate as established by law. If refund of deposit is made within 30 days of receipt of deposit, no interest payment is required. If the Company retains the deposit more than 30 days, payment of interest shall be made retroactive to the date of deposit. Payment of interest credited to the customer's account shall be paid annually or paid at the time the deposit is returned. The deposit shall cease to draw interest on the date it is returned or credited to the customer's account. D) For Temporary/Seasonal Service and Weekend or Seasonal Residences, defined as any service not utilized continuously at the same location for two or more years, the Company may require a deposit sufficient to reasonably protect it against the assumed risk for such customers, provided such a policy is applied in a uniform and nondiscriminatory manner. E) The Company reserves the right to request different deposit amounts for non-residential customers. 5.3 Records of Deposit A) The Company shall keep records to show the name and address of each depositor the amount and date of the deposit and each transaction concerning the deposit. B) The Company shall issue a receipt of deposit to each applicant from whom a deposit is received and shall provide means whereby a depositor may establish claim if the receipt is lost. C) A record of each unclaimed deposit must be maintained for at least four years, during which time the Company shall make a reasonable effort to return the deposit. 5.4 Refund of Deposits for Residential Service A) If service is not connected or after disconnection of service, the Company shall promptly and automatically refund the customer's deposit plus accrued interest on the balance, if any, in excess of the unpaid bills for service furnished. The transfer of service from one premise to another within the service area of the Company shall not be deemed a disconnection within the meaning of this paragraph, and no additional deposit may be demanded unless permitted by these Service Regulations. B) When the residential customer has paid bills for service for 12 consecutive bills without having service disconnected for nonpayment of a bill and without having more than two occasions in which a bill was delinquent and when the customer is not delinquent in the payment of the current bill, the Company shall promptly and automatically refund the deposit plus accrued interest to the customer as a credit to the customer's account. 5.5 Upon Sale or Transfer of Utility or Company The seller shall file with the Commission under oath, in addition to other information, a list showing the names and addresses of all customers served by such utility or unit who have to their

credit a deposit, the date such deposit was made, the amount thereof, and the unpaid interest thereon. 5.6 Complaint by Applicant or Customer The Company shall direct its personnel engaged in initial contact with an applicant or customer for service seeking to establish or re-establish credit under the provisions of these Service Regulations to inform the customer, if dissatisfaction is expressed with the Company's decision, of the customer's right to file a complaint with the Regulatory Authority. 5.7 Re-establishment Of Service Every applicant who has previously been a customer of the Company and whose service was discontinued for nonpayment of bills shall be required, before service is rendered, to pay all amounts due, including fees and deposits to restore service, or execute a written agreement for installment payments, and re-establish credit as provided in Section 5.2 of these Service Regulations.

MinW1b

Section 6 BILLING AND PAYMENT OF BILLS 6.1 Rendering of Bills A) Bills for gas service shall be rendered monthly, unless otherwise authorized or unless service is rendered for a period less than a month. Bills shall be rendered as promptly as possible following the reading of meters. B) The due date of the bill for utility service shall not be less than 15 days after issuance, or such other period of time as may be provided by order of the Regulatory Authority. A bill for utility service is delinquent if unpaid by the due date. C) The Company may offer an inducement for prompt payment of bills by allowing a discount for payment of bills within 10 days after their issuance. The Company may offer an inducement for payment of bills via electronic transfer of funds. The Company may offer a budget billing plan. This provision shall not apply where it conflicts with existing orders or ordinances of the appropriate Regulatory Authority. D) If a customer requests a special due date for bill payment, the Company may, at its discretion, grant the request if the customer agrees to the date for at least one year, adheres to the terms of a budget billing plan, and pays through electronic funds transfer. . 6.2 Bill Information The information on customer bills must be arranged and displayed in such a manner as to allow the customer to compute his bill with the applicable rate schedule. The applicable rate schedule must be mailed to the customer on request of the customer. The Company may exhaust its present stock of nonconforming bill forms before compliance is required by this section. The customer's bill must show all the following information: A) If the meter is read by the Company, the date and reading of the meter at the beginning and end of the period for which rendered; B) The number and kind of units billed and correction factors, if applicable; C) The applicable rate schedule title or code; D) The total base bill; E) The total of any adjustments to the base bill and the amount of adjustments per billing unit; F) The date by which the customer must pay the bill to get prompt payment discount, if applicable; G) The total amount due before and after any discount for prompt payment within a designated period; and, H) A distinct marking to identify an estimated bill. 6.3 Estimated Bills Where there is good reason for doing so, estimated bills may be submitted, provided that an actual meter reading is taken at least every six months. The Company must provide the customer with a postcard and request that the customer read the meter and return the card to the Company, if (i) it is the second consecutive month in which the meter reader is unable to gain access and read the customer's meter on a regularly scheduled meter reading trip, or (ii) it is a month where meters are not read otherwise. The Company must request that customers read their meters as long as the meters are of the types that can be read by the customer without significant inconvenience or special tools or equipment. If the postcard is not received from the customer by the Company in time for billing, the Company may estimate the meter reading and render the bill accordingly. 6.4 Disputed Bills A) In the event of a dispute between the customer and the Company regarding the bill, the Company must make such investigation as is required by the particular case and report the results to the customer. If the customer wishes to obtain the benefits of paragraph B) of this section, notification of the dispute must be given to the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 17037
-----------------	----------------------

Company prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the Company shall inform the customer of the complaint procedures of the appropriate Regulatory Authority. B) The customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that customer's average usage for the billing period at current rates until the earlier of a resolution of the dispute or the expiration of a 60-day period beginning on the day the disputed bill was issued. For purposes of this paragraph only, the customer's average usage for the billing period shall be the average of the customer's usage for the same billing period during the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar customers and under similar conditions. 6.5 Returned Checks Whenever the payment for gas service or any other charge permitted under these Service Regulations is rendered by check and such check is refused by the bank on which it is drawn, the Company may make an additional charge to cover the costs of handling and rebilling. The Company may also require future payments to be made by cash or cash equivalent. Section 7 METERS 7.1 Meter Requirements A) All gas sold by the Company must be charged for by meter measurements, except where otherwise provided for by applicable law, regulation of the Regulatory Authority, or tariff. B) Unless otherwise authorized by the Regulatory Authority, the Company must provide and install and will continue to own and maintain all meters necessary for measurement of gas delivered to its customers. C) The Company shall use a meter of a standard type which meets generally accepted industry standards; provided, however, special meters not necessarily conforming to such standard types may be used for investigation, testing, or experimental purposes. D) The customer shall permit the Company access to the meter at all times for reading thereof and at all reasonable times for maintenance, testing or replacement of the meter. The Company has the right to access a customer's meter at all times in the event of an emergency. Any type of device or other hindrance to meter access must be kept away with notice by the Company of the Company's intent to visit the premises. A fee may be charged if the Company tries to access the meter and is unable to do so. 7.2 Meter Records The Company must keep the following records: A) A record of all its meters, showing the customer's address and date of the last test. B) All meter tests must be properly referenced to the meter record provided for therein. The record of each test made on request of a customer must show the identifying number and constants of the meter, the standard meter and other measuring devices used, the date and kind of test made, by whom made, the error (or percentage of accuracy) at each load tested, and sufficient data to permit verification of all calculations. C) In general, each meter must indicate clearly the units of service for which charge is made to the customer. 7.3 Meter Testing - Customer Requests A) The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Company must, upon request of a customer, make a test of the accuracy of the meter serving that customer. Requests for such tests shall be made in writing and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. The Company must inform the customer of the time and place of the test and permit the customer or the customer's authorized representative to be present, if the customer so desires. If no test has been performed within the previous four years for the same customer at the same location, the test is to be performed without charge; otherwise, the customer shall pay a service charge for such test. The customer must be properly informed of the result of any test on a meter that serves the customer. B) Notwithstanding paragraph A), if the meter is found to be more than nominally defective, to either the customer's or the Company disadvantage, any fee charged for a meter test must be refunded to the customer and, if not already done, the Company shall promptly replace or adjust the meter. More than nominally defective means a deviation of more than 2.0% from accurate registration. 7.4 Bill Adjustments - Meter Error A) If any meter test reveals a meter to be more than nominally

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17037

defective, the Company must correct previous readings consistent with the inaccuracy found in the meter for the period of either: 1) The last six months; or 2) The last test of the meter, whichever is shorter. Any resulting underbillings or overbillings are to be corrected in subsequent bills. Undercharges billed to the customer may be repaid in a series of equal installments over a reasonable period of time. Meter errors found after a final bill has been rendered to any customer shall not be refunded or collected. B) If a meter is found not to register for any period of time, the Company may make a charge for units used but not metered for a period not to exceed three months previous to the time the meter is found not to be registering. The determination of amounts used but not metered is to be based on consumption during other like periods by the same customer at the same location, when available, and on consumption under similar conditions at the same location or of other similarly situated customers, when not available.

Section 8 MAINTENANCE OF EQUIPMENT 8.1 Standards of Equipment Installation and Maintenance The Company is to construct, install, operate and maintain its plant, equipment, and lines in accordance with the provisions of such codes and standards as are generally accepted by the industry, and as modified by rules or regulations of the Regulatory Authority or other law. These laws and modifications will be instituted in such a manner as to best accommodate the public and prevent interference with service furnished by other public utilities insofar as practical. The Company shall have the right to disconnect service for a reasonable period of time if a leakage is found or if, in the Company's opinion, equipment is operating in an unsafe condition (but in all events the customer shall retain the sole responsibility for ensuring the safety of its equipment and the Company's right to disconnect service on such grounds shall in no way impose upon the Company any obligation to inspect or test the customer's equipment). 8.2 Responsibility of the Customer The customer shall maintain all facilities owned by the customer and shall be responsible for the safe conduct and handling of the gas after it passes the, outlet side of the meter. In cases of loss or damage to the Company's property from negligence or willful acts by the customer, the customer is responsible for reimbursing the Company for all costs of repairing or replacing the damaged property. 8.3 Responsibility Nothing in these rules shall make the Company responsible for the safe upkeep of any customer owned facilities.

Section 9 EXTENSION OF FACILITIES 9.1 New Construction The Company shall install the necessary facilities to provide service to applicants whose premises are located beyond the Company's existing distribution facilities based on the economics of the extensions. The extensions must either be cost justified or the applicant(s) must make an advance pursuant to an advance agreement negotiated between the Company and the applicant prior to any work commencing.

Section 10 FEES AND DEPOSITS 10.1 Fees A. Connect / Reconnect / Transfer Fee \$15.00 Charged when a meter is set, a meter is read or gas is turned on. This fee is also charged when service is terminated and subsequently re-initiated, unless terminated in error by the Company. B. Meter Test Charged when customer requests a meter test within four years of the last meter test. Positive Displacement Meters: Residential or Commercial Request \$15.00 Industrial Request: 251 to 1500 cubic feet per hour 25.00 1501 to 5000 cubic feet per hour 50.00 over 5000 cubic feet per hour 100.00 Turbine Meters 200.00 Orifice Meters: All sizes \$100.00 C. Returned Check Charges \$10.00 D. Additional After Hours Fee \$20.00 Charged any time field service personnel perform services after normal business hours at a customer's request. E. Additional Holiday Fee \$25.00 Charged any time field service personnel perform services on a regular Company holiday at a customer's request. In the incorporated areas of Graford and Millsap only, all fees and charges (excluding advances, contributions in aid of construction and deposits) shall be adjusted by the amount which represents the actual gross receipts, occupation, revenue taxes and franchise fees paid by the Company. 10.2 Deposits A. Advances as stated below Charged for extension of new service beyond the existing distribution facilities of the

Graham Service Area - Municipality (From Quality of Service Rules effective 8/24/01) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

of Service Rules effective 8/24/01) FEES AND DEPOSITS
NOTE FROM SECTION 1.2 FEES AND CHARGES: In the
incorporated areas of Bryson and Jacksboro only, all
fees and charges (excluding advances, contributions in
aid of construction and deposits) shall be adjusted by
the amount which represents the actual gross receipts,
occupation, revenue taxes and franchise fees paid by
the Company. 2.3 TEMPORARY SERVICE Temporary
Service shall be furnished under the same rate
schedules applicable to regular service of a similar
kind. Before Temporary Service is instituted,
however, the Applicant shall make a contribution of
\$50.00 or the amount of the estimated cost of the
installation and removal (or abandonment) of the
required service pipe and metering facilities less any
expected salvage, whichever is greater. Extension of
distribution mains shall be made in accordance with
the provisions of this Tariff. The Company shall
charge a non-refundable fee to each Applicant to
compensate for cost involved in commencement of
service. This fee shall be assessed when a meter is
set and/or the Applicant's appliances lighted and when
a meter reading only is required, if the call can be
scheduled in the normal course of business. Whenever
the Applicant requests special handling of his
request, the Company shall charge an additional fee
unless a special callout is required, in which case
the charge shall be for one hour at the Company's then
prevailing after hours rate for service work on
Customer's premises. Special handling of calls and
the charges therefore shall be made only on request of
the Applicant. Whenever service is furnished from the
facilities of others and the Company must pay any
special fees to the supplying company, the Applicant
shall reimburse the Company for such charge plus
twenty percent for handling.

1-1-NTX-IS-COSadj

TEXAS GAS SERVICE COMPANY
North Texas Area
RATE SCHEDULE 1-1
COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson and Weatherford, Texas.

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than April 1, with rate adjustments to be effective the first billing cycle of August each year.

C. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes.

In any year, the percentage change in total calendar year operating expenses shall not exceed the greater of 3.5 percent or the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in operating expenses (Account Nos. 870-932) is computed by comparing the operating expenses of the most recent calendar year to the prior calendar year operating expenses (either those from the last rate case or cost of service adjustment, whichever is more recent.)The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account No. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932, except 928) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. ** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17038

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items* Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories and prepayments levels approved in the most recent general rate case.

3. Federal Income Taxes Calendar year federal income taxes will be calculated as follows: Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

4. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections C.1 through C.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than ninety (90) days within which to review the proposed annual rate adjustment prior to its taking effect with the first billing cycle of August of each year. If a City takes no action within ninety (90) days, the proposed annual rate adjustment will be deemed approved by the City. A city or group of cities may retain a consultant to review the annual rate adjustment filing, and the Company agrees to reimburse the actual, aggregate cost of such review(s) up to an amount not to exceed \$15,000 per year. Any reimbursement of such costs will be recoverable through the Company's annual cost of service adjustment rate. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws. Texas Gas Service Company shall not appeal to the Railroad Commission of Texas the denial of its annual rate adjustment by one or more of the cities. However, such denial shall not preclude Texas Gas Service Company from filing a Statement of Intent to increase rates pursuant to section 104.102 of the Texas Utilities Code in such cities.

 Rate Sched 1-2 dated May 4, 2012

1-INC-NTX-IS-COG

TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-INC COST OF GAS
 CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general
 service rate schedules of Texas Gas Service Company (The Company) in the
 incorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells,
 Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson, Texas . B.
 DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation
 under this clause, consisting of the commodity cost, a reconciliation component
 related fees (including franchise fees), and other purchased gas expenses. 2.
 Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.
 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from
 its suppliers or the estimated weighted average cost for gas purchased by the
 Company from all sources where applicable. Such cost shall include not only the
 purchase cost of natural gas, but shall also include all reasonable fees for
 services such as gathering, treating, processing, transportation, capacity and/or
 supply reservation fees, storage, balancing, and swing services necessary for the
 movement of gas to the Company's citygate delivery points. The Cost of Purchased
 Gas shall also include gains or losses from the utilization of natural gas
 financial instruments that are executed by the Company for the purpose of
 mitigating high prices and price volatility. 4. Reconciliation Component - The
 amount to be returned to or recovered from customers each month from December
 through August as a result of the Reconciliation Audit. Reconciliation Audit - An
 annual review of the Company's books and records for each twelve month period
 ending with the production month of August to determine the amount of over or under
 collection occurring during such twelve month period. The audit shall determine:
 (a) the total amount paid for gas purchased by the Company (per Section B(3) above)
 to provide service to its general service customers during the period, (b) the
 revenues received from operation of the provisions of this cost of gas, (c) the
 total amount of refunds made to customers during the period and any other revenues
 or credits received by the Company as a result of relevant gas purchases or
 operation of this Cost of Gas Clause, (d) the total amount of uncollectible
 accounts that are attributable to charges calculated under this tariff during the
 period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if
 necessary, to exclude lost and unaccounted for gas during the period in excess of
 five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by
 dividing the total volumes purchased of a general service customer during the
 twelve (12) month period ending June 30 by the sum of the volumes sold to general
 service customers during the same period. For the purpose of this computation all
 volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event
 exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable
 regulatory authority. 7. Reconciliation Account - The account maintained by the
 Company to assure that over time it will neither over nor under collect revenues as

TARIFF CODE: DS RRC TARIFF NO: 17038

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by

any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. Transition from the preceeding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Supersedes Rate Schedules: 1-INC dated 8/24/01 (Weatherford, Willow Park, Aledo, Hudson Oaks, Mineral Wells, Graford, Millsap, Jacksboro, Bryson, Graham) 1 dated 6/23/2000 (Breckenridge) Meters Read On and After April 28, 2006 (Other cities) June 5, 2006 (Breckenridge)

PIPELINE SAFETY AND REGULATORY PROGRAM FEES
TEXAS ADMINISTRATIVE CODE TITLE 16
ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS
CHAPTER 8
PIPELINE SAFETY REGULATIONS
SUBCHAPTER C
REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on

GAS SERVICES DIVISION

RATE SCHEDULESCHEDULE IDDESCRIPTION

March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter

DESCRIPTION

B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA-NTX-IS

TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE WNA Page 1 of 1
 WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson: 10, 20, 25, 40, and 45. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the City monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the City an annual report verifying the past year's WNA collections or refunds. Supersedes Same Sheet Dated Sept. 22, 2000 (Weatherford), Oct. 31, 2000 (Willow Park, Aledo and Hudson Oaks), May 25, 2001 (Mineral Wells), July 26, 2001 (Graford and Millsap)

SERVICE CHARGES

<u>RRC CHARGE NO.</u>	<u>CHARGE ID</u>	<u>CHARGE AMOUNT</u>	<u>SERVICE PROVIDED</u>
273493	Breckenridge SvcA 1a		<p>Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) FEES AND DEPOSITS</p> <p>2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff.</p> <p>The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.</p>
273494	Breckenridge SvcA 1b		<p>Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall</p>

RAILROAD COMMISSION OF TEXAS
 GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 17038

have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

273495 Breckenridge Svca 1c

Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) (Fees and Deposits continued) Industrial Customer meter tests performed under these conditions shall be charged at the following fee schedule: METER TYPE AND CAPACITY SERVICE CHARGE Positive Displacement
 251 to 1500 cubic feet per hour \$ 25.00
 1501 to 3000 cubic feet per hour
 50.00 3001 to 5000 cubic feet per hour
 50.00 Over 5000 cubic feet per hour
 100.00 Turbine meters
 200.00 Orifice All Sizes
 \$ 100.00 If

the test proves the meter is registering above or below the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter. FEES AND CHARGES Connect Charge \$15.00 Connect Charge-After Hours \$20.00* Connect Charge-Holidays \$20.00* Return Check Fee \$10.00 Light Pilots \$ 7.00 Deposit \$50.00
 * At Customer Request As approved by City Ordinance 90-21

 required service pipe and metering facilities less any
 expected salvage, whichever is greater. Extension of
 distribution mains shall be made in accordance with
 the provisions of this Tariff. The Company shall
 charge a non-refundable fee to each Applicant to
 compensate for cost involved in commencement of
 service. This fee shall be assessed when a meter is
 set and/or the Applicant's appliances lighted and when
 a meter reading only is required, if the call can be
 scheduled in the normal course of business. Whenever
 the Applicant requests special handling of his
 request, the Company shall charge an additional fee
 unless a special callout is required, in which case

the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

273497 Graham SvcA 1b

Graham Service Area - Municipality (From Quality of Service Rules effective 8/24/01) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-1-NTX-IS-COSadj	<p>TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-1 COST OF SERVICE ADJUSTMENT CLAUSE</p> <p>A. APPLICABILITY This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson and Weatherford, Texas.</p> <p>B. EFFECTIVE DATE Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than April 1, with rate adjustments to be effective the first billing cycle of August each year.</p> <p>C. COMPONENTS OF RATE ADJUSTMENT Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. In any year, the percentage change in total calendar year operating expenses shall not exceed the greater of 3.5 percent or the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in operating expenses (Account Nos. 870-932) is computed by comparing the operating expenses of the most recent calendar year to the prior calendar year operating expenses (either those from the last rate case or cost of service adjustment, whichever is more recent.)The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.</p> <p>1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account No. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932, except 928) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. ** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.</p>

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17039

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items* Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories and prepayments levels approved in the most recent general rate case.

3. Federal Income Taxes Calendar year federal income taxes will be calculated as follows: Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

4. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections C.1 through C.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than ninety (90) days within which to review the proposed annual rate adjustment prior to its taking effect with the first billing cycle of August of each year. If a City takes no action within ninety (90) days, the proposed annual rate adjustment will be deemed approved by the City. A city or group of cities may retain a consultant to review the annual rate adjustment filing, and the Company agrees to reimburse the actual, aggregate cost of such review(s) up to an amount not to exceed \$15,000 per year. Any reimbursement of such costs will be recoverable through the Company's annual cost of service adjustment rate. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws. Texas Gas Service Company shall not appeal to the Railroad Commission of Texas the denial of its annual rate adjustment by one or more of the cities. However, such denial shall not preclude Texas Gas Service Company from filing a Statement of Intent to increase rates pursuant to section 104.102 of the Texas Utilities Code in such cities.

 Rate Sched 1-1 dated May 4, 2012
 Rate Sched 1-2 dated May 4, 2012

1-INC-NTX-IS-COG

TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-INC COST OF GAS
 CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general
 service rate schedules of Texas Gas Service Company (The Company) in the
 incorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells,
 Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson, Texas . B.
 DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation
 under this clause, consisting of the commodity cost, a reconciliation component
 related fees (including franchise fees), and other purchased gas expenses. 2.
 Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.
 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from
 its suppliers or the estimated weighted average cost for gas purchased by the
 Company from all sources where applicable. Such cost shall include not only the
 purchase cost of natural gas, but shall also include all reasonable fees for
 services such as gathering, treating, processing, transportation, capacity and/or
 supply reservation fees, storage, balancing, and swing services necessary for the
 movement of gas to the Company's citygate delivery points. The Cost of Purchased
 Gas shall also include gains or losses from the utilization of natural gas
 financial instruments that are executed by the Company for the purpose of
 mitigating high prices and price volatility. 4. Reconciliation Component - The
 amount to be returned to or recovered from customers each month from December
 through August as a result of the Reconciliation Audit. Reconciliation Audit - An
 annual review of the Company's books and records for each twelve month period
 ending with the production month of August to determine the amount of over or under
 collection occurring during such twelve month period. The audit shall determine:
 (a) the total amount paid for gas purchased by the Company (per Section B(3) above)
 to provide service to its general service customers during the period, (b) the
 revenues received from operation of the provisions of this cost of gas, (c) the
 total amount of refunds made to customers during the period and any other revenues
 or credits received by the Company as a result of relevant gas purchases or
 operation of this Cost of Gas Clause, (d) the total amount of uncollectible
 accounts that are attributable to charges calculated under this tariff during the
 period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if
 necessary, to exclude lost and unaccounted for gas during the period in excess of
 five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by
 dividing the total volumes purchased of a general service customer during the
 twelve (12) month period ending June 30 by the sum of the volumes sold to general
 service customers during the same period. For the purpose of this computation all
 volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event
 exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable
 regulatory authority. 7. Reconciliation Account - The account maintained by the
 Company to assure that over time it will neither over nor under collect revenues as

TARIFF CODE: DS RRC TARIFF NO: 17039

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by

any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. Transition from the preceding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Supersedes Rate Schedules: 1-INC dated 8/24/01 (Weatherford, Willow Park, Aledo, Hudson Oaks, Mineral Wells, Graford, Millsap, Jacksboro, Bryson, Graham) 1 dated 6/23/2000 (Breckenridge) Meters Read On and After April 28, 2006 (Other cities) June 5, 2006 (Breckenridge)

 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8
 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C
 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the
 Commission establishes a pipeline safety and regulatory program fee, to be assessed
 annually against operators of natural gas distribution pipelines and pipeline
 facilities and natural gas master metered pipelines and pipeline facilities subject
 to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total
 amount of revenue estimated to be collected under this section does not exceed the
 amount the Commission estimates to be necessary to recover the costs of
 administering the pipeline safety and regulatory programs under Texas Utilities
 Code, Title 3, excluding costs that are fully funded by federal sources for any
 fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator
 of a natural gas distribution system an annual pipeline safety and regulatory
 program fee of \$1.00 for each service (service line) in service at the end of each
 calendar year as reported by each system operator on the U.S. Department of

DESCRIPTION

Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and
(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the

DESCRIPTION

purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

SERVICE CHARGES

<u>RRC CHARGE NO.</u>	<u>CHARGE ID</u>	<u>CHARGE AMOUNT</u>	<u>SERVICE PROVIDED</u>
273505	Breckenridge SvcA 1a		<p>Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) FEES AND DEPOSITS</p> <p>2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff.</p> <p>The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.</p>
273506	Breckenridge SvcA 1b		<p>Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall</p>

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17039

have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

273507 Breckenridge Svca 1c

Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) (Fees and Deposits continued) Industrial Customer meter tests performed under these conditions shall be charged at the following fee schedule: METER TYPE AND CAPACITY SERVICE CHARGE Positive Displacement
 251 to 1500 cubic feet per hour \$ 25.00
 1501 to 3000 cubic feet per hour 50.00
 3001 to 5000 cubic feet per hour 50.00
 Over 5000 cubic feet per hour 100.00
 Turbine meters 200.00
 Orifice All Sizes \$ 100.00

If the test proves the meter is registering above or below the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter. FEES AND CHARGES Connect Charge \$15.00 Connect Charge-After Hours \$20.00* Connect Charge-Holidays \$20.00* Return Check Fee \$10.00 Light Pilots \$ 7.00 Deposit \$50.00
 * At Customer Request As approved by City Ordinance 90-21

273515 Weatherford Svca 1

Weatherford Service Area - Municipalities (From Quality of Service Rules effective 8/24/01) FEES AND DEPOSITS 10.1 Fees A. Connect / Reconnect / Transfer Fee \$15.00 Charged when a meter is set, a meter is read or gas is turned on. This fee is also charged when service is terminated and subsequently re-initiated, unless terminated in error by the Company. B. Meter Test Charged when customer requests a meter test within four years of the last meter test. Positive Displacement Meters: Residential or Commercial Request \$15.00 Industrial Request: 251 to 1500 cubic feet per hour 25.00 1501 to 5000 cubic feet per hour 50.00 over 5000 cubic feet per hour 100.00 Turbine Meters 200.00

the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

273509 Graham SvcA 1b

Graham Service Area - Municipality (From Quality of Service Rules effective 8/24/01) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

 NOTE FROM SECTION 1.2 FEES AND CHARGES: In the
 incorporated areas of Bryson and Jacksboro only, all
 fees and charges (excluding advances, contributions in
 aid of construction and deposits) shall be adjusted by
 the amount which represents the actual gross receipts,
 occupation, revenue taxes and franchise fees paid by
 the Company. 2.3 TEMPORARY SERVICE Temporary
 Service shall be furnished under the same rate
 schedules applicable to regular service of a similar
 kind. Before Temporary Service is instituted,
 however, the Applicant shall make a contribution of
 \$50.00 or the amount of the estimated cost of the
 installation and removal (or abandonment) of the
 required service pipe and metering facilities less any
 expected salvage, whichever is greater. Extension of
 distribution mains shall be made in accordance with
 the provisions of this Tariff. The Company shall
 charge a non-refundable fee to each Applicant to
 compensate for cost involved in commencement of
 service. This fee shall be assessed when a meter is
 set and/or the Applicant's appliances lighted and when
 a meter reading only is required, if the call can be
 scheduled in the normal course of business. Whenever
 the Applicant requests special handling of his
 request, the Company shall charge an additional fee
 unless a special callout is required, in which case
 the charge shall be for one hour at the Company's then
 prevailing after hours rate for service work on
 Customer's premises. Special handling of calls and
 the charges therefore shall be made only on request of
 the Applicant. Whenever service is furnished from the

SCHEDULE ID DESCRIPTION
1-1-NTX-IS-COSadj

TEXAS GAS SERVICE COMPANY
North Texas Area
RATE SCHEDULE 1-1
COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson and Weatherford, Texas.

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than April 1, with rate adjustments to be effective the first billing cycle of August each year.

C. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes.

In any year, the percentage change in total calendar year operating expenses shall not exceed the greater of 3.5 percent or the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in operating expenses (Account Nos. 870-932) is computed by comparing the operating expenses of the most recent calendar year to the prior calendar year operating expenses (either those from the last rate case or cost of service adjustment, whichever is more recent.)The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account No. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932, except 928) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. ** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17040

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items* Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories and prepayments levels approved in the most recent general rate case.

3. Federal Income Taxes Calendar year federal income taxes will be calculated as follows: Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

4. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections C.1 through C.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than ninety (90) days within which to review the proposed annual rate adjustment prior to its taking effect with the first billing cycle of August of each year. If a City takes no action within ninety (90) days, the proposed annual rate adjustment will be deemed approved by the City. A city or group of cities may retain a consultant to review the annual rate adjustment filing, and the Company agrees to reimburse the actual, aggregate cost of such review(s) up to an amount not to exceed \$15,000 per year. Any reimbursement of such costs will be recoverable through the Company's annual cost of service adjustment rate. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws. Texas Gas Service Company shall not appeal to the Railroad Commission of Texas the denial of its annual rate adjustment by one or more of the cities. However, such denial shall not preclude Texas Gas Service Company from filing a Statement of Intent to increase rates pursuant to section 104.102 of the Texas Utilities Code in such cities.

Rate Sched 1-2 dated May 4, 2012

1-INC-NTX-IS-COG

TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-INC COST OF GAS
 CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general
 service rate schedules of Texas Gas Service Company (The Company) in the
 incorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells,
 Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson, Texas . B.
 DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation
 under this clause, consisting of the commodity cost, a reconciliation component
 related fees (including franchise fees), and other purchased gas expenses. 2.
 Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.
 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from
 its suppliers or the estimated weighted average cost for gas purchased by the
 Company from all sources where applicable. Such cost shall include not only the
 purchase cost of natural gas, but shall also include all reasonable fees for
 services such as gathering, treating, processing, transportation, capacity and/or
 supply reservation fees, storage, balancing, and swing services necessary for the
 movement of gas to the Company's citygate delivery points. The Cost of Purchased
 Gas shall also include gains or losses from the utilization of natural gas
 financial instruments that are executed by the Company for the purpose of
 mitigating high prices and price volatility. 4. Reconciliation Component - The
 amount to be returned to or recovered from customers each month from December
 through August as a result of the Reconciliation Audit. Reconciliation Audit - An
 annual review of the Company's books and records for each twelve month period
 ending with the production month of August to determine the amount of over or under
 collection occurring during such twelve month period. The audit shall determine:
 (a) the total amount paid for gas purchased by the Company (per Section B(3) above)
 to provide service to its general service customers during the period, (b) the
 revenues received from operation of the provisions of this cost of gas, (c) the
 total amount of refunds made to customers during the period and any other revenues
 or credits received by the Company as a result of relevant gas purchases or
 operation of this Cost of Gas Clause, (d) the total amount of uncollectible
 accounts that are attributable to charges calculated under this tariff during the
 period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if
 necessary, to exclude lost and unaccounted for gas during the period in excess of
 five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by
 dividing the total volumes purchased of a general service customer during the
 twelve (12) month period ending June 30 by the sum of the volumes sold to general
 service customers during the same period. For the purpose of this computation all
 volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event
 exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable
 regulatory authority. 7. Reconciliation Account - The account maintained by the
 Company to assure that over time it will neither over nor under collect revenues as

TARIFF CODE: DS RRC TARIFF NO: 17040

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by

any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. Transition from the preceding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Supersedes Rate Schedules: 1-INC dated 8/24/01 (Weatherford, Willow Park, Aledo, Hudson Oaks, Mineral Wells, Graford, Millsap, Jacksboro, Bryson, Graham) 1 dated 6/23/2000 (Breckenridge) Meters Read On and After April 28, 2006 (Other cities) June 5, 2006 (Breckenridge)

DESCRIPTION

calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and
(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution

system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

SERVICE CHARGES

<u>RRC CHARGE NO.</u>	<u>CHARGE ID</u>	<u>CHARGE AMOUNT</u>	<u>SERVICE PROVIDED</u>
273517	Breckenridge SvcA 1a		<p>Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) FEES AND DEPOSITS</p> <p>2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff.</p> <p>The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.</p>
273518	Breckenridge SvcA 1b		<p>Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall</p>

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17040

have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

273519 Breckenridge Svca 1c

Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) (Fees and Deposits continued) Industrial Customer meter tests performed under these conditions shall be charged at the following fee schedule: METER TYPE AND CAPACITY SERVICE CHARGE Positive Displacement

251 to 1500 cubic feet per hour	\$ 25.00
1501 to 3000 cubic feet per hour	
50.00 3001 to 5000 cubic feet per hour	
50.00 Over 5000 cubic feet per hour	
100.00 Turbine meters	
200.00 Orifice	All Sizes
	\$ 100.00

If the test proves the meter is registering above or below the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter. FEES AND CHARGES Connect Charge \$15.00 Connect Charge-After Hours \$20.00* Connect Charge-Holidays \$20.00* Return Check Fee \$10.00 Light Pilots \$ 7.00 Deposit \$50.00
* At Customer Request As approved by City Ordinance 90-21

273527 Weatherford Svca 1

Weatherford Service Area - Municipalities (From Quality of Service Rules effective 8/24/01) FEES AND DEPOSITS 10.1 Fees A. Connect / Reconnect / Transfer Fee \$15.00 Charged when a meter is set, a meter is read or gas is turned on. This fee is also charged when service is terminated and subsequently re-initiated, unless terminated in error by the Company. B. Meter Test Charged when customer requests a meter test within four years of the last meter test. the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

273521 Graham SvcA 1b

Graham Service Area - Municipality (From Quality of Service Rules effective 8/24/01) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

 of Service Rules effective 8/24/01) FEES AND DEPOSITS
 NOTE FROM SECTION 1.2 FEES AND CHARGES: In the
 incorporated areas of Bryson and Jacksboro only, all
 fees and charges (excluding advances, contributions in
 aid of construction and deposits) shall be adjusted by
 the amount which represents the actual gross receipts,
 occupation, revenue taxes and franchise fees paid by
 the Company. 2.3 TEMPORARY SERVICE Temporary
 Service shall be furnished under the same rate
 schedules applicable to regular service of a similar
 kind. Before Temporary Service is instituted,
 however, the Applicant shall make a contribution of
 \$50.00 or the amount of the estimated cost of the
 installation and removal (or abandonment) of the
 required service pipe and metering facilities less any
 expected salvage, whichever is greater. Extension of
 distribution mains shall be made in accordance with
 the provisions of this Tariff. The Company shall
 charge a non-refundable fee to each Applicant to
 compensate for cost involved in commencement of
 service. This fee shall be assessed when a meter is
 set and/or the Applicant's appliances lighted and when
 a meter reading only is required, if the call can be
 scheduled in the normal course of business. Whenever
 the Applicant requests special handling of his
 request, the Company shall charge an additional fee
 unless a special callout is required, in which case
 the charge shall be for one hour at the Company's then
 prevailing after hours rate for service work on
 Customer's premises. Special handling of calls and
 the charges therefore shall be made only on request of
 the Applicant. Whenever service is furnished from the
 facilities of others and the Company must pay any
 special fees to the supplying company, the Applicant
 shall reimburse the Company for such charge plus
 twenty percent for handling.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-1-NTX-IS-COSadj	<p>TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-1 COST OF SERVICE ADJUSTMENT CLAUSE</p> <p>A. APPLICABILITY This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson and Weatherford, Texas.</p> <p>B. EFFECTIVE DATE Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than April 1, with rate adjustments to be effective the first billing cycle of August each year.</p> <p>C. COMPONENTS OF RATE ADJUSTMENT Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes. In any year, the percentage change in total calendar year operating expenses shall not exceed the greater of 3.5 percent or the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in operating expenses (Account Nos. 870-932) is computed by comparing the operating expenses of the most recent calendar year to the prior calendar year operating expenses (either those from the last rate case or cost of service adjustment, whichever is more recent.)The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.</p> <p>1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account No. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932, except 928) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. ** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.</p>

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17041

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items* Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories and prepayments levels approved in the most recent general rate case.

3. Federal Income Taxes Calendar year federal income taxes will be calculated as follows: Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

4. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections C.1 through C.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than ninety (90) days within which to review the proposed annual rate adjustment prior to its taking effect with the first billing cycle of August of each year. If a City takes no action within ninety (90) days, the proposed annual rate adjustment will be deemed approved by the City. A city or group of cities may retain a consultant to review the annual rate adjustment filing, and the Company agrees to reimburse the actual, aggregate cost of such review(s) up to an amount not to exceed \$15,000 per year. Any reimbursement of such costs will be recoverable through the Company's annual cost of service adjustment rate. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws. Texas Gas Service Company shall not appeal to the Railroad Commission of Texas the denial of its annual rate adjustment by one or more of the cities. However, such denial shall not preclude Texas Gas Service Company from filing a Statement of Intent to increase rates pursuant to section 104.102 of the Texas Utilities Code in such cities.

 Rate Sched 1-1 dated May 4, 2012
 Rate Sched 1-2 dated May 4, 2012

1-INC-NTX-IS-COG

TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-INC COST OF GAS
 CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general
 service rate schedules of Texas Gas Service Company (The Company) in the
 incorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells,
 Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson, Texas . B.
 DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation
 under this clause, consisting of the commodity cost, a reconciliation component
 related fees (including franchise fees), and other purchased gas expenses. 2.
 Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.
 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from
 its suppliers or the estimated weighted average cost for gas purchased by the
 Company from all sources where applicable. Such cost shall include not only the
 purchase cost of natural gas, but shall also include all reasonable fees for
 services such as gathering, treating, processing, transportation, capacity and/or
 supply reservation fees, storage, balancing, and swing services necessary for the
 movement of gas to the Company's citygate delivery points. The Cost of Purchased
 gas shall also include gains or losses from the utilization of natural gas
 financial instruments that are executed by the Company for the purpose of
 mitigating high prices and price volatility. 4. Reconciliation Component - The
 amount to be returned to or recovered from customers each month from December
 through August as a result of the Reconciliation Audit. Reconciliation Audit - An
 annual review of the Company's books and records for each twelve month period
 ending with the production month of August to determine the amount of over or under
 collection occurring during such twelve month period. The audit shall determine:
 (a) the total amount paid for gas purchased by the Company (per Section B(3) above)
 to provide service to its general service customers during the period, (b) the
 revenues received from operation of the provisions of this cost of gas, (c) the
 total amount of refunds made to customers during the period and any other revenues
 or credits received by the Company as a result of relevant gas purchases or
 operation of this Cost of Gas Clause, (d) the total amount of uncollectible
 accounts that are attributable to charges calculated under this tariff during the
 period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if
 necessary, to exclude lost and unaccounted for gas during the period in excess of
 five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by
 dividing the total volumes purchased of a general service customer during the
 twelve (12) month period ending June 30 by the sum of the volumes sold to general
 service customers during the same period. For the purpose of this computation all
 volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event
 exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable
 regulatory authority. 7. Reconciliation Account - The account maintained by the
 Company to assure that over time it will neither over nor under collect revenues as

TARIFF CODE: DS RRC TARIFF NO: 17041

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by

any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. Transition from the preceding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Supersedes Rate Schedules: 1-INC dated 8/24/01 (Weatherford, Willow Park, Aledo, Hudson Oaks, Mineral Wells, Graford, Millsap, Jacksboro, Bryson, Graham) 1 dated 6/23/2000 (Breckenridge) Meters Read On and After April 28, 2006 (Other cities) June 5, 2006 (Breckenridge)

TEXAS ADMINISTRATIVE CODE TITLE 16
ECONOMIC REGULATION PART 1
RAILROAD COMMISSION OF TEXAS
CHAPTER 8
PIPELINE SAFETY REGULATIONS
SUBCHAPTER C
REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of

TARIFF CODE: DS RRC TARIFF NO: 17041

RATE SCHEDULESCHEDULE IDDESCRIPTION

Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the

purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA-NTX-IS

TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE WNA Page 1 of 1
 WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson: 10, 20, 25, 40, and 45. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the City monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the City an annual report verifying the past year's WNA collections or refunds. Supersedes Same Sheet Dated Sept. 22, 2000 (Weatherford), Oct. 31, 2000 (Willow Park, Aledo and Hudson Oaks), May 25, 2001 (Mineral Wells), July 26, 2001 (Graford and Millsap)

SERVICE CHARGES

<u>RRC CHARGE NO.</u>	<u>CHARGE ID</u>	<u>CHARGE AMOUNT</u>	<u>SERVICE PROVIDED</u>
273529	Breckenridge SvcA 1a		<p>Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) FEES AND DEPOSITS</p> <p>2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff.</p> <p>The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.</p>
273530	Breckenridge SvcA 1b		<p>Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17041

have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

273531 Breckenridge Svca 1c

Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) (Fees and Deposits continued) Industrial Customer meter tests performed under these conditions shall be charged at the following fee schedule: METER TYPE AND CAPACITY SERVICE CHARGE Positive Displacement

251 to 1500 cubic feet per hour	\$ 25.00
1501 to 3000 cubic feet per hour	
50.00 3001 to 5000 cubic feet per hour	
50.00 Over 5000 cubic feet per hour	
100.00 Turbine meters	
200.00 Orifice	All Sizes
	\$ 100.00

If the test proves the meter is registering above or below the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter. Graham Service Area - Municipality (From Quality of
 Service Rules effective 8/24/01) FEES AND DEPOSITS
 NOTE FROM SECTION 1.2 FEES AND CHARGES: In the
 incorporated area of Graham only, all fees and charges
 (excluding advances, contributions in aid of
 construction and deposits) shall be adjusted by the
 amount which represents the actual gross receipts,
 occupation, revenue taxes and franchise fees paid by
 the Company. 2.3 TEMPORARY SERVICE Temporary
 Service shall be furnished under the same rate
 schedules applicable to regular service of a similar
 kind. Before Temporary Service is instituted,
 however, the Applicant shall make a contribution of
 \$50.00 or the amount of the estimated cost of the
 installation and removal (or abandonment) of the
 required service pipe and metering facilities less any
 expected salvage, whichever is greater. Extension of
 distribution mains shall be made in accordance with
 the provisions of this Tariff. The Company shall
 charge a non-refundable fee to each Applicant to
 compensate for cost involved in commencement of
 service. This fee shall be assessed when a meter is
 set and/or the Applicant's appliances lighted and when
 a meter reading only is required, if the call can be
 scheduled in the normal course of business. Whenever
 the Applicant requests special handling of his
 request, the Company shall charge an additional fee
 unless a special callout is required, in which case

the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

273533 Graham SvcA 1b

Graham Service Area - Municipality (From Quality of Service Rules effective 8/24/01) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

TEXAS GAS SERVICE COMPANY
North Texas Area
RATE SCHEDULE 1-1
COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all general service rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson and Weatherford, Texas.

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing no later than April 1, with rate adjustments to be effective the first billing cycle of August each year.

C. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment, federal income taxes and revenue related taxes.

In any year, the percentage change in total calendar year operating expenses shall not exceed the greater of 3.5 percent or the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in operating expenses (Account Nos. 870-932) is computed by comparing the operating expenses of the most recent calendar year to the prior calendar year operating expenses (either those from the last rate case or cost of service adjustment, whichever is more recent.)The rate adjustment will be spread evenly across all volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing rates for each rate code.

1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account No. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932, except 928) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. ** Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17042

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items* Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes * These items will reflect the Materials and Supplies inventories and prepayments levels approved in the most recent general rate case.

3. Federal Income Taxes Calendar year federal income taxes will be calculated as follows: Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Multiplied by: Tax Factor (.35/(1-.35) or .53846)

4. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections C.1 through C.4 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (*) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each rate code. * The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than ninety (90) days within which to review the proposed annual rate adjustment prior to its taking effect with the first billing cycle of August of each year. If a City takes no action within ninety (90) days, the proposed annual rate adjustment will be deemed approved by the City. A city or group of cities may retain a consultant to review the annual rate adjustment filing, and the Company agrees to reimburse the actual, aggregate cost of such review(s) up to an amount not to exceed \$15,000 per year. Any reimbursement of such costs will be recoverable through the Company's annual cost of service adjustment rate. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws. Texas Gas Service Company shall not appeal to the Railroad Commission of Texas the denial of its annual rate adjustment by one or more of the cities. However, such denial shall not preclude Texas Gas Service Company from filing a Statement of Intent to increase rates pursuant to section 104.102 of the Texas Utilities Code in such cities.

1-INC-NTX-IS-COG

TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-INC COST OF GAS
 CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general
 service rate schedules of Texas Gas Service Company (The Company) in the
 incorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells,
 Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson, Texas . B.
 DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation
 under this clause, consisting of the commodity cost, a reconciliation component
 related fees (including franchise fees), and other purchased gas expenses. 2.
 Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.
 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from
 its suppliers or the estimated weighted average cost for gas purchased by the
 Company from all sources where applicable. Such cost shall include not only the
 purchase cost of natural gas, but shall also include all reasonable fees for
 services such as gathering, treating, processing, transportation, capacity and/or
 supply reservation fees, storage, balancing, and swing services necessary for the
 movement of gas to the Company's citygate delivery points. The Cost of Purchased
 Gas shall also include gains or losses from the utilization of natural gas
 financial instruments that are executed by the Company for the purpose of
 mitigating high prices and price volatility. 4. Reconciliation Component - The
 amount to be returned to or recovered from customers each month from December
 through August as a result of the Reconciliation Audit. Reconciliation Audit - An
 annual review of the Company's books and records for each twelve month period
 ending with the production month of August to determine the amount of over or under
 collection occurring during such twelve month period. The audit shall determine:
 (a) the total amount paid for gas purchased by the Company (per Section B(3) above)
 to provide service to its general service customers during the period, (b) the
 revenues received from operation of the provisions of this cost of gas, (c) the
 total amount of refunds made to customers during the period and any other revenues
 or credits received by the Company as a result of relevant gas purchases or
 operation of this Cost of Gas Clause, (d) the total amount of uncollectible
 accounts that are attributable to charges calculated under this tariff during the
 period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if
 necessary, to exclude lost and unaccounted for gas during the period in excess of
 five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by
 dividing the total volumes purchased of a general service customer during the
 twelve (12) month period ending June 30 by the sum of the volumes sold to general
 service customers during the same period. For the purpose of this computation all
 volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event
 exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable
 regulatory authority. 7. Reconciliation Account - The account maintained by the
 Company to assure that over time it will neither over nor under collect revenues as

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 17042

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by

any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. Transition from the preceeding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Supersedes Rate Schedules: 1-INC dated 8/24/01 (Weatherford, Willow Park, Aledo, Hudson Oaks, Mineral Wells, Graford, Millsap, Jacksboro, Bryson, Graham) 1 dated 6/23/2000 (Breckenridge) Meters Read On and After April 28, 2006 (Other cities) June 5, 2006 (Breckenridge)

 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8
 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C
 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of

DESCRIPTION

Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the

purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA-NTX-IS

TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE WNA Page 1 of 1
 WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro and Bryson: 10, 20, 25, 40, and 45. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the City monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the City an annual report verifying the past year's WNA collections or refunds. Supersedes Same Sheet Dated Sept. 22, 2000 (Weatherford), Oct. 31, 2000 (Willow Park, Aledo and Hudson Oaks), May 25, 2001 (Mineral Wells), July 26, 2001 (Graford and Millsap)

SERVICE CHARGES

<u>RRC CHARGE NO.</u>	<u>CHARGE ID</u>	<u>CHARGE AMOUNT</u>	<u>SERVICE PROVIDED</u>
273541	Breckenridge SvcA 1a		<p>Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) FEES AND DEPOSITS</p> <p>2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff.</p> <p>The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.</p>
273542	Breckenridge SvcA 1b		<p>Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall</p>

have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

273543 Breckenridge Svca 1c

Breckenridge Service Area - Municipality (From Quality of Service Rules effective 1/28/91) (Fees and Deposits continued) Industrial Customer meter tests performed under these conditions shall be charged at the following fee schedule: METER TYPE AND CAPACITY SERVICE CHARGE Positive Displacement
 251 to 1500 cubic feet per hour \$ 25.00
 1501 to 3000 cubic feet per hour 50.00
 3001 to 5000 cubic feet per hour 50.00
 Over 5000 cubic feet per hour 100.00
 Turbine meters 200.00
 Orifice All Sizes \$ 100.00

If the test proves the meter is registering above or below the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter. FEES AND CHARGES Connect Charge \$15.00 Connect Charge-After Hours \$20.00* Connect Charge-Holidays \$20.00* Return Check Fee \$10.00 Light Pilots \$ 7.00 Deposit \$50.00
 * At Customer Request As approved by City Ordinance 90-21

273551 Weatherford Svca 1

Weatherford Service Area - Municipalities (From Quality of Service Rules effective 8/24/01) FEES AND DEPOSITS 10.1 Fees A. Connect / Reconnect / Transfer Fee \$15.00 Charged when a meter is set, a meter is read or gas is turned on. This fee is also charged when service is terminated and subsequently re-initiated, unless terminated in error by the Company. B. Meter Test Charged when customer requests a meter test within four years of the last meter test.  incorporated area of Graham only, all fees and charges
 (excluding advances, contributions in aid of
 construction and deposits) shall be adjusted by the
 amount which represents the actual gross receipts,
 occupation, revenue taxes and franchise fees paid by
 the Company. 2.3 TEMPORARY SERVICE Temporary
 Service shall be furnished under the same rate
 schedules applicable to regular service of a similar
 kind. Before Temporary Service is instituted,
 however, the Applicant shall make a contribution of
 \$50.00 or the amount of the estimated cost of the
 installation and removal (or abandonment) of the
 required service pipe and metering facilities less any
 expected salvage, whichever is greater. Extension of
 distribution mains shall be made in accordance with
 the provisions of this Tariff. The Company shall
 charge a non-refundable fee to each Applicant to
 compensate for cost involved in commencement of
 service. This fee shall be assessed when a meter is
 set and/or the Applicant's appliances lighted and when
 a meter reading only is required, if the call can be
 scheduled in the normal course of business. Whenever
 the Applicant requests special handling of his
 request, the Company shall charge an additional fee
 unless a special callout is required, in which case

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
RCR-ENV-CTX-OS-Reloc	<p>TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-ENV RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for the unincorporated areas of the Central Texas Service Area: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: $RCR\ Rate = \frac{CPRC}{NV}$ CPRC = Relocation costs for the current recovery period. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-ENV-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for rate schedules: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of a RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that reasonable efforts were made to receive reimbursement from the entity requiring each relocation, if applicable. 6. A schedule showing RCR collections. TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE NO. 1
 Central Texas Service Area
 COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers

GAS SERVICES DIVISION

DESCRIPTION

during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s).

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17608

RATE SCHEDULESCHEDULE IDDESCRIPTION

outstanding over collected balance multiplied by interest of 9% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A detailed description of the settlement and impact of financial instruments

utilized by the Company as described in Section B.3.

6. An affidavit signed by an officer of the utility stating that neither TGS nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

I. QUARTERLY IMBALANCE REPORTS

The Company shall file a Quarterly Report with the Regulatory Authority that provides information concerning imbalances created by the Company's transportation customers. The report is due 45 days after the close of each calendar quarter and shall contain the following information:

1. Monthly imbalances by supplier and the system total,
2. Cumulative imbalance by supplier and the system total,
3. Amount of cash transactions between the Company and gas supplier for each month, and
4. Calculation of the monthly WACOG for the Company for the Company gas supplies, including volume and prices.

fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 -

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

DESCRIPTION

105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

CURTAILMENT PLAN

<u>PLAN ID</u>	<u>DESCRIPTION</u>
3008	Attachment A (of Docket No. 3008 issued June 22, 1981)
	Texas Gas Service Company Central Texas District
	CURTAILMENTS
	14.1 CURTAILMENTS
	Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.
	14.2 PRIORITY CLASSES
	All customers served by the Company shall be classified into one of the following priority groups:
	A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation.
	B. Gas sold for agricultural purposes.
	C. This category consists of the following:
	(1) Gas sold to small commercial and small industrial customers using 200 Mcf or less on an average day.
	(2) Gas sold to industrial customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production.
	(3) Gas sold to commercial or industrial customers used to provide water heating, heating and cooling for human comfort in the plant or office areas.
	(4) Gas sold for use in power generating plants for start up, safety and flame stabilization.
	D. Gas sold to commercial customers using more than 200 Mcf, but less than 1,500 Mcf on an average day.
	E. Gas sold to small industrial customers using more than 200 Mcf and less than 3,000 Mcf on an average day, provided such user has no economically feasible alternate fuel.
	F. This Category consists of the following:

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17608

(1) Gas sold to industrial customers for feedstock use where the gas volume is more than 200 Mcf and less than 3,000 Mcf on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such customer must prorate its demand for gas and must maximize its use of all other sources of as

(2) Small public utility electric generating systems which use less than 3,000 Mcf on an average day.

G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve customers whose usage falls within the descriptions of A above and small commercial and industrial customers using 20,000 Kwh or less on an average day.

H. This category consists of the following:

- (1) Gas sold for use by commercial customers in excess of 1,500 Mcf on an average day.
- (2) Small industrial customers not qualifying under C, D, E, or F above.

I. All gas sold for use in existing power generating plants for the generation of electricity not included in G and C(4) above.

J. This category consists of the following:

- (1) Gas sold to large users of gas, in excess of 3,000 Mcf on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics.
- (2) Gas sold for feedstock as defined in F above, in excess of 3,000 Mcf on an average day.

K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 Mcf on an average day and any other use which does not qualify under a preceding priority.

14.3 METHOD OF CURTAILMENT

Curtailement shall be ordered ratably insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities 1 and 2. Total curtailement during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

14.4 CLASS AND GROUP CURTAILMENTS

No curtailement shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailement of service.

14.5 NOTIFICATION AND PENALTIES

The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any customer (other than a customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened.

14.6 SUSPENSION OF THIS SECTION

This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

LINE EXTENSION POLICY

<u>POLICY ID</u>	<u>DESCRIPTION</u>
1115	<p>TEXAS GAS SERVICE COMPANY Texas Tariff - Central Texas Service Area ENVIRONS OF THE CENTRAL TEXAS SERVICE AREA (From Quality of Service Rules effective 06/06/06) 01.06.01</p> <p>EXTENSION OF FACILITIES The Company shall install the necessary facilities to provide service beyond existing distribution lines. Expenditures for such extensions must be cost justified or a refundable cash advance will be required. Facilities of greater capacity than Applicant requires may be installed, however, cash advance will be based only on size and capacity of facilities needed by Applicant. Amount of cash advance may be reduced by an allowance for the number of existing Customers along the route of the extension. Such Customers must apply for service prior to installation of the facilities and have major gas burning appliances, water heater or furnace. Allowance per residential Customer is an amount equal to the cost of 100 feet of distribution main. Allowance per non-residential Customer is equal to anticipated first three years' gross margin. Company may elect to allow as approach main an amount equal to 15 feet of main for each potential residential Customer. Non-residential approach main allowance is based on residential equivalents of anticipated margin. Applicant and Company shall enter into a written agreement on the Company's standard form. All advances must be paid in cash prior to construction. Construction of facilities will commence as soon as practical after receipt of advance and prosecuted with reasonable diligence with allowance for delays caused by events or conditions beyond the Company's control. Right-of-way for Company facilities on Applicant's property shall be furnished by the Applicant in the Company's name, on Company's forms at no cost to the Company. If, on the first anniversary of the extension agreement, the extension of facilities has not been installed through no fault of the Company, the agreement will be terminated and the advance refunded. A review of the number of Customers served from the extension will be made on or about the second through fifth in-service anniversaries and a refund equal to the allowance specified in the contract will be made for each additional Customer that came on service since the previous review. No refund shall be given which shall cause the total refunds to be greater than the total advance. No interest shall be paid on any advance. At the end of five years any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction. Any refund of advance which is returned undelivered and remain unclaimed in the Company's possession after six months following expiration of the five year period of the agreement shall be retained as a contribution in aid of construction.</p>

 GENERAL RULES PART 01.00.00 Introduction Section 01.01.00 Page
 1 01.01.01 GENERAL STATEMENT OF
 PURPOSE These Service Regulations Provide specific rules to be followed by the Company in
 supplying natural gas utility service and by the Customer in using such service. Are
 designed to provide good service, fair treatment, and maximum safety to the natural gas
 utility Customers and to the Company. Are officially on file in the Railroad Commission of
 Texas Gas Utilities Division. Copies are available to natural gas utility Customers at the
 Company's Austin offices. Supersede and annul all previous service regulations pertaining to
 the supplying and taking of the Company's natural gas service. Subsequent revisions to these
 policies and procedures may be made with the approval of the appropriate regulatory authority.
 01.01.02 GENERAL OPERATING
 POLICIES Service under this Tariff is subject to the original jurisdiction of the Railroad
 Commission of Texas. It is the policy of the Company to cooperate with charitable and
 welfare organizations assisting Customers in paying and planning for payment of their bills.
 Free service shall not be rendered by the Company to any Customer. All Customers within the
 Company's service area shall be served in accordance with the prices, terms and conditions
 provided for in applicable Tariffs and regulations. It is the on-going policy of the Company
 to provide utility services in a fair, equitable, and courteous manner to all Customers.

 REGULATIONS GENERAL RULES PART 01.00.00 Definitions Section 01.02.01
 Page 2 01.02.01 ACCOUNT
 An account is the record of consumption, charges and payments for services rendered to a
 Customer at a specific service address. Active Account - An account is active when any
 service is available to the Customer at the service address specified for that account.
 Inactive Account - An account is inactive when all service is terminated for the Customer at
 the service address specified for that account.
 01.02.02 APPLICANT Any person,
 organization or group of persons or organizations making a formal request either orally or in
 writing for gas service from the Company.
 01.02.03 BILLING MONTH An interval
 of approximately thirty (30) days between successive meter reading dates.
 01.02.04 COMMERCIAL OFFICE A
 department of the Company's local operations responsible for Initiation and termination of
 service. Regular readings of meters. Regular billing for service (including resolving
 related billing problems and inquiries). Collection of and accounting for accounts
 receivable. 01.02.05 COMMERCIAL

01.02.06 CONSUMER Any person or organization receiving and using gas from the Company for his or her own needs whether or not the gas is billed directly to him or her, or to a second party. (For example, in the case of rental unit where the utilities are part of the rent, the landlord is a Customer and the tenant is a Consumer).

01.02.07 CREDIT SECURITY That which is required by the Company to cover risk of nonpayment by Customer for utility services rendered.

01.02.08 CUSTOMER Any individual, partnership, association, firm, public or private corporation, governmental authority, or other legal entity being billed for gas utility service by the Company at any specified service address.

01.02.09 CUSTOMER'S PIPING All piping and equipment installations on the Customer's side of the meter must be in conformance with applicable City codes. Customer piping must pass applicable pressure testing before initiation of natural gas service.

01.02.10 CUSTOMER PAYMENT STANDARDS The minimum payment practices a natural gas utility Customer must meet in lieu of providing other forms of credit security.

01.02.11 HAZARDOUS WEATHER CONDITIONS The average daily temperature is freezing or below; or the average daily temperatures are predicted to be freezing or below over a 24-hour period.

RULES	PART	01.00.00 Definitions cont.	Section
4			01.02.12
			Page

01.02.12 METER The meter or meters, together with auxiliary devices, if any, constituting the complete installation needed to measure the natural gas supplied to any individual Customer at a single point of delivery.

01.02.13 NOTICE Unless otherwise specified, a written notification delivered personally or mailed by one party to the other at such other party's last known address, the period of notice as required by any applicable section of these Regulations being computed from the date of such personal delivery or mailing.

01.02.14 POINT OF DELIVERY The outlet of the Company's meter where it connects to Customer's piping.

01.02.15 REGULATORY AUTHORITY The City has original jurisdiction over the Company's rates and service regulations within the municipal boundaries of the City according to state law. Appellate jurisdiction rests with the Railroad Commission of Texas. Outside the municipal boundaries, the Railroad Commission of Texas has original jurisdiction over the Company's rates and service regulations.

01.02.16 SERIOUS ILLNESS Any illness wherein termination of natural gas service would be especially dangerous to that person's health as certified by a licensed physician.

01.02.17 SERVICE ADDRESS Specified address of a location which can receive natural gas utility service provided by the Company. A valid Service Address shall contain the street name and house number and, when applicable, the building, unit and/or suite number. The Service Address must be visible from the street which serves that structure.

01.02.18 SERVICE CONTRACT A service contract, whether or not in writing, exists between a Customer and the Company when the Company supplies service and the Customer accepts it. A Customer accepts natural gas service: when the Customer or Customer's agent requests utility service and the Company provides it, or when the Customer, though not requesting service, knowingly receives service for more than seventy-two (72) hours, benefits from the service, and does not request discontinuance in

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 17608

writing prior to the expiration of the seventy-two (72) hour period. All rights and obligations under this contract are governed by state and federal law, applicable rate ordinances and by these regulations, including any amendments to the foregoing, in effect at the time when service is rendered. Subject to the foregoing, every service contract shall obligate the Customer to pay for service rendered, and shall obligate the Company to continue providing service for so long as the Customer pays for such service on a timely basis by paying for service rendered by the due date printed on the bill.

01.02.19 SERVICE PIPE The Company owned piping, connecting Company's distribution facilities to the yardline at the property line. 01.02.20 YARDLINE The piping carrying natural gas on the Customer's property between the property line and meter.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section 01.03.01 Public Information Page 6

01.03.01 FACILITIES Upon request, the Company will provide information regarding the physical locations, size, capacity and other pertinent data regarding its facilities based on information available to it for any valid purpose relating to the provision of gas service.

01.03.02 AVAILABILITY AND DISTRIBUTION OF RATE SCHEDULES AND UTILITY SERVICE REGULATIONS All Customers living within the City shall be served under rate schedules filed with the City and Railroad Commission of Texas. All Customers living outside of the city shall be served under rate schedules on file with the Railroad Commission of Texas. Customers shall be assigned to rate schedules in accordance with the class of the particular Customer, the usage which will be made of the gas and that Customer's volume requirements. The Company shall advise the Applicant or Customer how to secure the most advantageous rate schedule available for his usage. A Customer assigned to a rate schedule shall remain on that schedule for a minimum of one year except that an assignment made in error shall be corrected immediately. Questions regarding a nonresidential Customer's classification shall be determined by the location of the Customer's primary business in the latest edition of the Standard Industrial Classification Manual of the United States Government's Office of Management and Budget. The Company shall post a notice in a conspicuous place in its Commercial Offices informing the public that copies of the following are available for inspection: - rate schedules, - utility fees and deposit schedules; and - utility service regulations.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section 01.03.03 Public Information cont. Page 7

01.03.03 CHANGE IN RATE SCHEDULES AND CLASSIFICATIONS The Company shall provide public notice of any proposal for a change in rates or service classification, that has been made by the Company, prior to its adoption. Such notice shall be made by newspaper publication and shall include information on the proposed changes, the impact of the changes on the Company's revenues, the class of Customers affected by the proposed changes and whether the proposed changes are major changes as defined in the Gas Utility Regulatory Act. The notice shall also inform the Customers that the proposed changes are on file at the City, the Railroad Commission of Texas Gas Utilities Division and at the Company's Commercial offices.

01.03.04 METER READING Upon request the Company shall inform its Customers how to read its meters.

01.03.05 CUSTOMER'S RIGHTS The Company shall annually provide each residential and small commercial Customer with a summary description of: Customer rights; and Company obligations under these rules. This information shall be provided in English and Spanish. New residential and small commercial

Customers shall be provided with the description no later than the date they receive their first bill. _____ 01.03.06 SERIOUS ILLNESS

The Company will use its best efforts to not discontinue service to a delinquent residential Customer who permanently resides in an individually metered dwelling unit if the Customer establishes that discontinuance of service will result in some person residing at the residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this Section must make a written request to the Company, supported by a written statement from a licensed physician. The request and physician's statement must be received by UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section 01.03.06 Public Information cont. Page 8 the Company no more than five working days after the date of delinquency of the bill. The Company shall not terminate service for twenty days after the request and physician's statement is received unless the Company and Customer agree to an earlier termination date. A Customer who makes a request for nontermination of service under this section must sign an installment agreement providing for payment of the delinquent service and timely payments of subsequent monthly billings. Failure to comply with the terms of the installment agreement or to make timely payments of subsequent bills may result in termination of service pursuant to Sections 02.07.01 - 02.08.06.

_____ 01.03.07 COMPLAINTS The Company shall make a prompt and suitable investigation of complaints made either in person, in writing, or by telephone and will advise the complainant of the results thereof.

_____ UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.01 Page 9 _____ 01.04.01 EXECUTION OF SERVICE

CONTRACT A service contract exists between the Company and parties who properly execute an application for service or service contract; or accept or use gas service supplied by the Company under the conditions set forth in Section 01.02.18 or under other conditions that would give rise to an obligation to pay for such service regardless of whether an express agreement, written or oral, exists between the Company and any such party.

_____ 01.04.02 SUPPLYING OF SERVICE Utility service is supplied only under and pursuant to these Regulations, any modifications or additions thereto lawfully made, and such applicable rate schedules as may from time to time be lawfully fixed, and pursuant to other tariffs then in effect; at such points of delivery as are adjacent to facilities of the Company that are adequate and suitable as to capacity and character for the service desired; and to installations in conformance with applicable city, federal, state, or town codes. If a Customer wishes to change the point of delivery and/or capacity of the service or require another service the Customer shall bear the cost for any necessary change in accordance with the appropriate rate schedule, and pay any fees necessary for this action. Service will not be supplied to any premises if, at the time of application for service, the Applicant is indebted to the Company for service previously supplied at the same or another address until payment has been made or an acceptable payment agreement has been initiated for such indebtedness. Service will not be supplied for failure to pay the unpaid bill of UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts cont. Section 01.04.02 Page 10 another Customer at the same address if such person still resides at the premises to be served or if the Applicant received a beneficial use of the utility service provided the previous Customer.

_____ 01.04.03 CONTINUITY OF SERVICE The Company will use reasonable diligence to supply steady and continuous service but does not guarantee the service against irregularities or interruptions. Under certain circumstances it may be necessary to curtail Customers of any class. The procedure for such curtailments is

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17608

located in Sections 01.08.01 - 01.08.06. The Company may interrupt service during periods of supply or capacity curtailment; when necessary to repair, change, or relocate the Company's distribution systems; without incurring any liability; and for such periods as may be reasonably necessary to make such repairs or changes.

01.04.04 CUSTOMER'S RESPONSIBILITIES
 The Customer assumes all responsibility on the Customer's side of the point of delivery for the service supplied or taken. In no event shall the Company be liable to the Customer or to any other person or entity for damages, or other loss, whether caused by negligence of the Company or otherwise, caused by interruption of service in cases where such interruptions of service were not intended, and the Customer shall release and hold the Company harmless with respect to same. Right-of-Way - The Customer shall make or procure conveyance to the Company of perpetual right-of-way: satisfactory to the Company, across the property owned or controlled by the Customer, UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts cont. Section 01.04.04 Page 11 for the Company's lines or extensions thereof, or other equipment necessary or incidental to the supplying of service to the Customer, and without reimbursement to the Customer from the Company. Access to the Premises - The Customer shall maintain the premises in such a manner that the Company's agents: shall be able to verify the valid Service Address of the premises from the street; and shall have safe and unobstructed access to all portions thereof, at all reasonable hours, for the purpose(s) of - maintaining, removing, or replacing the Company's property; - reading meters; and - all other purposes incident to the supplying of service to the Customer. Location of Service Connections - The Customer's service connections are to be located at a point readily accessible to the Company's service facilities. The service connection point is to be determined by the Company, and such point may be relocated if deemed necessary by the Company. 01.04.05

REMETERING AND RESALE OF SERVICE Service is supplied directly to the Customer through the Company's own meter. Utility service shall not be metered for resale, or otherwise resold by a Customer, for a price higher than the price charged to the Customer by the Company. The Company may, after notice and opportunity for hearing, discontinue supplying of utility service to a Customer to prevent a violation of this provision.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts cont. Section 01.04.06 Page 12 01.04.06 SERVICE TO ADJACENT PREMISES No Customer may extend or connect the Customer's installation to utility lines across or under a public street, alley, right-of-way space, or other private space, including property lines, in order to obtain service for adjacent property through one meter, even though such adjacent property is owned, controlled, or occupied by the Customer. The Company may terminate service to a Customer after notice and opportunity for hearing until any violation of this subsection is discontinued. However A Customer who owns adjacent properties which are developed and operated as a unified apartment, office, commercial, or industrial project, may extend or connect the installation to lines across or under the property lines of said adjacent properties in order to service said properties through one meter, for as long as the above stated condition continues.

01.04.07 COMPANY'S RIGHT TO CANCEL SERVICE CONTRACT Exercise of or failure to exercise any one or more of the following remedies does not affect the Company's right to resort thereafter to any one or more of such remedies for the same or any future default or breach of the service contract by the Customer: Remedies: terminate service as provided for in Sections 02.07.01 - 02.08.06 of these Regulations; cancel service contract(s); and resort to any other legal remedy.

 services rendered under any law or legal doctrine available in this state.

CTX2 b UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Appeals and Hearings
 Section 01.05.01 Page 14

01.05.01 APPEALS Customers
 objecting to the actions, policies, or decisions of the Company with regard to utility service
 may informally appeal to the Company in person; or by telephone to attempt a resolution
 administratively. When an informal appeal is made, a document shall be prepared by the
 Company representative to indicate: the reason for the informal appeal; the persons present
 during the meeting; and the decision of the Company representative. If the problem is not
 resolved by an informal appeal, the Customer shall be given written notice of his/her right to
 a formal appeal hearing pursuant to this subsection of these Regulations. Such notice shall
 indicate: the steps the Customer must take to initiate the appeal, including providing the
 name of the officer and the address to which the appeal shall be made; whether failure to
 initiate the appeal within three (3) days of the date of the notice may result in termination
 of service to the account in question; and the procedure for obtaining a copy of the rules
 for the formal hearing. A request for a formal appeal hearing before the designated Hearing
 Officer will not be granted when the Customer's only complaint regards the: determination of
 reasonableness or the denial of a deferred payment agreement under Sections 02.05.01 -
 02.05.05 of these Regulations; Customer's financial inability to pay for services rendered
 and there is no dispute as to the accuracy of the billing or the Customer's liability; or the
 UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Appeals and Hearings cont.
 Section 01.05.01 Page 15 design and fairness of the rate schedule.

01.05.02 HEARINGS The
 time, date and place of a formal appeal hearing shall be provided to the Customer requesting a
 formal hearing. The hearing shall be held not more than five (5) business days from the date
 of the Customer's request. The Customer may appear in person or be represented by counsel or
 both, and shall be afforded the opportunity to confront and question adverse witnesses at the
 hearing. The formal legal rules of evidence shall not apply. The formal appeal hearing shall
 be before a Hearing Officer: appointed by the Company Vice-President - Central Texas for the
 purpose of hearing such appeals, not under the supervision of the Commercial Office Manager;
 and not a participant in the previous decision now under review. The Hearing Officer shall
 be the sole judge of the evidence and credibility of witnesses and the facts as well as the
 applicability of the rules and regulations of the Company; and render his/her final decision
 in writing to all parties concerned at the close of the hearing or within five (5) business
 days of its conclusion.

01.05.03 RESULTS OF HEARINGS In the event the decision reached at a formal appeals hearing is
 against the Customer, the Hearings Officer shall UTILITY SERVICE REGULATIONS GENERAL RULES
 PART 01.00.00 Appeals and Hearings cont. Section 01.05.03 Page
 16 instruct the Company and Customer what action, if any, must be taken by the Customer to
 maintain utility service; and set a reasonable period of time in which the Customer must take
 such action. In the event that payment of a bill is involved, the Customer shall be allowed
 three (3) business days to pay such amount. In the event the decision reached at a formal
 appeal hearing is in favor of the Customer, in whole or part, the Hearings Officer shall

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

instruct the Company and Customer what corrective action shall be taken and the Company shall take action within a reasonable time, which time may be set by the Hearing Officer; and instruct the Customer to pay or make acceptable arrangements for payment of any amount of disputed billing found to be accurate, within three (3) business days or by the due date of the billing whichever is later.

01.05.04 CONTINUITY OF SERVICE DURING APPEAL During the pendency of the formal appeal, the Customer's utility service shall be continued if not terminated prior to a valid formal appeal. In the event utility service was terminated prior to a valid formal appeal hearing utility service will be re-initiated upon payment of the initiation fee and payment of an amount consistent with that Customer's previous year's usage for the same billing period, or an amount consistent with usage of similar residential units in the same area, if the Customer has no previous service history. If applicable, correction of any condition which caused service to be terminated must be corrected prior to re-initiation of service. the initiation fee will not be charged if the Hearing Officer's decision is in favor of the Customer in whole or part.

 Page 17 01.05.05 FAILURE
 OF COMPANY TO COMPLY The failure of the Company to comply with any time provision contained herein shall in no way result in the Company's waiving its right to see termination of service for the reasons specified in these Regulations.

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.01
 Page 18 01.06.01 EXTENSION
 OF FACILITIES The Company shall install the necessary facilities to provide service beyond existing distribution lines. Expenditures for such extensions must be cost justified or a refundable cash advance will be required. Facilities of greater capacity than Applicant requires may be installed, however, cash advance will be based only on size and capacity of facilities needed by Applicant. Amount of cash advance may be reduced by an allowance for the number of existing Customers along the route of the extension. Such Customers must apply for service prior to installation of the facilities and have major gas burning appliances, water heater or furnace. Allowance per residential Customer is an amount equal to the cost of 100 feet of distribution main. Allowance per non-residential Customer is equal to anticipated first three years' gross margin. Company may elect to allow as approach main an amount equal to 15 feet of main for each potential residential Customer. Non-residential approach main allowance is based on residential equivalents of anticipated margin. Applicant and Company shall enter into a written agreement on the Company's standard form. All advances must be paid in cash prior to construction. Construction of facilities will commence as soon as practical after receipt of advance and prosecuted with reasonable diligence with allowance for delays caused by events or conditions beyond the Company's control.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Extension of Facilities cont. Section 01.06.01 Page 19 Right-of-way for Company facilities on Applicant's property shall be furnished by the Applicant in the Company's name, on Company's forms at no cost to the Company. If, on the first anniversary of the extension agreement, the extension of facilities has not been installed through no fault of the Company, the agreement will be terminated and the advance refunded. A review of the number of Customers served from the extension will be made on or about the second through fifth in-service anniversaries and a refund equal to the allowance specified in the contract will be made for each additional Customer that came on service since the previous review. No refund shall be given which shall cause the total refunds to be greater than the total advance. No interest shall be paid on any advance. At the end of five years any remaining amount of the advance shall be retained

by the Company as a contribution in aid of construction. Any refund of advance which is returned undelivered and remain unclaimed in the Company's possession after six months following expiration of the five year period of the agreement shall be retained as a contribution in aid of construction.

REGULATIONS GENERAL RULES PART 01.00.00 Customer Owned Systems Section
 01.07.01 Page 20

01.07.01 CUSTOMER OWNED SYSTEMS Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. Company shall provide service through a master meter into the piping systems of others to be distributed to more than one Consumer, except when the gas is resold to those Consumers.

REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section 01.08.01
 Page 21

CURTAILMENTS When the capacity of the Company's system or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with these regulations.

01.08.02 PRIORITY All Customers served by the Company shall be classified into one of the following priority groups.

A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation. B. Gas sold for agricultural purposes. C. This category consists of the following: 1. gas sold to small commercial and small industrial Customers using 200 MCF or less on an average day; 2. gas sold to industrial Customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production; 3. gas sold to commercial or industrial Customers used to provide water heating, heating and cooling for human comfort in the plant or office areas;

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments cont. Section 01.08.02 Page 22

4. gas sold for use in power generating plants for start up, safety and flame stabilization. D. Gas sold to commercial Customers using more than 200 MCF, but less than 1,500 MCF on an average day. E. Gas sold to small industrial Customers using more than 200 MCF and less than 3,000 MCF on an average day, provided such user has no economically feasible alternate fuel. F. This category consists of the following: 1. gas sold to industrial Customers for feedstock use where the gas volume is more than 200 MCF and less than 3,000 MCF on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such Customer must prorate its demand for gas and must maximize its use of all other sources of gas; 2. small public utility electric generating systems which use less than 3,000 MCF on an average day. G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve Customers whose usage falls within the descriptions above and small commercial and industrial Customers using 20,000 KWH or less on an average day. H. This category consists of the following: 1. gas sold for use by commercial Customers in excess of 1,500 MCF on an average day; 2. small industrial Customers not qualifying under any of the above. I. All gas sold for use in existing power generating plants for the generation of electricity not included in any of the above.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17608

01.08.02 Page 23 J. This category consists of the following: 1. gas sold to large users of gas, in excess of 3,000 MCF on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics. 2. gas sold for feedstock as defined above, in excess of 3,000 MCF on an average day. K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 MCF on an average day and any other use which does not qualify under a preceding priority.

01.08.03 METHOD OF CURTAILMENT Curtailment shall be ordered ratably insofar as feasible within each priority group served by the same system; provided, however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities A and B. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

01.08.04 CLASS AND GROUP CURTAILMENT No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service.

UTILITY SERVICE
 REGULATIONS GENERAL RULES PART 01.00.00 Curtailments cont. Section 01.08.05
 Page 24

01.08.05 NOTIFICATION AND PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, of the extent and amount of the curtailment required from him or her. If, after notification, any Customer (other than a Customer in Priority A) fails to curtail during the required period, or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priorities A and B is threatened.

01.08.06 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

01.08.07 JURISDICTION OVER CURTAILMENT POLICY Jurisdiction over the curtailment policy set forth in Sections 01.08.01 - 01.08.07 lies with the Railroad Commission of Texas. The Company may change its curtailment policy from time to time if approved or ordered by the Railroad Commission of Texas. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Equal Payment Plan Section

01.09.01 Page 25
 01.09.01 PAYMENT PLAN Residential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner: The Plan year shall be 12 months ending each year with the Customer's July bill. The Plan monthly payment shall be determined as follows: - For Customers electing to commence with the August bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's plan year. - for Customers electing to commence in September or later, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year until the next following July bill. Succeeding years shall be computed on an annual basis as in subparagraph (1) below. The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon the most recently available prior 12-month period at the same service location; or, if there is not at least 12 months prior

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

service at the same service location, then the charges shall be based upon consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known changes. The Company reserves the right to adjust the remaining monthly Plan payments of any Customer at any time for changes in conditions or rates. The Company shall advise each Customer in the Plan of the monthly Plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that

UTILITY SERVICE REGULATIONS GENERAL
 RULES PART 01.00.00 Equal Payment Plan contd. Section 01.09.01 Page
 26 billing month and the amount of any debit or credit balance before the payment of that month's Plan payment. The Customer shall continue to pay the monthly Plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly Plan payment. The July gas bill for each Customer in the Plan shall be handled as follows: - any amount due the Company up to the monthly Plan payment shall be paid in full by the due date shown on the bill. - if the balance due the Company exceeds the monthly Plan payment, a payment equal to that amount will be paid and the excess shall be utilized in computing the next Plan year's monthly Plan payment. Interest will not be charged to the Customer on accrued debit balances or paid by the Company on accrued credit balances. Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the Plan. Any Customer's participation in the Plan may be discontinued by the Company if the monthly Plan payment has not been paid on or before the due date of the next monthly Plan payment. If any Customer in the Plan shall cease to participate in the Plan for any reason, then the Company may refuse that Customer's reentry in the Plan until the following August.

reading is required. Initiation Fee - charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when a meter is set or the Applicant's appliances are lighted. Payment of the above fees is due with the first bill for service. Sections 04.01.01 and 04.01.02 of these Regulations contain the current schedule of fees and cash deposits. Only U.S. currency, personal checks, money orders or cashier checks are accepted as payment for cash amounts due for fees, deposits, or charges incurred by utility Customers or Applicants.

02.01.06 NONRESIDENTIAL SERVICE Applicants for nonresidential service must provide the Company with all information necessary to estimate the cost of two (2) regular billing months of service at the service address where they wish to initiate service. The Company's estimate shall be used to calculate the necessary credit security required for service initiation; and may be required to obtain and produce valid verifiable proof of their right to contract for the entity requesting the service.

REGULATIONS INITIATION, CONTINUATION AND	PART	02.00.00	TERMINATION OF SERVICE	
Section 02.02.01 Refusal of Service	Page		29	
			02.02.01	SUFFICIENT

02.02.01 GROUND The Company may decline to initiate service to any Applicant for any of the following reasons: if the Applicant is not in compliance with the state, federal or municipal regulations governing the service applied for; if the Applicant's installation or equipment is known to be hazardous or of such character that satisfactory service cannot be given; if the Applicant responsible for payment of utility services as set forth in Section 01.04.08 is indebted to the Company for utility service, provided, however, that in the event the indebtedness of Applicant is the subject matter of a pending formal appeal hearing, the Applicant shall be served, if in compliance with the remainder of this section; if the Applicant does not comply with the application for service requirements or the credit security requirements set by the Company for the service requested; if the Applicant or the building or structure to be served does not comply with the City's Electric Code, Plumbing Code, Energy Conservation Code, Building Code, Mechanical Code, or Fire Code; if the Applicant or the building or structure to be served is not in compliance with any city regulation or state or federal statute which provides for refusal or termination of service as a penalty; or if the building structure to be served is not connected to the Company's distribution facilities.

02.02.02 RIGHT OF APPEAL In the event the Company shall refuse service to an Applicant under the provisions of these regulations the Company must inform the Applicant of the basis for its refusal; and that the Applicant may appeal such decision pursuant to Sections 01.05.01 - 01.05.05 of these Regulations.

SERVICE REGULATIONS INITIATION, CONTINUATION AND	PART	02.00.00	TERMINATION OF
SERVICE Section 02.03.01 Credit Security	Page		30
			02.03.01

02.03.01 AUTHORITY In exchange for assuming the risks involved in providing utility service on credit, the Company may require Customers to give, maintain, and/or re-establish credit security for any utility service address; and establish utility Customer payment standards.

02.03.02 FORMS OF CREDIT SECURITY FOR RESIDENTIAL SERVICE The following forms of credit security may be accepted from residential Customers and Applicants for service: a record of satisfactory compliance with Customer payment standards for service at a comparable residential service address served by the Company for at least one year; a refundable cash deposit of as much as one-sixth (1/6) the estimated annual billings for services requested; but no less than the minimum deposit set forth in Section 04.01.02; a nontransferable, irrevocable letter of

REGULATIONS INITIATION, CONTINUATION AND	PART	02.00.00	TERMINATION OF SERVICE
Section 02.03.03 Credit Security cont.	Page		31
		02.03.03	FORMS OF

CREDIT SECURITY FOR NONRESIDENTIAL SERVICE Any one of the following forms of credit security may be accepted from nonresidential Customers and Applicants for service: a record of satisfactory compliance with Customer payment standards for service at a comparable nonresidential service address served by the Company for at least one year; a refundable cash deposit of as much as one-sixth (1/6) the estimated annual billings for service requested; but no less than the minimum deposit set forth in Section 04.01.02; a nontransferable, irrevocable letter of credit from an established financial institution, payable for as much as one-sixth (1/6) the estimated annual billings for services requested and, which can be drawn on for a minimum of two (2) years; but no less than the minimum deposit set forth in Section 04.01.02; or a surety bond issued by a reputable insurance company which can be drawn on for a minimum of two years.

02.03.04 CUSTOMER PAYMENT STANDARDS In order to have a record of satisfactory compliance with Customer payment standards, the Customer must have: had at least twelve (12) consecutive billing cycles of residential service, or twenty-four (24) consecutive billing cycles of nonresidential service; had no disconnection or collection effort for nonpayment during the last twelve (12) consecutive billing cycles of residential service or twenty-four (24) consecutive billing cycles of nonresidential service; and no utility bills past due.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND	PART	02.00.00	TERMINATION
OF SERVICE Section 02.03.05 Credit Security cont.	Page		32
		02.03.05	DISPOSITION

OF MATERIAL FORMS OF CREDIT SECURITY When a Customer establishes a record of satisfactory compliance with the Customer payment standards for the account in question as specified in Section 02.03.04; and has paid the total amount due before the due date for (12) residential billing cycles or twenty-four (24) nonresidential billing cycles; or discontinues service and pays all utility bills; then material forms of credit security, with interest if required by law, shall be: - returned to the Customer; - voided; or - if in the form of cash, credited to the Customer's account, or refunded in full.

		02.03.06	DISPOSITION
OF UNCLAIMED CASH DEPOSITS	A record of each unclaimed deposit will be maintained for a period of seven (7) years, during which time the Company shall make a reasonable effort to return the deposit. After seven (7) years the deposit will become the property of the State of Texas.		
		02.03.07	FAILURE TO

COMPLY Failure to comply with credit security requirements makes an active account subject to termination of service pursuant to Section 02.09.00 of these Regulations.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17608

02.04.02 INFORMATION

REQUIRED ON THE BILL The Customer's bill shall show all of the following information: the date and meter reading at the beginning and at the end of the period for which the bill is rendered; the number and kind of units metered; the applicable rate classification; separate charges for cost of service and cost of gas, if treated separately in the rate ordinance; the total amount due for utility service and tax; the date the bill is due and by which the Customer must pay the bill; a distinct marking to identify an estimated bill; any conversions from meter reading units to billing units, or any other calculations to determine billing units from recording to other devices, or any other factors used in determining the bill; the explanation of charges shall be in English and Spanish. The information required by this subsection shall be arranged to permit the Customer to compute his bill by using the applicable rate schedule which shall be supplied when requested by the Customer.

UTILITY SERVICE

REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE
 Section 02.04.03 Billing and Payment cont. Page 34

02.04.03 PAYMENT

All bills for service are due by the date printed on the bill. If the payment in full is not received in the Company's office by the date printed on the bill, the bill shall be considered delinquent. If a Customer does not receive his or her bill(s), the obligation to make payment for service rendered is not released or diminished.

02.04.04 BILLING

ADJUSTMENTS If any meter is found to be outside the accuracy standards established by these Regulations, proper correction shall be made of previous readings for the period of six (6) months immediately preceding the removal of such meter from service for the test, or from the time the meter was in service since last tested, but not exceeding six (6) months, as the meter shall have been shown to be in error by such test, and adjusted bills shall be rendered.

No refund is required from the Company except to the Customer last served by the meter prior to the test. If a meter is found not to register for any period unless bypassed or tampered with, the Company shall make a charge for units used, but not metered, for a period not to exceed three (3) months, based on amounts used under similar conditions during the period preceding or subsequent thereto, or during corresponding periods in previous years. If a meter, though otherwise meeting the accuracy standards established by these Regulations, does not register proper consumption (because of improper installation or for any other reason) the total amount overbilled or underbilled to the Customer shall be adjusted. The total amount overbilled or underbilled shall be adjusted when the overbilling or underbilling results from causes not mentioned above. Overbillings or underbillings in this category would include, but shall not be limited to, those caused by: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.04 Billing and Payment cont. Page 35 - the failure to read a meter; - the misreading of a meter; - the application of an improper rate schedule; or - typographical or computational errors. In any case of underbilling, the Company may offer to such Customer a deferred payment plan option for the same length of time as that of the underbilling. Reimbursement or collection shall be made at the rates in effect at the time of each overbilling or underbilling.

02.04.05 CUSTOMER'S RIGHT TO DISPUTE BILLS Customers have the right to dispute any portion of their utility bill. The Appeals and Hearings Section of these Regulations (Sections 01.05.01 - 01.05.05) covers bill disputes.

02.04.06 DELINQUENCY

An active account becomes delinquent when full payment is not received; in the Company's Commercial Office, by the due date printed on the bill. Delinquent accounts are subject to

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 17608

termination of service, pursuant to Sections 02.07.01 - 02.08.06 of these Regulations.

02.04.07 UNLAWFUL USE OF SERVICE Where a condition threatens the public health, safety or resources, in any case of tampering with a meter installation or interfering with the proper function thereof, or any other unlawful use or diversion of service by any person, or evidence of any such tampering, interfering, unlawful use or service diversion, by a Customer who could be reasonably expected to benefit from such action the Customer is subject to: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.07 Billing and Payment cont. Page 36 immediate termination of service; and prosecution under applicable laws. In any case of unlawful use of service the Company shall be entitled to collect from the Customer payment of the costs for all natural gas not recorded on the meter by reason of such tampering, interfering, unlawful use or service diversion, - the amount of which may be estimated by the Company from the best available data, and - billed at the proper rate schedule; and the unauthorized consumption fee plus all other expense incurred by the Company on account of such unauthorized act or acts, such amount based on an itemized statement from the Company.

02.04.08 RETURNED CHECKS Accounts for which payment is made using checks which are returned by a bank for any reason may be charged a returned check fee for each occurrence. The amount of the check will be charged back to the account. Repayment of the returned check shall be made in the form of cash, cashier's check, or money order. The Customer will be sent a written notice which will indicate that the Customer has seven (7) days in which to make full payment of the amount covered by the returned check, or service will be subject to termination. Utility service terminated for nonpayment of a returned check will not be re-initiated until the amount of the returned check and all applicable fees have been paid in full.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.01 Deferred Payment Agreements Page 37

02.05.01 ELIGIBILITY Any active Customer with a previous balance owed the Company for utility service may apply for a deferred payment agreement. The Company may enter into a deferred payment agreement with a Customer under circumstances the Company determines are reasonable.

02.05.02 DETERMINATION OF REASONABLENESS Factors used in determining reasonableness under these Regulations shall include but not be limited to: size of the previous balance owed the Company; customer's ability to pay; customer's payment history; reasons the debt has not been paid; time that the debt has been outstanding; and any additional factors considered relevant other than race, religion, gender, or national origin of Customer.

02.05.03 BASIC TERMS Every deferred payment agreement shall provide that the Company shall not terminate the Customer's service, if the Customer first pays an agreed upon reasonable amount of the outstanding previous balance; pays the current bills, including any applicable fees, when due; and pays the outstanding previous balance, by agreed upon dates, in reasonable installments until that previous balance is cleared.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.04 Deferred Payment Agreements cont. Page 38

02.05.04 DEFAULT If a Customer fails to meet the terms of a deferred payment agreement, the Company may terminate service pursuant to Sections 02.07.01 - 02.08.06, and under such circumstances, shall not be

required to offer subsequent negotiation of a deferred payment agreement prior to termination.
 _____ 02.05.05 APPEALS An
 appeal by a Customer of the determination of reasonableness as defined in Section 02.05.02
 above or the denial of a deferred payment agreement shall be conducted pursuant to Sections
 01.05.01-01.05.05 of these Regulations.

_____ UTILITY SERVICE REGULATIONS
 INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
 02.06.01 Transfer of Service Page 39

_____ 02.06.01 CUSTOMER
 MOVE WITHIN SERVICE AREA When a Customer vacates a Company service address, notice must be
 given to the Company prior to the date of change. A Customer is responsible for all service
 supplied to vacated premises until such notice is received and the Company has had reasonable
 time (no more than six (6) business days) to discontinue service. This section does not
 abolish or impair any right the Company may have to recover for services rendered pursuant to
 Section 01.04.08 of this Tariff.

_____ 02.06.02 TRANSER OF
 SERVICE Customers wishing to transfer service from one service address to another are
 subject to the requirements of Sections 02.01.00 through 02.03.00 for the type of service to
 be supplied at the new location.

_____ 02.06.03 CREDIT
 SECURITY TRANSFER If the credit security requirement at the new service address is higher
 than at the Customer's previous service address, an additional cash deposit or new credit
 security instrument may be required before service will be transferred. If the credit
 security requirement at the new service address is lower than at the Customer's previous
 service address, then the Company may, at its option, apply any cash deposit on hand to the
 balance due for the previous account and refund the difference, if any, to the Customer,
 requiring new credit security for the new account; or transfer the cash deposit to the new
 account, applying the difference to the new account or refunding it to the Customer.

_____ UTILITY SERVICE REGULATIONS
 INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
 02.07.01 Grounds for Termination of Service Page 40

_____ 02.07.01 SUFFICIENT
 GROUNDS The Company may terminate a Customer's utility service at the request of the
 Customer; for the Customer's failure; - to pay a delinquent account; - to comply with the
 terms of a deferred payment agreement; - to comply with credit security requirements; - to
 make payment for a bill initially paid by a check returned by a bank for any reason for the
 operation or installation of equipment which interferes with the service of others; upon
 discovery of the existence of - meter tampering or diversion of service; - a known dangerous
 condition; - any unlawful use of service; - the violation of any ordinance, statute or
 regulation regulating the submetering of utility service; or - the violation of any
 regulation which relates to utility service, or which provides for termination or refusal of
 service as a remedy.

_____ UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION
 OF SERVICE Section 02.07.02 Grounds for Termination of Service contd. Page
 41 _____ 02.07.02

INSUFFICIENT GROUNDS The Company may not terminate utility service for any of the following
 reasons in and by themselves: delinquency in payment for service by a previous Customer at
 the service address unless the present Customer is liable for such service under these
 Regulations or under the law of this State, failure to pay for merchandise or other charges
 for non-utility service owed to the Company; or failure to pay a bill disputed under the

INITIATION, CONTINUATION AND	PART	02.00.00	TERMINATION OF SERVICE	Section
02.08.01	Procedural Requirements for	Page	42	Collection and Termination
				02.08.01

APPLICABILITY Service subject to termination can be terminated as specified in all provisions of this Section except when service is to be terminated for the following reasons At the Request of the Customer - Service will be terminated within six (6) workings days of the request. No notice to Customer is required. Payment with a Check Returned by a Bank - Sections 02.04.08 and 02.08.02 through 02.08.04 of these Regulations apply to termination of service in these circumstances. Where a Known Dangerous Condition Exists or Where a Condition Threatens the Public Health, Safety, or Resources - Service can be terminated without prior notice and remain terminated as long as the condition exists.

02.08.02 NOTICE

When a Customer's account becomes subject to termination, written notice of the proposed termination shall be given by the Company. The notice shall: be sent by mail to the mailing address of the Customer, unless the service address is different, be printed in English and Spanish; state reasons for the proposed termination; state the Customer's right to a hearing before such termination occurs; and state that the Customer who so desires must request a hearing by contacting the Company at a stated telephone number or in person within and not later than - seven (7) days following the date of the mailed notice,

INITIATION, CONTINUATION AND	PART	02.00.00	TERMINATION OF SERVICE	Section
02.08.03	Procedural Requirements for	Page	43	Collection and Termination
cont.				02.08.03

FIELD COLLECTION - GENERAL CIRCUMSTANCES If the Customer does not take action by the date required by the termination notice, a representative of the Company shall be sent to the service address. The Company's representative will terminate service, and leave written notice of termination if - Customer is not on the premises, or - Customer refuses to pay at least the previous balance; or not terminate service if - Customer pays the previous balance due in full, - Customer shows receipt for payment of at least the previous balance due, or - Customer shows proof of compliance with a satisfactory deferred payment agreement which can be verified by the collector; or - Customer shows proof of a serious illness of someone residing at the residence pursuant to the terms of Section 01.03.06; - hazardous weather conditions exist (see Section 01.02.11).

02.08.04 FIELD COLLECTION - SPECIAL CIRCUMSTANCES Multi-Unit Structure Served By a Single Meter - When service is provided to a structure known to be divided into two or more separately occupied units and billed to a single Customer rather than the individual occupant, the Company representative sent to make collection at the service address will not terminate service on the first visit but will inform the Customer in person or in writing of the previous balance owed; UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART

the Customer's account. The notice shall indicate that the Customer has two (2) days from the date of the notice to pay the previous balance and avoid service termination; and give written notice to the occupants (by affixing a notice to each door or by hand delivering a notice to one occupant in each dwelling unit) that they may make arrangements with the Company to pay the Customer's bill before service is terminated or to re-initiate service after termination, if they so desire; however, such action - in no way releases the Customer of responsibility for the current balance due or future utility charges and fees; and - does not obligate the occupants to pay the Company for future utility charges and fees Hazardous Weather Conditions - When hazardous weather conditions exist, the Company Vice President-Central Texas, or his or her designee, may activate a moratorium on residential termination due to nonpayment.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.08.05 Procedural Requirements for Page 45 Collection and Termination cont.

02.08.05 RE-INITIATION OF SERVICE Terminated service will be re-initiated if the Customer pays the past due balance; and the Customer supplies or maintains residential or non-residential credit security on the account; or the Company accepts a deferred payment agreement for the amount due; and the Customer supplies or maintains residential or non-residential credit security on the account. Re-initiation of service will result in an active Customer's account being charged fees as indicated in Section 02.08.06.

02.08.06 FEES AND CHARGES The purpose of the fees and charges described here is to defray the costs relating to delinquent accounts. The amount of each fee is contained in Sections 04.01.01 - 04.01.02 of these Regulations. The fees and charges will be identified on a regular bill. Unauthorized Consumption Fee - Charged for the replacement of an illegally broken meter seal or locking device to the Customer who could be reasonably expected to benefit from gas service received through said meter. Initiation Fee - Charged to any Customer whose service is terminated and then re-initiated unless terminated in error by the Company. This fee is the same as the standard Initiation Fee charged for new service. Field Collection Fee - Charged to any Customer whose failure to respond to a termination notice necessitates the dispatch of a Company representative who collects payment from the Customer. UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.08.06 Procedural Requirements for Page 46 Collection and Termination cont. Meter Damage Charges - Any account terminated for meter tampering or for any unlawful use of service which causes damage to the meter installation shall be charged for the damage caused.

UTILITY SERVICE REGULATIONS TECHNICAL SPECIFICATIONS FOR SERVICE PART 03.00.00 Company's Installation and Metering Section 03.01.01 Page 47

03.01.01 PROTECTION BY CUSTOMER The Customer shall protect the Company's meters, lines appurtenances and apparatus on the Customer's premises; and shall allow only the Company's agents or persons authorized by law to inspect or handle same. In the event of any loss or damage to such property of the Company, caused by or arising out of negligence or misuse by a Customer or other person controlled by the Customer, the cost of making good such loss or repairing such damage shall be paid by the Customer.

03.01.02 METER INSTALLATION The Company shall furnish and install any necessary meter. The Customer shall provide and maintain a location - free of expense, and - satisfactory to the Company for installation, reading, and maintenance of its installation.

-----------------	----------------------

Commission of Texas on 4/21/92, the current Residential Customer Deposit is \$50.00.] ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-CTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY RATE SCHEDULE NO. 1 Central Texas Service Area COST OF GAS CLAUSE</p> <p>A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Central Texas Service Area.</p> <p>B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, and the revenue associated fees and taxes.</p> <p>2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio.</p> <p>3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility.</p> <p>4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.</p> <p>5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a</p>

DESCRIPTION

result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s).

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 9% per annum

**GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 17609

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 9% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

DESCRIPTION

6. An affidavit signed by an officer of the utility stating that neither TGS nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

I. QUARTERLY IMBALANCE REPORTS

The Company shall file a Quarterly Report with the Regulatory Authority that provides information concerning imbalances created by the Company's transportation customers. The report is due 45 days after the close of each calendar quarter and shall contain the following information:

1. Monthly imbalances by supplier and the system total,
2. Cumulative imbalance by supplier and the system total,
3. Amount of cash transactions between the Company and gas supplier for each month, and
4. Calculation of the monthly WACOG for the Company for the Company gas supplies, including volume and prices.

PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8
 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C
 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
 (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the

DESCRIPTION

Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge

to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RCR-ENV-CTX-OS-Reloc

TEXAS GAS SERVICE COMPANY Central Texas Service Area RATE SCHEDULE RCR-ENV RELOCATION COST RECOVERY A. APPLICABILITY This Relocation Cost Recovery (RCR) rate schedule shall apply to the following rate schedules for the unincorporated areas of the Central Texas Service Area: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. B. PURPOSE Section 104.112 of the Texas Utility Code, effective on September 1, 1999, allows recovery of the costs of relocating natural gas facilities to accommodate construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain that are not reimbursed by the entity requiring the relocation. This rate schedule establishes the cost recovery provisions consistent with Subchapter C, Chapter 104, Texas Utilities Code. RCR rates shall be established through applications filed with the regulatory authority (Section E) consistent with this rate schedule. C. COMPUTATION OF RCR RATE The RCR rate for a given recovery period will be calculated according to the following formula: RCR Rate = $\frac{CPRC}{NV}$ CPRC = Relocation costs for the current recovery

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RATE SCHEDULE

SCHEDULE ID DESCRIPTION

period. NV = Normalized volumes (in Ccf) for the recovery period (for the applicable rate schedules). Recovery Period = No less than one year or more than three years. All applicable fees and taxes will be added to the RCR rates. D. BILLING The RCR rate, pursuant to Rate Schedule RCR-ENV-RIDER, shall be included as a separate adjustment (per Ccf rate) to the base bill for rate schedules: 1D, 1E, 1Z, 2A, 2B, 2C, 2D, 2E, 2Z, 3A, 3B, 3C, 3Z, 4A, 4B, 4C, 4D, 4H, 4Z, CNG-1, C-1, T02A, T02B, T02C, T02Z, T03A, T03B, T03C, T03Z, T04A, T04B, T04C, T04H, T04Z, T0C-1, CNGT. E. FILING WITH THE REGULATORY AUTHORITY No less than thirty-five days before implementation of a RCR rate, the Company shall file an application with the appropriate regulatory authority that shall include the following: 1. Documentation demonstrating the requirement of each relocation. 2. Documentation demonstrating the entity requesting each relocation. 3. Schedules showing the costs incurred for each project, considering the costs of comparable facilities. 4. The RCR rate to be implemented with supporting calculations. 5. Documentation demonstrating that reasonable efforts were made to receive reimbursement from the entity requiring each relocation, if applicable. 6. A schedule showing RCR collections. Supersedes Same Rate Sheet Dated Meters Read On and After January 25, 2001 June 23, 2004

CURTAILMENT PLAN

<u>PLAN ID</u>	<u>DESCRIPTION</u>
3008	Attachment A (of Docket No. 3008 issued June 22, 1981)
	Texas Gas Service Company Central Texas District
	CURTAILMENTS
	14.1 CURTAILMENTS
	Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.
	14.2 PRIORITY CLASSES
	All customers served by the Company shall be classified into one of the following priority groups:
	A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation.
	B. Gas sold for agricultural purposes.
	C. This category consists of the following:
	(1) Gas sold to small commercial and small industrial customers using 200 Mcf or less on an average day.
	(2) Gas sold to industrial customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production.
	(3) Gas sold to commercial or industrial customers used to provide water heating, heating and cooling for human comfort in the plant or office areas.
	(4) Gas sold for use in power generating plants for start up, safety and flame stabilization.
	D. Gas sold to commercial customers using more than 200 Mcf, but less than 1,500 Mcf on an average day.
	E. Gas sold to small industrial customers using more than 200 Mcf and less than 3,000 Mcf on an average day, provided such user has no economically feasible alternate fuel.
	F. This Category consists of the following:

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17609

(1) Gas sold to industrial customers for feedstock use where the gas volume is more than 200 Mcf and less than 3,000 Mcf on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such customer must prorate its demand for gas and must maximize its use of all other sources of as

(2) Small public utility electric generating systems which use less than 3,000 Mcf on an average day.

G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve customers whose usage falls within the descriptions of A above and small commercial and industrial customers using 20,000 Kwh or less on an average day.

H. This category consists of the following:

(1) Gas sold for use by commercial customers in excess of 1,500 Mcf on an average day.

(2) Small industrial customers not qualifying under C, D, E, or F above.

I. All gas sold for use in existing power generating plants for the generation of electricity not included in G and C(4) above.

J. This category consists of the following:

(1) Gas sold to large users of gas, in excess of 3,000 Mcf on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics.

(2) Gas sold for feedstock as defined in F above, in excess of 3,000 Mcf on an average day.

K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 Mcf on an average day and any other use which does not qualify under a preceding priority.

14.3 METHOD OF CURTAILMENT

Curtailement shall be ordered ratably insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities 1 and 2. Total curtailement during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

14.4 CLASS AND GROUP CURTAILMENTS

No curtailement shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailement of service.

14.5 NOTIFICATION AND PENALTIES

The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any customer (other than a customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened.

14.6 SUSPENSION OF THIS SECTION

This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

LINE EXTENSION POLICY

<u>POLICY ID</u>	<u>DESCRIPTION</u>
1115	<p>TEXAS GAS SERVICE COMPANY Texas Tariff - Central Texas Service Area ENVIRONS OF THE CENTRAL TEXAS SERVICE AREA (From Quality of Service Rules effective 06/06/06) 01.06.01</p> <p>EXTENSION OF FACILITIES The Company shall install the necessary facilities to provide service beyond existing distribution lines. Expenditures for such extensions must be cost justified or a refundable cash advance will be required. Facilities of greater capacity than Applicant requires may be installed, however, cash advance will be based only on size and capacity of facilities needed by Applicant. Amount of cash advance may be reduced by an allowance for the number of existing Customers along the route of the extension. Such Customers must apply for service prior to installation of the facilities and have major gas burning appliances, water heater or furnace. Allowance per residential Customer is an amount equal to the cost of 100 feet of distribution main. Allowance per non-residential Customer is equal to anticipated first three years' gross margin. Company may elect to allow as approach main an amount equal to 15 feet of main for each potential residential Customer. Non-residential approach main allowance is based on residential equivalents of anticipated margin. Applicant and Company shall enter into a written agreement on the Company's standard form. All advances must be paid in cash prior to construction. Construction of facilities will commence as soon as practical after receipt of advance and prosecuted with reasonable diligence with allowance for delays caused by events or conditions beyond the Company's control. Right-of-way for Company facilities on Applicant's property shall be furnished by the Applicant in the Company's name, on Company's forms at no cost to the Company. If, on the first anniversary of the extension agreement, the extension of facilities has not been installed through no fault of the Company, the agreement will be terminated and the advance refunded. A review of the number of Customers served from the extension will be made on or about the second through fifth in-service anniversaries and a refund equal to the allowance specified in the contract will be made for each additional Customer that came on service since the previous review. No refund shall be given which shall cause the total refunds to be greater than the total advance. No interest shall be paid on any advance. At the end of five years any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction. Any refund of advance which is returned undelivered and remain unclaimed in the Company's possession after six months following expiration of the five year period of the agreement shall be retained as a contribution in aid of construction.</p>

 GENERAL RULES PART 01.00.00 Introduction Section 01.01.00 Page
 1 01.01.01 GENERAL STATEMENT OF
 PURPOSE These Service Regulations Provide specific rules to be followed by the Company in
 supplying natural gas utility service and by the Customer in using such service. Are
 designed to provide good service, fair treatment, and maximum safety to the natural gas
 utility Customers and to the Company. Are officially on file in the Railroad Commission of
 Texas Gas Utilities Division. Copies are available to natural gas utility Customers at the
 Company's Austin offices. Supersede and annul all previous service regulations pertaining to
 the supplying and taking of the Company's natural gas service. Subsequent revisions to these
 policies and procedures may be made with the approval of the appropriate regulatory authority.
 01.01.02 GENERAL OPERATING
 POLICIES Service under this Tariff is subject to the original jurisdiction of the Railroad
 Commission of Texas. It is the policy of the Company to cooperate with charitable and
 welfare organizations assisting Customers in paying and planning for payment of their bills.
 Free service shall not be rendered by the Company to any Customer. All Customers within the
 Company's service area shall be served in accordance with the prices, terms and conditions
 provided for in applicable Tariffs and regulations. It is the on-going policy of the Company
 to provide utility services in a fair, equitable, and courteous manner to all Customers.
 UTILITY SERVICE
 REGULATIONS GENERAL RULES PART 01.00.00 Definitions Section 01.02.01
 Page 2 01.02.01 ACCOUNT
 An account is the record of consumption, charges and payments for services rendered to a
 Customer at a specific service address. Active Account - An account is active when any
 service is available to the Customer at the service address specified for that account.
 Inactive Account - An account is inactive when all service is terminated for the Customer at
 the service address specified for that account.
 01.02.02 APPLICANT Any person,
 organization or group of persons or organizations making a formal request either orally or in
 writing for gas service from the Company.
 01.02.03 BILLING MONTH An interval
 of approximately thirty (30) days between successive meter reading dates.
 01.02.04 COMMERCIAL OFFICE A
 department of the Company's local operations responsible for Initiation and termination of
 service. Regular readings of meters. Regular billing for service (including resolving
 related billing problems and inquiries). Collection of and accounting for accounts
 receivable. 01.02.05 COMMERCIAL

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17609

01.02.06 CONSUMER Any person or organization receiving and using gas from the Company for his or her own needs whether or not the gas is billed directly to him or her, or to a second party. (For example, in the case of rental unit where the utilities are part of the rent, the landlord is a Customer and the tenant is a Consumer).

01.02.07 CREDIT SECURITY That which is required by the Company to cover risk of nonpayment by Customer for utility services rendered.

01.02.08 CUSTOMER Any individual, partnership, association, firm, public or private corporation, governmental authority, or other legal entity being billed for gas utility service by the Company at any specified service address.

01.02.09 CUSTOMER'S PIPING All piping and equipment installations on the Customer's side of the meter must be in conformance with applicable City codes. Customer piping must pass applicable pressure testing before initiation of natural gas service.

01.02.10 CUSTOMER PAYMENT STANDARDS The minimum payment practices a natural gas utility Customer must meet in lieu of providing other forms of credit security.

01.02.11 HAZARDOUS WEATHER CONDITIONS The average daily temperature is freezing or below; or the average daily temperatures are predicted to be freezing or below over a 24-hour period.

		UTILITY SERVICE REGULATIONS GENERAL	
RULES	PART	01.00.00 Definitions cont.	Section 01.02.12 Page
4			01.02.12 METER The meter or

meters, together with auxiliary devices, if any, constituting the complete installation needed to measure the natural gas supplied to any individual Customer at a single point of delivery.

01.02.13 NOTICE Unless otherwise specified, a written notification delivered personally or mailed by one party to the other at such other party's last known address, the period of notice as required by any applicable section of these Regulations being computed from the date of such personal delivery or mailing.

01.02.14 POINT OF DELIVERY The outlet of the Company's meter where it connects to Customer's piping.

01.02.15 REGULATORY AUTHORITY The City has original jurisdiction over the Company's rates and service regulations within the municipal boundaries of the City according to state law. Appellate jurisdiction rests with the Railroad Commission of Texas. Outside the municipal boundaries, the Railroad Commission of Texas has original jurisdiction over the Company's rates and service regulations.

01.02.16 SERIOUS ILLNESS Any illness wherein termination of natural gas service would be especially dangerous to that person's health as certified by a licensed physician.

01.02.17 SERVICE ADDRESS Specified address of a location which can receive natural gas utility service provided by the Company. A valid Service Address shall contain the street name and house number and, when applicable, the building, unit and/or suite number. The Service Address must be visible from the street which serves that structure.

		UTILITY SERVICE REGULATIONS GENERAL RULES	
01.00.00 Definitions cont.	Section	01.02.18	Page 5

01.02.18 SERVICE CONTRACT A service contract, whether or not in writing, exists between a Customer and the Company when the Company supplies service and the Customer accepts it. A Customer accepts natural gas service: when the Customer or Customer's agent requests utility service and the Company provides it, or when the Customer, though not requesting service, knowingly receives service for more than seventy-two (72) hours, benefits from the service, and does not request discontinuance in

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17609

writing prior to the expiration of the seventy-two (72) hour period. All rights and obligations under this contract are governed by state and federal law, applicable rate ordinances and by these regulations, including any amendments to the foregoing, in effect at the time when service is rendered. Subject to the foregoing, every service contract shall obligate the Customer to pay for service rendered, and shall obligate the Company to continue providing service for so long as the Customer pays for such service on a timely basis by paying for service rendered by the due date printed on the bill.

01.02.19 SERVICE PIPE The Company owned piping, connecting Company's distribution facilities to the yardline at the property line.

01.02.20 YARDLINE The piping carrying natural gas on the Customer's property between the property line and meter.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section 01.03.01 Public Information Page 6

01.03.01 FACILITIES Upon request, the Company will provide information regarding the physical locations, size, capacity and other pertinent data regarding its facilities based on information available to it for any valid purpose relating to the provision of gas service.

01.03.02 AVAILABILITY AND DISTRIBUTION OF RATE SCHEDULES AND UTILITY SERVICE REGULATIONS All Customers living within the City shall be served under rate schedules filed with the City and Railroad Commission of Texas. All Customers living outside of the city shall be served under rate schedules on file with the Railroad Commission of Texas. Customers shall be assigned to rate schedules in accordance with the class of the particular Customer, the usage which will be made of the gas and that Customer's volume requirements. The Company shall advise the Applicant or Customer how to secure the most advantageous rate schedule available for his usage. A Customer assigned to a rate schedule shall remain on that schedule for a minimum of one year except that an assignment made in error shall be corrected immediately. Questions regarding a nonresidential Customer's classification shall be determined by the location of the Customer's primary business in the latest edition of the Standard Industrial Classification Manual of the United States Government's Office of Management and Budget. The Company shall post a notice in a conspicuous place in its Commercial Offices informing the public that copies of the following are available for inspection: - rate schedules, - utility fees and deposit schedules; and - utility service regulations.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section 01.03.03 Public Information cont. Page 7

01.03.03 CHANGE IN RATE SCHEDULES AND CLASSIFICATIONS The Company shall provide public notice of any proposal for a change in rates or service classification, that has been made by the Company, prior to its adoption. Such notice shall be made by newspaper publication and shall include information on the proposed changes, the impact of the changes on the Company's revenues, the class of Customers affected by the proposed changes and whether the proposed changes are major changes as defined in the Gas Utility Regulatory Act. The notice shall also inform the Customers that the proposed changes are on file at the City, the Railroad Commission of Texas Gas Utilities Division and at the Company's Commercial offices.

01.03.04 METER READING Upon request the Company shall inform its Customers how to read its meters.

01.03.05 CUSTOMER'S RIGHTS The Company shall annually provide each residential and small commercial Customer with a summary description of: Customer rights; and Company obligations under these rules. This information shall be provided in English and Spanish. New residential and small commercial

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

Customers shall be provided with the description no later than the date they receive their first bill. _____ 01.03.06 SERIOUS ILLNESS

The Company will use its best efforts to not discontinue service to a delinquent residential Customer who permanently resides in an individually metered dwelling unit if the Customer establishes that discontinuance of service will result in some person residing at the residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this Section must make a written request to the Company, supported by a written statement from a licensed physician. The request and physician's statement must be received by UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section 01.03.06 Public Information cont. Page 8 the Company no more than five working days after the date of delinquency of the bill. The Company shall not terminate service for twenty days after the request and physician's statement is received unless the Company and Customer agree to an earlier termination date. A Customer who makes a request for nontermination of service under this section must sign an installment agreement providing for payment of the delinquent service and timely payments of subsequent monthly billings. Failure to comply with the terms of the installment agreement or to make timely payments of subsequent bills may result in termination of service pursuant to Sections 02.07.01 - 02.08.06.

_____ 01.03.07 COMPLAINTS The Company shall make a prompt and suitable investigation of complaints made either in person, in writing, or by telephone and will advise the complainant of the results thereof.

_____ UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.01 Page 9

_____ 01.04.01 EXECUTION OF SERVICE CONTRACT A service contract exists between the Company and parties who properly execute an application for service or service contract; or accept or use gas service supplied by the Company under the conditions set forth in Section 01.02.18 or under other conditions that would give rise to an obligation to pay for such service regardless of whether an express agreement, written or oral, exists between the Company and any such party.

_____ 01.04.02 SUPPLYING OF SERVICE Utility service is supplied only under and pursuant to these Regulations, any modifications or additions thereto lawfully made, and such applicable rate schedules as may from time to time be lawfully fixed, and pursuant to other tariffs then in effect; at such points of delivery as are adjacent to facilities of the Company that are adequate and suitable as to capacity and character for the service desired; and to installations in conformance with applicable city, federal, state, or town codes. If a Customer wishes to change the point of delivery and/or capacity of the service or require another service the Customer shall bear the cost for any necessary change in accordance with the appropriate rate schedule, and pay any fees necessary for this action. Service will not be supplied to any premises if, at the time of application for service, the Applicant is indebted to the Company for service previously supplied at the same or another address until payment has been made or an acceptable payment agreement has been initiated for such indebtedness. Service will not be supplied for failure to pay the unpaid bill of UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts cont. Section 01.04.02 Page 10 another Customer at the same address if such person still resides at the premises to be served or if the Applicant received a beneficial use of the utility service provided the previous Customer.

_____ 01.04.03 CONTINUITY OF SERVICE The Company will use reasonable diligence to supply steady and continuous service but does not guarantee the service against irregularities or interruptions. Under certain circumstances it may be necessary to curtail Customers of any class. The procedure for such curtailments is

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17609

located in Sections 01.08.01 - 01.08.06. The Company may interrupt service during periods of supply or capacity curtailment; when necessary to repair, change, or relocate the Company's distribution systems; without incurring any liability; and for such periods as may be reasonably necessary to make such repairs or changes.

01.04.04 CUSTOMER'S RESPONSIBILITIES
 The Customer assumes all responsibility on the Customer's side of the point of delivery for the service supplied or taken. In no event shall the Company be liable to the Customer or to any other person or entity for damages, or other loss, whether caused by negligence of the Company or otherwise, caused by interruption of service in cases where such interruptions of service were not intended, and the Customer shall release and hold the Company harmless with respect to same. Right-of-Way - The Customer shall make or procure conveyance to the Company of perpetual right-of-way: satisfactory to the Company, across the property owned or controlled by the Customer, UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts cont. Section 01.04.04 Page 11 for the Company's lines or extensions thereof, or other equipment necessary or incidental to the supplying of service to the Customer, and without reimbursement to the Customer from the Company. Access to the Premises - The Customer shall maintain the premises in such a manner that the Company's agents: shall be able to verify the valid Service Address of the premises from the street; and shall have safe and unobstructed access to all portions thereof, at all reasonable hours, for the purpose(s) of - maintaining, removing, or replacing the Company's property; - reading meters; and - all other purposes incident to the supplying of service to the Customer. Location of Service Connections - The Customer's service connections are to be located at a point readily accessible to the Company's service facilities. The service connection point is to be determined by the Company, and such point may be relocated if deemed necessary by the Company. 01.04.05

REMETERING AND RESALE OF SERVICE Service is supplied directly to the Customer through the Company's own meter. Utility service shall not be metered for resale, or otherwise resold by a Customer, for a price higher than the price charged to the Customer by the Company. The Company may, after notice and opportunity for hearing, discontinue supplying of utility service to a Customer to prevent a violation of this provision.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts cont. Section 01.04.06 Page 12 01.04.06 SERVICE TO ADJACENT PREMISES No Customer may extend or connect the Customer's installation to utility lines across or under a public street, alley, right-of-way space, or other private space, including property lines, in order to obtain service for adjacent property through one meter, even though such adjacent property is owned, controlled, or occupied by the Customer. The Company may terminate service to a Customer after notice and opportunity for hearing until any violation of this subsection is discontinued. However A Customer who owns adjacent properties which are developed and operated as a unified apartment, office, commercial, or industrial project, may extend or connect the installation to lines across or under the property lines of said adjacent properties in order to service said properties through one meter, for as long as the above stated condition continues.

01.04.07 COMPANY'S RIGHT TO CANCEL SERVICE CONTRACT Exercise of or failure to exercise any one or more of the following remedies does not affect the Company's right to resort thereafter to any one or more of such remedies for the same or any future default or breach of the service contract by the Customer: Remedies: terminate service as provided for in Sections 02.07.01 - 02.08.06 of these Regulations; cancel service contract(s); and resort to any other legal remedy.

 13 01.04.08 PERSONS AND ENTITIES WHO
 ARE RESPONSIBLE FOR PAYMENT OF UTILITY SERVICES When the Customer fails, refuses, or is
 unable to pay for services rendered, the Company may require payment from the Customer or from
 any other person, corporation, or other legal entity who is liable to the Company for the
 services rendered under any law or legal doctrine available in this state.

CTX2 b UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Appeals and Hearings
 Section 01.05.01 Page 14

01.05.01 APPEALS Customers
 objecting to the actions, policies, or decisions of the Company with regard to utility service
 may informally appeal to the Company in person; or by telephone to attempt a resolution
 administratively. When an informal appeal is made, a document shall be prepared by the
 Company representative to indicate: the reason for the informal appeal; the persons present
 during the meeting; and the decision of the Company representative. If the problem is not
 resolved by an informal appeal, the Customer shall be given written notice of his/her right to
 a formal appeal hearing pursuant to this subsection of these Regulations. Such notice shall
 indicate: the steps the Customer must take to initiate the appeal, including providing the
 name of the officer and the address to which the appeal shall be made; whether failure to
 initiate the appeal within three (3) days of the date of the notice may result in termination
 of service to the account in question; and the procedure for obtaining a copy of the rules
 for the formal hearing. A request for a formal appeal hearing before the designated Hearing
 Officer will not be granted when the Customer's only complaint regards the: determination of
 reasonableness or the denial of a deferred payment agreement under Sections 02.05.01 -
 02.05.05 of these Regulations; Customer's financial inability to pay for services rendered
 and there is no dispute as to the accuracy of the billing or the Customer's liability; or the
 UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Appeals and Hearings cont.
 Section 01.05.01 Page 15 design and fairness of the rate schedule.

01.05.02 HEARINGS The
 time, date and place of a formal appeal hearing shall be provided to the Customer requesting a
 formal hearing. The hearing shall be held not more than five (5) business days from the date
 of the Customer's request. The Customer may appear in person or be represented by counsel or
 both, and shall be afforded the opportunity to confront and question adverse witnesses at the
 hearing. The formal legal rules of evidence shall not apply. The formal appeal hearing shall
 be before a Hearing Officer: appointed by the Company Vice-President - Central Texas for the
 purpose of hearing such appeals, not under the supervision of the Commercial Office Manager;
 and not a participant in the previous decision now under review. The Hearing Officer shall
 be the sole judge of the evidence and credibility of witnesses and the facts as well as the
 applicability of the rules and regulations of the Company; and render his/her final decision
 in writing to all parties concerned at the close of the hearing or within five (5) business
 days of its conclusion.

01.05.03 RESULTS OF HEARINGS In the event the decision reached at a formal appeals hearing is
 against the Customer, the Hearings Officer shall UTILITY SERVICE REGULATIONS GENERAL RULES
 PART 01.00.00 Appeals and Hearings cont. Section 01.05.03 Page
 16 instruct the Company and Customer what action, if any, must be taken by the Customer to
 maintain utility service; and set a reasonable period of time in which the Customer must take
 such action. In the event that payment of a bill is involved, the Customer shall be allowed
 three (3) business days to pay such amount. In the event the decision reached at a formal
 appeal hearing is in favor of the Customer, in whole or part, the Hearings Officer shall

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17609

instruct the Company and Customer what corrective action shall be taken and the Company shall take action within a reasonable time, which time may be set by the Hearing Officer; and instruct the Customer to pay or make acceptable arrangements for payment of any amount of disputed billing found to be accurate, within three (3) business days or by the due date of the billing whichever is later.

01.05.04 CONTINUITY OF SERVICE DURING APPEAL During the pendency of the formal appeal, the Customer's utility service shall be continued if not terminated prior to a valid formal appeal. In the event utility service was terminated prior to a valid formal appeal hearing utility service will be re-initiated upon payment of the initiation fee and payment of an amount consistent with that Customer's previous year's usage for the same billing period, or an amount consistent with usage of similar residential units in the same area, if the Customer has no previous service history. If applicable, correction of any condition which caused service to be terminated must be corrected prior to re-initiation of service. the initiation fee will not be charged if the Hearing Officer's decision is in favor of the Customer in whole or part.

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Appeals and Hearings cont. Section 01.05.05
 Page 17 01.05.05 FAILURE

OF COMPANY TO COMPLY The failure of the Company to comply with any time provision contained herein shall in no way result in the Company's waiving its right to see termination of service for the reasons specified in these Regulations.

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.01
 Page 18 01.06.01 EXTENSION

OF FACILITIES The Company shall install the necessary facilities to provide service beyond existing distribution lines. Expenditures for such extensions must be cost justified or a refundable cash advance will be required. Facilities of greater capacity than Applicant requires may be installed, however, cash advance will be based only on size and capacity of facilities needed by Applicant. Amount of cash advance may be reduced by an allowance for the number of existing Customers along the route of the extension. Such Customers must apply for service prior to installation of the facilities and have major gas burning appliances, water heater or furnace. Allowance per residential Customer is an amount equal to the cost of 100 feet of distribution main. Allowance per non-residential Customer is equal to anticipated first three years' gross margin. Company may elect to allow as approach main an amount equal to 15 feet of main for each potential residential Customer. Non-residential approach main allowance is based on residential equivalents of anticipated margin. Applicant and Company shall enter into a written agreement on the Company's standard form. All advances must be paid in cash prior to construction. Construction of facilities will commence as soon as practical after receipt of advance and prosecuted with reasonable diligence with allowance for delays caused by events or conditions beyond the Company's control.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Extension of Facilities cont. Section 01.06.01 Page 19 Right-of-way for Company facilities on Applicant's

property shall be furnished by the Applicant in the Company's name, on Company's forms at no cost to the Company. If, on the first anniversary of the extension agreement, the extension of facilities has not been installed through no fault of the Company, the agreement will be terminated and the advance refunded. A review of the number of Customers served from the extension will be made on or about the second through fifth in-service anniversaries and a refund equal to the allowance specified in the contract will be made for each additional Customer that came on service since the previous review. No refund shall be given which shall cause the total refunds to be greater than the total advance. No interest shall be paid on any advance. At the end of five years any remaining amount of the advance shall be retained

by the Company as a contribution in aid of construction. Any refund of advance which is returned undelivered and remain unclaimed in the Company's possession after six months following expiration of the five year period of the agreement shall be retained as a contribution in aid of construction.

REGULATIONS GENERAL RULES PART 01.00.00 Customer Owned Systems Section
 01.07.01 Page 20

01.07.01 CUSTOMER OWNED SYSTEMS Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. Company shall provide service through a master meter into the piping systems of others to be distributed to more than one Consumer, except when the gas is resold to those Consumers.

REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section 01.08.01
 Page 21

CURTAILMENTS When the capacity of the Company's system or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with these regulations.

01.08.02 PRIORITY All Customers served by the Company shall be classified into one of the following priority groups.

A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation. B. Gas sold for agricultural purposes. C. This category consists of the following: 1. gas sold to small commercial and small industrial Customers using 200 MCF or less on an average day; 2. gas sold to industrial Customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production; 3. gas sold to commercial or industrial Customers used to provide water heating, heating and cooling for human comfort in the plant or office areas; UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments cont.

Section 01.08.02 Page 22 4. gas sold for use in power generating plants for start up, safety and flame stabilization. D. Gas sold to commercial Customers using more than 200 MCF, but less than 1,500 MCF on an average day. E. Gas sold to small industrial Customers using more than 200 MCF and less than 3,000 MCF on an average day, provided such user has no economically feasible alternate fuel. F. This category consists of the following: 1. gas sold to industrial Customers for feedstock use where the gas volume is more than 200 MCF and less than 3,000 MCF on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such Customer must prorate its demand for gas and must maximize its use of all other sources of gas; 2. small public utility electric generating systems which use less than 3,000 MCF on an average day. G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve Customers whose usage falls within the descriptions above and small commercial and industrial Customers using 20,000 KWH or less on an average day. H. This category consists of the following: 1. gas sold for use by commercial Customers in excess of 1,500 MCF on an average day; 2. small industrial Customers not qualifying under any of the above. I. All gas sold for use in existing power generating plants for the generation of electricity not included in any of the above. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments cont. Section

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17609

01.08.02 Page 23 J. This category consists of the following: 1. gas sold to large users of gas, in excess of 3,000 MCF on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics. 2. gas sold for feedstock as defined above, in excess of 3,000 MCF on an average day. K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 MCF on an average day and any other use which does not qualify under a preceding priority.

01.08.03 METHOD OF CURTAILMENT Curtailment shall be ordered ratably insofar as feasible within each priority group served by the same system; provided, however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities A and B. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

01.08.04 CLASS AND GROUP CURTAILMENT No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service.

UTILITY SERVICE
 REGULATIONS GENERAL RULES PART 01.00.00 Curtailments cont. Section 01.08.05
 Page 24

01.08.05 NOTIFICATION AND PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, of the extent and amount of the curtailment required from him or her. If, after notification, any Customer (other than a Customer in Priority A) fails to curtail during the required period, or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priorities A and B is threatened.

01.08.06 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

01.08.07 JURISDICTION OVER CURTAILMENT POLICY Jurisdiction over the curtailment policy set forth in Sections 01.08.01 - 01.08.07 lies with the Railroad Commission of Texas. The Company may change its curtailment policy from time to time if approved or ordered by the Railroad Commission of Texas. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Equal Payment Plan Section

01.09.01 Page 25
 01.09.01 PAYMENT PLAN Residential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner: The Plan year shall be 12 months ending each year with the Customer's July bill. The Plan monthly payment shall be determined as follows: - For Customers electing to commence with the August bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's plan year. - for Customers electing to commence in September or later, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year until the next following July bill. Succeeding years shall be computed on an annual basis as in subparagraph (1) below. The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon the most recently available prior 12-month period at the same service location; or, if there is not at least 12 months prior

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 17609

service at the same service location, then the charges shall be based upon consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known changes. The Company reserves the right to adjust the remaining monthly Plan payments of any Customer at any time for changes in conditions or rates. The Company shall advise each Customer in the Plan of the monthly Plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that

UTILITY SERVICE REGULATIONS GENERAL
 RULES PART 01.00.00 Equal Payment Plan contd. Section 01.09.01 Page
 26 billing month and the amount of any debit or credit balance before the payment of that month's Plan payment. The Customer shall continue to pay the monthly Plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly Plan payment. The July gas bill for each Customer in the Plan shall be handled as follows: - any amount due the Company up to the monthly Plan payment shall be paid in full by the due date shown on the bill. - if the balance due the Company exceeds the monthly Plan payment, a payment equal to that amount will be paid and the excess shall be utilized in computing the next Plan year's monthly Plan payment. Interest will not be charged to the Customer on accrued debit balances or paid by the Company on accrued credit balances. Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the Plan. Any Customer's participation in the Plan may be discontinued by the Company if the monthly Plan payment has not been paid on or before the due date of the next monthly Plan payment. If any Customer in the Plan shall cease to participate in the Plan for any reason, then the Company may refuse that Customer's reentry in the Plan until the following August.

UTILITY SERVICE REGULATIONS
 INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
 02.01.01 Application for Service Page 27

02.01.01 WHERE TO APPLY Anyone
 requesting utility service provided by the Company shall apply to one of the Company's Commercial Offices.

02.01.02 IDENTIFICATION Applicants for service can be required to provide the following form(s) of identification: a valid Texas Driver's License with photograph; or a valid identification card, with photograph, issued by the Texas Department of Public Safety; or two valid verifiable forms of identification. A listing of forms currently accepted by the Company is available on request. Failure to comply with this section can result in refusal of service. (See Section 02.02.01 of these Regulations.)

02.01.03 CREDIT SECURITY
 Before service will be initiated Applicants must establish credit as required for the type of service requested; pursuant to Sections 02.03.02 and 02.03.03.

02.01.04 ADDRESS VERIFICATION
 Applicants for service may be required to obtain, and produce on request, verifiable proof of their right to occupy a specific service address as of a specific date of occupancy.

02.01.05 FEES AND PAYMENT
 In addition to establishing credit security, Applicants for service must pay whichever of the following fees are required for the service requested. After Hours Fee - charged to any Applicant whose request to initiate service cannot be worked during normal business hours. Applicant must be advised that an after hours fee will be charged and must agree to pay such charge. UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00
 TERMINATION OF SERVICE Section 02.01.05 Application for Service contd. Page

28 Read-In Fee - charged to any Applicant for initiation of service when only a meter

reading is required. Initiation Fee - charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when a meter is set or the Applicant's appliances are lighted. Payment of the above fees is due with the first bill for service. Sections 04.01.01 and 04.01.02 of these Regulations contain the current schedule of fees and cash deposits. Only U.S. currency, personal checks, money orders or cashier checks are accepted as payment for cash amounts due for fees, deposits, or charges incurred by utility Customers or Applicants.

02.01.06 NONRESIDENTIAL SERVICE Applicants for nonresidential service must provide the Company with all information necessary to estimate the cost of two (2) regular billing months of service at the service address where they wish to initiate service. The Company's estimate shall be used to calculate the necessary credit security required for service initiation; and may be required to obtain and produce valid verifiable proof of their right to contract for the entity requesting the service.

TARIFF CODE: DS RRC TARIFF NO: 17609

02.04.02 INFORMATION
 REQUIRED ON THE BILL The Customer's bill shall show all of the following information: the date and meter reading at the beginning and at the end of the period for which the bill is rendered; the number and kind of units metered; the applicable rate classification; separate charges for cost of service and cost of gas, if treated separately in the rate ordinance; the total amount due for utility service and tax; the date the bill is due and by which the Customer must pay the bill; a distinct marking to identify an estimated bill; any conversions from meter reading units to billing units, or any other calculations to determine billing units from recording to other devices, or any other factors used in determining the bill; the explanation of charges shall be in English and Spanish. The information required by this subsection shall be arranged to permit the Customer to compute his bill by using the applicable rate schedule which shall be supplied when requested by the Customer.

UTILITY SERVICE
 REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE
 Section 02.04.03 Billing and Payment cont. Page 34

02.04.03 PAYMENT
 All bills for service are due by the date printed on the bill. If the payment in full is not received in the Company's office by the date printed on the bill, the bill shall be considered delinquent. If a Customer does not receive his or her bill(s), the obligation to make payment for service rendered is not released or diminished.

02.04.04 BILLING
 ADJUSTMENTS If any meter is found to be outside the accuracy standards established by these Regulations, proper correction shall be made of previous readings for the period of six (6) months immediately preceding the removal of such meter from service for the test, or from the time the meter was in service since last tested, but not exceeding six (6) months, as the meter shall have been shown to be in error by such test, and adjusted bills shall be rendered. No refund is required from the Company except to the Customer last served by the meter prior to the test. If a meter is found not to register for any period unless bypassed or tampered with, the Company shall make a charge for units used, but not metered, for a period not to exceed three (3) months, based on amounts used under similar conditions during the period preceding or subsequent thereto, or during corresponding periods in previous years. If a meter, though otherwise meeting the accuracy standards established by these Regulations, does not register proper consumption (because of improper installation or for any other reason) the total amount overbilled or underbilled to the Customer shall be adjusted. The total amount overbilled or underbilled shall be adjusted when the overbilling or underbilling results from causes not mentioned above. Overbillings or underbillings in this category would include, but shall not be limited to, those caused by: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.04 Billing and Payment cont. Page 35 - the failure to read a meter; - the misreading of a meter; - the application of an improper rate schedule; or - typographical or computational errors. In any case of underbilling, the Company may offer to such Customer a deferred payment plan option for the same length of time as that of the underbilling. Reimbursement or collection shall be made at the rates in effect at the time of each overbilling or underbilling.

02.04.05 CUSTOMER'S RIGHT TO DISPUTE BILLS Customers have the right to dispute any portion of their utility bill. The Appeals and Hearings Section of these Regulations (Sections 01.05.01 - 01.05.05) covers bill disputes.

02.04.06 DELINQUENCY
 An active account becomes delinquent when full payment is not received; in the Company's Commercial Office, by the due date printed on the bill. Delinquent accounts are subject to

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 17609

termination of service, pursuant to Sections 02.07.01 - 02.08.06 of these Regulations.

02.04.07 UNLAWFUL USE OF SERVICE Where a condition threatens the public health, safety or resources, in any case of tampering with a meter installation or interfering with the proper function thereof, or any other unlawful use or diversion of service by any person, or evidence of any such tampering, interfering, unlawful use or service diversion, by a Customer who could be reasonably expected to benefit from such action the Customer is subject to: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.07 Billing and Payment cont. Page 36 immediate termination of service; and prosecution under applicable laws. In any case of unlawful use of service the Company shall be entitled to collect from the Customer payment of the costs for all natural gas not recorded on the meter by reason of such tampering, interfering, unlawful use or service diversion, - the amount of which may be estimated by the Company from the best available data, and - billed at the proper rate schedule; and the unauthorized consumption fee plus all other expense incurred by the Company on account of such unauthorized act or acts, such amount based on an itemized statement from the Company.

02.04.08 RETURNED CHECKS Accounts for which payment is made using checks which are returned by a bank for any reason may be charged a returned check fee for each occurrence. The amount of the check will be charged back to the account. Repayment of the returned check shall be made in the form of cash, cashier's check, or money order. The Customer will be sent a written notice which will indicate that the Customer has seven (7) days in which to make full payment of the amount covered by the returned check, or service will be subject to termination. Utility service terminated for nonpayment of a returned check will not be re-initiated until the amount of the returned check and all applicable fees have been paid in full.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.01 Deferred Payment Agreements Page 37

02.05.01 ELIGIBILITY Any active Customer with a previous balance owed the Company for utility service may apply for a deferred payment agreement. The Company may enter into a deferred payment agreement with a Customer under circumstances the Company determines are reasonable.

02.05.02 DETERMINATION OF REASONABLENESS Factors used in determining reasonableness under these Regulations shall include but not be limited to: size of the previous balance owed the Company; customer's ability to pay; customer's payment history; reasons the debt has not been paid; time that the debt has been outstanding; and any additional factors considered relevant other than race, religion, gender, or national origin of Customer.

02.05.03 BASIC TERMS Every deferred payment agreement shall provide that the Company shall not terminate the Customer's service, if the Customer first pays an agreed upon reasonable amount of the outstanding previous balance; pays the current bills, including any applicable fees, when due; and pays the outstanding previous balance, by agreed upon dates, in reasonable installments until that previous balance is cleared.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.04 Deferred Payment Agreements cont. Page 38

02.05.04 DEFAULT If a Customer fails to meet the terms of a deferred payment agreement, the Company may terminate service pursuant to Sections 02.07.01 - 02.08.06, and under such circumstances, shall not be

GAS SERVICES DIVISION

required to offer subsequent negotiation of a deferred payment agreement prior to termination.
 _____ 02.05.05 APPEALS An
 appeal by a Customer of the determination of reasonableness as defined in Section 02.05.02
 above or the denial of a deferred payment agreement shall be conducted pursuant to Sections
 01.05.01-01.05.05 of these Regulations.

_____ UTILITY SERVICE REGULATIONS
 INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
 02.06.01 Transfer of Service Page 39

_____ 02.06.01 CUSTOMER
 MOVE WITHIN SERVICE AREA When a Customer vacates a Company service address, notice must be
 given to the Company prior to the date of change. A Customer is responsible for all service
 supplied to vacated premises until such notice is received and the Company has had reasonable
 time (no more than six (6) business days) to discontinue service. This section does not
 abolish or impair any right the Company may have to recover for services rendered pursuant to
 Section 01.04.08 of this Tariff.

_____ 02.06.02 TRANSER OF
 SERVICE Customers wishing to transfer service from one service address to another are
 subject to the requirements of Sections 02.01.00 through 02.03.00 for the type of service to
 be supplied at the new location.

_____ 02.06.03 CREDIT
 SECURITY TRANSFER If the credit security requirement at the new service address is higher
 than at the Customer's previous service address, an additional cash deposit or new credit
 security instrument may be required before service will be transferred. If the credit
 security requirement at the new service address is lower than at the Customer's previous
 service address, then the Company may, at its option, apply any cash deposit on hand to the
 balance due for the previous account and refund the difference, if any, to the Customer,
 requiring new credit security for the new account; or transfer the cash deposit to the new
 account, applying the difference to the new account or refunding it to the Customer.

_____ UTILITY SERVICE REGULATIONS
 INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
 02.07.01 Grounds for Termination of Service Page 40

_____ 02.07.01 SUFFICIENT
 GROUNDS The Company may terminate a Customer's utility service at the request of the
 Customer; for the Customer's failure; - to pay a delinquent account; - to comply with the
 terms of a deferred payment agreement; - to comply with credit security requirements; - to
 make payment for a bill initially paid by a check returned by a bank for any reason for the
 operation or installation of equipment which interferes with the service of others; upon
 discovery of the existence of - meter tampering or diversion of service; - a known dangerous
 condition; - any unlawful use of service; - the violation of any ordinance, statute or
 regulation regulating the submetering of utility service; or - the violation of any
 regulation which relates to utility service, or which provides for termination or refusal of
 service as a remedy.

_____ UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION
 OF SERVICE Section 02.07.02 Grounds for Termination of Service contd. Page
 41 _____ 02.07.02

INSUFFICIENT GROUNDS The Company may not terminate utility service for any of the following
 reasons in and by themselves: delinquency in payment for service by a previous Customer at
 the service address unless the present Customer is liable for such service under these
 Regulations or under the law of this State, failure to pay for merchandise or other charges
 for non-utility service owed to the Company; or failure to pay a bill disputed under the

formal appeal provisions set forth in Sections 01.05.01-01.05.05 of these Regulations, until determination is made by the Hearings Officer. The Company may not discontinue service before 8 A.M. or after 5 P.M. on weekdays or at any time on Friday, Saturday, Sunday or a holiday unless the Company's business office is open and service can be reconnected the following day.

UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
02.08.01 Procedural Requirements for Page 42 Collection and Termination
02.08.01

APPLICABILITY Service subject to termination can be terminated as specified in all provisions of this Section except when service is to be terminated for the following reasons At the Request of the Customer - Service will be terminated within six (6) workings days of the request. No notice to Customer is required. Payment with a Check Returned by a Bank - Sections 02.04.08 and 02.08.02 through 02.08.04 of these Regulations apply to termination of service in these circumstances. Where a Known Dangerous Condition Exists or Where a Condition Threatens the Public Health, Safety, or Resources - Service can be terminated without prior notice and remain terminated as long as the condition exists.

02.08.02 NOTICE
When a Customer's account becomes subject to termination, written notice of the proposed termination shall be given by the Company. The notice shall: be sent by mail to the mailing address of the Customer, unless the service address is different, be printed in English and Spanish; state reasons for the proposed termination; state the Customer's right to a hearing before such termination occurs; and state that the Customer who so desires must request a hearing by contacting the Company at a stated telephone number or in person within and not later than - seven (7) days following the date of the mailed notice,

UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
02.08.03 Procedural Requirements for Page 43 Collection and Termination
cont. 02.08.03 FIELD

COLLECTION - GENERAL CIRCUMSTANCES If the Customer does not take action by the date required by the termination notice, a representative of the Company shall be sent to the service address. The Company's representative will terminate service, and leave written notice of termination if - Customer is not on the premises, or - Customer refuses to pay at least the previous balance; or not terminate service if - Customer pays the previous balance due in full, - Customer shows receipt for payment of at least the previous balance due, or - Customer shows proof of compliance with a satisfactory deferred payment agreement which can be verified by the collector; or - Customer shows proof of a serious illness of someone residing at the residence pursuant to the terms of Section 01.03.06; - hazardous weather conditions exist (see Section 01.02.11).

02.08.04 FIELD COLLECTION - SPECIAL CIRCUMSTANCES Multi-Unit Structure Served By a Single Meter - When service is provided to a structure known to be divided into two or more separately occupied units and billed to a single Customer rather than the individual occupant, the Company representative sent to make collection at the service address will not terminate service on the first visit but will inform the Customer in person or in writing of the previous balance owed; UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART
02.00.00 TERMINATION OF SERVICE Section 02.08.04 Procedural Requirements for
Page 44 Collection and Termination cont. give written notice that service will be subject to termination after two (2) days and will be terminated after notice of the pending termination has been given to all occupants of the structure; give written notice to the occupants of the structure (by affixing a notice to each door or by hand delivering a notice to one occupant in each dwelling unit) advising them of the past due balance owed on

the Customer's account. The notice shall indicate that the Customer has two (2) days from the date of the notice to pay the previous balance and avoid service termination; and give written notice to the occupants (by affixing a notice to each door or by hand delivering a notice to one occupant in each dwelling unit) that they may make arrangements with the Company to pay the Customer's bill before service is terminated or to re-initiate service after termination, if they so desire; however, such action - in no way releases the Customer of responsibility for the current balance due or future utility charges and fees; and - does not obligate the occupants to pay the Company for future utility charges and fees Hazardous Weather Conditions - When hazardous weather conditions exist, the Company Vice President-Central Texas, or his or her designee, may activate a moratorium on residential termination due to nonpayment.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.08.05 Procedural Requirements for Page 45 Collection and Termination cont.

02.08.05 RE-INITIATION OF SERVICE Terminated service will be re-initiated if the Customer pays the past due balance; and the Customer supplies or maintains residential or non-residential credit security on the account; or the Company accepts a deferred payment agreement for the amount due; and the Customer supplies or maintains residential or non-residential credit security on the account. Re-initiation of service will result in an active Customer's account being charged fees as indicated in Section 02.08.06.

02.08.06 FEES AND CHARGES The purpose of the fees and charges described here is to defray the costs relating to delinquent accounts. The amount of each fee is contained in Sections 04.01.01 - 04.01.02 of these Regulations. The fees and charges will be identified on a regular bill. Unauthorized Consumption Fee - Charged for the replacement of an illegally broken meter seal or locking device to the Customer who could be reasonably expected to benefit from gas service received through said meter. Initiation Fee - Charged to any Customer whose service is terminated and then re-initiated unless terminated in error by the Company. This fee is the same as the standard Initiation Fee charged for new service. Field Collection Fee - Charged to any Customer whose failure to respond to a termination notice necessitates the dispatch of a Company representative who collects payment from the Customer. UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.08.06 Procedural Requirements for Page 46 Collection and Termination cont. Meter Damage Charges - Any account terminated for meter tampering or for any unlawful use of service which causes damage to the meter installation shall be charged for the damage caused.

UTILITY SERVICE REGULATIONS TECHNICAL SPECIFICATIONS FOR SERVICE PART 03.00.00 Company's Installation and Metering Section 03.01.01 Page 47

03.01.01 PROTECTION BY CUSTOMER The Customer shall protect the Company's meters, lines appurtenances and apparatus on the Customer's premises; and shall allow only the Company's agents or persons authorized by law to inspect or handle same. In the event of any loss or damage to such property of the Company, caused by or arising out of negligence or misuse by a Customer or other person controlled by the Customer, the cost of making good such loss or repairing such damage shall be paid by the Customer.

03.01.02 METER INSTALLATION The Company shall furnish and install any necessary meter. The Customer shall provide and maintain a location - free of expense, and - satisfactory to the Company for installation, reading, and maintenance of its installation.

-----------------	----------------------

Commission of Texas on 4/21/92, the current Residential Customer Deposit is \$50.00.] ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law

DESCRIPTION

1-KyleBuda-OS-COG

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE NO. 1
 Kyle/Buda Service Area - Central Texas Region

COST OF GAS CLAUSE

A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Kyle/Buda Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, the Relocation Cost Recovery Rate and the revenue associated fees (including franchise fees) and taxes.
2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, including prudently incurred gains or losses on natural gas financial instruments(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

schedule(s) net of franchise fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, including prudently incurred gains or losses incurred on natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s). 8. Relocation Cost Recovery Rate - The rate per billing unit pursuant to Rate Schedule RCR.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of

DESCRIPTION

the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Relocation Cost Recovery Rate; (f) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; (g) the Cost of Gas calculation; and (h) the beginning and ending date of the billing period . The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19848

RATE SCHEDULESCHEDULE IDDESCRIPTION

Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 19848

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
(B) the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
(B) the unit rate and total amount of the surcharge billed to each customer;
(C) the date or dates on which the surcharge was billed to customers; and
(D) the total amount collected from customers from the surcharge.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19848

CURTAILMENT PLAN

<u>PLAN ID</u>	<u>DESCRIPTION</u>
3008	Attachment A (of Docket No. 3008 issued June 22, 1981)
	Texas Gas Service Company Central Texas District
	CURTAILMENTS
	14.1 CURTAILMENTS
	Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.
	14.2 PRIORITY CLASSES
	All customers served by the Company shall be classified into one of the following priority groups:
	A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation.
	B. Gas sold for agricultural purposes.
	C. This category consists of the following:
	(1) Gas sold to small commercial and small industrial customers using 200 Mcf or less on an average day.
	(2) Gas sold to industrial customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production.
	(3) Gas sold to commercial or industrial customers used to provide water heating, heating and cooling for human comfort in the plant or office areas.
	(4) Gas sold for use in power generating plants for start up, safety and flame stabilization.
	D. Gas sold to commercial customers using more than 200 Mcf, but less than 1,500 Mcf on an average day.
	E. Gas sold to small industrial customers using more than 200 Mcf and less than 3,000 Mcf on an average day, provided such user has no economically feasible alternate fuel.
	F. This Category consists of the following:

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19848

(1) Gas sold to industrial customers for feedstock use where the gas volume is more than 200 Mcf and less than 3,000 Mcf on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such customer must prorate its demand for gas and must maximize its use of all other sources of as

(2) Small public utility electric generating systems which use less than 3,000 Mcf on an average day.

G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve customers whose usage falls within the descriptions of A above and small commercial and industrial customers using 20,000 Kwh or less on an average day.

H. This category consists of the following:

(1) Gas sold for use by commercial customers in excess of 1,500 Mcf on an average day.

(2) Small industrial customers not qualifying under C, D, E, or F above.

I. All gas sold for use in existing power generating plants for the generation of electricity not included in G and C(4) above.

J. This category consists of the following:

(1) Gas sold to large users of gas, in excess of 3,000 Mcf on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics.

(2) Gas sold for feedstock as defined in F above, in excess of 3,000 Mcf on an average day.

K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 Mcf on an average day and any other use which does not qualify under a preceding priority.

14.3 METHOD OF CURTAILMENT

Curtailement shall be ordered ratably insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities 1 and 2. Total curtailement during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

14.4 CLASS AND GROUP CURTAILMENTS

No curtailement shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailement of service.

14.5 NOTIFICATION AND PENALTIES

The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any customer (other than a customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened.

14.6 SUSPENSION OF THIS SECTION

This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

LINE EXTENSION POLICY

<u>POLICY ID</u>	<u>DESCRIPTION</u>
1211	<p>TEXAS GAS SERVICE COMPANY Texas Tariff - Kyle/Buda Service Area Unincorporated Kyle/Buda (From Quality of Service Rules effective 04/30/2008) EXTENSION OF FACILITIES 01.06.01 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation. 01.06.02 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 01.06.03 INITIAL ALLOWANCE FOR POTENTIAL PERMANENT CUSTOMERS The Company shall also determine the number of Potential Permanent Customers located along the route of the extension which are expected to be served therefrom. To be considered a Potential Permanent Customer, the occupant of such premise must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be considered to be Potential Permanent Customers only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 25 feet of distribution main shall be given for each Potential Permanent Customer who files an application for service from the proposed main extension to a facility that exists at the time of the application and who agrees to initiate gas service upon completion of the extension. 01.06.04 ADVANCES The difference between the total cost of facilities as determined in Section 01.06.02 above and the Initial Allowance for Potential Customers as determined in Section 01.06.03 above, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less. 01.06.05 CONSTRUCTION OF FACILITIES As soon as practical, usually within 60 days, after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicants(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the company's name and on its form at no cost to the Company (except for fees involved in the recording of documents). 01.06.06 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall</p>

thereafter review the extension agreement at its second through fifth in-service anniversary dates or based upon dates established in a separate contract. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Section 01.06.03 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be up to \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service. 01.06.07 REFUND LIMITATIONS The Company may, at its sole option, make a refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the initial advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction. 01.06.08 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made to his or her assignee. If that letter is returned undelivered, the check shall be canceled and the next review made without regard to that refund.

All sums described in this Section which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

01.01.01 GENERAL STATEMENT
 OF PURPOSE These Service Regulations Provide specific rules to be followed by the Company
 in supplying natural gas utility service and by the Customer in using such service. Are
 designed to provide good service, fair treatment, and maximum safety to the natural gas
 utility Customers and to the Company. Are officially on file in the City Clerk's office and
 the Railroad Commission of Texas Gas Utilities Division. Copies are available to natural gas
 utility Customers at the Company's Austin offices. Supersede and annul all previous service
 regulations pertaining to the supplying and taking of the Company's natural gas service.
 Subsequent revisions to these policies and procedures may be made with the approval of the
 appropriate regulatory authority.

01.01.02 GENERAL OPERATING
 POLICIES Service under this Tariff is subject to the original jurisdiction of the Railroad
 Commission of Texas. It is the policy of the Company to cooperate with charitable and
 welfare organizations assisting Customers in paying and planning for payment of their bills.
 Free service shall not be rendered by the Company to any Customer. All Customers within the
 Company's service area shall be served in accordance with the prices, terms and conditions
 provided for in applicable Tariffs and regulations. It is the on-going policy of the Company
 to provide utility services in a fair, equitable, and courteous manner to all Customers.

UTILITY SERVICE
 REGULATIONS GENERAL RULES PART 01.00.00 Definitions Section 01.02.01
 Page 2 01.02.01

ACCOUNT An account is the record of consumption, charges and payments for services rendered
 to a Customer at a specific service address. Active Account - An account is active when any
 service is available to the Customer at the service address specified for that account.
 Inactive Account - An account is inactive when all service is terminated for the Customer at
 the service address specified for that account.

01.02.02
 APPLICANT Any person, organization or group of persons or organizations making a formal
 request either orally or in writing for gas service from the Company.

01.02.03 BILLING MONTH An
 interval of approximately thirty (30) days between successive meter reading dates.

01.02.04 COMMERCIAL OFFICE
 A department of the Company's local operations responsible for Initiation and termination of
 service. Regular readings of meters. Regular billing for service (including resolving
 related billing problems and inquiries). Collection of and accounting for accounts
 receivable. 01.02.05 COMMERCIAL

SERVICE Service to Consumers engaged primarily in the sale or furnishing of goods and
 services and any usage not otherwise provided for.

UTILITY SERVICE REGULATIONS

GENERAL RULES PART 01.00.00 Definitions cont. Section 01.02.06
Page 3 01.02.06

CONSUMER Any person or organization receiving and using gas from the Company for his or her own needs whether or not the gas is billed directly to him or her, or to a second party. (For example, in the case of rental unit where the utilities are part of the rent, the landlord is a Customer and the tenant is a Consumer).

01.02.07 CREDIT SECURITY

That which is required by the Company to cover risk of nonpayment by Customer for utility services rendered. 01.02.08

CUSTOMER Any individual, partnership, association, firm, public or private corporation, governmental authority, or other legal entity being billed for gas utility service by the Company at any specified service address.

01.02.09 CUSTOMER'S PIPING

All piping and equipment installations on the Customer's side of the meter must be in conformance with applicable City codes. Customer piping must pass applicable pressure testing before initiation of natural gas service.

01.02.10 CUSTOMER PAYMENT

STANDARDS The minimum payment practices a natural gas utility Customer must meet in lieu of providing other forms of credit security.

01.02.11 HAZARDOUS WEATHER

CONDITIONS The average daily temperature is freezing or below; or the average daily temperatures are predicted to be freezing or below over a 24-hour period.

UTILITY SERVICE REGULATIONS

GENERAL RULES PART 01.00.00 Definitions Section 01.02.12 Page
4 01.02.12

METER The meter or meters, together with auxiliary devices, if any, constituting the complete installation needed to measure the natural gas supplied to any individual Customer at a single point of delivery.

01.02.13 NOTICE Unless otherwise specified, a written notification delivered personally or mailed by one party to the other at such other party's last known address, the period of notice as required by any applicable section of these Regulations being computed from the date of such personal delivery or mailing.

01.02.14 POINT OF DELIVERY

The outlet of the Company's meter where it connects to Customer's piping.

01.02.15 REGULATORY AUTHORITY

The City has original jurisdiction over the Company's rates and service regulations within the municipal boundaries of the City according to state law. Appellate jurisdiction rests with the Railroad Commission of Texas. Outside the municipal boundaries, the Railroad Commission of Texas has original jurisdiction over the Company's rates and service regulations. 01.02.16

SERIOUS ILLNESS Any illness wherein termination of natural gas service would be especially dangerous to that person's health as certified by a licensed physician.

01.02.17 SERVICE ADDRESS

Specified address of a location which can receive natural gas utility service provided by the Company. A valid Service Address shall contain the street name and house number and, when applicable, the building, unit and/or suite number. The Service Address must be visible from the street which serves that structure. UTILITY SERVICE REGULATIONS GENERAL RULES PART

01.02.18 SERVICE CONTRACT

RAILROAD COMMISSION OF TEXAS
 GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19848

A service contract, whether or not in writing, exists between a Customer and the Company when the Company supplies service and the Customer accepts it. A Customer accepts natural gas service: when the Customer or Customer's agent requests utility service and the Company provides it, or when the Customer, though not requesting service, knowingly receives service for more than seventy-two (72) hours, benefits from the service, and does not request discontinuance in writing prior to the expiration of the seventy-two (72) hour period. All rights and obligations under this contract are governed by state and federal law, applicable rate ordinances and by these regulations, including any amendments to the foregoing, in effect at the time when service is rendered. Subject to the foregoing, every service contract shall obligate the Customer to pay for service rendered, and shall obligate the Company to continue providing service for so long as the Customer pays for such service on a timely basis by paying for service rendered by the due date printed on the bill.

01.02.19 SERVICE PIPE The Company owned piping, connecting Company's distribution facilities to the yardline at the property line. 01.02.20

YARDLINE The piping carrying natural gas on the Customer's property between the property line and meter. UTILITY SERVICE

REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section
 01.03.01 Public Information Page 6

01.03.01 FACILITIES Upon request, the Company will provide information regarding the physical locations, size, capacity and other pertinent data regarding its facilities based on information available to it for any valid purpose relating to the provision of gas service.

01.03.02 AVAILABILITY AND DISTRIBUTION OF RATE SCHEDULES AND UTILITY SERVICE REGULATIONS All Customers living within the City shall be served under rate schedules filed with the City and Railroad Commission of Texas. All Customers living outside of the city shall be served under rate schedules on file with the Railroad Commission of Texas. Customers shall be assigned to rate schedules in accordance with the class of the particular Customer, the usage which will be made of the gas and that Customer's volume requirements. The Company shall advise the Applicant or Customer how to secure the most advantageous rate schedule available for his usage. A Customer assigned to a rate schedule shall remain on that schedule for a minimum of one year except that an assignment made in error shall be corrected immediately. Questions regarding a nonresidential Customer's classification shall be determined by the location of the Customer's primary business in the latest edition of the Standard Industrial Classification Manual of the United States Government's Office of Management and Budget. The Company shall post a notice in a conspicuous place in its Commercial Offices informing the public that copies of the following are available for inspection: - rate schedules, - utility fees and deposit schedules; and - utility service regulations.

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Customer Relations and Section 01.03.03
 Public Information Page 7

01.03.03 CHANGE IN RATE SCHEDULES AND CLASSIFICATIONS The Company shall provide public notice of any proposal for a change in rates or service classification, that has been made by the Company, prior to its adoption. Such notice shall be made by newspaper publication and shall include information on the proposed changes, the impact of the changes on the Company's revenues, the class of Customers affected by the proposed changes and whether the proposed changes are major changes as defined in the Gas Utility Regulatory Act. The notice shall also inform the Customers that the proposed changes are on file at the City, the Railroad Commission of Texas Gas Utilities

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19848

Division and at the Company's Commercial offices.

01.03.04 METER READING Upon request the Company shall inform its Customers how to read its meters.

01.03.05 CUSTOMER'S RIGHTS

The Company shall annually provide each residential and small commercial Customer with a summary description of: Customer rights; and Company obligations under these rules. This information shall be provided in English and Spanish. New residential and small commercial Customers shall be provided with the description no later than the date they receive their first bill.

01.03.06 SERIOUS ILLNESS

The Company will use its best efforts to not discontinue service to a delinquent residential Customer who permanently resides in an individually metered dwelling unit if the Customer establishes that discontinuance of service will result in some person residing at the residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this Section must make a written request to the Company, supported by a written statement from a licensed physician. The request and physician's statement must be received by the Company no more than five working days after the date of delinquency of the bill. The Company shall not terminate service for twenty days after the request and physician's statement is received unless the Company and Customer agree to an earlier termination date. A Customer who makes a request for nontermination of service under this section must sign an installment agreement providing for payment of the delinquent service and timely payments of subsequent monthly billings. Failure to comply with the terms of the installment agreement or to make timely payments of subsequent bills may result in termination of service pursuant to Sections 02.07.01 - 02.08.06.

01.03.07 COMPLAINTS The Company shall make a prompt and suitable investigation of complaints made either in person, in writing, or by telephone and will advise the complainant of the results thereof.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.01 Page 9 01.04.01

EXECUTION OF SERVICE CONTRACT A service contract exists between the Company and parties who properly execute an application for service or service contract; or accept or use gas service supplied by the Company under the conditions set forth in Section 01.02.18 or under other conditions that would give rise to an obligation to pay for such service regardless of whether an express agreement, written or oral, exists between the Company and any such party.

01.04.02 SUPPLYING OF SERVICE

Utility service is supplied only under and pursuant to these Regulations, any modifications or additions thereto lawfully made, and such applicable rate schedules as may from time to time be lawfully fixed, and pursuant to other tariffs then in effect; at such points of delivery as are adjacent to facilities of the Company that are adequate and suitable as to capacity and character for the service desired; and to installations in conformance with applicable city, federal, state, or town codes. If a Customer wishes to change the point of delivery and/or capacity of the service or require another service the Customer shall bear the cost for any necessary change in accordance with the appropriate rate schedule, and pay any fees necessary for this action. Service will not be supplied to any premises if, at the time of application for service, the Applicant is indebted to the Company for service previously supplied at the same or another address until payment has been made or an acceptable payment agreement has been initiated for such indebtedness. Service will not be supplied for failure to pay the unpaid bill of

01.00.00 Service Contracts Section 01.04.02 Page 10 another
Customer at the same address if such person still resides at the premises to be served or if
the Applicant received a beneficial use of the utility service provided the previous Customer.

01.04.03 CONTINUITY OF SERVICE The Company will use reasonable diligence to supply steady and continuous service but
does not guarantee the service against irregularities or interruptions. Under certain
circumstances it may be necessary to curtail Customers of any class. The procedure for such
curtailments is located in Sections 01.08.01 - 01.08.06. The Company may interrupt service
during periods of supply or capacity curtailment; when necessary to repair, change, or
relocate the Company's distribution systems; without incurring any liability; and for such
periods as may be reasonably necessary to make such repairs or changes.

01.04.04 CUSTOMER'S RESPONSIBILITIES The Customer assumes all responsibility on the Customer's side of the point
of delivery for the service supplied or taken. Maintenance of Facilities The Customer shall
maintain all facilities owned by him and shall be responsible for the safe conduct and
handling of the gas after it passes the point of delivery. The Company shall not be
responsible for inspection, maintenance or repair of Customer-owned piping or appliances. The
Company shall not be liable for any damages to persons or property resulting from the
condition of the Customer's piping or appliances except to the extent that the damages are
occasioned by the gross negligence or willful misconduct of the Company. UTILITY SERVICE

REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.04
Page 11 The Customer shall take all reasonable means to assure than no one
other than an employee of the Company shall adjust, repair, disconnect or change the meter or
other Company facilities in any way. In case of loss or damage to the Company's property from
the negligence or willful acts of the Customer, the Customer will reimburse the Company for
all costs of repairing or replacing the damaged property. Interruptions in Service The
Company shall not be liable for damages occasioned by interruption of service, failure to
commence service or delays in commencing service due to (i) accident or damage to the
Company's pipelines, regulators and other gas distribution facilities, (ii) strikes, riots, or
acts of war, (iii) orders of any court or judge granted in any bonafide adverse legal
proceedings or any order of any regulatory authority having jurisdiction, (iv) acts or
circumstances beyond the Company's control, and (v) the negligence of the Company, its
employees or contractors, except to the extent that the damages are occasioned by the gross
negligence or willful misconduct of the Company. Right-of-Way - The Customer shall make or
procure conveyance to the Company of perpetual right-of-way: satisfactory to the Company,
across the property owned or controlled by the Customer, for the Company's lines or
extensions thereof, or other equipment necessary or incidental to the supplying of service to
the Customer, and without reimbursement to the Customer from the Company. Access to the
Premises - The Customer shall maintain the premises in such a manner that the Company's
agents: shall be able to verify the valid Service Address of the premises from the street;
and shall have safe and unobstructed access to all portions thereof, at all reasonable
hours, for the purpose(s) of UTILITY SERVICE REGULATIONS GENERAL RULES PART

01.00.00 Service Contracts Section 01.04.04 Page 12 -
maintaining, removing, or replacing the Company's property; - reading meters; and - all
other purposes incident to the supplying of service to the Customer. Location of Service
Connections - The Customer's service connections are to be located on the side of the house at
a point readily accessible to the Company's service facilities. The service connection point
is to be determined by the Company, and such point may be relocated if deemed necessary by the
Company.

01.04.05 REMETERING AND RESALE OF SERVICE Service is supplied directly to the Customer through the Company's own

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19848

meter. Utility service shall not be metered for resale, or otherwise resold by a Customer, for a price higher than the price charged to the Customer by the Company. The Company may, after notice and opportunity for hearing, discontinue supplying of utility service to a Customer to prevent a violation of this provision.

01.04.06 SERVICE TO ADJACENT PREMISES No Customer may extend or connect the Customer's installation to utility lines across or under a public street, alley, right-of-way space, or other private space, including property lines, in order to obtain service for adjacent property through one meter, even though such adjacent property is owned, controlled, or occupied by the Customer. The Company may terminate service to a Customer after notice and opportunity for hearing until any violation of this subsection is discontinued. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.06 Page 13
However A Customer who owns adjacent properties which are developed and operated as a unified apartment, office, commercial, or industrial project, may extend or connect the installation to lines across or under the property lines of said adjacent properties in order to service said properties through one meter, for as long as the above stated condition continues.

01.04.07 COMPANY'S RIGHT TO CANCEL SERVICE CONTRACT Exercise of or failure to exercise any one or more of the following remedies does not affect the Company's right to resort thereafter to any one or more of such remedies for the same or any future default or breach of the service contract by the Customer: Remedies: terminate service as provided for in Sections 02.07.01 - 02.08.06 of these Regulations; cancel service contract(s); and resort to any other legal remedy.

01.04.08 PERSONS AND ENTITIES WHO ARE RESPONSIBLE FOR PAYMENT OF UTILITY SERVICES When the Customer fails, refuses, or is unable to pay for services rendered, the Company may require payment from the Customer or from any other person, corporation, or other legal entity who is liable to the Company for the services rendered under any law or legal doctrine available in this state.

KyBd2b TEXAS GAS SERVICE COMPANY Texas Tariff - Kyle/Buda Service Area Unincorporated Kyle and Buda, Texas Effective 04/30/08 (Continued) UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Appeals and Hearings Section 01.05.01 Page 14

01.05.01 APPEALS Customers objecting to the actions, policies, or decisions of the Company with regard to utility service may informally appeal to the Company in person; or by telephone to attempt a resolution administratively. When an informal appeal is made, a document shall be prepared by the Company representative to indicate: the reason for the informal appeal; the persons present during the meeting; and the decision of the Company representative. If the problem is not resolved by an informal appeal, the Customer shall be given written notice of his/her right to a formal appeal hearing pursuant to this subsection of these Regulations. Such notice shall indicate: the steps the Customer must take to initiate the appeal, including providing the name of the officer and the address to which the appeal shall be made; whether failure to initiate the appeal within three (3) days of the date of the notice may result in termination of service to the account in question; and the procedure for obtaining a copy of the rules for the formal hearing. A request for a formal appeal hearing before the designated Hearing Officer will not be granted when the Customer's only complaint regards the: determination of reasonableness or the denial of a deferred payment agreement under Sections 02.05.01 - 02.05.05 of these Regulations; Customer's financial inability to pay for services rendered and there is no dispute as to the accuracy of the billing or the Customer's liability; or the design and fairness of the rate schedule.

UTILITY SERVICE REGULATIONS

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19848

GENERAL RULES PART 01.00.00 Appeals and Hearings Section 01.05.01
 Page 15

01.05.02 HEARINGS The time, date and place of a formal appeal hearing shall be provided to the Customer requesting a formal hearing. The hearing shall be held not more than five (5) business days from the date of the Customer's request. The Customer may appear in person or be represented by counsel or both, and shall be afforded the opportunity to confront and question adverse witnesses at the hearing. The formal legal rules of evidence shall not apply. The formal appeal hearing shall be before a Hearing Officer: appointed by the Company Vice-President - Central Texas for the purpose of hearing such appeals, not under the supervision of the Commercial Office Manager; and not a participant in the previous decision now under review. The Hearing Officer shall be the sole judge of the evidence and credibility of witnesses and the facts as well as the applicability of the rules and regulations of the Company; and render his/her final decision in writing to all parties concerned at the close of the hearing or within five (5) business days of its conclusion.

01.05.03 RESULTS OF HEARINGS

In the event the decision reached at a formal appeals hearing is against the Customer, the Hearings Officer shall instruct the Company and Customer what action, if any, must be taken by the Customer to maintain utility service; and set a reasonable period of time in which the Customer must take such action. In the event that payment of a bill is involved, the Customer shall be allowed three (3) business days to pay such amount. In the event the decision reached at a formal appeal hearing is in favor of the Customer, in whole or part, the Hearings Officer shall instruct the Company and Customer what corrective action shall be taken and the Company shall take action within a reasonable time, which time may be set by the Hearing Officer; and instruct the Customer to pay or make acceptable arrangements for payment of any amount of disputed billing found to be accurate, within three (3) business days or by the due date of the billing whichever is later.

01.05.04 CONTINUITY OF

SERVICE DURING APPEAL During the pendency of the formal appeal, the Customer's utility service shall be continued if not terminated prior to a valid formal appeal. In the event utility service was terminated prior to a valid formal appeal hearing utility service will be re-initiated upon payment of the initiation fee and payment of an amount consistent with that Customer's previous year's usage for the same billing period, or an amount consistent with usage of similar residential units in the same area, if the Customer has no previous service history. If applicable, correction of any condition which caused service to be terminated must be corrected prior to re-initiation of service. the initiation fee will not be charged if the Hearing Officer's decision is in favor of the Customer in whole or part.

 GENERAL RULES PART 01.00.00 Appeals and Hearings Section 01.05.05
 Page 17

01.05.05 FAILURE OF COMPANY TO COMPLY The failure of the Company to comply with any time provision contained herein shall in no way result in the Company's waiving its right to see termination of service for the reasons specified in these Regulations.

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.01
 Page 18

EXTENSION OF FACILITIES
 01.06.01 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19848

extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation.

01.06.02 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.

01.06.03 INITIAL ALLOWANCE FOR POTENTIAL PERMANENT CUSTOMERS The Company shall also determine the number of Potential Permanent Customers located along the route of the extension which are expected to be served therefrom. To be considered a Potential Permanent Customer, the occupant of such premise must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be considered to be Potential Permanent Customers only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.03
 Page 19 served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 25 feet of distribution main shall be given for each Potential Permanent Customer who files an application for service from the proposed main extension to a facility that exists at the time of the application and who agrees to initiate gas service upon completion of the extension.

01.06.04 ADVANCES The difference between the total cost of facilities as determined in Section 01.06.02 above and the Initial Allowance for Potential Customers as determined in Section 01.06.03 above, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less.

01.06.05 CONSTRUCTION OF FACILITIES As soon as practical, usually within 60 days, after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicants(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the company's name and on its form at no cost to the Company (except for fees involved in the recording of documents).

GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.06 Page 20

01.06.06 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates or based upon dates established in a separate contract. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Section 01.06.03 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be up to \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service.

01.06.07 REFUND LIMITATIONS The Company may, at its sole option, make a refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the initial advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

01.06.08 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made to his or her assignee. If that letter is returned undelivered, the check shall be canceled and the next review made without regard to that refund. All sums described in this Section which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.08 Page 21

01.07.01 CUSTOMER OWNED SYSTEMS Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. Company shall provide service through a master meter into the piping systems of others to be distributed to more than one Consumer, except when the gas is resold to those Consumers.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section 01.08.01 Page 23

01.08.01 CURTAILMENTS When the capacity of the Company's system or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with these regulations.

01.08.02 PRIORITY All Customers served by the Company shall be classified into one of the following priority groups.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19848

A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation. B. Gas sold for agricultural purposes. C. This category consists of the following: 1. gas sold to small commercial and small industrial Customers using 200 MCF or less on an average day; 2. gas sold to industrial Customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production; 3. gas sold to commercial or industrial Customers used to provide water heating, heating and cooling for human comfort in the plant or office areas; UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section 01.08.02 Page 24 4. gas sold for use in power generating plants for start up, safety and flame stabilization. D. Gas sold to commercial Customers using more than 200 MCF, but less than 1,500 MCF on an average day. E. Gas sold to small industrial Customers using more than 200 MCF and less than 3,000 MCF on an average day, provided such user has no economically feasible alternate fuel. F. This category consists of the following: 1. gas sold to industrial Customers for feedstock use where the gas volume is more than 200 MCF and less than 3,000 MCF on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such Customer must prorate its demand for gas and must maximize its use of all other sources of gas; 2. small public utility electric generating systems which use less than 3,000 MCF on an average day. G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve Customers whose usage falls within the descriptions above and small commercial and industrial Customers using 20,000 KWH or less on an average day. H. This category consists of the following: 1. gas sold for use by commercial Customers in excess of 1,500 MCF on an average day; 2. small industrial Customers not qualifying under any of the above. I. All gas sold for use in existing power generating plants for the generation of electricity not included in any of the above. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section 01.08.02 Page 25 J. This category consists of the following: 1. gas sold to large users of gas, in excess of 3,000 MCF on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics. 2. gas sold for feedstock as defined above, in excess of 3,000 MCF on an average day. K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 MCF on an average day and any other use which does not qualify under a preceding priority.

01.08.03 METHOD OF CURTAILMENT Curtailment shall be ordered ratably insofar as feasible within each priority group served by the same system; provided, however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities A and B. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

01.08.04 CLASS AND GROUP CURTAILMENT No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service.

01.08.05 NOTIFICATION AND

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19848

PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, of the extent and amount of the curtailment required from him or her. If, after notification, any Customer (other than a Customer in Priority A) fails to curtail during the required period, or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priorities A and B is threatened.

01.08.06 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

01.08.07 JURISDICTION OVER CURTAILMENT POLICY Jurisdiction over the curtailment policy set forth in Sections 01.08.01 - 01.08.07 lies with the Railroad Commission of Texas. The Company may change its curtailment policy from time to time if approved or ordered by the Railroad Commission of Texas. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Equal Payment Plan Section

01.09.01 Page 27

01.09.01 PAYMENT PLAN Any Residential Customer may elect to participate in the Company's Average Bill Calculation (ABC) Plan for payment of charges for gas service as may be modified from time to time. Should the Company modify the plan, the Company will notify Customers of the changes made upon their request for enrollment. In general, the conditions under which a Customer may participate in the ABC Plan are set forth below: a) The Company reserves the right to adjust the monthly plan payments of any Customer at any time for changes in conditions or rates. b) The Company shall advise each Customer in the ABC Plan of the monthly plan payment to be paid by the Customer. Each Customer in the ABC Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of that month's plan payment. The Customer shall continue to pay the monthly plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. c) Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly plan payment. d) Interest will not be charged to the Customer on accrued ABC debit balances nor paid by the Company on accrued ABC credit balances. e) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the ABC Plan. f) Any Customer's participation in the ABC Plan may be discontinued by the Company if the monthly plan payment has not been paid on or before the due date of the monthly plan payment. g) If any Customer in the ABC Plan shall cease, for any reason, to participate in the ABC Plan, then the Company may refuse that Customer's reentry into the ABC Plan until the following August.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.01.01 Application for Service Page 28

02.01.01 WHERE TO APPLY Anyone requesting utility service provided by the Company shall apply to one of the Company's Commercial Offices.

02.01.02 IDENTIFICATION AND INFORMATION Applicants for service can be required to provide the following form(s) of identification or information: a valid Texas Driver's License with photograph; or a valid identification card, with photograph, issued by the Texas Department of Public Safety; or a Social Security Number; or a working telephone number; or two valid verifiable forms of identification. A listing of forms currently accepted by the Company is available on request. Failure to comply with this section can result in refusal of service. (See Section 02.02.01 of these Regulations.)

02.01.03 CREDIT SECURITY

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19848

Before service will be initiated Applicants must establish credit as required for the type of service requested; pursuant to Sections 02.03.02 and 02.03.03.

02.01.04 ADDRESS VERIFICATION
 Applicants for service may be required to obtain, and produce on request, verifiable proof of their right to occupy a specific service address as of a specific date of occupancy.

02.01.05 FEES AND PAYMENT
 In addition to establishing credit security, Applicants for service must pay whichever of the following fees are required for the service requested. After Hours Fee - charged to any Applicant whose request to initiate service cannot be worked UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.01.05 Application for Service Page 29 during normal business hours. Applicant must be advised that an after hours fee will be charged and must agree to pay such charge. Read-In Fee - charged to any Applicant for initiation of service when only a meter reading is required. Initiation Fee - charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when a meter is set or the Applicant's appliances are lighted. Payment of the above fees is due with the first bill for service. Sections 04.01.01 and 04.01.02 of these Regulations contain the current schedule of fees and cash deposits. Only U.S. currency, personal checks, money orders or cashier checks are accepted as payment for cash amounts due for fees, deposits, or charges incurred by utility Customers or Applicants.

02.01.06
 NONRESIDENTIAL SERVICE Applicants for nonresidential service must provide the Company with all information necessary to estimate the cost of two (2) regular billing months of service at the service address where they wish to initiate service. The Company's estimate shall be used to calculate the necessary credit security required for service initiation; and may be required to obtain and produce valid verifiable proof of their right to contract for the entity requesting the service.

UTILITY SERVICE
 REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.02.01 Refusal of Service Page 30

02.02.01 SUFFICIENT
 GROUNDS The Company may decline to initiate service to any Applicant for any of the following reasons: if the Applicant is not in compliance with the state, federal or municipal regulations governing the service applied for; if the Applicant's installation or equipment is known to be hazardous or of such character that satisfactory service cannot be given; if the Applicant responsible for payment of utility services as set forth in Section 01.04.08 is indebted to the Company for utility service, provided, however, that in the event the indebtedness of Applicant is the subject matter of a pending formal appeal hearing, the Applicant shall be served, if in compliance with the remainder of this section; if the Applicant does not comply with the application for service requirements or the credit security requirements set by the Company for the service requested; if the Applicant or the building or structure to be served does not comply with the City's Electric Code, Plumbing Code, Energy Conservation Code, Building Code, Mechanical Code, or Fire Code; if the Applicant or the building or structure to be served is not in compliance with any city regulation or state or federal statute which provides for refusal or termination of service as a penalty; or if the building structure to be served is not connected to the Company's distribution facilities.

02.02.02 RIGHT OF
 APPEAL In the event the Company shall refuse service to an Applicant under the provisions of these regulations the Company must inform the Applicant of the basis for its refusal; and that the Applicant may appeal such decision pursuant to Sections 01.05.01 - 01.05.05 of these Regulations. UTILITY

SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE
Section 02.03.01 Credit Security Page 31

02.03.01 AUTHORITY

In exchange for assuming the risks involved in providing utility service on credit, the Company may require Customers to give, maintain, and/or re-establish credit security for any utility service address; and establish utility Customer payment standards.

KyBd2c TEXAS GAS SERVICE COMPANY Texas Tariff - Kyle/Buda Service Area Unincorporated Kyle and Buda, Texas Effective 04/30/08 (Continued) UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.03.03 Credit Security Page 32 02.03.02

FORMS OF CREDIT SECURITY FOR RESIDENTIAL SERVICE The following forms of credit security may be accepted from residential Customers and Applicants for service: a record of satisfactory compliance with Customer payment standards for service at a comparable residential service address served by the Company for at least one year; a refundable cash deposit of as much as one-sixth (1/6) the estimated annual billings for services requested; but no less than the minimum deposit set forth in Section 04.01.02; a nontransferable, irrevocable letter of credit from an established financial institution, payable for as much as, one-sixth (1/6) the estimated annual billings for services requested and, which can be drawn on for a maximum of two (2) years; but no less than the minimum deposit set forth in Section 04.01.02; and In addition to the above requirements, residential Customers and Applicants for service must have no outstanding utility bills due to the Company or an acceptable payment plan initiated.

02.03.03 FORMS OF

CREDIT SECURITY FOR NONRESIDENTIAL SERVICE Any one of the following forms of credit security may be accepted from nonresidential Customers and Applicants for service: a record of satisfactory compliance with Customer payment standards for service at a comparable nonresidential service address served by the Company for at least one year; a refundable cash deposit of as much as one-sixth (1/6) the estimated annual billings for service requested; but no less than the minimum deposit set forth in Section 04.01.02; a nontransferable, irrevocable letter of credit from an established financial institution, payable for as much as one-sixth (1/6) the estimated annual billings for services requested and, which can be drawn on for a minimum of two (2) years; but no less than the minimum deposit set forth in Section 04.01.02; or a surety bond issued by a reputable insurance company which can be drawn on for a minimum of two years.

02.03.04 CUSTOMER PAYMENT STANDARDS In order to have a record of satisfactory compliance with Customer payment standards, the Customer must have: had at least twelve (12) consecutive billing cycles of residential service, or twenty-four (24) consecutive billing cycles of nonresidential service; had no disconnection or collection effort for nonpayment during the last twelve (12) consecutive billing cycles of residential service or twenty-four (24) consecutive billing cycles of nonresidential service; and no utility bills past due.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.03.05 Credit Security Page 33

02.03.05 DISPOSITION

OF MATERIAL FORMS OF CREDIT SECURITY When a Customer establishes a record of satisfactory compliance with the Customer payment standards for the account in question as specified in Section 02.03.04; and has paid the total amount due before the due date for (12) residential billing cycles or twenty-four (24) nonresidential billing cycles; or discontinues service and pays all utility bills; then material forms of credit security, with interest if required by law, shall be: - returned to the Customer; - voided; or - if in the form of cash,

GAS SERVICES DIVISION

credited to the Customer's account, or refunded in full.

02.03.06 DISPOSITION
OF UNCLAIMED CASH DEPOSITS A record of each unclaimed deposit will be maintained for a period of seven (7) years, during which time the Company shall make a reasonable effort to return the deposit. After seven (7) years the deposit will become the property of the State of Texas.

02.03.07 FAILURE TO COMPLY Failure to comply with credit security requirements makes an active account subject to termination of service pursuant to Section 02.09.00 of these Regulations.

UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.01
Billing and Payment Page 34

02.04.01 BILLING PERIODS Bills are rendered at regular monthly intervals unless otherwise authorized or unless service is rendered for a period of less than a month.

02.04.02 INFORMATION REQUIRED ON THE BILL The Customer's bill shall show all of the following information: the date and meter reading at the beginning and at the end of the period for which the bill is rendered; the number and kind of units metered; the applicable rate classification; separate charges for cost of service and cost of gas, if treated separately in the rate ordinance; the total amount due for utility service and tax; the date the bill is due and by which the Customer must pay the bill; a distinct marking to identify an estimated bill; any conversions from meter reading units to billing units, or any other calculations to determine billing units from recording to other devices, or any other factors used in determining the bill; the explanation of charges shall be in English and Spanish. The information required by this subsection shall be arranged to permit the Customer to compute his bill by using the applicable rate schedule which shall be supplied when requested by the Customer.

UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.03
Billing and Payment Page 35

02.04.03 PAYMENT All bills for service are due by the date printed on the bill. If the payment in full is not received in the Company's office by the date printed on the bill, the bill shall be considered delinquent. If a Customer does not receive his or her bill(s), the obligation to make payment for service rendered is not released or diminished.

02.04.04 BILLING ADJUSTMENTS If any meter is found to be outside the accuracy standards established by these Regulations, proper correction shall be made of previous readings for the period of six (6) months immediately preceding the removal of such meter from service for the test, or from the time the meter was in service since last tested, but not exceeding six (6) months, as the meter shall have been shown to be in error by such test, and adjusted bills shall be rendered. No refund is required from the Company except to the Customer last served by the meter prior to the test. If a meter is found not to register for any period unless bypassed or tampered with, the Company shall make a charge for units used, but not metered, for a period not to exceed three (3) months, based on amounts used under similar conditions during the period preceding or subsequent thereto, or during corresponding periods in previous years. If a meter, though otherwise meeting the accuracy standards established by these Regulations, does not register proper consumption (because of improper installation or for any other reason) the total amount overbilled or underbilled to the Customer shall be adjusted. The total amount overbilled or underbilled shall be adjusted when the overbilling or underbilling results from causes not mentioned above. Overbillings or underbillings in this category would include, but

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

shall not be limited to, those caused by: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.04 Billing and Payment. Page 36 - the failure to read a meter; - the misreading of a meter; - the application of an improper rate schedule; or - typographical or computational errors. In any case of underbilling, the Company may offer to such Customer a deferred payment plan option for the same length of time as that of the underbilling. Reimbursement or collection shall be made at the rates in effect at the time of each overbilling or underbilling.

02.04.05 CUSTOMER'S RIGHT TO DISPUTE BILLS Customers have the right to dispute any portion of their utility bill. The Appeals and Hearings Section of these Regulations (Sections 01.05.01 - 01.05.05) covers bill disputes. 02.04.06

DELINQUENCY An active account becomes delinquent when full payment is not received; in the Company's Commercial Office, by the due date printed on the bill. Delinquent accounts are subject to termination of service, pursuant to Sections 02.07.01 - 02.08.06 of these Regulations. 02.04.07

UNLAWFUL USE OF SERVICE Where a condition threatens the public health, safety or resources, in any case of tampering with a meter installation or interfering with the proper function thereof, or any other unlawful use or diversion of service by any person, or evidence of any such tampering, interfering, unlawful use or service diversion, by a Customer who could be reasonably expected to benefit from such action the Customer is subject to: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.07 Billing and Payment Page 37 immediate termination of service; and prosecution under applicable laws. In any case of unlawful use of service the Company shall be entitled to collect from the Customer payment of the costs for all natural gas not recorded on the meter by reason of such tampering, interfering, unlawful use or service diversion, - the amount of which may be estimated by the Company from the best available data, and - billed at the proper rate schedule; and the unauthorized consumption fee plus all other expense incurred by the Company on account of such unauthorized act or acts, such amount based on an itemized statement from the Company.

02.04.08 RETURNED CHECKS Accounts for which payment is made using checks which are returned by a bank for any reason may be charged a returned check fee for each occurrence. The amount of the check will be charged back to the account. Repayment of the returned check shall be made in the form of cash, cashier's check, or money order. The Customer will be sent a written notice which will indicate that the Customer has seven (7) days in which to make full payment of the amount covered by the returned check, or service will be subject to termination. Utility service terminated for nonpayment of a returned check will not be re-initiated until the amount of the returned check and all applicable fees have been paid in full.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.01 Deferred Payment Agreements Page 38

02.05.01 ELIGIBILITY Any active Customer with a previous balance owed the Company for utility service may apply for a deferred payment agreement. The Company may enter into a deferred payment agreement with a Customer under circumstances the Company determines are reasonable.

02.05.02 DETERMINATION OF REASONABLENESS Factors used in determining reasonableness under these Regulations shall include but not be limited to: size of the previous balance owed the Company; customer's ability to pay; customer's payment history; reasons the debt has not been paid; time that the debt has been outstanding; and any additional factors considered

relevant other than race, religion, gender, or national origin of Customer.

02.05.03 BASIC TERMS
Every deferred payment agreement shall provide that the Company shall not terminate the Customer's service, if the Customer first pays an agreed upon reasonable amount of the outstanding previous balance; pays the current bills, including any applicable fees, when due; and pays the outstanding previous balance, by agreed upon dates, in reasonable installments until that previous balance is cleared.

UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.04
Deferred Payment Agreements Page 39

02.05.04 DEFAULT
If a Customer fails to meet the terms of a deferred payment agreement, the Company may terminate service pursuant to Sections 02.07.01 - 02.08.06, and under such circumstances, shall not be required to offer subsequent negotiation of a deferred payment agreement prior to termination. 02.05.05

APPEALS An appeal by a Customer of the determination of reasonableness as defined in Section 02.05.02 above or the denial of a deferred payment agreement shall be conducted pursuant to Sections 01.05.01-01.05.05 of these Regulations.

INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section
02.06.01 Transfer of Service Page 40

02.06.01 CUSTOMER
MOVE WITHIN SERVICE AREA When a Customer vacates a Company service address, notice must be given to the Company prior to the date of change. A Customer is responsible for all service supplied to vacated premises until such notice is received and the Company has had reasonable time (no more than six (6) business days) to discontinue service. This section does not abolish or impair any right the Company may have to recover for services rendered pursuant to Section 01.04.08 of this Tariff.

02.06.02 TRANSFER OF
SERVICE Customers wishing to transfer service from one service address to another are subject to the requirements of Sections 02.01.00 through 02.03.00 for the type of service to be supplied at the new location.

02.06.03 CREDIT
SECURITY TRANSFER If the credit security requirement at the new service address is higher than at the Customer's previous service address, an additional cash deposit or new credit security instrument may be required before service will be transferred. If the credit security requirement at the new service address is lower than at the Customer's previous service address, then the Company may, at its option, apply any cash deposit on hand to the balance due for the previous account and refund the difference, if any, to the Customer, requiring new credit security for the new account; or transfer the cash deposit to the new account, applying the difference to the new account or refunding it to the Customer.

UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.07.01
Grounds for Termination of Service Page 41

02.07.01 SUFFICIENT
GROUNDS The Company may terminate a Customer's utility service at the request of the Customer; for the Customer's failure; - to pay a delinquent account; - to comply with the terms of a deferred payment agreement; - to comply with credit security requirements; - to make payment for a bill initially paid by a check returned by a bank for any reason for the operation or installation of equipment which interferes with the service of others; upon

discovery of the existence of - meter tampering or diversion of service; - a known dangerous condition; - any unlawful use of service; - the violation of any ordinance, statute or regulation regulating the submetering of utility service; or - the violation of any regulation which relates to utility service, or which provides for termination or refusal of service as a remedy.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.07.02 Grounds for Termination of Service Page 42

INSUFFICIENT GROUNDS The Company may not terminate utility service for any of the following reasons in and by themselves: delinquency in payment for service by a previous Customer at the service address unless the present Customer is liable for such service under these Regulations or under the law of this State, failure to pay for merchandise or other charges for non-utility service owed to the Company; or failure to pay a bill disputed under the formal appeal provisions set forth in Sections 01.05.01-01.05.05 of these Regulations, until determination is made by the Hearings Officer. The Company may not discontinue service before 8 A.M. or after 7 P.M. on weekdays or at any time on Friday, Saturday, Sunday or a holiday unless the Company's business office is open and service can be reconnected the following day.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.08.01 Procedural Requirements for Page 43 Collection and Termination 02.08.01

APPLICABILITY Service subject to termination can be terminated as specified in all provisions of this Section except when service is to be terminated for the following reasons At the Request of the Customer - Service will be terminated within six (6) workings days of the request. No notice to Customer is required. Payment with a Check Returned by a Bank - Sections 02.04.08 and 02.08.02 through 02.08.04 of these Regulations apply to termination of service in these circumstances. Where a Known Dangerous Condition Exists or Where a Condition Threatens the Public Health, Safety, or Resources - Service can be terminated without prior notice and remain terminated as long as the condition exists.

02.08.02 NOTICE
When a Customer's account becomes subject to termination, written notice of the proposed termination shall be given by the Company. The notice shall: be sent by mail to the mailing address of the Customer, unless the service address is different, be printed in English and Spanish; state reasons for the proposed termination; state the Customer's right to a hearing before such termination occurs; and state that the Customer who so desires must request a hearing by contacting the Company at a stated telephone number or in person within and not later than - seven (7) days following the date of the mailed notice,

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.08.03 Procedural Requirements for Page 44 Collection and Termination 02.08.03 FIELD

COLLECTION - GENERAL CIRCUMSTANCES If the Customer does not take action by the date required by the termination notice, a representative of the Company shall be sent to the service address. The Company's representative will terminate service, and leave written notice of termination if - Customer is not on the premises, or - Customer refuses to pay at least the previous balance; or not terminate service if - Customer pays the previous balance due in full, - Customer shows receipt for payment of at least the previous balance due, or - Customer shows proof of compliance with a satisfactory deferred payment agreement which can be verified by the collector; or - Customer shows proof of a serious illness of someone residing at the residence pursuant to the terms of Section 01.03.06; - hazardous weather conditions

Procedural Requirements for Page 46 Collection and Termination

_____ 02.08.05 RE-
INITIATION OF SERVICE Terminated service will be re-initiated if the Customer pays the past due balance; and the Customer supplies or maintains residential or non-residential credit security on the account; or the Company accepts a deferred payment agreement for the amount due; and the Customer supplies or maintains residential or non-residential credit security on the account. Re-initiation of service will result in an active Customer's account being charged fees as indicated in Section 02.08.06.

_____ 02.08.06 FEES AND
CHARGES The purpose of the fees and charges described here is to defray the costs relating to delinquent accounts. The amount of each fee is contained in Sections 04.01.01 - 04.01.02 of these Regulations. The fees and charges will be identified on a regular bill. Unauthorized Consumption Fee - Charged for the replacement of an illegally broken meter seal or locking device to the Customer who could be reasonably expected to benefit from gas service received through said meter. Initiation Fee - Charged to any Customer whose service is terminated and then re-initiated unless terminated in error by the Company. This fee is the same as the standard Initiation Fee charged for new service. Field Collection Fee - Charged to any Customer whose failure to respond to a termination notice necessitates the dispatch of a Company representative who collects payment from the Customer. ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's

DESCRIPTION

1-KyleBuda-OS-COG

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE NO. 1
 Kyle/Buda Service Area - Central Texas Region

COST OF GAS CLAUSE

A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of its Kyle/Buda Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, the Relocation Cost Recovery Rate and the revenue associated fees (including franchise fees) and taxes.
2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio.
3. Cost of Purchased Gas - The cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The Cost of Purchased Gas shall also include gains or losses from utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. No costs of natural gas financial instruments with companies affiliated with Texas Gas Service shall be included.
4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.
5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the accounting month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company to provide service to its general service customers during the period, including prudently incurred gains or losses on natural gas financial instruments(b) the revenues received from operation of the provisions of this cost of gas clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

schedule(s) net of franchise fees and applicable taxes, and (e) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, including prudently incurred gains or losses incurred on natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, and (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s). 8. Relocation Cost Recovery Rate - The rate per billing unit pursuant to Rate Schedule RCR.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or, (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly.

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of

DESCRIPTION

the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the appropriate Relocation Cost Recovery Rate; (f) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; (g) the Cost of Gas calculation; and (h) the beginning and ending date of the billing period . The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date. 4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

(C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned

DESCRIPTION

natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

CURTAILMENT PLAN

<u>PLAN ID</u>	<u>DESCRIPTION</u>
3008	Attachment A (of Docket No. 3008 issued June 22, 1981)
	Texas Gas Service Company Central Texas District
	CURTAILMENTS
	14.1 CURTAILMENTS
	Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.
	14.2 PRIORITY CLASSES
	All customers served by the Company shall be classified into one of the following priority groups:
	A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation.
	B. Gas sold for agricultural purposes.
	C. This category consists of the following:
	(1) Gas sold to small commercial and small industrial customers using 200 Mcf or less on an average day.
	(2) Gas sold to industrial customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production.
	(3) Gas sold to commercial or industrial customers used to provide water heating, heating and cooling for human comfort in the plant or office areas.
	(4) Gas sold for use in power generating plants for start up, safety and flame stabilization.
	D. Gas sold to commercial customers using more than 200 Mcf, but less than 1,500 Mcf on an average day.
	E. Gas sold to small industrial customers using more than 200 Mcf and less than 3,000 Mcf on an average day, provided such user has no economically feasible alternate fuel.
	F. This Category consists of the following:

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19849

(1) Gas sold to industrial customers for feedstock use where the gas volume is more than 200 Mcf and less than 3,000 Mcf on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such customer must prorate its demand for gas and must maximize its use of all other sources of as

(2) Small public utility electric generating systems which use less than 3,000 Mcf on an average day.

G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve customers whose usage falls within the descriptions of A above and small commercial and industrial customers using 20,000 Kwh or less on an average day.

H. This category consists of the following:

- (1) Gas sold for use by commercial customers in excess of 1,500 Mcf on an average day.
- (2) Small industrial customers not qualifying under C, D, E, or F above.

I. All gas sold for use in existing power generating plants for the generation of electricity not included in G and C(4) above.

J. This category consists of the following:

- (1) Gas sold to large users of gas, in excess of 3,000 Mcf on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics.
- (2) Gas sold for feedstock as defined in F above, in excess of 3,000 Mcf on an average day.

K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 Mcf on an average day and any other use which does not qualify under a preceding priority.

14.3 METHOD OF CURTAILMENT

Curtailement shall be ordered ratably insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities 1 and 2. Total curtailement during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

14.4 CLASS AND GROUP CURTAILMENTS

No curtailement shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailement of service.

14.5 NOTIFICATION AND PENALTIES

The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any customer (other than a customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened.

14.6 SUSPENSION OF THIS SECTION

This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

LINE EXTENSION POLICY

<u>POLICY ID</u>	<u>DESCRIPTION</u>
1211	<p>TEXAS GAS SERVICE COMPANY Texas Tariff - Kyle/Buda Service Area Unincorporated Kyle/Buda (From Quality of Service Rules effective 04/30/2008) EXTENSION OF FACILITIES 01.06.01 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation. 01.06.02 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 01.06.03 INITIAL ALLOWANCE FOR POTENTIAL PERMANENT CUSTOMERS The Company shall also determine the number of Potential Permanent Customers located along the route of the extension which are expected to be served therefrom. To be considered a Potential Permanent Customer, the occupant of such premise must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be considered to be Potential Permanent Customers only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 25 feet of distribution main shall be given for each Potential Permanent Customer who files an application for service from the proposed main extension to a facility that exists at the time of the application and who agrees to initiate gas service upon completion of the extension. 01.06.04 ADVANCES The difference between the total cost of facilities as determined in Section 01.06.02 above and the Initial Allowance for Potential Customers as determined in Section 01.06.03 above, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less. 01.06.05 CONSTRUCTION OF FACILITIES As soon as practical, usually within 60 days, after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicants(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the company's name and on its form at no cost to the Company (except for fees involved in the recording of documents). 01.06.06 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall</p>

TARIFF CODE: DS RRC TARIFF NO: 19849

thereafter review the extension agreement at its second through fifth in-service anniversary dates or based upon dates established in a separate contract. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Section 01.06.03 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be up to \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service. 01.06.07 REFUND LIMITATIONS The Company may, at its sole option, make a refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the initial advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction. 01.06.08 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made to his or her assignee. If that letter is returned undelivered, the check shall be canceled and the next review made without regard to that refund.

All sums described in this Section which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

01.01.01 GENERAL STATEMENT
 OF PURPOSE These Service Regulations Provide specific rules to be followed by the Company
 in supplying natural gas utility service and by the Customer in using such service. Are
 designed to provide good service, fair treatment, and maximum safety to the natural gas
 utility Customers and to the Company. Are officially on file in the City Clerk's office and
 the Railroad Commission of Texas Gas Utilities Division. Copies are available to natural gas
 utility Customers at the Company's Austin offices. Supersede and annul all previous service
 regulations pertaining to the supplying and taking of the Company's natural gas service.
 Subsequent revisions to these policies and procedures may be made with the approval of the
 appropriate regulatory authority.

01.01.02 GENERAL OPERATING
 POLICIES Service under this Tariff is subject to the original jurisdiction of the Railroad
 Commission of Texas. It is the policy of the Company to cooperate with charitable and
 welfare organizations assisting Customers in paying and planning for payment of their bills.
 Free service shall not be rendered by the Company to any Customer. All Customers within the
 Company's service area shall be served in accordance with the prices, terms and conditions
 provided for in applicable Tariffs and regulations. It is the on-going policy of the Company
 to provide utility services in a fair, equitable, and courteous manner to all Customers.

UTILITY SERVICE
 REGULATIONS GENERAL RULES PART 01.00.00 Definitions Section 01.02.01
 Page 2 01.02.01

ACCOUNT An account is the record of consumption, charges and payments for services rendered
 to a Customer at a specific service address. Active Account - An account is active when any
 service is available to the Customer at the service address specified for that account.
 Inactive Account - An account is inactive when all service is terminated for the Customer at
 the service address specified for that account.

01.02.02
 APPLICANT Any person, organization or group of persons or organizations making a formal
 request either orally or in writing for gas service from the Company.

01.02.03 BILLING MONTH An
 interval of approximately thirty (30) days between successive meter reading dates.

01.02.04 COMMERCIAL OFFICE
 A department of the Company's local operations responsible for Initiation and termination of
 service. Regular readings of meters. Regular billing for service (including resolving
 related billing problems and inquiries). Collection of and accounting for accounts
 receivable. 01.02.05 COMMERCIAL

SERVICE Service to Consumers engaged primarily in the sale or furnishing of goods and
 services and any usage not otherwise provided for.

CONSUMER Any person or organization receiving and using gas from the Company for his or her own needs whether or not the gas is billed directly to him or her, or to a second party. (For example, in the case of rental unit where the utilities are part of the rent, the landlord is a Customer and the tenant is a Consumer).

01.02.07 CREDIT SECURITY

That which is required by the Company to cover risk of nonpayment by Customer for utility services rendered. 01.02.08

CUSTOMER Any individual, partnership, association, firm, public or private corporation, governmental authority, or other legal entity being billed for gas utility service by the Company at any specified service address.

01.02.09 CUSTOMER'S PIPING

All piping and equipment installations on the Customer's side of the meter must be in conformance with applicable City codes. Customer piping must pass applicable pressure testing before initiation of natural gas service.

01.02.10 CUSTOMER PAYMENT

STANDARDS The minimum payment practices a natural gas utility Customer must meet in lieu of providing other forms of credit security.

01.02.11 HAZARDOUS WEATHER

CONDITIONS The average daily temperature is freezing or below; or the average daily temperatures are predicted to be freezing or below over a 24-hour period.

UTILITY SERVICE REGULATIONS

GENERAL RULES PART 01.00.00 Definitions Section 01.02.12 Page
4 01.02.12

METER The meter or meters, together with auxiliary devices, if any, constituting the complete installation needed to measure the natural gas supplied to any individual Customer at a single point of delivery.

01.02.13 NOTICE Unless otherwise specified, a written notification delivered personally or mailed by one party to the other at such other party's last known address, the period of notice as required by any applicable section of these Regulations being computed from the date of such personal delivery or mailing.

01.02.14 POINT OF DELIVERY

The outlet of the Company's meter where it connects to Customer's piping.

01.02.15 REGULATORY AUTHORITY

The City has original jurisdiction over the Company's rates and service regulations within the municipal boundaries of the City according to state law. Appellate jurisdiction rests with the Railroad Commission of Texas. Outside the municipal boundaries, the Railroad Commission of Texas has original jurisdiction over the Company's rates and service regulations. 01.02.16

SERIOUS ILLNESS Any illness wherein termination of natural gas service would be especially dangerous to that person's health as certified by a licensed physician.

01.02.17 SERVICE ADDRESS

Specified address of a location which can receive natural gas utility service provided by the Company. A valid Service Address shall contain the street name and house number and, when applicable, the building, unit and/or suite number. The Service Address must be visible from the street which serves that structure. UTILITY SERVICE REGULATIONS GENERAL RULES PART

01.02.18 SERVICE CONTRACT

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19849

A service contract, whether or not in writing, exists between a Customer and the Company when the Company supplies service and the Customer accepts it. A Customer accepts natural gas service: when the Customer or Customer's agent requests utility service and the Company provides it, or when the Customer, though not requesting service, knowingly receives service for more than seventy-two (72) hours, benefits from the service, and does not request discontinuance in writing prior to the expiration of the seventy-two (72) hour period. All rights and obligations under this contract are governed by state and federal law, applicable rate ordinances and by these regulations, including any amendments to the foregoing, in effect at the time when service is rendered. Subject to the foregoing, every service contract shall obligate the Customer to pay for service rendered, and shall obligate the Company to continue providing service for so long as the Customer pays for such service on a timely basis by paying for service rendered by the due date printed on the bill.

01.02.19 SERVICE PIPE The Company owned piping, connecting Company's distribution facilities to the yardline at the property line. 01.02.20

YARDLINE The piping carrying natural gas on the Customer's property between the property line and meter. UTILITY SERVICE

REGULATIONS GENERAL RULES PART 01.00.00 Customer Relations and Section
01.03.01 Public Information Page 6

01.03.01 FACILITIES Upon request, the Company will provide information regarding the physical locations, size, capacity and other pertinent data regarding its facilities based on information available to it for any valid purpose relating to the provision of gas service.

01.03.02 AVAILABILITY AND DISTRIBUTION OF RATE SCHEDULES AND UTILITY SERVICE REGULATIONS All Customers living within the City shall be served under rate schedules filed with the City and Railroad Commission of Texas. All Customers living outside of the city shall be served under rate schedules on file with the Railroad Commission of Texas. Customers shall be assigned to rate schedules in accordance with the class of the particular Customer, the usage which will be made of the gas and that Customer's volume requirements. The Company shall advise the Applicant or Customer how to secure the most advantageous rate schedule available for his usage. A Customer assigned to a rate schedule shall remain on that schedule for a minimum of one year except that an assignment made in error shall be corrected immediately. Questions regarding a nonresidential Customer's classification shall be determined by the location of the Customer's primary business in the latest edition of the Standard Industrial Classification Manual of the United States Government's Office of Management and Budget. The Company shall post a notice in a conspicuous place in its Commercial Offices informing the public that copies of the following are available for inspection: - rate schedules, - utility fees and deposit schedules; and - utility service regulations.

UTILITY SERVICE REGULATIONS

Public Information Page 7

01.03.03 CHANGE IN RATE SCHEDULES AND CLASSIFICATIONS The Company shall provide public notice of any proposal for a change in rates or service classification, that has been made by the Company, prior to its adoption. Such notice shall be made by newspaper publication and shall include information on the proposed changes, the impact of the changes on the Company's revenues, the class of Customers affected by the proposed changes and whether the proposed changes are major changes as defined in the Gas Utility Regulatory Act. The notice shall also inform the Customers that the proposed changes are on file at the City, the Railroad Commission of Texas Gas Utilities

Division and at the Company's Commercial offices.

01.03.04 METER READING Upon request the Company shall inform its Customers how to read its meters.

01.03.05 CUSTOMER'S RIGHTS

The Company shall annually provide each residential and small commercial Customer with a summary description of: Customer rights; and Company obligations under these rules. This information shall be provided in English and Spanish. New residential and small commercial Customers shall be provided with the description no later than the date they receive their first bill.

01.03.06 SERIOUS ILLNESS

The Company will use its best efforts to not discontinue service to a delinquent residential Customer who permanently resides in an individually metered dwelling unit if the Customer establishes that discontinuance of service will result in some person residing at the residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this Section must make a written request to the Company, supported by a written statement from a licensed physician. The request and physician's statement must be received by the Company no more than five working days after the date of delinquency of the bill. The Company shall not terminate service for twenty days after the request and physician's statement is received unless the Company and Customer agree to an earlier termination date. A Customer who makes a request for nontermination of service under this section must sign an installment agreement providing for payment of the delinquent service and timely payments of subsequent monthly billings. Failure to comply with the terms of the installment agreement or to make timely payments of subsequent bills may result in termination of service pursuant to Sections 02.07.01 - 02.08.06.

01.03.07 COMPLAINTS The Company shall make a prompt and suitable investigation of complaints made either in person, in writing, or by telephone and will advise the complainant of the results thereof.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.01 Page 9 01.04.01

EXECUTION OF SERVICE CONTRACT A service contract exists between the Company and parties who properly execute an application for service or service contract; or accept or use gas service supplied by the Company under the conditions set forth in Section 01.02.18 or under other conditions that would give rise to an obligation to pay for such service regardless of whether an express agreement, written or oral, exists between the Company and any such party.

01.04.02 SUPPLYING OF SERVICE

Utility service is supplied only under and pursuant to these Regulations, any modifications or additions thereto lawfully made, and such applicable rate schedules as may from time to time be lawfully fixed, and pursuant to other tariffs then in effect; at such points of delivery as are adjacent to facilities of the Company that are adequate and suitable as to capacity and character for the service desired; and to installations in conformance with applicable city, federal, state, or town codes. If a Customer wishes to change the point of delivery and/or capacity of the service or require another service the Customer shall bear the cost for any necessary change in accordance with the appropriate rate schedule, and pay any fees necessary for this action. Service will not be supplied to any premises if, at the time of application for service, the Applicant is indebted to the Company for service previously supplied at the same or another address until payment has been made or an acceptable payment agreement has been initiated for such indebtedness. Service will not be supplied for failure to pay the unpaid bill of

 Customer at the same address if such person still resides at the premises to be served or if
 the Applicant received a beneficial use of the utility service provided the previous Customer.

01.04.03 CONTINUITY OF
 SERVICE The Company will use reasonable diligence to supply steady and continuous service but
 does not guarantee the service against irregularities or interruptions. Under certain
 circumstances it may be necessary to curtail Customers of any class. The procedure for such
 curtailments is located in Sections 01.08.01 - 01.08.06. The Company may interrupt service
 during periods of supply or capacity curtailment; when necessary to repair, change, or
 relocate the Company's distribution systems; without incurring any liability; and for such
 periods as may be reasonably necessary to make such repairs or changes.

01.04.04 CUSTOMER'S
 RESPONSIBILITIES The Customer assumes all responsibility on the Customer's side of the point
 of delivery for the service supplied or taken. Maintenance of Facilities The Customer shall
 maintain all facilities owned by him and shall be responsible for the safe conduct and
 handling of the gas after it passes the point of delivery. The Company shall not be
 responsible for inspection, maintenance or repair of Customer-owned piping or appliances. The
 Company shall not be liable for any damages to persons or property resulting from the
 condition of the Customer's piping or appliances except to the extent that the damages are
 occasioned by the gross negligence or willful misconduct of the Company. UTILITY SERVICE

REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.04
 Page 11 The Customer shall take all reasonable means to assure than no one
 other than an employee of the Company shall adjust, repair, disconnect or change the meter or
 other Company facilities in any way. In case of loss or damage to the Company's property from
 the negligence or willful acts of the Customer, the Customer will reimburse the Company for
 all costs of repairing or replacing the damaged property. Interruptions in Service The
 Company shall not be liable for damages occasioned by interruption of service, failure to
 commence service or delays in commencing service due to (i) accident or damage to the
 Company's pipelines, regulators and other gas distribution facilities, (ii) strikes, riots, or
 acts of war, (iii) orders of any court or judge granted in any bonafide adverse legal
 proceedings or any order of any regulatory authority having jurisdiction, (iv) acts or
 circumstances beyond the Company's control, and (v) the negligence of the Company, its
 employees or contractors, except to the extent that the damages are occasioned by the gross
 negligence or willful misconduct of the Company. Right-of-Way - The Customer shall make or
 procure conveyance to the Company of perpetual right-of-way: satisfactory to the Company,
 across the property owned or controlled by the Customer, for the Company's lines or
 extensions thereof, or other equipment necessary or incidental to the supplying of service to
 the Customer, and without reimbursement to the Customer from the Company. Access to the
 Premises - The Customer shall maintain the premises in such a manner that the Company's
 agents: shall be able to verify the valid Service Address of the premises from the street;
 and shall have safe and unobstructed access to all portions thereof, at all reasonable
 hours, for the purpose(s) of UTILITY SERVICE REGULATIONS GENERAL RULES PART

01.00.00 Service Contracts Section 01.04.04 Page 12 -
 maintaining, removing, or replacing the Company's property; - reading meters; and - all
 other purposes incident to the supplying of service to the Customer. Location of Service
 Connections - The Customer's service connections are to be located on the side of the house at
 a point readily accessible to the Company's service facilities. The service connection point
 is to be determined by the Company, and such point may be relocated if deemed necessary by the
 Company.

01.04.05 REMETERING
 AND RESALE OF SERVICE Service is supplied directly to the Customer through the Company's own

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19849

meter. Utility service shall not be metered for resale, or otherwise resold by a Customer, for a price higher than the price charged to the Customer by the Company. The Company may, after notice and opportunity for hearing, discontinue supplying of utility service to a Customer to prevent a violation of this provision.

01.04.06 SERVICE TO ADJACENT PREMISES No Customer may extend or connect the Customer's installation to utility lines across or under a public street, alley, right-of-way space, or other private space, including property lines, in order to obtain service for adjacent property through one meter, even though such adjacent property is owned, controlled, or occupied by the Customer. The Company may terminate service to a Customer after notice and opportunity for hearing until any violation of this subsection is discontinued. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Service Contracts Section 01.04.06 Page 13
However A Customer who owns adjacent properties which are developed and operated as a unified apartment, office, commercial, or industrial project, may extend or connect the installation to lines across or under the property lines of said adjacent properties in order to service said properties through one meter, for as long as the above stated condition continues.

01.04.07 COMPANY'S RIGHT TO CANCEL SERVICE CONTRACT Exercise of or failure to exercise any one or more of the following remedies does not affect the Company's right to resort thereafter to any one or more of such remedies for the same or any future default or breach of the service contract by the Customer: Remedies: terminate service as provided for in Sections 02.07.01 - 02.08.06 of these Regulations; cancel service contract(s); and resort to any other legal remedy.

01.04.08 PERSONS AND ENTITIES WHO ARE RESPONSIBLE FOR PAYMENT OF UTILITY SERVICES When the Customer fails, refuses, or is unable to pay for services rendered, the Company may require payment from the Customer or from any other person, corporation, or other legal entity who is liable to the Company for the services rendered under any law or legal doctrine available in this state.

KyBd2b TEXAS GAS SERVICE COMPANY Texas Tariff - Kyle/Buda Service Area Unincorporated Kyle and Buda, Texas Effective 04/30/08 (Continued) UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Appeals and Hearings Section 01.05.01 Page 14

01.05.01 APPEALS Customers objecting to the actions, policies, or decisions of the Company with regard to utility service may informally appeal to the Company in person; or by telephone to attempt a resolution administratively. When an informal appeal is made, a document shall be prepared by the Company representative to indicate: the reason for the informal appeal; the persons present during the meeting; and the decision of the Company representative. If the problem is not resolved by an informal appeal, the Customer shall be given written notice of his/her right to a formal appeal hearing pursuant to this subsection of these Regulations. Such notice shall indicate: the steps the Customer must take to initiate the appeal, including providing the name of the officer and the address to which the appeal shall be made; whether failure to initiate the appeal within three (3) days of the date of the notice may result in termination of service to the account in question; and the procedure for obtaining a copy of the rules for the formal hearing. A request for a formal appeal hearing before the designated Hearing Officer will not be granted when the Customer's only complaint regards the: determination of reasonableness or the denial of a deferred payment agreement under Sections 02.05.01 - 02.05.05 of these Regulations; Customer's financial inability to pay for services rendered and there is no dispute as to the accuracy of the billing or the Customer's liability; or the design and fairness of the rate schedule.

TARIFF CODE: DS RRC TARIFF NO: 19849

GENERAL RULES PART 01.00.00 Appeals and Hearings Section 01.05.01
Page 15

01.05.02 HEARINGS The time, date and place of a formal appeal hearing shall be provided to the Customer requesting a formal hearing. The hearing shall be held not more than five (5) business days from the date of the Customer's request. The Customer may appear in person or be represented by counsel or both, and shall be afforded the opportunity to confront and question adverse witnesses at the hearing. The formal legal rules of evidence shall not apply. The formal appeal hearing shall be before a Hearing Officer: appointed by the Company Vice-President - Central Texas for the purpose of hearing such appeals, not under the supervision of the Commercial Office Manager; and not a participant in the previous decision now under review. The Hearing Officer shall be the sole judge of the evidence and credibility of witnesses and the facts as well as the applicability of the rules and regulations of the Company; and render his/her final decision in writing to all parties concerned at the close of the hearing or within five (5) business days of its conclusion.

01.05.03 RESULTS OF HEARINGS

In the event the decision reached at a formal appeals hearing is against the Customer, the Hearings Officer shall instruct the Company and Customer what action, if any, must be taken by the Customer to maintain utility service; and set a reasonable period of time in which the Customer must take such action. In the event that payment of a bill is involved, the Customer shall be allowed three (3) business days to pay such amount. In the event the decision reached at a formal appeal hearing is in favor of the Customer, in whole or part, the Hearings Officer shall instruct the Company and Customer what corrective action shall be taken and the Company shall take action within a reasonable time, which time may be set by the Hearing Officer; and instruct the Customer to pay or make acceptable arrangements for payment of any amount of disputed billing found to be accurate, within three (3) business days or by the due date of the billing whichever is later.

01.05.04 CONTINUITY OF

SERVICE DURING APPEAL During the pendency of the formal appeal, the Customer's utility service shall be continued if not terminated prior to a valid formal appeal. In the event utility service was terminated prior to a valid formal appeal hearing utility service will be re-initiated upon payment of the initiation fee and payment of an amount consistent with that Customer's previous year's usage for the same billing period, or an amount consistent with usage of similar residential units in the same area, if the Customer has no previous service history. If applicable, correction of any condition which caused service to be terminated must be corrected prior to re-initiation of service. the initiation fee will not be charged if the Hearing Officer's decision is in favor of the Customer in whole or part.

Page 17

01.05.05 FAILURE OF COMPANY TO COMPLY The failure of the Company to comply with any time provision contained herein shall in no way result in the Company's waiving its right to see termination of service for the reasons specified in these Regulations.

UTILITY SERVICE REGULATIONS
GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.01
Page 18

EXTENSION OF FACILITIES
01.06.01 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19849

extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation.

01.06.02 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.

01.06.03 INITIAL ALLOWANCE FOR POTENTIAL PERMANENT CUSTOMERS The Company shall also determine the number of Potential Permanent Customers located along the route of the extension which are expected to be served therefrom. To be considered a Potential Permanent Customer, the occupant of such premise must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be considered to be Potential Permanent Customers only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters

UTILITY SERVICE REGULATIONS
 GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.03
 Page 19 served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 25 feet of distribution main shall be given for each Potential Permanent Customer who files an application for service from the proposed main extension to a facility that exists at the time of the application and who agrees to initiate gas service upon completion of the extension.

01.06.04 ADVANCES The difference between the total cost of facilities as determined in Section 01.06.02 above and the Initial Allowance for Potential Customers as determined in Section 01.06.03 above, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less.

01.06.05 CONSTRUCTION OF FACILITIES As soon as practical, usually within 60 days, after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicants(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the company's name and on its form at no cost to the Company (except for fees involved in the recording of documents).

TARIFF CODE: DS RRC TARIFF NO: 19849

GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.06 Page 20

01.06.06 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates or based upon dates established in a separate contract. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Section 01.06.03 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be up to \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service.

01.06.07 REFUND LIMITATIONS The Company may, at its sole option, make a refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the initial advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

01.06.08 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made to his or her assignee. If that letter is returned undelivered, the check shall be canceled and the next review made without regard to that refund. All sums described in this Section which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Extension of Facilities Section 01.06.08 Page 21

01.07.01 CUSTOMER OWNED SYSTEMS Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. Company shall provide service through a master meter into the piping systems of others to be distributed to more than one Consumer, except when the gas is resold to those Consumers.

UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section 01.08.01 Page 23

01.08.01 CURTAILMENTS When the capacity of the Company's system or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with these regulations.

01.08.02 PRIORITY All Customers served by the Company shall be classified into one of the following priority groups.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19849

A. Gas sold for use in residences and by hospitals, schools, universities, colleges, churches, public safety buildings, multi-family dwellings and apartments, for uses other than electric generation. B. Gas sold for agricultural purposes. C. This category consists of the following: 1. gas sold to small commercial and small industrial Customers using 200 MCF or less on an average day; 2. gas sold to industrial Customers as plant protection gas, which is defined as the minimum gas required to prevent physical harm to the plant facilities or danger to plant personnel, including but not limited to gas for pilot lights. This includes the protection of such material in process as would otherwise be destroyed, but shall not include gas required to maintain plant production; 3. gas sold to commercial or industrial Customers used to provide water heating, heating and cooling for human comfort in the plant or office areas; UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section 01.08.02 Page 24 4. gas sold for use in power generating plants for start up, safety and flame stabilization. D. Gas sold to commercial Customers using more than 200 MCF, but less than 1,500 MCF on an average day. E. Gas sold to small industrial Customers using more than 200 MCF and less than 3,000 MCF on an average day, provided such user has no economically feasible alternate fuel. F. This category consists of the following: 1. gas sold to industrial Customers for feedstock use where the gas volume is more than 200 MCF and less than 3,000 MCF on an average day; feedstock being defined as natural gas used for its chemical properties as a raw material in creating an end product. Any such Customer must prorate its demand for gas and must maximize its use of all other sources of gas; 2. small public utility electric generating systems which use less than 3,000 MCF on an average day. G. Gas sold for use in existing power generating plants for the generation of electricity which is used to serve Customers whose usage falls within the descriptions above and small commercial and industrial Customers using 20,000 KWH or less on an average day. H. This category consists of the following: 1. gas sold for use by commercial Customers in excess of 1,500 MCF on an average day; 2. small industrial Customers not qualifying under any of the above. I. All gas sold for use in existing power generating plants for the generation of electricity not included in any of the above. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Curtailments Section 01.08.02 Page 25 J. This category consists of the following: 1. gas sold to large users of gas, in excess of 3,000 MCF on an average day, for fuel for which alternate fuels are not technically feasible, such as in applications requiring precise temperature controls and precise flame characteristics. 2. gas sold for feedstock as defined above, in excess of 3,000 MCF on an average day. K. Gas sold for any use, including boiler fuel and other indirect flame applications, in excess of 3,000 MCF on an average day and any other use which does not qualify under a preceding priority.

01.08.03 METHOD OF CURTAILMENT Curtailment shall be ordered ratably insofar as feasible within each priority group served by the same system; provided, however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities A and B. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

01.08.04 CLASS AND GROUP CURTAILMENT No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher lettered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service.

PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, of the extent and amount of the curtailment required from him or her. If, after notification, any Customer (other than a Customer in Priority A) fails to curtail during the required period, or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priorities A and B is threatened.

01.08.06 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

01.08.07 JURISDICTION OVER CURTAILMENT POLICY Jurisdiction over the curtailment policy set forth in Sections 01.08.01 - 01.08.07 lies with the Railroad Commission of Texas. The Company may change its curtailment policy from time to time if approved or ordered by the Railroad Commission of Texas. UTILITY SERVICE REGULATIONS GENERAL RULES PART 01.00.00 Equal Payment Plan Section

01.09.01 Page 27

01.09.01 PAYMENT PLAN Any Residential Customer may elect to participate in the Company's Average Bill Calculation (ABC) Plan for payment of charges for gas service as may be modified from time to time. Should the Company modify the plan, the Company will notify Customers of the changes made upon their request for enrollment. In general, the conditions under which a Customer may participate in the ABC Plan are set forth below: a) The Company reserves the right to adjust the monthly plan payments of any Customer at any time for changes in conditions or rates. b) The Company shall advise each Customer in the ABC Plan of the monthly plan payment to be paid by the Customer. Each Customer in the ABC Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of that month's plan payment. The Customer shall continue to pay the monthly plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. c) Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly plan payment. d) Interest will not be charged to the Customer on accrued ABC debit balances nor paid by the Company on accrued ABC credit balances. e) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the ABC Plan. f) Any Customer's participation in the ABC Plan may be discontinued by the Company if the monthly plan payment has not been paid on or before the due date of the monthly plan payment. g) If any Customer in the ABC Plan shall cease, for any reason, to participate in the ABC Plan, then the Company may refuse that Customer's reentry into the ABC Plan until the following August.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.01.01 Application for Service Page 28

02.01.01 WHERE TO APPLY Anyone requesting utility service provided by the Company shall apply to one of the Company's Commercial Offices.

02.01.02 IDENTIFICATION AND INFORMATION Applicants for service can be required to provide the following form(s) of identification or information: a valid Texas Driver's License with photograph; or a valid identification card, with photograph, issued by the Texas Department of Public Safety; or a Social Security Number; or a working telephone number; or two valid verifiable forms of identification. A listing of forms currently accepted by the Company is available on request. Failure to comply with this section can result in refusal of service. (See Section 02.02.01 of these Regulations.)

02.01.03 CREDIT SECURITY

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 19849

Before service will be initiated Applicants must establish credit as required for the type of service requested; pursuant to Sections 02.03.02 and 02.03.03.

02.01.04 ADDRESS VERIFICATION
 Applicants for service may be required to obtain, and produce on request, verifiable proof of their right to occupy a specific service address as of a specific date of occupancy.

02.01.05 FEES AND PAYMENT
 In addition to establishing credit security, Applicants for service must pay whichever of the following fees are required for the service requested. After Hours Fee - charged to any Applicant whose request to initiate service cannot be worked UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.01.05 Application for Service Page 29 during normal business hours. Applicant must be advised that an after hours fee will be charged and must agree to pay such charge. Read-In Fee - charged to any Applicant for initiation of service when only a meter reading is required. Initiation Fee - charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when a meter is set or the Applicant's appliances are lighted. Payment of the above fees is due with the first bill for service. Sections 04.01.01 and 04.01.02 of these Regulations contain the current schedule of fees and cash deposits. Only U.S. currency, personal checks, money orders or cashier checks are accepted as payment for cash amounts due for fees, deposits, or charges incurred by utility Customers or Applicants. 02.01.06

NONRESIDENTIAL SERVICE Applicants for nonresidential service must provide the Company with all information necessary to estimate the cost of two (2) regular billing months of service at the service address where they wish to initiate service. The Company's estimate shall be used to calculate the necessary credit security required for service initiation; and may be required to obtain and produce valid verifiable proof of their right to contract for the entity requesting the service.

UTILITY SERVICE
 REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.02.01 Refusal of Service Page 30

02.02.01 SUFFICIENT
 GROUNDS The Company may decline to initiate service to any Applicant for any of the following reasons: if the Applicant is not in compliance with the state, federal or municipal regulations governing the service applied for; if the Applicant's installation or equipment is known to be hazardous or of such character that satisfactory service cannot be given; if the Applicant responsible for payment of utility services as set forth in Section 01.04.08 is indebted to the Company for utility service, provided, however, that in the event the indebtedness of Applicant is the subject matter of a pending formal appeal hearing, the Applicant shall be served, if in compliance with the remainder of this section; if the Applicant does not comply with the application for service requirements or the credit security requirements set by the Company for the service requested; if the Applicant or the building or structure to be served does not comply with the City's Electric Code, Plumbing Code, Energy Conservation Code, Building Code, Mechanical Code, or Fire Code; if the Applicant or the building or structure to be served is not in compliance with any city regulation or state or federal statute which provides for refusal or termination of service as a penalty; or if the building structure to be served is not connected to the Company's distribution facilities.

02.02.02 RIGHT OF
 APPEAL In the event the Company shall refuse service to an Applicant under the provisions of these regulations the Company must inform the Applicant of the basis for its refusal; and that the Applicant may appeal such decision pursuant to Sections 01.05.01 - 01.05.05 of these Regulations. UTILITY

credited to the Customer's account, or refunded in full.

02.03.06 DISPOSITION
OF UNCLAIMED CASH DEPOSITS A record of each unclaimed deposit will be maintained for a period of seven (7) years, during which time the Company shall make a reasonable effort to return the deposit. After seven (7) years the deposit will become the property of the State of Texas.

02.03.07 FAILURE TO COMPLY Failure to comply with credit security requirements makes an active account subject to termination of service pursuant to Section 02.09.00 of these Regulations.

UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.01
Billing and Payment Page 34

02.04.01 BILLING PERIODS Bills are rendered at regular monthly intervals unless otherwise authorized or unless service is rendered for a period of less than a month.

02.04.02 INFORMATION REQUIRED ON THE BILL The Customer's bill shall show all of the following information: the date and meter reading at the beginning and at the end of the period for which the bill is rendered; the number and kind of units metered; the applicable rate classification; separate charges for cost of service and cost of gas, if treated separately in the rate ordinance; the total amount due for utility service and tax; the date the bill is due and by which the Customer must pay the bill; a distinct marking to identify an estimated bill; any conversions from meter reading units to billing units, or any other calculations to determine billing units from recording to other devices, or any other factors used in determining the bill; the explanation of charges shall be in English and Spanish. The information required by this subsection shall be arranged to permit the Customer to compute his bill by using the applicable rate schedule which shall be supplied when requested by the Customer.

UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.03
Billing and Payment Page 35

02.04.03 PAYMENT All bills for service are due by the date printed on the bill. If the payment in full is not received in the Company's office by the date printed on the bill, the bill shall be considered delinquent. If a Customer does not receive his or her bill(s), the obligation to make payment for service rendered is not released or diminished.

02.04.04 BILLING ADJUSTMENTS If any meter is found to be outside the accuracy standards established by these Regulations, proper correction shall be made of previous readings for the period of six (6) months immediately preceding the removal of such meter from service for the test, or from the time the meter was in service since last tested, but not exceeding six (6) months, as the meter shall have been shown to be in error by such test, and adjusted bills shall be rendered. No refund is required from the Company except to the Customer last served by the meter prior to the test. If a meter is found not to register for any period unless bypassed or tampered with, the Company shall make a charge for units used, but not metered, for a period not to exceed three (3) months, based on amounts used under similar conditions during the period preceding or subsequent thereto, or during corresponding periods in previous years. If a meter, though otherwise meeting the accuracy standards established by these Regulations, does not register proper consumption (because of improper installation or for any other reason) the total amount overbilled or underbilled to the Customer shall be adjusted. The total amount overbilled or underbilled shall be adjusted when the overbilling or underbilling results from causes not mentioned above. Overbillings or underbillings in this category would include, but

shall not be limited to, those caused by: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.04 Billing and Payment. Page 36 - the failure to read a meter; - the misreading of a meter; - the application of an improper rate schedule; or - typographical or computational errors. In any case of underbilling, the Company may offer to such Customer a deferred payment plan option for the same length of time as that of the underbilling. Reimbursement or collection shall be made at the rates in effect at the time of each overbilling or underbilling.

02.04.05 CUSTOMER'S RIGHT TO DISPUTE BILLS Customers have the right to dispute any portion of their utility bill.

The Appeals and Hearings Section of these Regulations (Sections 01.05.01 - 01.05.05) covers bill disputes. 02.04.06

DELINQUENCY An active account becomes delinquent when full payment is not received; in the Company's Commercial Office, by the due date printed on the bill. Delinquent accounts are subject to termination of service, pursuant to Sections 02.07.01 - 02.08.06 of these Regulations. 02.04.07

UNLAWFUL USE OF SERVICE Where a condition threatens the public health, safety or resources, in any case of tampering with a meter installation or interfering with the proper function thereof, or any other unlawful use or diversion of service by any person, or evidence of any such tampering, interfering, unlawful use or service diversion, by a Customer who could be reasonably expected to benefit from such action the Customer is subject to: UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.04.07 Billing and Payment Page 37 immediate termination of service; and prosecution under applicable laws. In any case of unlawful use of service the Company shall be entitled to collect from the Customer payment of the costs for all natural gas not recorded on the meter by reason of such tampering, interfering, unlawful use or service diversion, - the amount of which may be estimated by the Company from the best available data, and - billed at the proper rate schedule; and the unauthorized consumption fee plus all other expense incurred by the Company on account of such unauthorized act or acts, such amount based on an itemized statement from the Company.

02.04.08 RETURNED CHECKS Accounts for which payment is made using checks which are returned by a bank for any reason may be charged a returned check fee for each occurrence. The amount of the check will be charged back to the account. Repayment of the returned check shall be made in the form of cash, cashier's check, or money order. The Customer will be sent a written notice which will indicate that the Customer has seven (7) days in which to make full payment of the amount covered by the returned check, or service will be subject to termination. Utility service terminated for nonpayment of a returned check will not be re-initiated until the amount of the returned check and all applicable fees have been paid in full.

UTILITY SERVICE REGULATIONS INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.01 Deferred Payment Agreements Page 38

02.05.01 ELIGIBILITY Any active Customer with a previous balance owed the Company for utility service may apply for a deferred payment agreement. The Company may enter into a deferred payment agreement with a Customer under circumstances the Company determines are reasonable.

02.05.02 DETERMINATION OF REASONABLENESS Factors used in determining reasonableness under these Regulations shall include but not be limited to: size of the previous balance owed the Company; customer's ability to pay; customer's payment history; reasons the debt has not been paid; time that the debt has been outstanding; and any additional factors considered

relevant other than race, religion, gender, or national origin of Customer.

02.05.03 BASIC TERMS

Every deferred payment agreement shall provide that the Company shall not terminate the Customer's service, if the Customer first pays an agreed upon reasonable amount of the outstanding previous balance; pays the current bills, including any applicable fees, when due; and pays the outstanding previous balance, by agreed upon dates, in reasonable installments until that previous balance is cleared.

UTILITY SERVICE REGULATIONS

INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.05.04
Deferred Payment Agreements Page 39

02.05.04 DEFAULT

If a Customer fails to meet the terms of a deferred payment agreement, the Company may terminate service pursuant to Sections 02.07.01 - 02.08.06, and under such circumstances, shall not be required to offer subsequent negotiation of a deferred payment agreement prior to termination.

02.05.05

APPEALS An appeal by a Customer of the determination of reasonableness as defined in Section 02.05.02 above or the denial of a deferred payment agreement shall be conducted pursuant to Sections 01.05.01-01.05.05 of these Regulations.

02.06.01 Transfer of Service Page 40

02.06.01 CUSTOMER

MOVE WITHIN SERVICE AREA When a Customer vacates a Company service address, notice must be given to the Company prior to the date of change. A Customer is responsible for all service supplied to vacated premises until such notice is received and the Company has had reasonable time (no more than six (6) business days) to discontinue service. This section does not abolish or impair any right the Company may have to recover for services rendered pursuant to Section 01.04.08 of this Tariff.

02.06.02 TRANSFER OF

SERVICE Customers wishing to transfer service from one service address to another are subject to the requirements of Sections 02.01.00 through 02.03.00 for the type of service to be supplied at the new location.

02.06.03 CREDIT

SECURITY TRANSFER If the credit security requirement at the new service address is higher than at the Customer's previous service address, an additional cash deposit or new credit security instrument may be required before service will be transferred. If the credit security requirement at the new service address is lower than at the Customer's previous service address, then the Company may, at its option, apply any cash deposit on hand to the balance due for the previous account and refund the difference, if any, to the Customer, requiring new credit security for the new account; or transfer the cash deposit to the new account, applying the difference to the new account or refunding it to the Customer.

Section 02.07.02 Grounds for Termination of Service Page 42

02.07.02

INSUFFICIENT GROUNDS The Company may not terminate utility service for any of the following reasons in and by themselves: delinquency in payment for service by a previous Customer at the service address unless the present Customer is liable for such service under these Regulations or under the law of this State, failure to pay for merchandise or other charges for non-utility service owed to the Company; or failure to pay a bill disputed under the formal appeal provisions set forth in Sections 01.05.01-01.05.05 of these Regulations, until determination is made by the Hearings Officer. The Company may not discontinue service before 8 A.M. or after 7 P.M. on weekdays or at any time on Friday, Saturday, Sunday or a holiday unless the Company's business office is open and service can be reconnected the following day.

_____ UTILITY SERVICE REGULATIONS
INITIATION, CONTINUATION AND PART 02.00.00 TERMINATION OF SERVICE Section 02.08.01
Procedural Requirements for Page 43 Collection and Termination

02.08.01

APPLICABILITY Service subject to termination can be terminated as specified in all provisions of this Section except when service is to be terminated for the following reasons At the Request of the Customer - Service will be terminated within six (6) workings days of the request. No notice to Customer is required. Payment with a Check Returned by a Bank - Sections 02.04.08 and 02.08.02 through 02.08.04 of these Regulations apply to termination of service in these circumstances. Where a Known Dangerous Condition Exists or Where a Condition Threatens the Public Health, Safety, or Resources - Service can be terminated without prior notice and remain terminated as long as the condition exists.

02.08.02 NOTICE

When a Customer's account becomes subject to termination, written notice of the proposed termination shall be given by the Company. The notice shall: be sent by mail to the mailing address of the Customer, unless the service address is different, be printed in English and Spanish; state reasons for the proposed termination; state the Customer's right to a hearing before such termination occurs; and state that the Customer who so desires must request a hearing by contacting the Company at a stated telephone number or in person within and not later than - seven (7) days following the date of the mailed notice,

-----------------	----------------------

ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's

 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8
 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C
 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a

DESCRIPTION

surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

DESCRIPTION

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA BorgSk-IS

TEXAS GAS SERVICE COMPANY Borger/Skellytown Service Area RATE SCHEDULE WNA
WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of Borger and Skellytown, Texas: 10, 20, 40 and 48. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 20406

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds. Initial Rate Schedule Meters Read On and After November 4, 2008

1-1-BorgSk-IS-COSAdj

TEXAS GAS SERVICE COMPANY
Borger/Skellytown Service Area
RATE SCHEDULE 1-1
COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all gas sales rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Borger and Skellytown, Texas.

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing at least thirty (30) days prior to the first billing cycle of July each year at which time rate adjustments will become effective.

C. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment and federal income taxes. In any year, the percentage change in total calendar year operating expenses shall not exceed the greater of 3.5 percent or the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in operating expenses is computed by comparing the operating expenses for the most recent calendar year to the prior calendar year operating expenses (either those from the last rate case or cost of service adjustment filing, whichever is more recent). The rate adjustment will be spread evenly across all weather normalized gas sales volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing gas sales rates for each rate code.

1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20406

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Amortization Expense (Account Nos. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. **Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items*** Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes ***These items will reflect the Materials and Supplies inventories and prepayments levels approved in the most recent general rate case.

3. Federal Income Taxes Calendar year federal income taxes will be calculated as follows: Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Investment Tax Credit (remaining unamortized credit) Multiplied by: Tax Factor (.35/(1-.35) or .53846) Less: Investment Tax Credit (remaining unamortized credit)

4. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections C.1 through C.3 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized gas sales volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (****) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each gas sales rate code. **** The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than thirty (30) days within which to review the proposed annual rate adjustment prior to its taking effect each year for meters read on or after the first billing cycle of July. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

TEXAS GAS SERVICE COMPANY Borger/Skellytown Service Area RATE SCHEDULE 1-INC COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of Borger and Skellytown, Texas. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, a Reconciliation Component, and applicable fees (including franchise fees) and taxes. 2. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year. 3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the

DESCRIPTION

weighted average cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of surcharges or refunds made to customers during the period and any other revenues, costs, or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (e) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit

reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had over collected during the period, it shall credit into the Reconciliation Account an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had under collected during the period, it shall debit into the reconciliation account an amount equal to the average balance multiplied by six percent (6%). F. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. G. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 5. A summary of charges related to uncollectible accounts as described in Section B. 5. (d). This report shall be filed concurrently with the Cost of Gas Statement for December. This Rate Schedule replaces Cost of Gas Clause: Meters Read On and After 1-INC dated 8/24/01 (Borger) and 8/24/01 (Skellytown) November 4, 2008

CURTAILMENT PLAN

<u>PLAN ID</u>	<u>DESCRIPTION</u>
489	<p style="text-align: right;">RAILROAD COMMISSION OF TEXAS OIL AND GAS</p> <p>DIVISION</p> <p style="text-align: right;">GAS UTILITIES</p> <p>DIVISION</p> <p>OIL AND GAS DOCKET</p> <p style="text-align: center;">GAS UTILITIES</p> <p>DIVISION</p> <p>NO. 20-62, 505</p> <p style="text-align: center;">DOCKET NO. 489</p>
	<p>ORDER RELATING TO THE APPROVAL BY THE COMMISSION OF CURTAILMENT PROGRAMS FOR NATURAL GAS TRANSPORTED AND SOLD WITHIN THE STATE OF TEXAS</p>
	<p>After due notice the Railroad Commission of Texas on the 30th day of November, 1972, heard testimony and requested written curtailment priorities from representatives of investor owned and municipal gas utilities companies, private industry consumers and others responsible for directing available natural gas supplies to the consumers of natural gas in the State of Texas.</p>
	<p>WHEREAS, pursuant to the authority granted to the Railroad Commission of Texas in Article 6050 to 6066, inclusive, R.C.S., as amended; and</p>
	<p>WHEREAS, the Commission has determined the need for a curtailment program to assure effective control of the flow of natural gas to the proper destinations to avoid suffering and hardship of domestic consumers; and</p>
	<p>WHEREAS, the Commission has determined a need to make natural gas available to all gas consumers on a reasonable but limited basis during times of needed curtailment to the end that the public will be best served; and</p>
	<p>WHEREAS, the Commission has determined that the transportation delivery and/or sale of natural gas in the State of Texas for any purpose other than human need consumption will be curtailed to whatever extent and for whatever periods the Commission may find necessary for the primary benefit of human needs customers (domestic and commercial consumption) and such small industries as cannot practically be curtailed without curtailing human needs.</p>
	<p>IT IS THEREFORE, ORDERED BY THE RAILROAD COMMISSION OF TEXAS that the following rules relating to the approval by the Commission of curtailment programs for gas transported and sold within the State of Texas shall apply to all parties responsible for directing available and future natural gas supplies to the consumers of natural gas in the State of Texas.</p>
	<p>RULE 1.</p>
	<p>Every natural gas utility, as that term is defined in Article 6050, R.C.S. of Texas, as amended, intrastate operations only, shall file with the Railroad Commission on or before Feb. 12, 1973, its curtailment program. The Commission may approve the program without a hearing; set the matter for a public hearing on its own motion or on the motion of any affected customer of said utility.</p>

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20406

The curtailment program to be filed shall include, in verified form, the following information:

A. Volume of gas reserves attached to its system together with a brief description of each separate source of gas reserves setting forth the following:

1. the name of the supplier,
2. the term of each contract in years, and the years remaining on said contract,
3. the volume of recoverable reserve contracted for, and
4. rated deliverability of such reserves in MCF.

B. Capacity and location of underground storage, if any, attached to its system with a statement of whether the company's storage balance is above or below its desired level for this time, and, if below, what plans has the company made to restore the balance.

C. Peak day and average daily deliverability on an annual basis of its wells, gas plants and underground storage attached to its system.

D. Peak day capacity of its system.

E. Forecast of additions to reserves for each of the next two succeeding years.

F. Location and size of the line pipes, compressor stations, operating maximum line pressures, and a map showing delivery points along the system.

G. Disposition of all gas entering its system, with names of all customers other than residential customers and volumes delivered to each during the past calendar year. Identify those customers using 3,000 MCF gas per day, or more, which are under a service contract, and if such contract includes an Interruptible Service clause, and if so, attach a reproduced copy of the relevant provisions of such contract.

H. Steps taken in past years, being taken at the present, and to be taken to alleviate curtailments.

RULE 2.

Until such time as the Commission has specifically approved a utilities curtailment program, the following priorities in descending order shall be observed:

A. Deliveries for residences, hospitals, schools, churches and other human needs customers.

B. Deliveries of gas to small industrials and regular commercial loads (defined as those customers using less than 3,000 MCF per day) and delivery of gas for use as pilot lights or in accessory or auxiliary equipment essential to avoid serious damage to industrial plants.

GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20406

C. Large users of gas for fuel or as a raw material where an alternate cannot be used and operation and plant production would be curtailed or shut down completely when gas is curtailed.

D. Large users of gas for boiler fuel or other fuel users where alternate fuels can be used. This category is not to be determined by whether or not a user has actually installed alternate fuel facilities, but whether or not an alternate fuel could be used.

E. Interruptible sales made subject to interruption or curtailment at Seller's sole discretion under contracts or tariffs which provide in effect for the sale of such gas as Seller may be agreeable to selling and Buyer may be agreeable to buying from time to time.

RULE 3.

Each gas utility that has obtained Commission approval of a curtailment program shall conduct operations in compliance with such program. So long as any gas utility which has obtained Commission approval of a curtailment program continues to curtail deliveries to its customers, except as provided by contract or those customers included in Part E of Rule 2 above, it

(a) shall file on or before April 1 of each year, under oath, the information called for in Rule 1, for the preceeding year, and

(b) shall not, without Commission approval, make sales of gas to any new customers or increase volumes sold to existing customers, except those new or existing customers defined in Parts A & B of Rule 2 above.

IT IS FURTHER ORDERED that this cause be held open for such other and further orders as may be deemed necessary.

ENTERED AT AUSTIN, TEXAS, this 5th day of January, 1973.

LINE EXTENSION POLICY

POLICY ID	DESCRIPTION
1212	TEXAS GAS SERVICE COMPANY Texas Tariff - Borger/Skellytown MUNICIPALITIES OF BORGER, TEXAS and SKELLYTOWN, TEXAS Borger/Skellytown Service Area - Municipality (From Quality of Service Rules effective 11/04/08)

INSTALLATION OF EQUIPMENT

7.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the meter and the equipment related thereto, including meter valve and service regulator. The entire service shall become the property of the Company and shall be operated and maintained by it.

7.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company as described in Paragraph 7.1 above. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the responsibility for the facilities installed by him or her.

7.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances and shall be properly designed for the pressures and volumes to be handled. In those locations where there are no appropriate ordinances, the applicable provisions of the National Fuel Gas Code, Z223.1 or amendments thereto shall apply.

7.4 CHECKS AND TESTS The Company shall have the right to check new installations prior to institution of service and to make any test of the Applicant's facilities it deems necessary.

7.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company.

EXTENSION OF FACILITIES

8.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation.

8.2 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20406

the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.

8.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 100 feet of distribution main shall be given for each potential Customer whose premises exist at the time of application to be served from the proposed main extension. In order to qualify for this allowance, the Customer must file an application and agree to initiate gas service upon completion of the Company's facilities.

8.4 ADVANCES The difference between the total cost of facilities as determined in Paragraph 8.2 above and the initial allowance, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less.

8.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of documents).

8.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Paragraph 8.3 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the

first year of service.

8.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

8.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five year period of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

This Tariff is applicable in the Municipalities of Borger and Skellytown, Texas. Service under this Tariff is subject to the original jurisdiction of the Municipalities of Borger and Skellytown. The Company will provide service to any person and/or business within its service area in accordance with the prices, terms, and conditions provided for in its Tariff and regulations. 1.2 RATE SCHEDULES All Customers shall be served under rate schedules filed with the Municipalities. Customers shall be assigned to rate schedules in accordance with the class of the particular Customer, the usage which will be made of the gas and that Customer's volume requirements. The Company shall advise the Applicant or Customer regarding the most advantageous rate for his usage if more than one rate is applicable. A Customer assigned to a rate schedule shall remain on that schedule for a minimum of one year except that an assignment made in error may be corrected immediately. In the event of a question regarding the Customer's classification, the questions shall be resolved by reference to the coding of the Customer's primary business in the latest edition of the Standard Industrial Classification Manual of the United States Government's Office Management and Budget. 1.3 DEFINITIONS The following definitions shall apply to the indicated words as used in this Tariff: Company: Texas Gas Service Company. Applicant: Any person, organization or group of persons or organizations making a formal request either orally or in writing for gas service from the Company. Customer: Any person or organization now being billed for gas service whether used by him or her, or by others. The Commission: The Railroad Commission of Texas. The Regulatory Authorities: City Councils of the Cities of Borger and Skellytown, Texas or the Railroad Commission of Texas. Consumer: Any person or organization receiving and using gas from the Company for his or her own appliances or equipment whether or not the gas is billed directly to him or her, or to a second party. (For example, in the case of a rental unit where the utilities are part of the rent, the landlord is a Customer and the tenant is a Consumer.) Domestic Service: Service to any Consumer which consists of gas used directly for heating, air conditioning, cooking, water heating and similar purposes whether in a single or multiple dwelling units. Commercial Service: Service to Consumers engaged primarily in the sale or furnishing of goods and services and any usage not otherwise provided for. Industrial Service: Service to Consumers engaged primarily in a process which changes raw or unfinished materials into another form of product. This classification shall embrace all Consumers included in Division A (except Major Groups 01 and 02) and Division D of the Standard Industrial Classification Manual. Agricultural Service and Irrigation or Irrigation Pumping Service: Service to Consumers engaged in agricultural production (SIC Division A - Major Group 01) who use gas for operating</p>	Section Description	1 General Statement	2 Map of Service Area	3 Rates and Utility Charges	4 Condition of Service	5 Initiation of Service	6 Metering and Delivery of Gas	7 Installation of Equipment	8 Extension of Facilities	9 Customer Owned Systems	10 Security Deposits	11 Gas Measurement	12 Meter Reading and Accuracy	13 Billing and Payment of Bills	14 Curtailments	15 Quality of Gas	16 Service Work	17 Maintenance of Equipment	18 Discontinuance of Service	19 Re-establishment of Service	20 Notice	21 Budget Payment Plan	22 Fees and Cash Deposits	TEXAS GAS SERVICE COMPANY Section 1 Texas Tariff - Borger/Skellytown Service Area

-----------------	----------------------

engine driven pumping equipment. Power Generation Service: Service to Consumers for the purpose of generating electricity. This service may be further divided into direct generation in which the gas is used to power the prime mover and indirect generation in which the gas is burned in a boiler and the generator is steam powered. Firm Service: Service under any rate schedule which does not specifically provide for interruption of service for peak shaving purposes. Firm service is nevertheless subject to the curtailment provisions of this Tariff. Interruptible Service: Service under any rate schedule which specifically provides for interruption of service for peak shaving purposes. Temporary Service: Any service which will not be utilized continuously at the same location for a period of two or more years. General Rate Schedule: A rate schedule available to all Customers of the appropriate class or classes for usages indicated therein. Special Rate Schedule: A rate schedule designed for a specific Customer, but usually available to others of the same class similarly situated through negotiations with the Company. Optional Rate Schedule: A General Rate Schedule which may be selected by a Customer in lieu of another general schedule (may require installation of special equipment). Transportation Rate Schedule: A rate schedule designed for service to any Customer for the transportation of Customer owned natural gas through the Company's distribution system. Alternate or Standby Fuel: Any fuel and the facilities for generating, storing or using such fuel owned by a Consumer for the purpose of continuing the operating of his equipment during periods of interruption of service by the Company. Plant Protection Gas: The minimum gas volumes required to prevent physical harm to plant facilities or danger to plant personnel when such protection cannot be afforded through use of alternate fuel. Feedstock Gas: Gas used as a raw material for its chemical properties in creating an end product. Boiler Fuel Gas: Gas used for boiler fuel to generate steam or hot water regardless of the end use to which the steam or hot water is put. Average Day Usage: The demand of a given Customer for gas in any one month divided by 30. Demand is considered to be equivalent to consumption during each billing month, provided however, that when service has been curtailed, demand shall be considered to be actual consumption plus estimated curtailment during the period. System: Any group of interconnected pipelines or mains owned or operated by the Company and so situated that they will be unaffected by changes in operating of any other such group of facilities. Restricted Service Area: Any service area in which additions of Consumers and/or increases in existing usage is restricted by order of the Regulatory Authority. TEXAS GAS SERVICE COMPANY Section 2 Texas Tariff - Borger/Skellytown Service Area Section 2 Reserved For Map of Service Area. TEXAS GAS SERVICE COMPANY Section 3 Texas Tariff - Borger/Skellytown Service Area Note: Section 3 was originally reserved for filing of the Service Rate Schedules that are now filed separately. TEXAS GAS SERVICE COMPANY Section 4 Texas Tariff - Borger/Skellytown Service Area

CONDITION OF SERVICE 4.1 PROVISION OF SERVICE The Company will provide gas service to any person or organization located within the Municipalities of Borger and Skellytown from its facilities or in certain cases, the facilities of its supplier, in accordance with the provisions of this Tariff including Rate Schedules and Rules of Service. Service provided directly from the facilities of others may be provided only with the approval of the owning company and shall thereafter be continued only as long as gas of satisfactory quality and quantity is available at the location. 4.2 FEES AND CHARGES All fees and charges made by the Company for utility service - gas delivered and that work necessary to maintain service, shall be those provided for in this Tariff. (SEE NOTE BELOW) 4.3 RESALE OF GAS Gas delivered by the Company shall not be redelivered or resold for the use thereof by others unless otherwise expressly agreed to in writing by the Company - except, however, that those Customers purchasing gas for redistribution to the Customer's tenants may separately meter each tenant distribution point for the purpose of prorating the Customer's actual purchase price of gas delivered among the various tenants on a per unit basis. Any other allocation will constitute resale and is prohibited. 4.4

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS	RRC TARIFF NO: 20406
-----------------	----------------------

TRANSPORTATION ACROSS STATE LINES No gas supplied by the Company shall be transported across state lines for any purpose without the express written permission of the Company. Violation of this Paragraph shall be considered cause for immediate disconnection of service without notice.

4.5 CONTINUITY OF SERVICE a) Service interruptions. i) Every gas utility shall make all reasonable efforts to prevent interruptions of service. When interruptions occur, the utility shall reestablish service within the shortest possible time consistent with prudent operating principles so that the smallest number of Customers are affected. NOTE TO SECTION 4.2 FEES AND CHARGES: In the incorporated areas of Borger and Skellytown only, all fees and charges (excluding advances, contributions in aid of construction and deposits) shall be adjusted by the amount which represents the actual gross receipts, occupation, revenue taxes and franchise fees paid by the Company. ii) Each utility shall make reasonable provisions to meet emergencies resulting from failure of service, and each utility shall issue instructions to its employees covering procedures to be followed in the event of an emergency in order to prevent or mitigate interruption or impairment of service. iii) In the event of national emergency or local disaster resulting in disruption of normal service, the utility may, in the public interest, interrupt service to other Customers to provide necessary service to civil defense or other emergency service agencies on a temporary basis until normal service to these agencies can be restored. b) Record of interruption. Except for momentary interruptions which do not cause a major disruption of service, each utility shall keep a complete record of all interruptions, both emergency and scheduled. This record shall show the cause of interruptions, date, time duration, location, approximate number of Customers affected, and, in cases of emergency interruptions, the remedy and steps taken to prevent recurrence. c) Report to commission. The commission shall be notified in writing within 48 hours of interruptions in service affecting the entire system or any major division thereof lasting more than four hours. The notice shall also state the cause of such interruptions. If any service interruption is reported to the commission otherwise (for example, as a curtailment report or safety report), such other report is sufficient to comply with the terms of this paragraph. d) The procedure under which curtailments of service will be made is described in Section 14 of this Tariff. e) The Company does not guarantee uninterrupted service to any Customer and shall not be liable for damages resulting from loss of service.

4.6 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in the Company's Borger Office, its District Office in Borger, and its Division Office in Austin. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it and notice to this effect shall be posted in the office. Upon the request of any Customer or Applicant, the Company shall make copies of the Tariff which may be purchased by the Customer or Applicant at the Company's Borger Office. The Company may charge for each copy a fee which is not in excess of the Company's reasonable cost in reproducing the material.

4.7 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. Upon any Customer's request, the Company shall inform the Customer how to read the Company's meter. The Company shall annually provide each Customer with notice of the availability of a concise description in English and Spanish of the Customer's rights and the Company's obligations under this Tariff. The Company's new Customers shall be provided with a description at the time service is initiated.

4.8 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Complaints which require no further action by the Company need not be

GAS SERVICES DIVISION

recorded. Each complainant shall be advised of his or her right to file the complaint with the regulatory authority if not satisfied by the Company. Upon receipt of a complaint, either by letter or by telephone, from the regulatory authority on behalf of a Customer, the Company will make a suitable investigation and advise the regulatory authority and complainant of the results thereof. An initial response must be made by the next working day. The Utility must make a final and complete response within 15 days from the date of the complaint, unless additional time is granted within the 15 day period. TEXAS GAS SERVICE COMPANY Section 5 INITIATION OF SERVICE 5.1 REGULAR SERVICE Application for service shall be made to the Company's office nearest to the premises to be served. Each Applicant must comply with the appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for residential service under the standard provisions of this Tariff; commencement of service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply. Each Applicant may be required to produce an identification card bearing a photograph of Applicant. 5.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply. 5.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution as specified in Section 22.1 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of Section 8 of this Tariff. 5.4 FEES AND CHARGES The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in initiation of service as specified in Section 22.1 of this Tariff. Whenever the Applicant requests expedited service, the Company will accomplish the work as expeditiously as possible and the Customer will be charged as specified in Section 22.1 of this Tariff. Expedited service and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying Company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling. See Section 22.1 relating to the fees for the above. 5.5 ESTABLISHMENT OF CREDIT Each Applicant for service shall be required to make a Security Deposit in accordance with Section 10 of this Tariff to establish a satisfactory credit standing. These Deposits shall be computed in the same manner for the same class of service, providing however, that a Deposit may be waived if a) The Applicant has been a Customer for the same kind of service within the last two years and did not have more than one occasion in which a bill for service from any such utility service account was paid after becoming delinquent during the last 12 month period of service and no disconnection for non-payment was made; (applicable to residential Customers only); b) The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills; c) The Applicant demonstrates a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification (applicable to residential Customers only); d) The Applicant is 65 years of age or older provided they have no outstanding balance for natural gas utility service which accrued within the last two years (applicable to residential Customers only). e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or f) The application is made for or guaranteed by an agency of the Federal, State or Local

government. 5.6 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons; a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff; b) Failure of the Applicant to furnish any service or meter location specified for service under this Tariff; c) Existence of an unsafe condition such as a leak in the Applicant's piping system which, in Company's opinion, may endanger life or property; d) The Applicant is indebted to the Company for the same class of utility service at the same or another service location within the Company's system; e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for the refusal to serve. 5.7 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending on approvals and permits required, the extent of the facilities to be built, and on the Company's workload at the time. TEXAS GAS SERVICE COMPANY Section 6 Texas Tariff - Borger/Skellytown Service Area METERING AND DELIVERY OF GAS 6.1 METER LOCATION Each Applicant shall furnish and subsequently maintain a suitable location on his premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be accessible for reading, adequately ventilated and not be subject to damage. Meters shall not be located within any enclosed structure not solely intended as a meter house. 6.2 POINT OF DELIVERY The point of delivery of gas from the Company to the Customer shall be at the outlet side of the Company's meter, provided however, that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery. 6.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land shall be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately, provided that any combined billings in effect at the time of adoption of this Tariff may be continued until the affected Customer discontinues service or upon order by the Cities of Borger and Skellytown. 6.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection. TEXAS GAS SERVICE COMPANY Section 7 Texas Tariff - Borger/Skellytown Service Area INSTALLATION OF EQUIPMENT 7.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the meter and the equipment related thereto, including meter valve and service regulator. The entire service shall become the property of the Company and shall be operated and maintained by it. 7.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company as described in Paragraph 7.1 above. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the responsibility for the facilities installed by him or her. 7.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances and shall be properly designed for the pressures and volumes to be handled. In those locations where there are no appropriate ordinances, the applicable provisions of the National Fuel Gas Code, Z223.1 or amendments thereto shall apply. 7.4 CHECKS AND TESTS The Company shall have the right to check new

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20406

installations prior to institution of service and to make any test of the Applicant's facilities it deems necessary. 7.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company.

TEXAS GAS SERVICE COMPANY Section 8 Texas Tariff - Borger/Skellytown Service Area

EXTENSION OF FACILITIES 8.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation. 8.2 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 8.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 100 feet of distribution main shall be given for each potential Customer whose premises exist at the time of application to be served from the proposed main extension. In order to qualify for this allowance, the Customer must file an application and agree to initiate gas service upon completion of the Company's facilities. 8.4 ADVANCES The difference between the total cost of facilities as determined in Paragraph 8.2 above and the initial allowance, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less. 8.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the Company's name and on its form at

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 20406
-----------------	----------------------

no cost to the Company (except for fees involved in the recording of documents). 8.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Paragraph 8.3 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service. 8.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction. 8.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five year period of the extension agreement shall be retained by the Company and considered a contribution in aid of construction. TEXAS GAS SERVICE COMPANY Section 9 Texas Tariff - Borger/Skellytown Service Area CUSTOMER OWNED SYSTEMS 9.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. 9.2 MASTER METERS The Company shall provide service through a master meter into the piping systems of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis; provided, however, that those Customers purchasing gas for redistribution to the Customer's own tenants only on the Consumer's premises may, separately meter each tenant distribution point for the purpose of prorating the Customer's actual purchase price of gas delivered among the various tenants on a per unit basis.

BSk1 b TEXAS GAS SERVICE COMPANY Section 10 Texas Tariff - Borger/Skellytown Service Area SECURITY DEPOSITS 10.1 REQUIREMENTS The Company shall require a security deposit from any present or prospective Customer in accordance with Paragraph 5.5 and 19.1 of this Tariff to guarantee payment of bills, and from any present Customer who during the last 12 consecutive months had on one or more occasion paid their utility bill after becoming delinquent. The amount of the deposit shall not exceed the amount as specified in Section 22.2 of this Tariff. If one-sixth of actual annual use at the particular address is at least twice the amount specified in Section 22.2, a new deposit requirement may be calculated and an additional deposit may be required within two days. Residential deposits shall be retained by the Company until the Customer has paid bills for service for 12 consecutive bills without having service disconnected for non-payment of bill and without having more than two occasions in

GAS SERVICES DIVISION

TARIFF CODE: DS	RRC TARIFF NO: 20406
-----------------	----------------------

which a bill was delinquent and when the Customer is not delinquent in the payment of the current bills. 10.2 RECEIPTS The Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of the receipt. 10.3 INTEREST The Company shall pay interest on all security deposits for the time held at the rate as set by the Public Utility Commission of Texas annually except when - a) the deposit is held 30 days or less; b) notice is sent to the Customer's last known address that the deposit is no longer required; c) the service to which the deposit relates has been discontinued; or d) all or any part of the deposit has been applied to a delinquent account. Interest on deposits earned during the preceding year shall be paid during the first quarter of each calendar year. Payment shall be made either by check or as a credit on the monthly bill at the Company's option. 10.4 RETURN ON DEPOSITS Deposits returned to the Customer in accordance with Paragraph 10.1 above shall be credited to the Customer's account once the good payment record is established. Whenever the deposit of any Customer is credited, the Company shall credit all previously unpaid interest. TEXAS GAS SERVICE COMPANY Section 11 Texas Tariff - Borger/Skellytown Service Area GAS MEASUREMENT 11.1 PRESSURE The standard serving and measurement pressure shall be 4 ounces (0.25 psig) or 7 Water Column above the standard atmospheric pressure in the area served. Standard serving pressure and the atmospheric pressure determined to be the average in Borger and Borger Environs, which applies to the City of Borger, are 13.35 psia and 13.10 psia, respectively. Standard serving pressure and the atmospheric pressure determined to be the average in Skellytown and Skellytown Environs, which applies to the City of Skellytown, are 13.27 psia and 13.02 psia, respectively. The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under a load condition of approximately 10 percent of meter capacity. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted. 11.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one hundred cubic feet (Ccf). A cubic foot for Borger shall be defined as the amount of gas which occupies a volume of one cubic foot at 13.35 psia and at a temperature of 60 degrees Fahrenheit. A cubic foot for Skellytown shall be defined as the amount of gas which occupies a volume of one cubic foot at 13.27 psia and at a temperature of 60 degrees Fahrenheit. Whenever the Company delivers gas at any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation. 11.3 BILLING UNIT Unless otherwise specified on the rate schedules or by special agreement, Customers shall be billed on the basis of Ccf measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. Whenever the meter reads directly in hundreds or smaller units, a reading of one-half a billing unit or more (500 Cf or more) shall be considered a whole billing unit. Readings of less than one-half a unit shall be disregarded for billing. In those cases in which heating value is used as the billing unit, the calculation of the heating value in BTU's shall be made in accordance with Paragraph 11.7 of this Tariff. 11.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods: a) The Company may install pressure or pressure and temperature compensating measurement whenever the cost of this equipment is justified by the volumes

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS	RRC TARIFF NO: 20406
-----------------	----------------------

served. Such measurements shall be equipped with devices which mechanically or electronically correct the actual measured volumes in accordance with Boyles law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 11.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units. 11.5 METERING - SPECIAL POSITIVE DISPLACEMENT

Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing unit or may be furnished with devices designed to correct the actual volumes to the standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correcting devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculations based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specific gravity of the gas shall be assumed to be the value last indicated by test or reported by the Company's supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity. 11.6 METERING - SPECIAL ORIFICE

Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter charge period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance, impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement. 11.7 BTU MEASUREMENT

The heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.73 psia and temperature of 60 degrees F on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period, expressed in the same units and measured at, or corrected to, 14.73 psia and 60 degrees F, and multiplying by the factor necessary to convert the heating value/measurement units to the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 20406
-----------------	----------------------

billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods: a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type. b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type. i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and calculating the total heating value from the sum of the constituents. 11.8 CUSTOMER OWNED METERS Any Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for billing purposes. TEXAS GAS SERVICE COMPANY Section 12 Texas Tariff - Borger/Skellytown Service Area METER READING AND ACCURACY 12.1 METER READING Meters shall be read as nearly as may be practical on the same day of each calendar month. Whenever a reading of a general service meter is missed or the meter is not registering, the Company shall estimate the amount of gas used during the period. Such estimates shall be based on either - a) that Customer's use of gas during the same period(s) in previous years; b) that Customer's normal use of gas during preceding months; c) the use of a like Customer for the period missed. If practical, an actual reading shall be made after two consecutive estimated bills. All meters in Special Service shall be read at least once a month. Whenever such a meter fails to register or is misread, the amount of gas used during the preceding period shall be estimated using data applicable to that Special Service Customer only. The Company will make a special reading of any meter upon request and payment of a service charge will be made in accordance with Section 22.1. The time of the special reading shall be agreed upon with the Customer so that he or she may be present. If the original reading was in error (subject, of course, to consumption between the two readings) the service charge shall be refunded. 12.2 ACCESS TO THE METER The Customer shall permit the Company access to the meter at all times for reading thereof and at all reasonable times for maintenance, testing or replacement of the meter. 12.3 METER ACCURACY The limits of accuracy of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set. 12.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Requests for such tests shall be made in writing and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his or her meter. If the test is to be performed after the period of presumed accuracy listed in paragraph 12.7 or if the test is to be performed for a residential or small commercial Customer for whom no such tests have been performed within the previous four (4) years for the same Customer at the same location, no service charge will be assessed. Otherwise, the Customer shall pay a service charge for such test as specified in Section 22.1. If the test proves the meter is registering above the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter. 12.5 BILLING ADJUSTMENTS - GENERAL SERVICE Whenever it has been determined that a meter reading and the subsequent billing has been in error, the Company shall recalculate the affected bill(s). If the date and amount of the error can be definitely fixed, the Company shall refund or may bill the affected Customer

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20406

for the entire difference between the actual bills rendered and the amount which should have been billed. If the date and/or the amount of the error cannot be definitely fixed (such as a meter found to be registering fast or slow), the Company shall refund or bill an amount equal to the difference between the actual bills rendered and the amount which would have been billed if the meter was 100 percent accurate for one-half of the time since the last previous test or six months, at the Company's option. Rebilling for meters found not to register are limited to a three-month period previous to the time the meter is found not to be registering.

Undercharges billed to the Customer may be repaid in a series of equal installments over a reasonable period of time. Meter errors found after a final bill has been rendered to any Customer shall not be refunded or collected. This Paragraph shall not apply to meter errors found as a result of routine testing in the Company's meter shop.

12.6 PROVISIONS FOR SPECIAL SERVICE

The following modifications shall apply to the provisions of this Section for all Special Service rate schedules and service under special written agreements: a) Orifice and turbine meters shall be tested at least four times per year at intervals not to exceed 120 days. Should the Customer so elect, tests shall be made in the presence of his or her representative. b) Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill either up or down shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate: i) by using registration of Customer's check meter(s) ii) by correcting the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or iii) by estimating the quantity of gas delivered by comparison with deliveries during preceding period under similar conditions when accurate registration was obtained.

12.7 PERIODIC TESTS

The Company shall make periodic tests of meters, associated devices and instruments to assure their accuracy. Such test shall be scheduled within the calendar year or earlier, when the interval is stated in years; or within the calendar month, or earlier when the interval is stated in months. The basic period test interval shall be longer than provided for in the following schedule (if the manufacturer of the meter recommends a different schedule - either a shorter or longer time interval, such recommendation shall be followed).

Positive displacement meters:	275 cubic feet per hour or less	Per the Performance Control Program See Paragraph 12.9	276 to 1500 cubic feet per hour	7 years*	1501 to 3000 cubic feet per hour	5 years*	3001 to 5000 cubic feet per hour	2 years*	Over 5000 cubic feet per hour	1 year*
Orifice Meters	6 months	Base pressure correcting devices	24 months	Base volume correcting devices	24 months	Secondary standards Test bottle, one cubic foot	10 years	Dead weight tester	10 years	Working standards
Bell prover	3 years	Rotary displacement test meter	5 years	Flow prover	5 years	Laboratory quality indicating pressure gauge	6 months	* The Company may alter these basic test intervals by placing these meters in the Performance Control Program.		

12.8 METER TEST PROCEDURE AND ACCURACIES

Meters and/or associated meter devices shall be tested at the points and adjusted to the tolerance prescribed below. The test of any unit of metering equipment shall consist of a comparison of its accuracy of a standard. Positive displacement meters Accuracy of test points Flow Adjusted to Within Check flow 1.5% Not less than full rated flow 1.5% Overall accuracy The overall accuracy at check flow and the overall accuracy at not less than full rated flow shall agree within one percent.

Orifice Meters Accuracy at the test points must be within 2% plus or minus.

Timing devices All recording type meters or associated instruments which have a timing element that served to record the time at which measurements take place must be adjusted so that the timing element is not in error more than plus or minus four minutes in twenty-four hours.

General i) All meters and/or associated metering devices when tested shall be adjusted as closely as possible to the condition of zero error. ii) All

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20406

tolerances are to be interpreted as maximum permissible variations from the condition of zero error. In making adjustments, no advantages of the prescribed tolerance limits shall be taken. 12.9 PERFORMANCE CONTROL PROGRAM - SMALL METERS The Company shall test and control the performance of all meters of 275 cubic feet per hour capacity or less. Such meters shall be classified into groups on the following basis: a) by year purchased or last repaired; b) by manufacturer, type and size; c) by type of diaphragm (leather or synthetic), when that information is available, and; d) geographic area. Samples of each group shall be tested annually. The sample shall include meters tested as result of routine changes and other removals made during a calendar year. If routine changes and other removals do not produce an adequate sample, additional meters will be removed from service on a random basis. These randomly chosen meters will be included with those removed normally in the sample for determination of acceptability of the group. For any group of meters which has been in service for ten or more years, the minimum sample size is 50 meters. The test results for the group shall be inserted on a control form in terms of number of meters in the sample versus the test results expressed as a percentage. A group will remain in service when it meets the following criteria: 1. No more than 10% of the meters tested in the group will be more than 2% fast; and 2. At least 80% of the meters tested in the group will be within plus or minus 2% of zero error. For the purpose of determination of performance, the results shall be based on the average (algebraic sum divided by two) of the check rate proof and capacity rate proof.

A meter group shall be removed from service when the results of the tests of the sample for that group do not meet the performance standard. The Company shall begin removal of the meters of that group then in service within a 90-day period and shall continue on a regular basis until completed. All meters of the group must be removed within 21 months after the removal program is begun except in unusual circumstances. The Company may, at its option, remove a group of meters even though the group meets the requirements of the performance standard. TEXAS GAS SERVICE COMPANY Section 13 Texas Tariff - Borger/Skellytown Service Area BILLING AND PAYMENT OF BILLS 13.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full within 10 days after the date the bill is rendered. Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of authorized pay stations. If not paid by the date due, the bill shall be considered delinquent. 13.2 PARTIAL BILLING Whenever service is rendered for less than fifteen days during any monthly billing period, the Customer shall be billed for his actual consumption or the regular minimum charge in the applicable rate schedule, whichever is the larger amount. 13.3 ESTIMATED BILLS In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption determined in accordance with Paragraph 12.1 of this Tariff.

The next bill based on an actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for his actual consumption. 13.4 DISPUTED BILLS a) In the event of a dispute between the Customer and the utility regarding the bill, the utility must forthwith make such investigation as is required by the particular case and report the results thereof to the Customer. If the Customer wishes to obtain the benefits of clause b) of this subparagraph, notification of the dispute must be given to the utility prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the utility shall inform the Customer of the complaint procedures of the appropriate regulatory authority. b) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing period at current rates until the earlier of the following: resolution of the dispute or the expiration of the 60-day period

-----------------	----------------------

beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period during the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar Customers and under similar conditions.

13.5 RETURNED CHECKS Whenever the payment for gas service or any other charge permitted under this Tariff is rendered by check and such check is refused by the bank on which it is drawn, the Company may make an additional charge as specified in Section 22.1 to cover the costs of handling and rebilling. The Company must post a notice of the charge in its principal office in the service area at least ten days in advance of the institution thereof and keep such notice in place as long as the charge is in effect. Notice shall be posted adjacent to the place of acceptance of payment.

TEXAS GAS SERVICE COMPANY

Section 14 Texas Tariff - Borger/Skellytown Service Area

CURTAILMENTS

14.1 CURTAILMENTS Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.

14.2 PRIORITY CLASSES All Customers served by the Company shall be classified into one of the following priority groups: Priority 1 - All Domestic service. Priority 2 - All small Commercial and Industrial service (less than 50 Mcf on an average day). Priority 3 - All other Commercial service. Priority 4 - Industrial service, other than boiler fuel, for usage through one meter of more than 50 Mcf but less than 200 Mcf on an average day. Priority 5 - Industrial service, other than boiler fuel, for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 6 - Industrial service, other than boiler fuel, for usage through one meter of more than 1500 Mcf on an average day. Priority 7 - Industrial boiler fuel for usage through one meter of less than 200 Mcf on an average day. Priority 8 - Industrial boiler fuel for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 9 - Industrial boiler fuel for usage through one meter of more than 1500 Mcf on an average day. For the purpose of this classification, each separately billed meter shall be considered a separate Customer. When service which may fall into more than one priority group is rendered through a single meter, the entire service shall be placed in the lowest (highest numbered) applicable priority group.

14.3 METHOD OF CURTAILMENT Curtailment shall be ordered ratably insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities 1 and 2. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

14.4 CLASS AND GROUP CURTAILMENTS No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher numbered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service.

14.5 NOTIFICATION AND PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any Customer (other than a Customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened.

14.6 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when

life or property is endangered. See Section 4.5. TEXAS GAS SERVICE COMPANY Section 15 Texas Tariff - Borger/Skellytown Service Area QUALITY OF GAS 15.1 HEATING VALUE Gas delivered to Consumers in all service areas shall have a gross heating value of at least 900 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month in which the reduction occurs is equal to or greater than the standard and that the burning characteristics of the gas are not significantly altered. 15.2 CHARACTER OF GAS All gas furnished to Consumers in the Cities of Borger and Skellytown shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered. 15.3 ODORIZATION All gas shall be odorized with a chemical odorant at a sufficient rate to make it readily detectable. Gas containing enough natural odorant as prescribed by state regulatory agency need not be odorized unless the odorant level drops below the acceptable level. TEXAS GAS SERVICE COMPANY Section 16 Texas Tariff - Borger/Skellytown Service Area SERVICE WORK 16.1 FREE SERVICE When requested by the Consumer, the Company shall perform the following service work on the Consumer's premises and appliances on a no-charge basis: a) gas-air adjustments on standard domestic and commercial gas burning appliances when service is initiated; and b) Leakage and pressure investigations to assure that unsafe conditions do not exist. Where leakage is determined by the Company to be in the Consumer's piping or equipment, the Consumer will be so advised and service will be discontinued as required. Any other work performed on any Consumer's appliances or house piping will be on a charge basis. 16.2 OTHER SERVICE The Company may have personnel available for and may undertake other service work on the Consumer's premises on a charge basis, as time permits. Charges shall be made at the Consumer's standard rate in the Service Area and such work and the associated revenues and costs shall be considered non-utility.

BSk1 c TEXAS GAS SERVICE COMPANY Section 17 Texas Tariff - Borger/Skellytown Service Area MAINTENANCE OF EQUIPMENT 17.1 MAINTENANCE BY COMPANY The Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter on the Customer's premises at any reasonable time or in the event of an emergency at any time, to read the meter or make any necessary inspection, repair, adjustment, or replacement of any property owned by the Company. 17.2 MAINTENANCE BY THE CUSTOMER The Customer shall maintain all facilities owned by him and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Consumer, the Customer will reimburse the Company for all costs of repairing or replacing the damaged property. 17.3 LEAKS - RIGHT TO DISCONNECT FOR The Consumer shall give the Company notice of any escaping gas as soon as it is detected by him. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If the Company's test indicates leakage in the Consumer's facilities, the Company shall have the right to disconnect service immediately until the Consumer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by Company forces. The Company shall have the right to disconnect service immediately if any of the Consumer's appliances or equipment is, in Company's opinion, operating in an unsafe condition.

TARIFF CODE: DS	RRC TARIFF NO: 20406
-----------------	----------------------

17.4 YARDLINES PRESENTLY OWNED BY THE CUSTOMER Any facilities upstream of the meter installed by the Customer prior to the effective date of this Tariff shall remain the property and responsibility of the Customer. Whenever the condition of the facility is such that replacement is required, the work shall be done by the Company under the same terms and conditions as for a new service as described in Paragraph 7.1 of this Tariff. Customer shall reimburse the Company in advance for the estimated cost of the new facility at the prices filed with the city. Thereafter, it shall become the property and responsibility of the Company. 17.5 RESPONSIBILITY Nothing in this Section shall make the Company responsible for the safe upkeep of Consumer owned facilities. TEXAS GAS SERVICE COMPANY Section 18 Texas Tariff - Borger/Skellytown Service Area DISCONTINUANCE OF SERVICE 18.1 BY CUSTOMER A Customer shall be responsible for all charges for gas service from the time he gives notice of the intention to discontinue service until the Company has read the meter or for three working days whichever is the shorter period of time. 18.2 FOR NON-PAYMENT The Company shall have the right to discontinue service to any Customer for non-payment of bills or other charges authorized by this Tariff or the applicable rate schedules, following the due date specified in Section 13.1 hereof. Before discontinuing service for non-payment, the Company shall mail a separate written notice to the Customer with the words TERMINATION NOTICE or similar language prominently displayed. This notice shall include the hours, address, and telephone numbers where payments may be made; the amount of the delinquent bill and the date by which the bill must be paid to avoid disconnection; and a statement of how to contact the Company in case of illness or other emergencies. If a representative of the Company visits a Customer concerning the non-payment of a bill prior to disconnection, a Collection Fee per visit shall be assessed to such Customers as specified in Section 22.1. No Customer shall be disconnected for non-payment: a) Within a period of five working days after mailing of the notice or the day following the date indicated in the notice, whichever is the longer time; b) If the interest on his Security deposit, if any, is sufficient to cover the amount of the delinquent bill; c) After payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel of the payment; d) Before 8:00 AM or after 5:00 PM on any day or on Friday, Saturday, Sunday, Holiday, or day before a holiday unless Company personnel are available on that day for the purpose of making collections or reconnecting service; e) If within five working days after the date of delinquency of the bill the Company receives a written request from the Customer not to discontinue service for health reasons and the request is accompanied by a written statement from a licensed physician. Upon receipt of such request, the Company will suspend termination of service for a period up to twenty days. The Customer shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings. 18.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any Consumer for any of the following reasons: a) Without notice for the presence of what the Company considers to be an unsafe condition on the Consumer's premises or if an emergency exists. b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with his knowledge. c) Within five working days after written notice if the Consumer uses his equipment in any way which causes or creates a potential for adverse effect on the Company's service to others. d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class 1 or 2. e) Five working days after written notice for refusal to grant Company's personnel access to the Consumer's premises at any reasonable time for any lawful purpose. f) Five working days after written notice for use, sale or delivery of gas in violation of the provisions of this Tariff or violation of any applicable laws, orders or ordinances, provided that disconnection may be made without notice if the violation creates an unsafe condition. 18.4 RIGHT OF ENTRY The Company shall have the right to enter upon the Consumer's premises at any reasonable time to shut off service in accordance with

GAS SERVICES DIVISION

-----------------	----------------------

this Tariff and to remove its meter and other property. 18.5 ABANDONMENT OF SERVICE Service shall not be abandoned (permanent disconnect of any but a temporary Customer) unless requested by the Customer(s) without permission of the regulatory authority. Failure of the Customer to reinstitute service after disconnection within a reasonable period of time shall be considered a request for permanent discontinuance of service. TEXAS GAS SERVICE COMPANY Section 19 Texas Tariff - Borger/Skellytown Service Area RE-ESTABLISHMENT OF SERVICE 19.1 FOR NON-PAYMENT When service has been disconnected for non-payment, the Company shall require that the Customer pay the total amount of his account then due plus the prescribed reconnect fee or make satisfactory arrangements for that payment before service is reinstated. In addition, the Company shall require that the Customer re-establish satisfactory credit in accordance with Section 5 of this Tariff. The first time a Customer requests re-establishment of service after disconnection for non-payment, the Company may waive the deposit. Thereafter, it shall be required in accordance with this Section. 19.2 FOR OTHER REASONS When service has been disconnected for any other reason, the Customer shall be required to request reconnection in writing. If disconnection has been made by the Company, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a reconnect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment. 19.3 RECONNECTION The Company shall restore service as soon as feasible after receipt of the request and compliance with the requirements of this Section. The Company shall charge a non-refundable reconnection fee for all Customers in accordance with Section 22.1. The restoration of service will be accomplished as expeditiously as scheduling permits. If the Customer requests service after hours or earlier than scheduled, the Company shall offer expedited service in accordance with Section 22.1. Applicant must be advised that an additional fee will be charged and must agree to pay such charge. In the event the Company is required to make more than one call because the reason for disconnection has not been properly corrected, the reconnect fee may be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operations. See Section 22.1 for fees. TEXAS GAS SERVICE COMPANY Section 20 Texas Tariff - Borger/Skellytown Service Area NOTICE 20.1 GENERAL Notice is required for all matters in this Tariff other than billing and payment of bills, which shall be deemed to have been given by either Company or Customer when a letter with postage prepaid has been deposited in the United States mail addressed to the Company at the office specified on the front sheet of this Tariff or to the Customer at his or her known service address or when communicated in person or by telephone directly between the Company and Customer. TEXAS GAS SERVICE COMPANY Section 21 Texas Tariff - Borger/Skellytown Service Area BUDGET PAYMENT PLAN 21.1 DESCRIPTION Residential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner: a) The Plan year shall be the 12 months ending each year with the Customer's July bill. The Plan monthly payment shall be determined as follows: i) for Customers electing to commence with the August bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's plan year. ii) for Customers electing to commence with the September or later bills, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year from commencement in the Plan until the next following July bill. Succeeding years shall be computed on an annual basis as in subparagraph (i) above. b) The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon the most recent available prior 12-month period at the same service location; or, if there is not at

GAS SERVICES DIVISION

least 12-months prior service at the same service location, then the charges shall be based on consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known charges. c) The Company reserves the right to adjust the remaining monthly plan payments of any Customer at any time for changes in condition or rates. d) The Company shall advise each Customer in the Plan of the monthly plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of the month's plan payment. The Customer shall continue to pay the monthly plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. e) Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly plan payment. f) The July gas bill for each Customer in the Plan shall be handled as follows: i) any amount due the Company up to the monthly plan payment shall be paid in full by the due date shown on the bill. ii) if the balance due the Company exceeds the monthly plan payment, a payment equal to that amount will be paid and the excess shall be utilized in computing the next plan year's monthly plan payment. iii) any balance due the Customer shall also be utilized in computing the next plan year's monthly plan payments. g) Interest will not be charged the Customer on accrued debit balances nor paid by the Company on accrued credit balances. h) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the Plan. i) Any Customer's participation in the Plan may be discontinued by the Company if the monthly plan payment has not been paid on or before the due date of the next monthly plan payment. j) If any Customer in the Plan shall cease, for any reason, to participate in the Plan, then the Company may refuse that Customer's reentry in the Plan until the next following August. TEXAS GAS SERVICE COMPANY Section 22 Texas Tariff - Borger/Skellytown Service Area FEES AND DEPOSITS 22.1 FEES A. Initiation of Service: i) Connect: (Section 5.4) \$35.00 charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when a meter is set and/or gas turned on. ii) Read-In: (Section 5.4) \$15.00 charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when only a meter reading is required. ii) After-Hours & Special Handling: (Section 5.4 & 19.3) In addition to initiation of service fee above, a fee may be charged to any Applicant whose request to initiate service cannot be worked during normal business hours or requires special handling. Applicant must be advised that an additional fee will be charged and must agree to pay such charge. a) Special Handling: \$15.00 The Company may, at Customer's request, provide special handling in order to meet the Customer's requirements. Special handling may include such assistance as calling the Customer in advance or making other special arrangements (such as A.M. or P.M. scheduling) for access to the Customer's premises. b) Expedited Service: \$41.25 Charged to any Customer who requires that the order be worked after hours for their convenience or if the Customer requires expedited service. The Customer's request for expedited service may then be scheduled at any time to fit the Company's work schedule but the after-hours charge shall be collected as long as any other work is done on overtime. c) Special Call Out: \$41.25 Charged to any Customer, if the initiation of service order requires special call out. B. Services - Others: As stated below Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying Company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling. C. Customer Requested Meter Test: (Section 12.4) Positive Displacement Charge 275 cubic feet per hour or less \$25.00 276 to 1500 cubic feet per hour 35.00 1501 to 3000 cubic feet per hour 50.00 3001 to 5000 cubic feet per hour 75.00 over 5000 cubic feet per hour 100.00 Orifice Meters All sizes
